Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3768A.

GENERAL—*The 14th July* 1880.—Baboo Parbutty Churn Roy, Deputy Collector in charge of Dearah surveys and settlements in the districts of Dacca, Furreedpore, Backergunge, and Tipperah, is allowed leave for one and a half months, under the rules in Chapter VII of the Civil Leave Code, with effect from the 16th September next, or from any subsequent date on which he may avail himself of it.

The 2nd August 1880.—Mr. G. G. Dey is appointed to act, until further orders, as a Joint-Magistrate and Deputy Collector of the first grade in Chittagong, with effect from the forenoon of the 2nd instant.

The 7th August 1880.—Mr. F. E. Pargiter, Officiating Commissioner of Soonderbuns, is allowed leave for three months, under the rules in Chapter VII of the Civil Leave Code, with effect from the 10th instant, or from such subsequent date as he may avail himself of it.

The 10th August 1880.—Baboo Jogendro Nath Mookerjee is appointed temporarily to be a Sub-Deputy Collector of the second grade in the district of Rungpore, *vice* Moulvi Fazlul Rahman appointed an assessor under the Bengal License Act of 1880.

The 11th August 1880.—Baboo Gopal Chunder Banerjee, Sub-Deputy Collector, Ranaghat, Nuddea, is allowed leave for forty-two days, under the rules in Chapter VII of the Civil Leave Code, in extension of that granted to him under orders of the 22nd June last.

Baboo Bidhu Bhusan Chatterjea is appointed to act as Sub-Deputy Collector at Ranaghat, in the district of Nuddea, during the absence, on leave, of Baboo Gopal Chunder Banerjee, or until further orders.

The 12th August 1880.—Mr. B. Dé, Officiating Joint-Magistrate and Deputy Collector, Behar, Patna, is appointed to act, until further orders, as a Joint-Magistrate and Deputy Collector of the first grade, with effect from the 10th instant, *vice* Mr. L. C. Abbott.

Mr. E. B. Harris, Assistant Magistrate and Collector, Mymensing, is appointed to act, until further orders, as a Joint-Magistrate and Deputy Collector of the 2nd grade, with effect from the 10th instant, *vice* Mr. B. Dé.

Mr. H. J. Newbery, Magistrate and Collector of Bhagulpore, is allowed leave for two months and six days, under the rules in Chapter VII of the Civil Leave Code, with effect from the 11th proximo.

Mr. C. R. Marindin, Officiating Joint-Magistrate and Deputy Collector, Bhagulpore, is appointed to act as Magistrate and Collector of that district, during the absence, on leave, of Mr. H. J. Newbery, or until further orders.

The 16th August 1880.—Baboo Krishna Chandra Mahanty is appointed to act as a Sub-Deputy Collector at Bhuddruck in the district of Balasore, during the absence, on leave, of Baboo Kartic Chunder Roy Chowdry, or until further orders.

REGISTRATION.—*The 11th August* 1880.—The Sub-Divisional Officer of Gopalgunge in the district of Sarun, is appointed to be *ex-officio* Sub-Registrar of that place with effect from the 15th instant.

EDUCATION.—*The 14th August* 1880.—Baboo Shoshee Bhusan Sen, Head-Master of the Dinagepore Zillah School, is appointed to be Secretary to the District School Committee of Dinagepore, *vice* Baboo Jogendro Nath Bhuttacharjee.

OPIUM.—*The 12th August* 1880.—Mr. C. Lincoln acted as an Assistant Sub-Deputy Opium Agent in the Benares Agency during the absence, on privilege leave, of Mr. W. Cracroft.

The 17th August 1880.—Mr. H. F. Campbell, 4th grade Sub-Deputy Opium Agent, Bengal, has been granted an extension of furlough for two months by Her Majesty's Secretary of State for India.

MEDICAL.—*The 3rd August* 1880.—The undermentioned gentlemen are appointed to be members of the Committee for the management of the Charitable Dispensary at English Bazar in the district of Maldah :—

Mr. M. F. Beamish, Assistant Superintendent of Police.
Baboo Kasikinkur Sen, Deputy Magistrate and Deputy Collector.
" Srecnath Gupta, Officiating Deputy Magistrate and Deputy Collector.

The 4th August 1880.—The undermentioned gentlemen are appointed to be members of the Committee for the management of the Charitable Dispensary at Mancoor, in the district of Burdwan :—

Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 12th August 1880.—It is hereby notified, under section 19 of the Indian Forest Act (Act VII of 1878), that the following tracts of land in the Darjeeling district, which, in notification of the 18th October 1879, under section 4 of that Act, it was proposed to constitute reserved forests, shall, from the 1st September next, be "Reserved Forests" under the said Act.

District.	Pergunnah or other sub-division.	No.	Name of forest.	BOUNDARIES.
Darjeeling ...	Hill Territory ...	1	Manering (an addition to the Sukna-Tista Forest).	*North.*—The ridge separating the valley of the Mahanadi from that of the Reyang. *East.*—The Mana Jhora. *West.*—The east boundary of the Mahaldoram tea estate, being a demarcated line, and a stream tributary to the Mana Jhora.
Ditto ...	Ditto ...	2	Babookhola ...	*North.*—A demarcated line along the ridge separating the valley of the Mahanadi from that of the Reyang. *East.*—The west boundary of the Mahaldoram tea estate, being a demarcated line, then a stream tributary to the Mahanadi river. *South.*—A demarcated line separating the forest from Captain E. T. Fitzgerald's land, and passing from the Mahanadi river in a south-west direction to the Buffoopanee, then the Buffoopanee to its junction with the Mahanadi. *West.*—The Mahanadi river, then a stream to the south-east boundary line of the Majua tea estate (Mr. W. C. Mullor's block), then the demarcated boundary of that estate to its north-west corner, then a stream running into the Mahanadi river, then that river, then a demarcated line running north-east to the Buffoopanee and separating the forest from Jamun Sing's land, then the Buffoopanee, then a demarcated line to the old military road.
Ditto ...	Terai sub-division, pergunnah Hattigheesa.	3	Tookria Jhar ...	*North.*—A demarcated line from the edge of the plateau south of Dangy Jote to the Kemchi nadi, where it forms the boundary of the Hoodoobhita Jote. *East.*—The Kemchi nadi, then a demarcated line separating the forests from jotes Mahmed Dadboux and Soobul. *South.*—A demarcated line separating the forest from jotes Daugurbhita, Charla, Munjoy, Huldur, Doolall Dass and Gundagole. *West.*—A demarcated line separating the forest from jotes Bujaroo, Futeh, Dowlut, Gour Singh, Ramdhun, Prosadoo, Chamroo and Bougy.
Ditto ...	Terai sub-division, pergunnah Hattigheesa.	4	Moolta (an addition to the Dalka Jhar Reserve).	*North.*—A demarcated line from the Jibhodar nadi, south of Jhabra Jote to the Forest Reserve boundary. *East.*—The Forest Reserve, then the Dalka nadi, then a demarcated line separating it from jotes Sheon Lall (2) and Raghoo, then the Laifa nadi to its junction with the Jibhodar. *West.*—The Jibhodar nadi to its junction with the west branch of the Moolta nadi, then a demarcated line separating the forest from the Jhakocdura and Omee Jotes, then the Jibhodar nadi.
Ditto ...	Terai sub-division, pergunnah Patturghatta.	5	Bishabari, Major Wardroper's and Kanoo Choudry's Bhita Jotes (additions to the Dalka Jhar Reserve).	On all sides Government Forest Reserve.
Ditto ...	Ditto ...	6	Beng-dubi (an addition to the Dalka Jhar reserve).	*North.*—Forest reserve. *East.*—A demarcated line following the bed of the old Balasun river and skirting jotes Bownee Bhita (26) and Dhomal, then a demarcated line south of the last named jote and west of jote Tarabari, then again a line following the bed of the old Balasun river and skirting jotes Bownee Bhita (24) and (22). *South.*—A demarcated line from the old Balasun river to the Hurlia river, separating the forest from jotes Hooglall Powa, Barobhita, Dhuniram, Beng-doobee and Byranti Saal. *West.*—The Forest Reserve.
Ditto ...	Ditto ...	7	Shilibhita Jote (an addition to the Sukna-Tista Forest).	On all sides Government Forest Reserve.
Ditto ...	Terai sub-division, pergunnah Hattigheesa.	8	Nipania (an addition to the Mechi Forest).	*North.*—The Loharkarhi Forest Reserve, then a stream leaving the reserve at its southernmost point, then a line running eastwards to the Aolia Manjha nadi. *East.*—The Aolia Manjha nadi, then a line skirting the Nipania tea estate. *South.*—A demarcated line to the Raja Pouri nadi, then that stream, then a demarcated line to the new Mechi river. *West.*—The Mechi Forest Reserve.
Ditto ...	Ditto ...	9	Gurabadi (an addition to the Mechi Forest Reserve).	*North.*—The Mechi Forest Reserve. *East.*—A demarcated line following the bed of the new Mechi river. *South.*—A demarcated line to the old Mechi river separating the forest from Jote Soorjbur. *West.*—The Nepal frontier.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 16th August 1880.—The following rule, passed by the Lieutenant-Governor under the provisions of Section 41 of the Indian Forest Act, having received the sanction of the Governor-General in Council, is hereby published for general information. It will take effect in respect of the forest tracts of the Sunderbuns, both reserved and protected, as described in the schedules attached to the following notifications:—

Reserved forests,—notification of 23rd January 1879.
Protected forests,—notification of 7th December 1878.
Protected forests,—notification of 24th February 1879.

Any person who desires to transport any forest produce through the Sunderbuns forests, or through any part of them, or along any of the water-channels intersecting or skirting them, shall take out a pass at some one of the revenue stations, a list of which will be published from time to time in the *Calcutta Gazette*; and he shall further produce such pass when called upon to do so by any forest or police officer, and return such pass at any one of the

said stations on passing out of the boundary of the forests. The fee, if any, payable for such passes will from time to time be fixed by the Conservator of Forests and notified in the *Calcutta Gazette*. The following is a list of the revenue stations actually open :—

1. Lower Bhola.
2. Upper Bhola.
3. Pussur.
4. Khulna.
5. Bhudder.
6. Shcepsah.
7. Koyrah.
8. Cabaduk.
9. Isreepore (Eshamuttee).
10. Bussuntpore.
11. Roymungul.
12. Mutlah.
13. Bogee.
14. Saterbog.
15. Tangra khall.
16. Samukpatha.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 17th August 1880.—The following revised rules passed by the Lieutenant-Governor under sections 31 and 41 of the Indian Forest Act (VII of 1878), having received the sanction of the Governor-General in Council, are hereby published for general information, in supersession of the notification of 13th January 1880 published in the *Calcutta Gazette* of the 14th idem. They will take effect in the protected forest tracts of the Sunderbuns described in the schedule annexed to the notifications of the 7th December 1878 and 24th February 1879 published in the *Calcutta Gazette* of 11th December 1878 and 26th February 1879), and will come into force from the date of their publication :—

Rule I.—No trees, timber, or any other forest produce shall be cut, sawn, gathered, or removed from within the boundaries of the Sunderbuns protected forests without prepayment in full of the charges due thereon at the rates following :—

(1) For every maund of sundri timber, one anna.

(2) For every maund of any other forest produce, one-fourth of an anna.

These, or such other charges as may from time to time be fixed under this rule, will also be levied on timber and other forest produce which may be exported from lands leased under the rules for the lease of waste lands in the Sunderbuns.

Rule II.—Any person desiring to enter the Sunderbuns protected forests for the purpose of cutting, sawing, converting, gathering, or removing trees, timber or any other forest produce, shall take out a permit or license for the produce which he proposes to remove. The said permit will be granted only on prepayment of the prescribed charges by the officer in charge of the Sunderbuns Forest Division, or by any of his subordinates duly authorized to receive payment and to issue permits.

Rule III.—The holder of a permit or license for the cutting, sawing, conversion, gathering, or removal of any forest produce within the boundaries of the Sunderbuns protected forests, shall produce the said permit or license when called upon to do so by any forest or police officer, and shall further be bound, on leaving the Sunderbuns protected forests, to return the said permit or license to one of the forest officers in charge of the revenue stations, a list of which will be notified from time to time in the *Calcutta Gazette*.

Rule IV.—Any forest produce in transit within, or passing out of, the Sunderbuns Protected Forests, and any such produce found in any water-channel skirting or leading from the said forests, when there is reason to believe that any thing is payable to the Government in respect of such produce, may be stopped and examined by any forest or police officer.

The following is a list of the revenue stations referred to in Rule III of the above rules :—

1. Lower Bhola.
2. Upper ,,
3. Pussur.
4. Khulna.
5. Bhudder.
6. Shupsah.
7. Koyrah.
8. Cobaduk.
9. Isreepore (Eshamuttee).
10. Bussuntpore.
11. Roymangal.
12. Rampura.
13. Mutlah.
14. Bogee.
15. Saterbog.
16. Tangara khal.
17. Samukpatha.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 16th August 1880.—In supersession of the notification dated the 5th July 1875, published in the *Calcutta Gazette* of the 7th idem, it is hereby notified for general information that the district of Tipperah will be transferred from the Dacca to the Chittagong Division from the 1st November 1880.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 12th August 1880.—A plan and estimate for a further extension of the jetty embankment between jetties Nos. 4 and 5, and for taking down import shed No. 1 and re-erecting it at No. 4 jetty, at a cost of Rs. 1,20,000, having been submitted by the Commissioners for making improvements in the port of Calcutta with their Vice-Chairman's letter No. 1182, of the 12th July 1880, the Lieutenant-Governor is pleased to sanction the project under section 35 of Act V (B.C.) of 1870.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 13th August 1880.—In continuation of the notification of the 18th August 1879, defining the limits of the Port of Calcutta, which was published at page 841 of the *Calcutta Gazette* of the 20th August 1879, the Lieutenant-Governor is pleased, with the sanction of the Government of India, to declare, in accordance with the provisions of sections 5 and 6 of the Indian Ports Act (XII of 1875), that high water-mark shall extend to 15 09 feet above the sill of the Kidderpore dock, that being the highest point reached by ordinary spring-tides in any season of the year.

2. On the Howrah side of the river this boundary has been defined and marked off by stone blocks fixed level with the river bank to mark the exact position of the 15·09 feet waterline, between the Port Commissioners' land at Sibpore on the south, and the southern boundary of the East Indian Railway Company's premises on the north, as shown on a plan submitted by the Commissioners.

A. MACKENZIE,
Secy to the Govt. of Bengal.

[First Publication.]

The 17th August 1880.—The following notification is published for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.—MARINE BRANCH—MILITARY DEPARTMENT.

NOTICE TO MARINERS.—(No. 9.)

RED SEA—GULF OF SUEZ.

Suez Bay—Lights at Port Ibraham.

Information has been received that the undermentioned lights are now exhibited at port Ibraham, Suez bay:—

1. Two floating lights are placed 897 yards seaward of the entrance of the harbour—*green* on the northern side of the channel, *red* on the southern side.
2. A fixed *green* light is shown from the extremity of the north mole head; a fixed *red* light from the extremity of the south mole head.
3. A fixed *white* light is shown from the extreme (western) end of the inner pier of the harbour.

NOTE.—The foregoing green and red lights mark the channel into the port.

Entering port Ibraham—the green lights are left on the port hand, the red lights on the starboard hand, the vessel being steered for the white light on the inner pier.

4. Also, that it is intended, when the state of the sea prevents the exhibition of the floating lights, to show two lights, *green* and *red* placed vertically, from the eastern commencement of the inner pier. These lights kept in line with the white light at the extreme (or western) end of the pier will then indicate the channel.

Buoyage.

Also, that a buoy has been placed on each side of the channel to port Ibraham, 568 yards from the mole heads—the northern buoy in a line with the green lights, the southern buoy in a line with the red lights.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, *the 7th August* 1880.

This Notice affects the following:—

BRITISH ADMIRALTY Charts Nos. 2523, 8*a*. 757, 233, and 734.
" " Sailing Directions, Red Sea Pilot, 1873, pages 23 and 36.
" " Light Lists for 1880.
INDIAN MARINE SURVEY Light List for 1880; also Taylor's Sailing Directory, Vol. I, page 27.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

[Second Publication.]

NOTIFICATION.

The 9th August 1880.—It is hereby notified that the Lieutenant-Governor has been pleased to declare the provisions of Chapter IV of the Indian Forest Act, 1878, to be applicable to all forest and waste lands in the Government estate of Khorda, in the district of Pooree, excepting such lands as have been confirmed as revenue-free or settled with cultivators or others, and such lands as shall, during the course of the revenue settlement now in progress or thereafter, be so settled.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 4th August 1880.—Plans and estimates, amounting to one lakh seven thousand nine hundred and fifty-two rupees (Rs. 1,07,952), for carrying out improvements on their tramway having been submitted by the Commissioners for making improvements in the Port of Calcutta with their Vice-Chairman's letter, No. 308, dated 22nd April 1880, and been approved by the Public Works Department of this Government, the Lieutenant-Governor sanctions the works under Section 35 of Act V (B.C.) of 1870.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 4th August 1880.—Under the provisions of section 9 of Act IV (B.C.) of 1880, the Lieutenant-Governor authorizes the Commissioners for making improvements in the Port of Calcutta to raise a loan of five lakhs of rupees (Rs. 5,00,000) to enable them to meet the cost of purchasing the Armenian Ghât site and the buildings thereon, as well as to carry out the works for the improvement of their tramway which have this day been sanctioned.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

The 6th August 1880.—The following notification of the Government of India is published in the *Calcutta Gazette* for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

No. 141.

HOME, REVENUE, AND AGRICULTURAL DEPARTMENT.

EMIGRATION.

Simla, the 30th July 1880.

NOTIFICATION.

UNDER the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for Rules 23, 23A, and 23B, of the rules relating to emigration from the Port of Calcutta, published under the notification of the Government of India, No. 129, dated the 21st July 1877 :—

23. Of the total number of emigrants to be embarked on board each ship, the proportion of adult females shall not, except as provided in rule 25, be less than 40 to every 100 adult males.

C. GRANT,
Offg. Secy. to the Govt. of India.

[Third Publication.]

NOTICE.

The 24th July 1880.—It is hereby notified, under section 8, Act V (B.C.) of 1876, that the Lieutenant-Governor intends to declare the town of Pooree, in the district of Pooree, to be a first-class municipality under the said Act, unless good reason to the contrary be shown within one month.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTICE.

The 3rd August 1880.—Notice is hereby given that officers of the Public Works and Telegraph Departments, who may be desirous of sending their children to the Government Railway School at Kurseong, can do so on the following terms :—

If their incomes amount to Rs. 150 or under	... { Rs. 15 per mensem, and Rs. 12 for a second child of the same family.
If their incomes amount to Rs. 200 or under	... { Rs. 18 per mensem, and Rs. 15 for a second child of the same family.
If their incomes amount to over Rs. 200	... { Rs. 20 per mensem, and Rs. 15 for a second child of the same family.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

The 3rd August 1880 —The following rules regarding the possession of licit salt in the excepted limits of Calcutta, and its transport therefrom into protected limits, are published for general information :—

(*a*)—Every application for a "certificate" for landing salt from shipboard, or for removing it from the bonded golahs into the excepted limits of Calcutta, must in future be made to the Collector of Customs instead of to the Board of Revenue, and any person attempting to land salt within such limits without having taken out such certificate will be liable to the penalties provided under the Sea Customs Act VIII of 1878.

This cancels rule 36, section 2 of the Rules for the guidance of officers engaged in the administration of the Salt Department in the Lower Provinces of Bengal.

The following rules are added to Rule 30, section 2 of the same rules :—

(*b*)—In granting a rowanah for salt which is to be conveyed out of the excepted limits of Calcutta into protected limits, the Board will require the applicant for the rowanah to give the full particulars of the certificate under which it was landed in Calcutta.

(*c*)—If the holder of a rowanah issued by the Board of Revenue for salt to be taken from shipboard out of the excepted limits desires to land the whole or any portion of such salt within the excepted limits, he must apply for the Board's orders to cancel the original rowanah. On his application being granted, he will, on payment of the usual fees, be furnished with a letter of advice to the Collector of Customs for the issue of a "certificate" in respect of the whole or such portion of the salt as he desires to land within the excepted limits of Calcutta; and if necessary, with an "exchange rowanah" in respect of the balance to be taken beyond the excepted limits.

(*d*)—The holder of a rowanah for the transport of salt from the bonded golahs, or from shipboard into the protected limits *vid* the Chitpore pass-station, will be at liberty to choose any of the three following routes :—

(1)—By the river Hooghly by boat.
(2)—By the Port Commissioners' tramway *vid* Armenian Ghât.
(3)—By the Port Commissioners' tramway *vid* Rathtollah Ghât.

The route chosen must be declared when the rowanah is taken out, and the customs officer on board the ship from which the salt is delivered will make out the boat-notes according to the route chosen. If the holder of the rowanah wishes to alter the route, he can do so by applying to the Board as provided in Rule 31.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

DECLARATION.

The 12th August 1880.—Whereas it appears to the Lieutenant-Governor that land is required to be taken up by Government at the public expense for a public purpose, viz. for a post-office bungalow in the village of Karakdi, pergunnah Nasibshahi, district Faridpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8½ cottahs of standard measurement, is required within the aforesaid village of Karakdi. It is bounded as follows :—

On the west by Nibaran Chang's residence;
On the east and north by the land belonging to Chintamani Bhattacharjea;
On the south by the land belonging to Mohonlal Bhadury and others.

This declaration is made, under the provisions of Section 6 of Act X of 1870, to all whom it may concern.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th February 1880.—The Lieutenant-Governor is pleased to publish for general information the following Order in Council, and the Regulations appended thereto, for preventing collisions at sea, which will come into force on the 1st September 1880.

H. J. REYNOLDS,
Secy. to the Govt. of Bengal.

At the Court at Osborne House, Isle of Wight, the 14th day of August 1879.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the table marked C in the schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto or in substitution therefor; and that any alterations in, or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said schedule:

And whereas by the same Act it was further provided that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country, whether within British jurisdiction or not; and it was further provided by the said Act that whenever an Order in Council had been issued applying any Regulation made by, or in pursuance of, the said Act to the ships of any foreign country, such ships should in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct: First, that the Regulations contained in the schedule to the said Act should be modified by the substitution for such Regulations of certain Regulations appended to the said Order;

Secondly, that the said Regulations appended to the said Order should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said Order of the ninth of January one thousand eight hundred and sixty-three, should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council, dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council, for the purpose of explaining Articles 11 and 13 of the said Regulations, and of removing doubt and misapprehension concerning the effect of the said two Articles:

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the Regulations contained in the Order in Council dated the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled from the first day of September one thousand eight hundred and eighty, and that there shall be substituted for the said Regulations and additions respectively the new Regulations hereinafter set forth:

And whereas it has been made to appear to Her Majesty that the Governments of the several foreign countries mentioned in the second schedule hereto are respectively willing that the Regulations contained in the first schedule hereto shall apply to ships of the said countries respectively, whether within British jurisdiction or not:

Now therefore Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct—

First, that on and after the first day of September one thousand eight hundred and eighty, the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled, and that there shall be substituted for the said Regulations and additions respectively the new Regulations contained in the first schedule hereto.

Second, that the said Regulations contained in the said first schedule hereto shall, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said second schedule hereto, whether within British jurisdiction or not.

C. L. PEEL.

FIRST SCHEDULE.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

Preliminary.

ART. 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

Rules Concerning Lights.

ART. 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ART. 3. A sea-going steam-ship when under way shall carry—

(*a.*) On or in front of the foremast, at a height above the hull of not less than 20 feet and if the breadth of the ship exceeds 20 feet, then at a height above the hull not less than such breadth, a bright white light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.

(*b.*) On the starboard side, a green light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*c.*) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*d.*) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ART. 4. A steam-ship, when towing another ship, shall, in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position, as the white light which other steam-ships are required to carry.

ART. 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light, three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of, but not lower than, her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ART. 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ART. 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use: and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ART. 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ART. 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the mast-head visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ART. 10. (*a*)—Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(*b*)—A fishing vessel and an open boat when at anchor shall exhibit a bright white light.

(*c*)—A fishing vessel when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(*d*)—A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red and the lower green, and shall also either carry the side lights required for other vessels, or if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (*a*) of this Article.

(*e*)—Fishing vessels and open boats shall not be prevented from using a flare-up in addition if they desire to do so.

(*f*)—The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(*g*)—All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

ART. 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

Sound Signals for Fog, &c.

ART. 12. A steam-ship shall be provided with a steam whistle, or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog-horn to be sounded by bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog-horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows, that is to say—

(*a*)—A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(*b*)—A sailing ship under way shall make with her fog-horn, at intervals of not more than two minutes, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*c*)—A steam-ship and a sailing ship when not under way shall, at intervals of not more than two minutes, ring the bell.

Speed of Ships to be moderate in Fog, &c.

ART. 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow, go at a moderate speed.

Steering and Sailing Rules.

ART. 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz :—

(*a*)—A ship which is running free shall keep out of the way of a ship which is close-hauled.

(*b*)—A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(*c*)—When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(*d*)—When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(*e*)—A ship which has the wind aft shall keep out of the way of the other ship.

ART. 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on to the other, in other words, to cases in which by day each ship sees the mast of the other in a line, or nearly in a line, with her own and by night, to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 16. If two ships under steam are crossing so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ART. 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ART. 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed, or stop and reverse if necessary.

ART. 19. In taking any course authorized or required by these Regulations a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz :—

One short blast to mean—"I am directing my course to starboard."

Two short blasts to mean—"I am directing my course to port."

Three short blasts to mean—"I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ART. 20. Notwithstanding anything contained in any preceding Article every ship, whether a sailing ship or steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ART. 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fair way or midchannel which lies on the starboard side of such ship.

ART. 22. Where by the above rules one of two ships is to keep out of the way the other shall keep her course.

ART. 23. In obeying and construing these rules due regard shall be had to all dangers of navigation, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

No Ship under any circumstances to neglect proper precautions.

ART. 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

ART. 25. Nothing in these rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, or inland navigation.

Special Lights for Squadrons and Convoys.

ART. 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for ships sailing under convoy.

JUDICIAL DEPARTMENT.

No. 3769A.

The 2nd August 1880.—Mr. G. G. Dey, Officiating Joint-Magistrate and Deputy Collector, Chittagong, is vested with the powers of a Magistrate of the first class and with the power to try summarily the offences mentioned in Section 222 of the Criminal Procedure Code.

The 11th August 1880.—Baboo Gunga Narain Roy, temporary Sub-Deputy Collector, Kishnaghur, in the district of Nuddea, is vested with the powers of a Magistrate of the third class.

Baboo Mobendro Nath Bose, First Subordinate Judge of Tirhoot, is allowed leave for six months, under section 6, Supplement F of the Civil Leave Code, with effect from the 26th ultimo.

The 12th August 1880.— Baboo Radha Krisna Sen, B.L., Moonsif of Diamond Harbour, in the district of the 24-Pergunnahs, is appointed to act as Moonsif of Tumlook, in the district of Midnapore, during the absence, on sick leave, of Baboo Benode Behary Chowdhry, or until further orders.

Baboo Radha Krisna Sen is vested, under Section 29 of the Bengal Civil Courts Act VI of 1871, with the powers of a Small Cause Court Judge for the trial of suits to the value of Rs. 50 cognizable by such a Court.

Mr. C. P. Caspersz, Assistant Magistrate and Collector, Raneegunge, Burdwan, is vested with the powers of a Magistrate of the 1st class.

Mr. C. P. Caspersz is appointed, under the provisions of section 3, Act II of 1869, to act as a Justice of the Peace within the territories under the Lieutenant-Governor's control.

The 17th August 1880.—Baboo Doorga Churn Ghose, Second Moonsif of Hooghly, is transferred to Serampore, in that district, until the Doorga Poojah vacation.

LEAVE OF ABSENCE TO MOONSIFS.—*The 12th August* 1880.—Baboo Ghonesham Goopta, Moonsif of Purneah, has been allowed leave of absence for 15 days, under Section 4, Supplement F of the Civil Leave Code, with effect from the 17th April 1880.

Baboo Gour Churn Roy, late Officiating Moonsif of Kudwa, in the district of Purneah, has been allowed leave of absence for 19 days, from the 29th May to the 16th June 1880, under Section 4, Rule 1, Supplement F of the Civil Leave Code.

Baboo Gopeenath Mattay, Moonsif of Hajeepore, in the district of Tirhoot, has been allowed leave of absence for one day, the 27th July 1880, under Section 4, Supplement F of the Civil Leave Code, in extension of that already granted to him on the 7th May 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 11th August 1880.—Under the provisions of Section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor sanctions the formation of a new registration sub-district, with head-quarters at thana Lohardugga, in the sub-division of Ranchi, in the district of Lohardugga, conterminous with the jurisdiction of the Moonsiff of Lohardugga, and comprising thanas Lohardugga, Palkot, Karambu, Barwe, Balumat, and Bira. The registration sub-district of Ranchi will henceforth be restricted to thanas Ranchi, Choreya, Basiya, Ladhwa, Silli, Tamur, and Torp. These changes will take effect from the 1st September 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 11th August 1880.—Under the provisions of Section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor directs that the registration sub-district of Gopalgunge, in the district of Sarun, be reconstituted with head-quarters at Gopalgunge, and comprising as formerly thanas Barouli (with pergunnah Murhul) and Baragaon belonging to the sub-district of Sewan. The sub-divisional officer of Gopalgunge will be *ex-officio* Sub-Registrar. This notification will take effect from the 15th August 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 17th August 1880.—It is hereby notified under the provisions of Section 15 of Act V of 1861 that the villages of Deotulla, Bhygoorah, Karaitallah, Koichoichora, Talleshur, Sonbaria, Jaffurkhally, Amtalla, Bamna, Bolaibuniah, Golaghata, Katakhali, Lattabuniah and Borokalaliah, in the Perozepore Sub-Division in the district of Backergunge, being still in a very disturbed and dangerous state, owing to the existence of disputes regarding the possession of lands and collection of rents, and owing to the animosity between the rival parties, the Lieutenant-Governor has sanctioned from the 16th August 1880, the employment for a further period of one year, of a Special Police Force consisting of one Sub-Inspector, four Head-Constables and fifty Constables to be quartered at the said villages for the purpose of keeping the peace between the members of the family of the Bamna Chowdhuries and their rivals respecting the estate known as Jooar Ramna Bamna.

2. The cost of the police force noted below will be assessed and levied from the inhabitants of the villages in proportion to their respective means :—

				Rs.	A.	P.
1 Sub-Inspector at Rs. 50	...	...	...	50	0	0

NOTIFICATION.

The 6th August 1880.—It is hereby notified that the "Nicklee" moonsifee, in the district of Mymensingh, shall hereafter be designated the "Haseinpur" moonsifee.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 6th August 1880.—Under Section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has granted a license to Moonshi Abdur Rahman authorizing him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the police-stations of Chintaman, Nawabganj, Raniganj, and Habra, in the district of Dinagepore.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 10th August 1880.—In continuation of the Government notification of the 30th July 1879, it is hereby notified, under the provisions of section 15 of Act V of 1861, that in consequence of ill-feeling still existing between the adherents of Sreenarain Ghose and Rohimuddi Meah, son-in-law of Gogun Meah, at Singkhali and Aturkhali, in the Perozepore sub-division, in the district of Backergunge, and it being probable that if the police were withdrawn a breach of the peace would take place, the Lieutenant-Governor sanctions the

retention, for a further period of one year from the 31st July 1880, of the special police force of one head-constable and four constables quartered at Singkhali, in the Perozepore sub-division, in the district of Backergunge.

2. The cost of the force noted below will, as before, be assessed and levied from the inhabitants of the village in proportion to their respective means :—

	Rs.	A.	P.
1 head-constable, 3rd grade, at Rs. 15	15	0	0

IRRIGATION.

[Fifth Publication.]

IRRIGATION.

DRAFT RULES PROPOSED FOR THE SONE CANALS UNDER ACT III (B.C.) OF 1876.

Dated the 20th July 1880.

No. 102.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 761 to 767, Part I of the *Calcutta Gazette* of the 23rd July 1879.

C. TAYLOR,
Offg. Asst. Secy., for Joint.-Secy.
to the Govt. of Bengal, P. W. Dept.,
Irrigation Branch.

RULES UNDER ACT III (B.C.) 1876.

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.

3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.

4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latterobjects, no water will be given.

5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.

6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.

7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.

8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b*)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambardar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambardar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 81, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lambardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (*a*), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified to the *Lambardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a.*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b.*)—No tank shall be so filled from which irrigation is practised.

(*c.*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e.*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 33, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *akrahs*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice-seed beds.

44. The *Gilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Ameens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khatiani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tehsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tehsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tehsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tehsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tehsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate The *Lambardar* will be held personally responsible that any breach of this rule or of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

RESOLUTION.—The Governor-General in Council is pleased to lay down the following in supersession of all existing rules for the grant of travelling allowance to officers in civil employ for journeys by sea or on a river :—

I.—A free passage, or refund of passage-money, may be granted at the following rates to a public servant in the civil department when travelling by sea or in a river steamer, if he would be entitled to draw travelling allowance if he were travelling on land.

II.—For the purposes of these rules—

(1) Marine officers include officers of the Marine Department holding appointments afloat or in dockyards, but not port officers, and are divided into four grades—

1st.—Commanders of vessels and Superintendents of Dockyards.

2nd.—Other executive officers, gazetted clerks, and engineers.

3rd.—Warrant officers, non-gazetted clerks, gunners, and European employés.

4th.—All others.

(2) Officers in civil employ are divided into three classes—

1st.—Covenanted civil servants, commissioned military officers, the port officers mentioned in the margin, marine officers of the 1st and 2nd grades, and other uncovenanted officers with rank not lower than that of extra assistant commissioner, deputy magistrate, or deputy collector, or with salary not less than Rs. 200 a month.

The port officers of Calcutta, Madras, Bombay, Rangoon, Karachi, Aden, Akyab, and Moulmein.
The deputy port officers at Calcutta and Madras.
The first assistant port officers at Calcutta, Madras, and Bombay.
The second assistant port officer at Madras.
The conservator, river Indus.

2nd.—Marine officers of the 3rd grade, warrant officers, non-commissioned military officers, European soldiers, and uncovenanted servants in superior service as defined in the Civil Pension Code, with the exception (1) of those included in the first class; and (2) of those on monthly salaries of less than Rs. 80, who ought, in the opinion of the heads of their offices, to belong to the third class.

3rd.—All other officers.

III.—An officer of the first class is entitled—

(*a*) to free passage for himself or refund of passage-money at first class rates;

(*b*) to free passage or refund of passage-money at lowest class rates for two, or, if his salary is not less than Rs. 1,000, for three, servants;

(*c*) to the freight of such horses and tents as he would have been entitled to carry at the public expense had he been travelling by railway.

IV.—An officer of the second class is entitled to—

(*a*) a free passage for himself, or refund of passage-money at middle or second class rates;

(*b*) a free passage, or refund of passage-money at lowest class rates, for one servant.

V.—An officer of the third class is entitled—

(*a*) to a free passage for himself, or refund of passage-money at lowest or third class rates.

VI.—Except as provided in Rule III (*c*), no more personal luggage can be carried at the expense of the State by an officer than the quantity, the freight on which, by custom, is included in the charge for passage.

VII.—If board is provided on the vessel either by its owners or its commander, table-money is recovered from an officer of the first class at the following rates for every day on which dinner is provided for him on board :—

(*a*) If the board includes wines and liquors, three-twentieths of salary up to a maximum of Rs. 8.

(*b*) If the board does not include wines and liquors, three-fortieths of salary up to a maximum of Rs. 4.

Provided that—

(1) table-money shall not be recovered from a native of India compelled by caste or other scruples to make separate arrangements for his board;

(2) an uncovenanted medical officer travelling between Calcutta and Port Blair in charge of convicts, is entitled to a free mess not including wine or beer;

(3) a marine officer travelling on an Indian Government vessel will join the mess and pay the usual contribution;

(4) a marine officer, who is entitled to free rations and is proceeding from one appointment to another in both of which he is messed will, if the charge for messing is included in the charge for passage, be allowed a free mess. If the messing is a separate charge, he will be reimbursed his actual messing expenses (exclusive of wines and beer) up to a limit of Rs. 4 a day.

VIII.—Table-money is not recovered from officers of the second and third classes. If such an officer makes his own arrangements for messing, he is entitled to table-money at the rate of three-tenths of salary, but not exceeding Rs. 3, and not less than 4 annas for every day on which he dines on board.

Provided that—

(*a*) a second class passenger is not entitled to be supplied at the public expense with first class, *i.e.*, with mess at the commander's table, unless no other mess is provided on the steamer;

(*b*) a port officer on detached duty or a warrant medical officer sent from Calcutta to Port Blair in charge of convicts during his voyage to or from Port Blair is not entitled to wine or beer.

IX.—The families of officers of the second class are conveyed at the public expense. Table-money under Rule VIII will be paid at full rates for those members of the family of such an officer who are not less than six years of age, and at half-rates for other members; but a passage will not be provided for more servants than the officer may take with himself under these rules when travelling alone.

X.—The foregoing rules do not apply to an officer, other than a marine officer as provided in the 3rd proviso to Rule VII, travelling, otherwise than on payment of passage-money, in any vessel the cost of which is borne from imperial, provincial, or local funds. Such an officer is not, without the special sanction of the Government of India, entitled to any travelling allowance unless he can certify that he has, during the voyage, incurred actual personal travelling expenses, in which case he may recover the actual sum which he has so incurred, not exceeding the amount of the daily or monthly travelling allowance to which he would have been entitled for the period of the voyage if, during that period, he had travelled by land.

ORDERED that the foregoing resolution be published in the *Gazette of India* and communicated to the other Departments of the Government of India, to all Local Governments and Administrations, to the Comptroller-General, and Head Commissioner of Paper Currency, to other Chiefs of Departments administered by the Government of India in the Department of Finance and Commerce, to all Accountants-General and to Deputy Accountants-General in independent charge.

The following orders, issued by the Government of India in the Military Department, are republished for general information :—

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situate in the district of Bhagulpore will be put up to sale at the Bhagulpore Collectorate on Tuesday, the 7th September 1880, corresponding with the 18th Bhaudon 1287, Fuslee.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidder above the upset price. The purchaser of these estates will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estates will be transferred to him subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and the rights conferred by the settlement proceedings and the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

BANK OF BENGAL, CALCUTTA, the 12th August 1880.

J. GORDON, Chief Accts. & Dy. Secy. (262—1)

R. HARDIE, Secretary and Treasurer.

Notice.

THE public are hereby informed that the well-known Kartick Baruni Mela, which is held on the banks of the Dhaleshwari, near Munshigunge, in the Dacca district, will commence on the 16th November 1880 A.D., corresponding with the 2nd Ugrahayan 1287 B.S., and continue up to the 27th December 1880. Tradesmen, dealers, and others may buy and sell there during these six weeks.

T. E. COXHEAD, Magistrate of Dacca.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine, and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *As.* 8. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Forest Department, Bengal.

Sunderbuns Division.

NOTICE.

TWO pieces of teak timber are now lying at the Government Timber Depôt of Khulna. Any persons having claim upon the same are requested to come forward and prove their claims within two months from this date to the officer in charge of the depôt or at the office of the undersigned, and after paying salvage, &c., upon the logs, to remove the timber.

No claims will be admitted after two months from this date, when the timber will be sold for the benefit of Government.

G. W. STRETTELL, Deputy Conservator of Forests, Sunderbuns Division.

No. 3, Hungerford Street, dated Calcutta, the 20th July 1880. (216—8)

Notice.

Oudh Forest Department.

BYRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHUND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet, at „ 2 „

The above prices are for ordinary building purposes.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, Oudh Circle,
KANHYA LAL, in charge Byramghat Depôt.

The 22nd May 1879.

Notice.

SIX sâl logs of drift timber are now lying at the Forest Department Timber Depôt, Julpigoree. Any persons having any claim upon the same are requested to come forward and prove their claims within two months from date of this notice to the officer in charge of the Julpigoree Depôt, and after paying salvage, &c., on the logs, remove the timber.

No claims will be admitted after two months from this date, after which the timber will be sold for the benefit of Government.

W. M. GREEN, Asst. Convr. of Forests, Julpigoree Division.

Julpigoree, the 9th June 1880. (142—*f.n.*)

Commissioners for making Improvements in the Port of Calcutta.

R. A. STERNDALE,
Assistant Commissioner of Paper Currency.
PAPER CURRENCY DEPARTMENT, the 16th August 1880.

Notice.

WANTED a Tutor for the minor of the Deogon estate, Palamow, Lohardugga district, for two years; salary Rs. 100 per month. He must have a good knowledge of English and Hindi. An elderly Behari would be preferred.

Applications, with copies of testimonials, to be forwarded so as to reach the undersigned within one month from date.

S. S. BANERJEE, Manager, Deogon Estate, Palamow.
Daltongunge, the 24th July 1880. (238—3)

BENGAL CIVIL FUND.

At an Adjourned half-yearly General Meeting of Subscribers to the Bengal Civil Fund, held at the Town Hall on Tuesday, the 10th August 1880.

PRESENT:—The Hon'ble W. F. McDonell, C.S.I.; the Hon'ble H. T. Prinsep; the Hon'ble L. R. Tottenham; the Hon'ble A. T. Maclean; J. Monro, Esq.; H. Beverley, Esq.; D. R. Lyall, Esq.; the Hon'ble J. O'Kinealy; J. Westland, Esq.; H. S. Beadon, Esq.; J. Scobell Armstrong, Esq.; H. J. S. Cotton, Esq.; C. A. Wilkins, Esq.; C. P. L. Macaulay, Esq., C. W. Bolton, Esq., H. M. Kisch, Esq.; H. Lee, Esq., and F. E. Pargiter, Esq.:—

The Hon'ble L. R. Tottenham in the Chair.

The following Report was submitted by the Managers:—

REPORT.

1. The Managers submit the proceedings for the past half-year for the consideration and sanction of the meeting.

2. Subject to the approval of the Subscribers, they have admitted to the benefits of the Fund the following families:—

Miss Dick	... ...	£100	The daughter of the late Mr. Abercromby Dick (an annuitant of 1857), who died in Scotland on the 13th December 1879.
[These were awarded before the abolition of the one sixth deduction Rule, and are now given in full] Mrs. Gribble	£300		The widow and one son of the late Mr. T. W. Gribble, who died at Calcutta on the 17th January last.
One child	„ 80		
	£380		
Less 1/6th under Rule 7 .	£63 6s. 8d.		
Total	£316 13s. 4d.		
Mrs. Bradbury	£300		The widow and two sons of the late Mr. E. A. Bradbury, who died at Sooree (Beerbhoom), on the 31st January last.
Two children	„ 60		
	£360		
Less 1/6th under Rule 7	„ 60		
Total	£300		
Mrs. Geddes	£300		The widow and three children (one son and two daughters) of the late Mr. J. C. Geddes, who died at Mozufferpore on the 9th March last.
Three children ...	„ 150		
	£450		
Less 1/6th under Rule 7 ..	„ 75		
Total	£375		
Mrs Vaughan	£300		The widow of the late Mr. T. E. Vaughan, who died at Rampore Beauleah on the 30th May last.
Mrs. Devereux	£300		The widow of the late Hon'ble H. deB. Devereux (an annuitant of 1863), who died in London on the 19th May last.
Mrs. Raikes ...	£300		The widow and one daughter of the late Mr. H. T. Raikes (an annuitant of 1865), who died in England on the 24th May last.
One daughter	„ 100		
Total	... £400		
Mr Currie's eight children .. .	£825		The family, four sons and four daughters, of the late Mr. R. G. Currie who died at Aligarh on the 13th June last.

3. The votes of Subscribers have affirmed the resolutions passed at the General Meeting of 31st January last in regard to the disposal of the surplus which was declared to be available

for the purpose of providing additional benefits to the members of the service and their families.

The voting was as follows :—

		For.	Against.
(1)	Remission of annuitants' subscriptions for wives and children existing at the time of retirement, and for children born of such wives after retirement	175	12
(2)	Modification of the rule regarding minimum payments in the case of invalid annuitants so as to secure half benefits in all cases to their wives and children existing at the time of retirement, and to children born of such wives after retirement	185	4
(3)	Donation of £300 to the family of a subscriber dying in the service, and of £200 to the family of subscriber dying after retirement ...	188	1
(4)	Increase of the allowances of motherless orphans by 50 per cent. ...	187	2
(5)	Increase of sons' allowances by £50 between the ages of 16 and 21 ...	186	2
(6)	Abolition of the rule regarding one-sixth deductions	181	2
(7)	Retrospective effect from 1st April 1878	181	6

The Actuary's further report, however, shows that in his opinion it would be unsafe to introduce all these new benefits and at the same time to give them retrospective effect from 1st April 1878. The Managers have accordingly, after careful consideration, decided that it will be best for the present to continue to require subscriptions from annuitants to the ordinary or 8 per cent. branch. The following circular has been addressed to the subscribers :—

Calcutta, the 14th July 1880.

SIR,

AT the last general meeting of the subscribers it was decided to introduce certain alterations in the rules, with retrospective effect from 31st March 1878, and this decision has been confirmed by the votes of the subscribers at large under Art. XVII of the rules. It was, however, understood that the continuance of the increased benefits would be dependent upon the result of the Actuary's valuation, and that they would be withdrawn in the event of his reporting that the Fund cannot afford them.

2. I am now directed to forward to you a copy of Mr. Sutton's report on the proposals for the appropriation of the surplus, in which the Managers are pleased to find so full a justification of the course they have adopted in pressing the matter to an early decision. You will observe that, while Mr. Sutton places a higher value upon the additions made to childrens' benefits, his report in all other respects confirms the valuations upon which the Managers acted. The final result, however, is to increase the figure (Rs. 1,30,000) at which the Managers placed the calculated deficit of the Fund, and in view of this he does not consider that retrospective effect could safely be given to all the benefits from 31st March 1878. He suggests two courses to place the Fund in safety—(1) to give effect to the additional benefits from 31st March 1880 only; (2) to retain subscriptions to the ordinary branch after retirement; and he favours the adoption of the first course. The Managers do not consider that they would be justified in acting in such a matter against the advice of their Actuary, but they believe that the sense of the service will be against the postponement of the provisions for increased benefits to the widows and children of subscribers, and they have decided to recommend that for the present subscriptions of annuitants to the ordinary branch shall be retained. Mr. Sutton finds that to give full effect to the decisions of the last general meeting would result in a deficit of Rs. 2,93,825 in the ordinary branch, on which Government pays 8 per cent. interest. This calculation will be subject to modification in consequence of the Managers' decision regarding the distribution of charges between the two branches. An adjustment should properly be made with effect from 1st April 1878; but as the accounts for 1878-79 have been closed, this is not possible. The Managers have, however, decided that the additional payments for 1878-79 shall be made entirely from the additional or five per cent. branch as a set-off against the excessive rate charged against the ordinary branch in that year. For 1879-80, and until further valuation, the Managers have fixed the proportion of charges at 68 to the ordinary branch and 32 to the additional. Even after these adjustments, however, the Managers apprehend that the deficiency on the Actuary's estimate would exceed the margin which they would have been prepared to recommend the subscribers to allow. The value of the 8 per cent. subscriptions of annuitants is Rs. 4,20,606, as calculated both by the Actuary and by Mr. Westland. Their retention would therefore place the fund considerably in surplus. The value of the subscriptions alone, which would have been refunded under this branch had it been possible to exempt annuitants wholly from 31st March 1878, is Rs. 71,406. Looking to all the circumstances, and recognizing that Mr. Sutton has throughout avowedly inclined to the safe side in framing his valuation, the Managers have little doubt that they will be in a position to recommend the total exemption of annuitants after the quinquennial valuation of 1883, and it is even possible that they may be able to propose this measure next year. For the present the effect of the recommendation is that annuitants will be exempted from "additional" contributions from 31st March

1878, but that they will continue to subscribe 1½ per cent. to the ordinary branch. The Managers have no doubt that, under the circumstances of the case, the retired subscribers will acquiesce in this proposal, and that it will not be necessary again to amend Art. VIII to provide for it.

I am, &c.,

COLMAN MACAULAY,
Secretary, Bengal Civil Fund.

4. Miss Palmer has submitted the following application :—

TO THE MANAGERS OF THE BENGAL CIVIL FUND.

SIRS,

MAY I request the favour of your laying this appeal, in due course, before the Subscribers to the Bengal Civil Fund, for their liberal consideration; and if you feel able to recommend and support it, I shall indulge the hope of a favourable reply.

On the death of my father, a retired member of the Bengal Civil Service, in the year 1873, I was admitted to the benefits of the Bengal Civil Fund, and from that date I have received an allowance of £100 per annum under the provisions of the Fund.

My father was forty years in the service, and on his retirement in 1860, being then Civil Auditor, had paid, as I am instructed, nearly double the amount of the half value of his annuity, to which must be added the amount of his subsequent contributions to the Fund to the date of his death.

Some years after the death of my mother, my father married again in India, and his widow, my step mother, is now on the Fund under the new rules.

Owing to the flourishing condition of the Fund, it has been* resolved to increase the present allowance of £100 per annum to the orphan daughters of subscribers to the Fund to £150, and the Managers would propose to extend this benefit to incumbent children becoming motherless after the 31st of March 1878.

* *Vide* Half-Yearly General Meeting of Subscribers to the Civil Fund at Calcutta on the 31st January 1880.

The proposed alteration in the existing rule, increasing the allowance of orphan daughters to the above extent if restricted to orphans becoming such after the year 1878, would seem to bar my claim to its benefit for the following reasons. My step-mother is still living and supported by the Fund, and my father died in 1873. But surely the fact of my having been an orphan for several years cannot weaken my claim to the indulgent consideration of the present members of the service, while it is strengthened by the circumstance of my never having resided at any time with my step-mother.

Under the above circumstances I cannot help hoping that if my appeal should seem to the Managers to be deserving of reference to the members of the service, it will be received by the latter with their accustomed liberality.

I do not suppose that there are many other cases, if indeed any, similar to mine, and considering that the proposed increase to orphan daughters will be paid out of a fund to the formation of which my father so very largely contributed, I do not feel that I am presuming too much in asking that the boon may be extended to me, and for which I shall for ever feel deeply grateful.

I am in the thirty-seventh year of my age, and, excepting the Civil Fund, have no other means of support and maintenance; while it is admitted by all that £100 per annum is barely sufficient for food and clothing.

The 26th May 1880.
17, Walterton-road, Harrow-road,
London W.

I am, &c.,
ALICE WILHELMINA PALMER.

The Managers have informed Miss Palmer that her case is excluded under the rule which provides for increased pension in the event only of the "wife or widow" of a deceased subscriber having died, and that, as cases of this description were carefully considered when the rules were amended, the Managers are not prepared to recommend the Subscribers to alter their decision.

5. The following letter has been received from the Government of India :—

No. 1588, dated Simla, the 6th July 1880.

From—S. JACOB, ESQ., Officiating Under-Secretary to the Government of India, Department of Finance and Commerce,

To—The Managers of the Bengal Civil Fund.

I AM directed to acknowledge the receipt of your Secretary's letter No. 250, dated 26th May last reporting certain additions made to the benefits granted from the Bengal Civil Fund.

2. Your Secretary's letter will be forwarded to the Secretary of State in Council. Pending consideration of that letter by Her Majesty's Government, the Government of India should not be understood to

have countenanced the grant of any privileged interest on the assets necessary to provide for these new benefits; or of the privileged exchange upon the remittance to England of funds required in order to give effect to them.

COPY forwarded to the Comptroller-General for information and guidance.

6. The Managers will propose the following amendments of the Rules:—

Article III.—Add "The term 'public emoluments' in this rule includes all fixed allowances received by subscribers employed out of India with the sanction of Government."

Article XXIII.—Omit from the beginning to the words "five Managers" inclusive, and substitute—

"The affairs of the Fund shall be conducted by a Committee of Managers composed as follows:—

(*a*)—Five *ex-officio* Managers, who shall be the first four of the following officers, not being elected Managers, who may for the time being be residing in, or in the neighbourhood of, Calcutta, provided such officers are subscribers to the Fund, viz.—

(1) The Senior Puisne Judge of the High Court of Fort William, who is a member of the Covenanted Civil Service.
(2) The Comptroller-General.
(3) The Accountant-General, Bengal.
(4) The Legal Remembrancer.
(5) The Collector of Customs.

(*b*)—The following officers, provided they are subscribers to the Fund, during such time as they may reside in, or in the neighbourhood of, Calcutta, viz.—

(1) The Secretary, Government of India, Home Department.
(2) The Secretary, Government of India, Financial Department.
(3) The Revenue Secretary to the Government of Bengal, or, in his absence, the Judicial Secretary, or, in the absence of both of these, the Financial Secretary.

(*c*)—Five elected Managers, who."

Proposed by *Mr. Alex. T. Maclean*, seconded by *Mr. H. Beverley*, and carried unanimously—

That the Manager's proceedings in admitting the families of the late Messrs. Abercromby Dick, T. W. Gribble, E. A. Bradbury, J. C Geddes, T. E. Vaughan, Hon'ble H. deB. Devereux, H. T. Raikes, and R. G. Currie, to the benefits of the Fund, be confirmed.

Proposed by *Mr. D. R. Lyall*, seconded by *Mr. J. Monro*, and carried unanimously—

That the Manager's reply to Miss Palmer be approved.

Mr. Macaulay said that it might be convenient if he explained briefly the circumstances under which the Managers had found it desirable to propose the amendment of Art. III (4) of the rules. Art. XXXVI (37) provides that "if a subscriber to the Fund, continuing in the Civil Service and wishing to retain his interest in the Fund, shall have proceeded to, or remain in, Europe otherwise than on furlough or subsistence allowance, he shall be required, while absent from India, to pay to the Fund a monthly subscription equal to that which he would have been required to pay if on subsistence allowance." Obviously the intention of this rule was to enable officers compelled by special circumstances to remain in Europe out of employ to retain their interest in the Fund. The Fund could not suffer under its operation, as subscribers taking advantage of it would nevertheless have to serve in India on Indian pay the ordinary term for pension. Of late years, however, cases have arisen in which subscribers remain out of India neither on furlough nor on subsistence allowance, but on special duty under the Home or some foreign Government. In these cases service on this special duty is allowed to count for pension, and the Fund would obviously suffer if subscriptions were paid, not on the salary drawn, but on the sum which might be drawn by such a subscriber if he happened to be on subsistence allowance. In the opinion of the Managers, such cases do not even technically fall under Art. XXVI (37), but are governed by Art. III (4), under which subscribers are required to contribute on "their salaries and other authorized public emoluments," and they have ruled accordingly. Their ruling has not been disputed, but they think it desirable

that the meaning of Act III (4) should be made quite clear by the addition of the following clause :—

"*The term 'public emoluments' in this rule includes all fixed allowances received by subscribers employed out of India with the sanction of Government.*"

Proposed by *Mr. J. O'Kinealy*, seconded by *Mr. H. J. S. Cotton*, and carried unanimously—

That article III (4) of the Rules be amended as proposed.

The *Hon'ble W. F. McDonell* proposed that Article XXIII (24) of the rules be amended as suggested by the Managers. He explained that, under the present rule, great inconvenience was felt owing to changes in the management on the return of the Government of India from Simla each year. The Home and Financial Secretaries then became Managers, displacing the Collector of Customs. Mr. J. D. Maclean, who had been a *ex-officio* Manager in the latter capacity, had taken great interest in the administration of the Fund, and it was undesirable that an officer who had a knowledge of current questions connected with the management should be periodically displaced. Practical inconvenience, moreover, had been felt, a majority of the Managers in the cold weather taking a view different from that held by the majority in the middle of the year.

Mr. Cotton said that, in his opinion, the proposed rule would involve an undue preponderance of the official over the representative element. He saw no reason why any Secretary to the Government of Bengal should be an *ex-officio* Manager, and he thought that, as the Comptroller General stood second in the list, the Accountant-General might well stand last. The office of Accountant-General was not necessarily, and indeed was not at present, held by a subscriber to the Fund. He also considered that an elected Manager should resign on succeeding to an appointment which qualified him to become an *ex-officio* Manager. He was quite aware of the importance of securing continuity in the management, but he held that this could be effected without making such a large addition to the number of *ex-officio* Managers.

Mr. Westland observed that, with one or two possible exceptions, the *ex-officio* Managers were just as much representatives of the service as those who were annually elected.

Some discussion took place regarding the order in which the officers mentioned in clause (*a*) should stand. *Mr. Beadon* suggested that the officers should become eligible for *ex-officio* managership according to priority of date of succession to the qualifying appointment. After some discussion, in which *Messrs. McDonell, O'Kinealy, Beverley, Lyall,* and *Macaulay* took part, *Mr. Cotton* proposed the following amendment, which was accepted by *Mr. McDonell* and carried unanimously :—

Act XXIII (24) *shall be amended as follows* :—

The affairs of the Fund shall be conducted by a Committee of Managers composed as follows :—

(*a*).—Seven *ex-officio* Managers as specified below, or so many of them as may for the time being be residing in, or in the neighbourhood of, Calcutta, provided such officers are subscribers to the Fund, viz :—

(1) The senior Puisne judge of the High Court of Fort William, who is a member of the Covenanted Civil Service.
(2) The Secretary, Government of India, Home Department.
(3) The Secretary, Government of India, Financial Department.
(4) The Comptroller-General.
(5) The Accountant-General, Bengal.
(6) The Legal Remembrancer.
(7) The Collector of Customs.

(*b*).—Five elected Managers, who shall be subscribers and shall be elected at a General Meeting of subscribers to be held in January of each year in Calcutta. Any elected Manager taking leave for a period of, or exceeding, six months shall be held to have resigned his office.

Provided that the elected Managers shall not be chosen from among the *ex-officio* Managers, and in the event of an elected Manager being appointed to an office, in virtue of which he becomes an *ex-officio* Manager, for a period exceeding three months, he shall be held to have resigned his office as an elected Manager; and the Managers shall thereupon in this case, as well as in the case referred to in the above preceding clause of an elected Manager taking leave for a period of, or exceeding, six months, proceed to elect a Manager in his place from among the subscribers, and shall duly report the same for the approval of subscribers at the next General Meeting.

Proposed by *Hon'ble W. F. McDonell*, seconded by *Mr. H. J. S. Cotton*, and carried—

That Mr. J. Monro be elected a Manager to fill an existing vacancy.

After a vote of thanks to the Chair the meeting separated.

COLMAN MACAULAY,
Secretary.

L. R. TOTTENHAM.
Chairman.

(270—1)

Bank of Bengal.

Calcutta, the 16th August 1880.

Offg. Exe. Engr., Nuddea Rivers Divn.
BERHAMPORE, the 16th August 1880.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published at soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage
For the Calcutta Series...	Rs. 35	Rs. 40
,, Madras Series ...	,, 8	,, 9
,, Bombay Series ..	,, 8	,, 9
,, Allahabad Series	,, 8	,, 9
Complete set	45	,, 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
,, ,, Madras Series ...	1	0
,, ,, Bombay Series ...	1	0
,, ,, Allahabad Series ...	1	0
Complete set	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
,, Thacker, Vining and Co.;
,, Higginbotham and Co, Madras;
The Government Central Book Depôt, Bombay.
The Government Book Depôt, Allahabad.

Notes on Forestry.

BY C. F. AMERY.

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

NOTIFICATION.

The 12th August 1880.—It is hereby notified, under section 19 of the Indian Forest Act (Act VII of 1878), that the following tracts of land in the Darjeeling district, which, in notification of the 18th October 1879, under section 4 of that Act, it was proposed to constitute reserved forests, shall, from the 1st September next, be "Reserved Forests" under the said Act.

District.	Pergunnah or other sub-division.	No.	Name of forest.	BOUNDARIES.
Darjeeling ...	Hill Territory ...	1	Mansring (an addition to the Sukna-Tista Forest).	*North.*—The ridge separating the valley of the Mahanadi from that of the Reyang *East.*—The Mana Jhora. *West.*—The east boundary of the Mahalderam tea estate, being a demarcated line, and a stream tributary to the Mana Jhora.
Ditto ...	Ditto ...	2	Babookhola ...	*North.*—A demarcated line along the ridge separating the valley of the Mahanadi from that of the Reyang. *East.*—The west boundary of the Mahalderam tea estate, being a demarcated line, then a stream tributary to the Mahanadi river. *South.*—A demarcated line separating the forest from Captain E. T. Fitzgerald's land, and passing from the Mahanadi river in a south-west direction to the Buffoopanee, then the Buffoopanee to its junction with the Mahanadi. *West.*—The Mahanadi river, then a stream to the south-east boundary line of the Majua tea estate (Mr. W. C. Muller's block), then the demarcated boundary of that estate to its north-west corner, then a stream running into the Mahanadi river, then that river, then a demarcated line running north-east to the Buffoopanee and separating the forest from Jamun sing's land, then the Buffoopanee, then a demarcated line to the old military road.
Ditto ...	Terai sub-division, pergunnah Hatti-gheesa.	3	Tookria Jhar ...	*North.*—A demarcated line from the edge of the plateau south of Dangy Jote to the Kemchi nadi, where it forms the boundary of the Hoodoobhita Jote. *East.*—The Kemchi nadi, then a demarcated line separating the forests from jotes Mahmed Daorhux and Soobul. *South.*—A demarcated line separating the forest from jotes Daugur-bhita, Charla, Munjoy, Huldur, Doolall Dass and Gundagole. *West.*—A demarcated line separating the forest from jotes Bujaroo, Futeh, Dowlut, Gour Singh, Ramdhun, Prosadee, Chamroo and Bougy.
Ditto ...	Terai sub-division, pergunnah Hatighessa.	4	Moolta (an addition to the Dalka Jhar Reserve).	*North.*—A demarcated line from the Jibhodar nadi, south of Jhabra Jote to the Forest Reserve boundary. *East.*—The Forest Reserve, then the Dalka nadi, then a demarcated line separating it from jotes Sham Lall (2) and Raghoo, then the Lalla nadi to its junction with the Jibhodar. *West.*—The Jibhodar nadi to its junction with the west branch of the Moolta nadi, then a demarcated line separating the forest from the Jhakooadura and Omee Jotes, then the Jibhodar nadi.
Ditto ...	Terai sub-division, pergunnah Patturghatta.	5	Rishabari, Major Wardroper's and Kanoo Choudry's Bhita Jotes (additions to the Dalka Jhar Reserve).	On all sides Government Forest Reserve.
Ditto ...	Ditto ..	6	Beng-dubi (an addition to the Dalka Jhar reserve).	*North.*—Forest reserve. *East.*—A demarcated line following the bed of the old Balasun river and skirting jotes Bownee Bhita (20) and Dhemal, then a demarcated line south of the last named jote and west of jote Tarabari, then again a line following the bed of the old Balasun river and skirting jotes Bownee Bhita (21) and (22). *South.*—A demarcated line from the old Balasun river to the Hurtia river, separating the forest from jotes Hemlall Powa, Barobhita, Dhuniram, Beng-doobee and Byrauti Saul. *West.*—The Forest Reserve.
Ditto ...	Ditto ...	7	Shilbhita Jote (an addition to the Sukna-Tista Forest).	On all sides Government Forest Reserve.
Ditto ...	Terai sub-division, pergunnah Hatighessa.	8	Nipania (an addition to the Mechi Forest).	*North.*—The Loharjarhi Forest Reserve, then a stream leaving the reserve at its southernmost point, then a line running eastwards to the Aolia Manjha nadi. *East.*—The Aolia Manjha nadi, then a line skirting the Nipania tea estate. *South.*—A demarcated line to the Raja Pouri nadi, then that stream, then a demarcated line to the new Mechi river. *West.*—The Mechi Forest Reserve.
Ditto ...	Ditto ...	9	Gurubadi (an addition to the Mechi Forest Reserve).	*North.*—The Mechi Forest Reserve. *East.*—A demarcated line following the bed of the new Mechi river. *South.*—A demarcated line to the old Mechi river separating the forest from Jote Soorjbur. *West.*—The Nepal frontier.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 16th August 1880.—The following rule, passed by the Lieutenant-Governor under the provisions of section 41 of the Indian Forest Act, having received the sanction of the Governor-General in Council, is hereby published for general information. It will take effect in respect of the forest tracts of the Sunderbuns, both reserved and protected, as described in the schedules attached to the following notifications :—

Reserved forests,—notification of 23rd January 1879.
Protected forests,—notification of 7th December 1878.
Protected forests,—notification of 24th February 1879.

Any person who desires to transport any forest produce through the Sunderbuns forests, or through any part of them, or along any of the water-channels intersecting or skirting them, shall take out a pass at some one of the revenue stations, a list of which will be published from time to time in the *Calcutta Gazette;* and he shall further produce such pass when called upon to do so by any forest or police officer, and return such pass at any one of the said stations on passing out of the boundary of the forests. The fee, if any, payable for such passes will from time to time be fixed by the Conservator of Forests and notified in the *Calcutta Gazette.* The following is a list of the revenue stations actually open :—

1. Lower Bhola.
2. Upper Bhola.
3. Pussur.
4. Khulna.
5. Bhudder.
6. Sheepsah.
7. Koyrah.
8. Cabaduk.
9. Isreepore (Eshamuttee).
10. Bussuntpore.
11. Roymungul.
12. Mutlah.
13. Bogee.
14. Saterbog.
15. Tangra khall.
16. Samukpatha.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 17th August 1880.—The following revised rules passed by the Lieutenant-Governor under sections 31 and 41 of the Indian Forest Act (VII of 1878), having received the sanction of the Governor-General in Council, are hereby published for general information, in supersession of the notification of 13th January 1880 published in the *Calcutta Gazette* of the 14th idem. They will take effect in the protected forest tracts of the Sunderbuns described in the schedule annexed to the notifications of the 7th December 1878 and 24th February 1879 (published in the *Calcutta Gazette* of 11th December 1878 and 26th February 1879), and will come into force from the date of their publication :—

Rule I.—No trees, timber, or any other forest produce shall be cut, sawn, gathered, or removed from within the boundaries of the Sunderbuns protected forests without prepayment in full of the charges due thereon at the rates following :—

(1) For every maund of sundri timber, one anna.
(2) For every maund of any other forest produce, one-fourth of an anna.

These, or such other charges as may from time to time be fixed under this rule, will also be levied on timber and other forest produce which may be exported from lands leased under the rules for the lease of waste lands in the Sunderbuns.

Rule II.—Any person desiring to enter the Sunderbuns protected forests for the purpose of cutting, sawing, converting, gathering, or removing trees, timber or any other forest produce, shall take out a permit or license for the produce which he proposes to remove. The said permit will be granted only on prepayment of the prescribed charges by the officer in charge of the Sunderbuns Forest Division, or by any of his subordinates duly authorized to receive payment and to issue permits.

Rule III.—The holder of a permit or license for the cutting, sawing, conversion, gathering, or removal of any forest produce within the boundaries of the Sunderbuns protected forests, shall produce the said permit or license when called upon to do so by any forest or police officer, and shall further be bound, on leaving the Sunderbuns protected forests, to return the said permit or license to one of the forest officers in charge of the revenue stations, a list of which will be notified from time to time in the *Calcutta Gazette.*

Rule IV.—Any forest produce in transit within, or passing out of, the Sunderbuns Protected Forests, and any such produce found in any water-channel skirting or leading from the said forests, when there is reason to believe that any thing is payable to the Government in respect of such produce, may be stopped and examined by any forest or police officer.

The following is a list of the revenue stations referred to in Rule III of the above rules :—

1. Lower Bhola.
2. Upper „
3. Pussur.
4. Khulna.
5. Bhudder.
6. Shupsah.
7. Koyrah.
8. Cobaduk.
9. Isreepore (Eshamuttee).
10. Bussuntpore.
11. Roymangal.
12. Rampura.
13. Mutlah.
14. Bogee.
15. Saterbog.
16. Tangara khal.
17. Samukpatha.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 16th August 1880.—In supersession of the notification dated the 5th July 1875, published in the *Calcutta Gazette* of the 7th idem, it is hereby notified for general information that the district of Tipperah will be transferred from the Dacca to the Chittagong Division from the 1st November 1880.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 12th August 1880.—A plan and estimate for a further extension of the jetty embankment between jetties Nos. 4 and 5, and for taking down import shed No. 1 and re-erecting it at No. 4 jetty, at a cost of Rs. 1,20,000, having been submitted by the Commissioners for making improvements in the port of Calcutta with their Vice-Chairman's letter No. 1182, of the 12th July 1880, the Lieutenant-Governor is pleased to sanction the project under section 35 of Act V (B.C.) of 1870.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 13th August 1880.—In continuation of the notification of the 18th August 1879, defining the limits of the Port of Calcutta, which was published at page 841 of the *Calcutta Gazette* of the 20th August 1879, the Lieutenant-Governor is pleased, with the sanction of the Government of India, to declare, in accordance with the provisions of sections 5 and 6 of the Indian Ports Act (XII of 1875), that high water-mark shall extend to 15·09 feet above the sill of the Kidderpore dock, that being the highest point reached by ordinary spring-tides in any season of the year.

2. On the Howrah side of the river this boundary has been defined and marked off by stone blocks fixed level with the river bank to mark the exact position of the 15·09 feet waterline, between the Port Commissioners' land at Sibpore on the south, and the southern boundary of the East Indian Railway Company's premises on the north, as shown on a plan submitted by the Commissioners.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

The 17th August 1880.—The following notification is published for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.—MARINE BRANCH—MILITARY DEPARTMENT.

NOTICE TO MARINERS.—(No. 9.)

RED SEA—GULF OF SUEZ.

Suez Bay—Lights at Port Ibraham.

Information has been received that the undermentioned lights are now exhibited at Port Ibraham, Suez Bay :—

1. Two floating lights are placed 897 yards seaward of the entrance of the harbour—*green* on the northern side of the channel, *red* on the southern side.
2. A fixed *green* light is shown from the extremity of the north mole head; a fixed *red* light from the extremity of the south mole head.

3. A fixed *white* light is shown from the extreme (western) end of the inner pier of the harbour.

NOTE.—The foregoing green and red lights mark the channel into the port.

Entering Port Ibraham—the green lights are left on the port hand, the red lights on the starboard hand, the vessel being steered for the white light on the inner pier.

4. Also, that it is intended, when the state of the sea prevents the exhibition of the floating lights, to show two lights, *green* and *red* placed vertically, from the eastern commencement of the inner pier. These lights kept in line with the white light at the extreme (or western) end of the pier will then indicate the channel.

Buoyage.

Also, that a buoy has been placed on each side of the channel to port Ibraham, 568 yards from the mole heads—the northern buoy in a line with the green lights, the southern buoy in a line with the red lights.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, *the 7th August* 1880.

This Notice affects the following:—

BRITISH ADMIRALTY Charts Nos. 2523, 8*a*. 757, 233, and 734.
" " Sailing Directions, Red Sea Pilot, 1873, pages 23 and 36.
" " Light Lists for 1880.
INDIAN MARINE SURVEY Light List for 1880; also Taylor's Sailing Directory, Vol. I, page 27.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

[Third Publication.]

NOTIFICATION.

The 9th August 1880.—It is hereby notified that the Lieutenant-Governor has been pleased to declare the provisions of Chapter IV of the Indian Forest Act, 1878, to be applicable to all forest and waste lands in the Government estate of Khorda, in the district of Pooree, excepting such lands as have been confirmed as revenue-free or settled with cultivators or others, and such lands as shall, during the course of the revenue settlement now in progress or thereafter, be so settled.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 4th August 1880.—Plans and estimates, amounting to one lakh seven thousand nine hundred and fifty-two rupees (Rs. 1,07,952), for carrying out improvements on their tramway having been submitted by the Commissioners for making improvements in the Port of Calcutta with their Vice-Chairman's letter, No. 308, dated 22nd April 1880, and been approved by the Public Works Department of this Government, the Lieutenant-Governor sanctions the works under Section 35 of Act V (B.C.) of 1870.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 4th August 1880.—Under the provisions of section 9 of Act IV (B.C.) of 1880, the Lieutenant-Governor authorizes the Commissioners for making improvements in the Port of Calcutta to raise a loan of five lakhs of rupees (Rs. 5,00,000) to enable them to meet the cost of purchasing the Armenian Ghât site and the buildings thereon, as well as to carry out the works for the improvement of their tramway which have this day been sanctioned.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th February 1880.—The Lieutenant-Governor is pleased to publish for general information the following Order in Council, and the Regulations appended thereto, for preventing collisions at sea, which will come into force on the 1st September 1880.

H. J. REYNOLDS,
Secy. to the Govt. of Bengal.

At the Court at Osborne House, Isle of Wight, the 14th day of August 1879.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the table marked C in the schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto or in substitution therefor; and that any alterations in, or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said schedule:

And whereas by the same Act it was further provided that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country, whether within British jurisdiction or not; and it was further provided by the said Act that whenever an Order in Council had been issued applying any Regulation made by, or in pursuance of, the said Act to the ships of any foreign country, such ships should in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct: First, that the Regulations contained in the schedule to the said Act should be modified by the substitution for such Regulations of certain Regulations appended to the said Order;

Secondly, that the said Regulations appended to the said Order should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said Order of the ninth of January one thousand eight hundred and sixty-three, should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not;

And whereas by Order in Council, dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council, for the purpose of explaining Articles 11 and 18 of the said Regulations, and of removing doubt and misapprehension concerning the effect of the said two Articles:

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the Regulations contained in the Order in Council dated the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled from the first day of September one thousand eight hundred and eighty, and that there shall be substituted for the said Regulations and additions respectively the new Regulations hereinafter set forth:

And whereas it has been made to appear to Her Majesty that the Governments of the several foreign countries mentioned in the second schedule hereto are respectively willing that the Regulations contained in the first schedule hereto shall apply to ships of the said countries respectively, whether within British jurisdiction or not:

Now therefore Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct—

First, that on and after the first day of September one thousand eight hundred and eighty, the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled, and that there shall be substituted for the said Regulations and additions respectively the new Regulations contained in the first schedule hereto.

Second, that the said Regulations contained in the said first schedule hereto shall, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said second schedule hereto, whether within British jurisdiction or not.

C. L. PEEL.

FIRST SCHEDULE.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

Preliminary.

ART. 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

Rules Concerning Lights.

ART. 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ART. 3. A sea-going steam-ship when under way shall carry—

(*a.*) On or in front of the foremast, at a height above the hull of not less than 20 feet and if the breadth of the ship exceeds 20 feet, then at a height above the hull not less than such breadth, a bright white light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.

(*b.*) On the starboard side, a green light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*c.*) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*d.*) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ART. 4. A steam-ship, when towing another ship, shall, in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than three fees apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position, as the white light which other steam-ships are required to carry.

ART. 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light, three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of, but not lower than, her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ART. 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ART. 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use: and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ART. 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ART. 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the mast-head visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ART. 10. (*a*)—Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(*b*)—A fishing vessel and an open boat when at anchor shall exhibit a bright white light.

(*c*)—A fishing vessel when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(*d*)—A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red and the lower green, and shall also either carry the side lights required for other vessels, or if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (*a*) of this Article.

(*e*)—Fishing vessels and open boats shall not be prevented from using a flare-up in addition if they desire to do so.

(*f*)—The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(*g*)—All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

ART. 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

Sound Signals for Fog, &c.

ART. 12. A steam-ship shall be provided with a steam whistle, or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog-horn to be sounded by bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog-horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows, that is to say—

(*a*)—A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(*b*)—A sailing ship under way shall make with her fog-horn, at intervals of not more than two minutes, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*c*)—A steam-ship and a sailing ship when not under way shall, at intervals of not more than two minutes, ring the bell.

Speed of Ships to be moderate in Fog, &c.

ART. 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow, go at a moderate speed.

Steering and Sailing Rules.

ART. 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz :—

(*a*)—A ship which is running free shall keep out of the way of a ship which is close-hauled.

(*b*)—A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(*c*)—When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(*d*)—When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(*e*)—A ship which has the wind aft shall keep out of the way of the other ship.

ART. 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on to the other, in other words, to cases in which by day each ship sees the mast of the other in a line, or nearly in a line, with her own and by night, to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 16. If two ships under steam are crossing so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ART. 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ART. 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed, or stop and reverse if necessary.

ART. 19. In taking any course authorized or required by these Regulations a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz:—

One short blast to mean—"I am directing my course to starboard."

Two short blasts to mean—"I am directing my course to port."

Three short blasts to mean—"I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ART. 20. Notwithstanding anything contained in any preceding Article every ship, whether a sailing ship or steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ART. 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fair way or midchannel which lies on the starboard side of such ship.

ART. 22. Where by the above rules one of two ships is to keep out of the way the other shall keep her course.

ART. 23. In obeying and construing these rules due regard shall be had to all dangers of navigation, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

No Ship under any circumstances to neglect proper precautions.

ART. 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

ART. 25. Nothing in these rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, or inland navigation.

Special Lights for Squadrons and Convoys.

ART. 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for ships sailing under convoy.

The 6th August 1880.—The following notification of the Government of India is published in the *Calcutta Gazette* for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

No. 141.

HOME, REVENUE, AND AGRICULTURAL DEPARTMENT.

EMIGRATION.

Simla, the 30th July 1880.

NOTIFICATION.

UNDER the provisions of Section 56 of the Indian Emigration Act (VII of 1871), the Governor-General in Council is pleased to direct the substitution of the following for Rules 23, 23A, and 23B, of the rules relating to emigration from the Port of Calcutta, published under the notification of the Government of India, No. 129, dated the 21st July 1877 :—

23. Of the total number of emigrants to be embarked on board each ship, the proportion of adult females shall not, except as provided in rule 25, be less than 40 to every 100 adult males.

C. GRANT,
Offg. Secy to the Govt. of India.

[Second Publication.]

DECLARATION.

The 12th August 1880.—Whereas it appears to the Lieutenant-Governor that land is required to be taken up by Government at the public expense for a public purpose, viz. for a post-office bungalow in the village of Karakdi, pergunnah Nasibshahi, district Faridpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8½ cottahs of standard measurement, is required within the aforesaid village of Karakdi. It is bounded as follows :—

On the west by Nibaran Chang's residence,
On the east and north by the land belonging to Chintamani Bhattacharjea;
On the south by the land belonging to Mohonlal Bhadury and others.

This declaration is made, under the provisions of Section 6 of Act X of 1870, to all whom it may concern.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 3856A.

The 13th August 1880.—The undermentioned gentlemen are appointed to be Honorary Magistrates for the bench of Magistrates at the Sudder Station, in the district of Howrah, and are vested with the powers of a Magistrate of the Third Class :—

Mr. A. M. Britton, Managing Assistant, Shibpore Mills.
Baboo Biprodas Mookerjee, Government Pensioner.
„ Nobin Chunder Banerjea, Medical Practitioner and Municipal Commissioner.
„ Hurry Mohan Basu, Zemindar and Municipal Commissioner.
„ Ram Das Moitra, Pleader.
„ Radha Nath Haldar, Zemindar.

The 17th August 1880.—The undermentioned gentlemen are appointed to be Honorary Magistrates for the bench of Magistrates at the Sudder Station of the district of Pubna, and are vested with the powers of a Magistrate of the Third Class :—

Baboo Doorga Nath Bagchee, Pleader.
„ Gridharee Bose, Deputy Inspector of Schools.
„ Grish Chunder Roy, Pleader.
„ Obhoy Gobind Chowdhry, Zemindar.

The 18th August 1880.—Mr. J. Whitmore, Joint-Magistrate and Deputy Collector, Sarun, is vested with the power of hearing appeals from convictions by Magistrates of the Second and Third Classes.

The 21st August 1880.—Baboo Mohendra Nath Ghosh, L.L., Second Moonsif of Patuakhally, Backergunge, is appointed to act as a Moonsif in the district of Burdwan during the absence, on deputation, of Baboo Ram Gopal Chakee, or until further orders. Baboo Mohendra Nath Ghosh will be ordinarily stationed at Cutwa.

The 23rd August 1880.—Baboo Nobin Chunder Gangooly, Officiating 2nd Subordinate-Judge of Dacca, is posted temporarily to Furreedpore.

The 24th August 1880.—Baboo Annada Proshad Bagchi, B.L., is appointed to act as a Moonsif in the district of Backergunge during the absence, on leave, of Baboo Jogendro Nath Ghose, or until further orders. Baboo Annada Proshad Bagchi will be ordinarily stationed at Bhola.

LEAVE OF ABSENCE TO MOONSIFS.—*The 23rd August* 1880.—Baboo Jogendro Nath Ghose, a Moonsif in the district of Backergunge, has obtained leave of absence for one month and two days, under section 10, Supplement F of the Civil Leave Code, with effect from the 1st September 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 20th August 1880.—Under Section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has granted a license to Moonshee Nasiruddin authorising him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the police-station of Chagulniya, in the district of Noakholly.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 17th August 1880.—It is hereby notified under the provisions of Section 15 of Act V of 1861 that the villages of Deotulla, Bhygoorah, Karaitallah, Koichoichora, Talleshur, Sonbaria, Jaffurkhally, Amtalla, Bamna, Bolaibuniah, Golaghata, Katakhali, Lattabuniah and Borokalaliah, in the Perozepore Sub-Division in the district of Backergunge, being still in a very disturbed and dangerous state, owing to the existence of disputes regarding the possession of lands and collection of rents, and owing to the animosity between the rival parties, the Lieutenant-Governor has sanctioned from the 16th August 1880, the employment for a further period of one year, of a Special Police Force consisting of one Sub-Inspector, four Head-Constables and fifty Constables to be quartered at the said villages for the purpose of keeping the peace between the members of the family of the Bamna Chowdhuries and their rivals respecting the estate known as Joar Ramna Bamna.

2. The cost of the police force noted below will be assessed and levied from the inhabitants of the villages in proportion to their respective means :—

	Rs.	A.	P.
1 Sub-Inspector at Rs. 50	50	0	0
1 Head-Constable at Rs. 25	25	0	0
1 Ditto at Rs. 20	20	0	0
1 Ditto at Rs. 15	15	0	0

Repairs to Barracks	100	0	0
Grand Total ...	9,094	0	0

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 11th August 1880.—Under the provisions of Section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor sanctions the formation of a new registration sub-district, with head-quarters at thana Lohardugga, in the sub-division of Ranchi, in the district of Lohardugga, conterminous with the jurisdiction of the Moonsiff of Lohardugga, and comprising thanas Lohardugga, Palkot, Karambu, Barwe, Balumat, and Bira. The registration sub-district of Ranchi will henceforth be restricted to thanas Ranchi, Choreya, Basiya, Ladhwa, Silli, Tamur, and Torp. These changes will take effect from the 1st September 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 11th August 1880.—Under the provisions of Section 5 of the Indian Registration Act III of 1877, the Lieutenant-Governor directs that the registration sub-district of Gopalgunge, in the district of Sarun, be reconstituted with head-quarters at Gopalgunge, and comprising as formerly thanas Barouli (with pergunnah Murhul) and Baragaon belonging to the sub-district of Sewan. The sub-divisional officer of Gopalgunge will be *ex-officio* Sub-Registrar. This notification will take effect from the 15th August 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 10th August 1880.—In continuation of the Government notification of the 30th July 1879, it is hereby notified, under the provisions of section 15 of Act V of 1861, that in consequence of ill-feeling still existing between the adherents of Sreenarain Ghose and Rohimuddi Meah, son-in-law of Gogun Meah, at Singkhali and Aturkhali, in the Perozepore sub-division, in the district of Backergunge, and it being probable that if the police were withdrawn a breach of the peace would take place, the Lieutenant-Governor sanctions the retention, for a further period of one year from the 31st July 1880, of the special police force of one head-constable and four constables quartered at Singkhali, in the Perozepore sub-division, in the district of Backergunge.

2. The cost of the force noted below will, as before, be assessed and levied from the inhabitants of the village in proportion to their respective means :—

		Rs.	A.	P.
1 head-constable, 3rd grade, at Rs. 15 ...	...	15	0	0
2 constables, 2nd „ „ 8 each	...	16	0	0

IRRIGATION.

DRAFT RULES PROPOSED FOR THE SONE CANALS UNDER ACT III (B.C.) OF 1876.

Dated the 20th July 1880.

No. 102.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 761 to 767, Part I of the *Calcutta Gazette* of the 23rd July 1879.

C. TAYLOR,
Offg. Asst. Secy., for Joint.-Secy.
to the Govt. of Bengal, P. W. Dept.,
Irrigation Branch.

RULES UNDER ACT III (B.C.) 1876.

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.

3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.

4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latterobjects, no water will be given.

5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.

6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.

7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.

8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b*)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambardar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambardar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 81, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lambardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (*a*), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified to the *Lambardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a.*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b.*)—No tank shall be so filled from which irrigation is practised.

(*c.*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e.*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions.

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 33, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *ahrahs*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice-seed beds.

22. If in the opinion of the Divisional Canal Officer it appears advisable to grant a lease for a block of less than 50 acres in area, he must refer the matter for the decision of the Superintending Canal Officer, at whose discretion the restriction as to area may be relaxed.

23. Present holders of three-year leases may at their option avail themselves of the terms offered to the holders of five-year leases, but without retrospective effect.

24. Leases for five years at the rates entered in Rule 33 may be given—(1) on the application of all the cultivators of the area proposed to be leased, on condition of their agreeing in such application to become jointly and severally responsible for the payment of all amounts due on account of water-rates; or (2) on the joint application of the cultivators and of some person hereinafter called the Contractor, who may agree to collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The agreement of villagers binding themselves jointly and severally will be in the form prescribed in Appendix C. The joint agreement of villagers and a water-rate Contractor shall be in the form prescribed in Appendix D. Every agreement under this rule must be signed by each applicant in the presence of at least one respectable witness.

25. Contractors shall be entitled to collect water-dues, at the rates given in schedule 4 attached to Rule 33, from the cultivators who have applied for the water supplied. Every due from a cultivator to the Contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

26. A Contractor (or in case there be more than one, each Contractor severally and jointly) shall be responsible for all sums payable on the agreement (Appendix D), except such sums as may be remitted by competent authority under the rules in force, and shall be entitled to a deduction of 5 per cent. for cost of collection.

27. No water shall be taken previous to the receipt of a permit (Appendix B) signed by the Divisional Canal Officer. When an agreement has been made for the collection of the rates by a Contractor, the Divisional Canal Officer shall under section 82 furnish such Contractor with a written authority to collect the amounts due by the cultivators according to a list furnished in the application, one copy of which is to be sent to the Collector.

28. Every Contractor shall nominate a headman, to be approved of by the Divisional Canal Officer, to perform the duties specified in Rule 10. Such headman or the contractor, according to the arrangement made at the time of contract, shall receive 5 per cent. on the assessment, but the Divisional Canal Officer may retrench the whole or any part of these fees if the duties are not properly performed.

29. All water-rates leviable under the above rules for five-years leases shall become due on the 31st December and 15th March in equal portions, and shall be paid within one month of such dates.

30. Under section 78 of the Act, the rates chargeable per acre for water supplied to the different description of crops up to 1st of April 1881, except in cases of three-year leases now in existence, will be as follow:—

SCHEDULE I.—*Existing rates.* (*Annual.*)

CLASS.	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER			Per
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre.	
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
I	Sugarcane	0 2 6	3 2 0	5 0 0	0 1 8	2 1 4	3 5 4	Crop.
II	Rice, vegetable, water-nuts, wheat, barley, cotton, tobacco, indigo, opium, garden and all crops not otherwise specified ...	0 1 3	1 9 0	2 8 0	0 0 10	1 0 8	1 10 8	

NOTE.

1 Cottah = 1,361·25 square feet.
1 Beegah = 27,225·00 ditto.
1 Acre = 43,560·00 ditto.

31. On and after the 25th June 1881 the following rates will be charged on crop-leases for water supplied between the 25th June of one year and the 1st April of the following year:—

SCHEDULE II.—*Annual Leases.*

CLASS.	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER		
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
	Rice	0 1 6	1 14 0	3 0 0	0 1 0	1 4 0	2 0 0
	Bhadoi, except rice	0 1 3	1 9 0	2 8 0	0 0 10	1 0 8	1 10 8
	Rabi	0 1 3	1 9 0	2 8 0	0 0 10	1 0 8	1 10 8
	Sugarcane	0 2 6	3 2 0	5 0 0	0 1 8	2 1 4	3 5 4

Note.—If water is taken for sugarcane in the hot months, in addition, under Rule 32, the total charge will be as follows:—

	Rs. A. P.
Under annual leases per acre	0 0
During hot months " "	4 0 0
Total per acre ...	9 0 0

32. On and after the 1st April 1881 the following rates will be charged for water supplied to crops between the 1st April and 25th June of each year :—

SCHEDULE III.—*Special for hot months.*

CLASS.	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER		
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
	For all crops	0 2 0	2 8 0	4 0 0	1 0 4	1 10 8	2 10 8

33. The following rates will be charged for water supplied to different crops between the 25th June and 1st April of each year on five-year leases :—

SCHEDULE IV.—*Five-years Leases.*

CLASS.	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER		
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
	For all crops	0 1 0	1 4 0	2 0 0	0 0 8	0 13 4	1 5 4

Note.—If water is taken for sugarcane in the hot months, in addition, under Rule 32, the total charge will be as follows :—

	Rs. A. P.
Under five-years leases per acre	2 0 0
During hot months ,, ,, ...	4 0 0
Total per acre ...	6 0 0

34. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

35. All water-rates shall become due on the dates below stated, and shall be paid within one month of such dates :—

Water-rate on spring crops, wheat, barley, peas, poppy, &c. ...	15th March.
Water-rate on summer crops, cheena, &c.	15th July.
Water-rate on bhadoi crops, early rice, indian-corn, murwa, &c. ...	31st October.
Water-rate on annual and winter crops, sugarcane, aghani rice, jowar, &c.	31st December.

36. In the case of lands held in *bhaoli*, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them.

37. In the case of lands held in *bhaoli*, the zemindar shall sign jointly with the cultivators. (This rule only applies to the case of five-year leases.)

38. The area irrigated in any village shall be measured by an *Ameen* appointed for the purpose. The *Putwari* shall be present at the measurement, and shall at the time take a copy of the *khusrah* of the *Ameen*; if for any reason the *Putwari* is not present, the cost of preparing the copy will be charged against him. This copy shall be delivered to the *Putwari*, or, in his absence, to the *Lambardar*. Both the *Lambardar* and *Putwari* shall sign the *khusrah*.

39. When the measurement is completed, the *khusrah* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the *khatiani* with all possible despatch. A copy of the *khatiani*, signed and sealed by the *Zilladar*, shall, as soon as it is prepared, be forwarded to the *Putwari*, who shall grant a receipt for the same. If the *Putwari* is not present, or declines to receive the *khatiani*, the Sub-Divisional Officer shall forward it direct to the Collector.

40. It shall be the duty of the *Putwari*, immediately on the completion of the measurement, to inform each ryot, on application, of the fields measured against him, and on receipt of the *khatiani* to supply each person charged with a *percha* showing the water-rates due. For these duties, and for attending the measurement and rendering such other reasonable assistance to the Canal Officer and Collector as may be required, an allowance of one quarter anna per rupee on the amount collected shall be made.

41. This allowance shall be paid to the *Putwari* by the Collector if he is satisfied that the work has been properly done.

42. The Canal Officer shall note on the *khatiani* whether the *Putwari* has given proper assistance during the measurement.

43. If a cultivator is dissatisfied with the entries made against him in the *khatiani*, whether as to the fact of the land having been charged "flow" instead of "lift" or as to the measurements and entries of classes of crops, he must lodge a complaint, either personally or through the *Lambardar* of his village channel, with the Divisional or Sub-Divisional Canal Officer within a month after the date of the demand being made on him.

44. The *Zilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Ameens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khatiani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tehsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tehsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tehsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tehsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tehsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The *Lambardar* will be held personally responsible that any breach of this rule or of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

HIGH COURT NOTICES.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 25, *dated the 29th June* 1880.

Circular Order No. 127 of the 12th December 1834, directing when and under what circumstances execution cases are to be struck off the file, and when to be revived, is cancelled.

No. 26, *dated the 15th July* 1880.

In continuation of circular order (Civil) No. 21, dated the 14th May 1880, the High Court of Judicature is pleased to circulate, for the information and guidance of all District Judges and their subordinates, the accompanying copies of two communications* from the Government of Bengal, from which it will appear that His Honor the Lieutenant-Governor has decided on the exclusive use of Nagri (or Kaithi) in the following portions of the Bhagulpore and Chota Nagpore Divisions :—

* No. 109T, dated 25th June 1880.
" 128T, dated 30th June 1880.

Bhagulpore Division.—In all districts except Maldah and the Sonthal Pergunnahs, from the 1st January 1881.

Chota Nagpore Division.—In the districts of Lohardugga, Hazareebagh, and in the district of Singhbhoom, with the exception of pergunnah Dholbhoom, from the 1st July 1881.

From A. MACKENZIE, ESQ., *Secretary to the Government of Bengal, General and Revenue Departments, to the Registrar of the High Court, Calcutta,—No.* 109T, *dated Darjeeling, the 25th June* 1880.

In continuation of Mr. Reynolds' letter No. 343, dated the 18th April 1880, on the subject of the character to be used in courts and offices in Behar, I am directed to state, for the information of the Hon'ble Judges of the High Court, that the Lieutenant-Governor has decided that Nagri (or Kaithi) shall be exclusively used from 1st January 1881 in all the districts of the Bhagulpore Division except Maldah and the Sonthal Pergunnahs, in the manner described in the Government Resolution of the 13th April 1880.

From A. MACKENZIE, ESQ., *Secretary to the Government of Bengal, General and Revenue Departments, to the Registrar of the High Court, Calcutta,—No.* 128T, *dated Darjeeling, the 30th June* 1880.

In continuation of my letter No. 109T, dated the 25th instant, I am directed to state, for the information of the Hon'ble Judges of the High Court, that the Lieutenant-Governor has decided that Nagri (or Kaithi) shall be exclusively used, from 1st July 1881, in all the courts and offices in the districts of Lohardugga, Hazareebagh, and in Singhbhoom, with the exception of pergunnah Dholbhoom.

No 27, dated the 23rd July 1880.

The Court is pleased to direct that in future no member of the Subordinate Judicial Service who has made a request to be transferred to another appointment shall be entitled to travelling allowance upon any transfer made in pursuance of such request, whether such transfer be to the district mentioned in such request or to any other district.

General letter No. 9, dated Calcutta, the 10th July 1880.

From—C. A. WILKINS, ESQ., Officiating Registrar,

To—All District Judges and Judicial Commissioners.

I AM directed to invite your attention to Rule 39 of the Rules dated 2nd May 1866, "for the qualification, admission and enrolment of Pleaders and Mookhtars in Mofussil Courts," and to point out that *Mookhtars* who were admitted to practise in accordance with its provisions, and who have not since passed the prescribed examination, have no authority to appear and practise in any but *Criminal Courts* It appears that in some districts these Mookhtars have been allowed to take out certificates authorizing them to practise in the Civil Courts as well.

2 I am, therefore, to request that you will be good enough to take such measures as will prevent any such practitioners from practising in any Civil Court in your district; and if any Mookhtar originally admitted under the rule above mentioned has been granted a renewed certificate for the current year without such restriction being specifically mentioned therein, that you will at once recall it, and grant a properly amended certificate in its place.

Sheriff's Office, the 28th July 1880.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1880 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court House, in the Town of Calcutta, on Wednesday, the First day of September next, at 11 o'clock in the forenoon, and so on from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following order, issued by the Government of India in the Military Secretary's Office, is republished for general information :—

NOTIFICATION.

Simla, the 11th August 1880.

Their Excellencies the Viceroy and the Marchioness of Ripon will hold a Drawing Room at Government House, Calcutta, next winter; date to be notified hereafter.

Ladies attending the Drawing Room will be expected to appear in full dress, but without trains.

The following orders, issued by the Government of India in the Home, Revenue, and Agricultural Department, are republished for general information :—

NOTIFICATIONS.—JUDICIAL.

Simla, the 11th August 1880.

No. 841.—Mr. Charles Sanderson, Solicitor to Government, has obtained leave of absence for four months under section 17A of the Civil Leave Code, with effect from the 8th September next, or from the subsequent date on which he may avail himself of the same.

No. 842.—Mr. Robert Leycester Upton is appointed to officiate as Solicitor to Government during the absence on leave of Mr. Charles Sanderson, or until further orders.

ECCLESIASTICAL.

The 13th August 1880.

No. 162.—*Appointment.*—The Reverend G. G. Gillan, M.A., Officiating Senior Chaplain, Church of Scotland, is confirmed in that appointment, with effect from the 29th March 1880, in succession to the Reverend J. M. Thomson, M.A., deceased.

The following order, issued by the Government of India in the Foreign Department, is republished for general information :—

NOTIFICATIONS—POLITICAL.

Simla, the 13th August 1880.

No. 2781*E.-P.*—The following extract from the *London Gazette*, dated Friday, July 9th, 1880, is republished for general information :—

At the Court at *Windsor*, the 28th day of *June* 1880.

PRESENT:

The QUEEN's Most Excellent Majesty.

Lord President.	Earl Granville.
Lord Chamberlain.	Mr. Gladstone.

Whereas by an Act passed in the 37th year of Her Majesty's reign, chapter 88, intituled "The Slave Trade Act, 1873," it was amongst other things provided that "where any Treaty in relation to the Slave Trade is made after the passing of that Act, by or on behalf of Her Majesty with any Foreign State, Her Majesty may, by Order in Council, direct that, as from such date, not being earlier than the date of the Treaty, as may be specified in the Order, such Treaty shall be 'deemed' to be an existing Slave Trade Treaty within the meaning of the Act;" and it was further provided that "thereupon (as from the said date, or, if no date is specified, as from the date of such Order)" all the provisions of the Act shall apply and be construed accordingly;

And whereas on the 29th day of March 1879 a Treaty or Convention was concluded between Her Majesty's Government and the Government of the German Empire, extending to the German Empire the provisions of the Treaty made on the 20th day of December 1841 between Great Britain, Austria, France, and Russia, for the suppression of the Slave Trade, in the following terms; that is to say :—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the German Emperor, King of Prussia, considering it desirable that the Treaty for the suppression of the Slave Trade concluded between Great Britain, Prussia, Austria, France, and Russia, at London, on the 20th December 1841, and ratified by all these powers, with the exception of France, should be so extended to the German Empire as to correspond with the present altered circumstances, their Majesties have appointed plenipotentiaries to conclude a Convention for that purpose, namely—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland,—the Most Honourable Robert Arthur Talbot Gascoyne Cecil, Marquis of Salisbury, Viscount Cranborne, Baron Cecil, a Peer of the United Kingdom, a Knight of the Most Noble Order of the Garter, Member of Her Majesty's Most Honourable Privy Council, Her Majesty's Principal Secretary of State for Foreign Affairs;

And His Majesty the German Emperor, King of Prussia,—His Excellency George Count Münster, Marshal Hereditary of Hanover, &c., &c., &c., Ambassador Extraordinary and Plenipotentiary of His Imperial Majesty to Her Britannic Majesty;

Who, after having communicated to each other their respective full powers found in good and due form, have agreed as follows :—

ARTICLE I.

All the rights and obligations hitherto devolving on Prussia in virtue of the above-mentioned Treaty and the Annexes thereto shall, subject to certain modifications contained in Article II of this Convention, henceforth devolve on the German Empire, as if that Empire had been a Contracting Party to the said Treaty.

ARTICLE II.

In the place of the 11th and 12th paragraphs under Head V of the Instructions to Cruizers appended to the aforesaid Treaty as Annex B, the following stipulations shall be adopted :—

All German vessels which shall be detained on the stations of America or Africa by the cruizers of the other Contracting Parties shall be taken to Cuxhaven, and be delivered up by the authorities there to the jurisdiction of that German State to which the home port of the vessel belongs.

But if slaves shall be found on board any such German vessel at the time of her detention, the vessel shall, in the first instance, be sent to deposit the slaves at that port to which she would have been taken for adjudication if she had been sailing under the English flag. The vessel shall afterwards be sent to Cuxhaven, and shall be delivered up to the competent German jurisdiction as above stipulated.

NACHDEM Ihre Majestät die Königin des Vereinigten Königreichs von Grossbritannien und Irland, und Seine Majestät der Deutsche Kaiser, König von Preussen, es für wünschenswerth erachtet haben, dass der zwischen Grossbritannien, Preussen, Oesterreich, Frankreich und Russland am 20. Dezember 1841 zu London wegen Unterdrückung des Sklavenhandels abgeschlossene, und von allen diesen Mächten mit Ausnahme Frankreichs ratifizirte Vertrag den gegenwärtigen veränderten Verhältnissen entsprechend auf das Deutsche Reich ausgedehnt werde, so haben Allerhöchstdieselben behufs einer zu diesem Zwecke zu treffenden Uebereinkunft Bevollmächtigte ernannt, und zwar;—

Ihre Majestät die Königin des Vereinigten Königreichs von Grossbritannien und Irland, den sehr ehrenwerthen Robert Arthur Talbot Gascoyne Cecil, Marquis von Salisbury, Viscount Cranborne, Baron Cecil, Pair des Vereinigten Königreichs, Ritter des Höchstedlen Ordens vom Hosenband, mitglied Irer Majestät Höchstehrenwerthen Geheimen Raths, Allerhöchstihren Haupt Staatssecretair für die Auswärtigen Angelegenheiten;

Und Seine Majestät der Deutsche Kaiser, König von Preussen, Seine Excellenz Georg, Grafen zu Münster, Erblandmarschall von Hannover, &c., &c., &c., Allerhöchstseinen ausserordentlichen und bevollmächtigten Botschafter bei Ihrer Grossbritannischen Majestät;

Welche, nach gegenseitiger Mittheilung ihrein guter und gehöriger Form befundenen Vollmachten, über folgende Punkte übereingekommen sind :—

ARTIKEL I.

Alle aus dem obengedachten Vertrage und aus dessen Anlagen für Preussen herzuleitenden Rechte und Pflichten sollen vorbehaltlich gewisser im Artikel II der gegenwärtigen Uebereinkunft enthaltanen Abänderungen fortan auf das Deutsche Reich übergehen dergestalt, als ob Letzteres den erwähnten Vertrag unmittelbar mit abgeschlossen hätte.

ARTIKEL II.

An die Stelle des elften und zwölften Absatzes unter Nummer V der dem vorerwahnten Vertrage als Anlage B, angehängten Instruktion für die Kreuzer sollen folgende Abreden treten :—

Alle deutschen Schiffe, welche auf den Stationen von Amerika oder Afrika durch die Kreuzer der anderen vertragschliessenden Theile in Beschlag genommen werden sollten, sind nach Cuxhaven zu führen und durch die dortigen Behörden der Jurisdiktion desjenigen deutschen Staats zu überliefern, welchem der Heimathshafen des Schiffes angehört.

Wenn aber an Bord eines solchen deutschen Schiffes im Augenblick seiner Beschlagnahme Sklaven vorgefunden werden, so ist das Schiff zovörderst, um die Sklaven abzusetzen, in denjenigen Hafen zu führen, wohin es, wenn es unter Englischer Flagge gefahren wäre, geführt worden sein würde, um vor Gericht gestellt zu werden. Demnächt ist das Schiff nach Cuxhaven zu fuhren und der zuständigen deutschen Jurisdiktian, wie oben vereinbart, zu überliefern.

ARTICLE III.

The present Convention shall be ratified, and the ratifications exchanged at London as soon as possible after the Governments of Austria-Hungary and Russia, parties to the Treaty of the 20th December 1841, have signified their consent to the modifications of that Treaty, agreed to in the present Convention.

In witness whereof the Undersigned have signed the present Convention in Duplicate, and have affixed thereto their seals.

Done at London on the 29th day of March 1879.

(L.S.) SALISBURY.
(L.S.) MÜNSTER.

ARTIKEL III.

Die gegenwärtige Uebereinkunft soll ratifizirt werden und der Austausch der Ratifikationen soll, nachdem die Regierungen von Oesterreich-Ungarn und Russland als Betheiligte an dem Vertrage vom 20. Dezember 1841 ihre Zustimmung zu den in gegenwärtiger Uebereinkunft verabredeten Abänderungen jenes Vertrages erklärt haben werden, sobald als möglich in London stattfinden.

Zu Urkund dessen haben die Unterzeichneten die gegenwärtige Uebereinkunft in zwei Exemplaren vollzogen und ihr Siegel beigedrückt.

So geschehen zu London am 29ten März, 1879.

(L.S.) SALISBURY.
(L.S.) MÜNSTER.

And whereas it is expedient that the said Treaty or Convention shall be brought within the operation of the Slave Trade Act, 1873; now therefore Her Majesty, by virtue and in exercise of the powers in this behalf as aforesaid, is pleased by and with the advice of Her Privy Council to order, and it is hereby ordered as follows:—

The said Treaty or Convention hereinbefore recited shall, from the said 29th day of March 1879, being the day of the date thereof, be deemed to have been and to be an existing Slave Trade Treaty within the meaning of "The Slave Trade Act, 1873."

And the Lords Commissioners of Her Majesty's Treasury, the Right Honourable the Earl Granville, one of Her Majesty's Principal Secretaries of State, and the Lords Commissioners of the Admiralty, are to give the necessary directions herein as to them may respectively appertain.

C. L. PEEL.

The following orders, issued by the Government of India in the Finance and Commerce Department, are republished for general information:—

NOTIFICATIONS.

Simla, the 14th August 1880.

No. 2326.

Read—

Resolution by the Government of India in the Financial Department, No. 3556, dated 19th October 1877.

Resolution.—By this Resolution the Governor-General in Council prescribed measures for preventing legal-tender copper coin from circulating at a discount in British India, Mysore, and Berar.

In paragraph 5 His Excellency in Council directed that, if, notwithstanding the orders issued, legal-tender copper coin should, at any time or anywhere, circulate at a discount, the fact was to be immediately reported to the local Government, and by the local Government to the Government of India, "with full explanation of the causes of the phenomenon and of the measures taken to remedy the evil."

The Governor-General in Council now further directs that the report prescribed in paragraph 5 shall be made whenever legal-tender copper coin may be found to circulate at a premium. The causes of its doing so, and the measures adopted to neutralise them, must also be stated.

Order.—Ordered that this Resolution be published in the *Gazette of India*, and communicated to the several local Governments and Administrations, to the Comptroller-General, and the several Accountants-General, and Deputy Accountants-General in independent charge, and to the Mint Masters, Calcutta and Bombay.

No. 2329.—In exercise of the powers conferred by section 8 of the Indian Stamp Act, 1879, the Governor-General in Council has exempted from stamp duty agreements with Railway Companies or Administrations for the conveyance of goods and receipts given by such Companies or Administrations for fares for conveyance of passengers or goods, or both, or animals.

PUBLIC WORKS DEPARTMENT.—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 144.

The 23rd August 1880.

UNDER section 89 of Act X (B.C.) of 1871, the following annual accounts and reports, of the District Road Commitees of the 24-Pergunnahs, Nuddea, Jessore and Moorshedabad, of works done and in progress during the past cess year 1878-79, together with the remarks thereon of the Commissioner of the Presidency Division, are published for general information.

T. H. WICKES,
Asst. Secy. to the Govt. of Bengal in the Public Works Dept.

No. 91R, dated Alipore, the 20th January 1880.

From—W. S. WELLS, Esq., Magistrate and Chairman of the District Road Cess Committee, 24-Pergunnahs,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit the annual accounts as passed by the district committee, as well as a report of the work executed and in progress during the cess-year 1878-79, as prescribed by section 89 of the District Road Cess Act.

The gentlemen named in the margin were the members of the district road cess committee for the year under report. They were appointed in August 1877, under the provisions of section 49 of the Act. There were seven general meetings and two sub-committees held during the year, at each of which there was a quorum. The members were on the whole regular in attending the meetings, and took an interest in the matters brought before the committee, and on all points relating to the improvement of communications in the district. The members of the committee having completed their term of appointment, a new list of the members has recently been submitted to Government for approval.

The Committee and the numbers of meetings held.

1. The Magistrate of the district.
2. The Senior Covenanted Officer under the Magistrate.
3. The District Superintendent of Police.
4. The Executive Engineer, Public Works Department.
5. Raja Hurrendra Krishna Bahadoor.
6. Roy Ram Shunker Sen Bahadoor.
7. Baboo Isser Chunder Mitter.
8. „ Kally Churn Ghose
9. The Honorable Maharaja Nurrendra Krishna Bahadoor.
10. Prince Mohamed Ferrock Shah.
11. „ Nusseerudin Hyder
12. Coomar Kanti Chunder Sing.
13. Baboo Sham Churn Law.
14. Mr. R. Harvey.
15. Baboo Kally Koomar Rai Chowdry.
16. „ Debendro Koomar Rai Chowdry.
17. „ Anundo Chunder Ghose.
18. „ Nobin Chand Ghose
19. Mr. Cowasjee Edaljee.
20. Baboo Shama Churn Pottitundo.
21. Ray Mohun Lall Mittor.
22. Baboo Nundo Lall Gossie.
23. „ Gyanendra Coomar Roy Chowdry.
24. „ Jogendra Chunder Ghose.
25. „ Grisis Chunder Bose.
26. „ Hurry Chaitanno Ghose.
27. „ Radha Mohun Mundle.

Attendance at meetings of the District and Sub-divisional Branch Committees.—The following table shows the attendance of the members at the meetings of the district and the sub-divisional branch committees during the year under review.

Branch Committees.—There are seven branch committees namely, one at each of the sub-divisions of Barripore, Diamond Harbour, Baraset, Barrackpore, Dum-Dum, Busseerhat and Sathkhirah. Of the gentlemen composing these branch committees the names of Baboo Debendra Coomar Rai Chowdry, Vice-Chairman at Barripore; Baboo Umbica Churn Mookerjee, Vice-Chairman, Barackpore; Baboo Baney Madhub Chuckerbutty, Vice-Chairman at Dum-Dum, and Baboo Anundo Chunder Ghose, a member at Barripore, may be mentioned as having shown zeal in their co-operation with the sub-divisional officers in carrying out village road works in their neighbourhood.

Income.—The total income of the year including the unexpended balance of the past year amounted to Rs. 1,43,257-15-6, as detailed below:—

	Rs.	A.	P.
Last year's unexpended balance	16,141	12	7
Land-cess	1,06,857	3	10
House-cess	5	12	0
Fines	.....		
Fees and forfeitures	1,448	10	10
Road-cess leviable otherwise than under the Act	181	12	6
Road tolls	18,180	8	0
Sale proceeds of produce	952	3	9
Miscellaneous receipts	1,860	0	0
Deposit	2,680	0	0
Total income ...	1,43,257	15	6

The decrease in the collection of land-cess as compared with that of the past year, is owing to less voluntary payments by the landholders, who, under a recent order of the Board of Revenue, are now required to pay four annas only, instead of one rupee formerly levied, by way of penalty on processes issued for the recovery of arrears. This relaxation of the penalty during the last two quarters of the year, has much interfered with the punctual realization of the cess, and caused the collections to fall short of the amount which was levied in the past year. The collection of house-cess is under suspension, as was reported last year, owing to the introduction of the License Tax Act; the receipts on this head have been reduced to an almost nominal amount during the year.

Expenditure.—There was a total expenditure of Rs. 1,29,807-6-9 during the year under the following heads:—

	Rs.	A.	P.
Collection and office establishment	4,970	4	8
Contingent charges	694	6	10
Original works	3,407	4	0
Repairs	97,746	6	9
Engineers establishment	19,707	2	6
Tools and plant	144	14	0
Pension	387	0	0
Refund of deposits	2,750	0	0
Total expenditure ...	1,29,807	6	9

The details of expenditure are given in form No. 6, Part II, of the annual accounts herewith submitted.

Sub-Committee's report on examination of the Annual Accounts.—The sub-committee appointed to examine and audit the accounts for the year, under section 88 of the Act, consisted of the Vice-Chairman and the following members :—

Baboo Debendra Coomar Rai Chowdry.
„ Nobin Chand Ghose.
„ Rakhal Dass Mookerjee.

They submitted to the committee the following report :—

" We, the sub-committee appointed to examine the accounts of the year ending 30th September 1879, beg to submit our report as follows :—

" We have compared the cash abstract book with cheque-foils, treasury pass-book and vouchers, and found them correct.

" We have compared the budget allotments with the actual outlay, and found the latter to be generally within the amounts allotted, except in few instances hereinafter noticed.

" We observe that in the expenditure on original works, Rs. 3,407-4 were actually expended, while the amount budgeted on that head was Rs. 19,000, thus showing a saving of Rs. 15,592-12.

" Under the head of repairs, the sum budgeted for the year amounted to Rs. 94,000, while that actually spent for the repair work came up to Rs. 97,746-6-9, or an excess expenditure of Rs. 3,746-6-9, which was met from the surplus saving of the original works

" It may not be out of place to mention here that the district committee have had to undertake the repairs of a large number of roads converging towards the metropolis, while the funds at their disposal are always inadequate to maintain them throughout in efficient condition. The consequence is that the greater portion of the income is laid out in repairs.

" The cess on lands was estimated on the receipt side of the budget at Rs. 1,08,000, but the actual realization amounted to Rs. 1,06,857-3-10, or Rs. 1,142-12-2 short of the estimated income.

" In all other heads the accounts are increased."

Of the original works undertaken this year the following are the most important :—

(1.) Construction of fourteen pipe-culverts on different roads in the district for the dischargeof rain-water which, in previous years, accumulated in the excavations on the sides of roads, and became injurious to the roads themselves and prejudicial to the health of the people residing in the neighbourhood.

(2.) Reconstruction of a bridge on the 9th mile of the Takee road in the place of an old dilapidated one, which had suddenly given way during the rise of water of the Jabuna in the last rainy season.

Repairs.—It will be seen from the statement submitted herewith, that Rs. 97,746-6-9 were spent on repairs. Out of this amount Rs. 55 294-9 were spent on the repairing of metalled roads; Rs. 25,079-3-2 on those of unmetalled roads, and Rs. 17,372-10-7 in the improvement and repairs of village roads.

The most important repair works were the following :—

(1.) The repairs of the Takee road throughout its length from 1st to the 25th mile. Several miles were thoroughly repaired with a coating of three inches of *new* jhama Khoa metal, as the old metal which had been for a long time stacked on the side of the road was much worn out and was found to be unfit for use for the new repairs.

(2.) The repairs of the Ghola bridge on the 2nd mile of the Takee road.—The northern wing walls of this old bridge came down during the rainy season of 1878, and have been rebuilt in a substantial manner on a better design.

(3.) Repairs of the Barripore road.—A coating of new metal has been put on this road throughout its length, and about 400 fruit-trees have been planted along its sides.

(4.) Repairs of Sonapore feeder-road with a new coating of stone metal.
(5.) Ditto to Amdanga road.
(6.) Ditto to Sathkhirah road.
(7.) Ditto to Khalakhally dák-road.
(8.) Ditto to the Baubariah bridge.
(9.) Ditto of two roads in the Sunderbun-lot, called Doriabad.
(10.) Ditto of the Gobindopore road.

Village Roads.

Diamond Harbour.—Rupees 3,200 were alloted for the improvement of village roads in this sub-division, under the superintendence of the branch road cess committee of the sub-division, and from this amount fifteen village roads and several footpaths were repaired and improved at an aggregate cost of Rs. 3,180. There was no voluntary contribution on the part of the public during the year under notice in this sub-division.

The provincial and district roads which intersect this sub-division are in good order.

Barripore.—Rupees 4,000 were sanctioned by the district committee for the improvement of village communications in this sub-division, and Rs. 3,817-8-1 were actually spent in improving fifteen village roads, and constructing five masonry culverts, and one bamboo bridge, in the rural portion of the sub-division outside the limits of the two municipalities which it contains. There are also three main district roads which traverse this sub-division. These are looked after and kept in repairs by the district committee. The superintendence and examination of the village road works in this sub-division were undertaken by the

Vice-Chairman of the branch committee, Baboo Debendra Coomar Rai Chowdhury, assisted by Baboos Annundo Chunder Ghose and Prassono Coomar Banerjee, two other members of the committee. Baboos Debendra Coomar Rai Chowdhury, and Annundo Chunder Ghose are also members of the district committee. Baboo Debendra Coomar's services are highly appreciated as a member of the branch committee as well as of the district committee. The sub-divisional officer reports that he was materially assisted in the work of the branch committee by the intelligence, zeal, and ability of Baboo Debendra Coomar, who takes a great deal of interest in road cess work.

Barrackpore.—A sum of Rs. 775, was allotted by the district committee for improvement and repairs of village roads of the rural portion of this cantonment sub-division, and the total amount was spent for the purpose during the year under report, in improving and repairing the village roads and pathways of almost all the villages in this sub-division. The sub-divisional officer speaks favorably of the Vice-Chairman, Umbica Churn Mookerjee.

Dum-Dum.—A sum of Rs. 600 was sanctioned by the district committee for repairs and construction of village roads and culverts of this sub-division, and the total allotment was spent on this account in improving and repairing the footpaths and culverts, in the rural portion of this cantonment sub-division. The members are reported by the Cantonment Magistrate to have displayed energy and zeal in carrying out the village road works. The sub-divisional officer recommends the metalling of the kutcha portion of the slaughter-house road, as well as the kutcha portion of the Nimta district road. The district committee have not, however, sufficient funds at their disposal to enable them to undertake these works at present.

Baraset.—Rupees 1,500 were allotted for improvement of village roads in this sub-division, and from this amount 18 roads were repaired and improved, at an aggregate cost of Rs. 1,185-5-3, viz. two were constructed and repaired by the direct supervision of the members of the sub-divisional branch committee, and the rest undertaken by the mundles and other head-men of the villages to which the roads appertain. The village punchayets were also made to form sub-committees for the superintendence of the work, and were held responsible for the money expended on the works. The sub-divisional officer reports that they have invariably done the work entrusted to them cheaply and well.

Besides the amount allotted by the district committee, the work done by the villagers themselves on various roads, in the shape of contributions, may be estimated at Rs. 525. The number of villages benefited by these works is said to be 80.

The sub-divisional officer recommends the transfer of the following roads to the district committee's charge, viz. Jagoolia road, Rajibpore road, and the Gourbunga road. The matter will be brought before the district committee for consideration at a future meeting.

Busseerhat.—Rs. 2,500 were allotted for the improvement of village roads in this sub-division, and 20 roads with culverts were improved and repaired at an aggregate cost of Rs. 1,728; the members are reported to have taken great interest in the execution of the works. Of the village roads that have been constructed and improved in this sub-division during the year under report, that from Husnabad to Takee, the sub-divisional officer reports, has saved a circuitous journey of about three miles by water. The total allotment for this sub-division could not be spent because of the rising of the Itchamutty river during the rains, which covered the low lands over which many village roads passed.

Sathkhirah.—An amount of Rs. 2,900 was allotted for the improvement and repairs of village roads in this sub-division during the year under report, and out of this amount 21 roads and footpaths have been improved and repaired, and 10 culverts constructed at places where the existing roads had become useless in consequence of gaps caused by water during the rains. A contribution of Rs. 50 each was received from the villagers of Sehara and Bhatsala for construction of their village roads, and an equal amount was allotted by the branch committee to carry on the works.

Superintendence of works.—The District Engineer under the road cess committee and his staff, consisting of one overseer and three sub-overseers, carried out and supervised as heretofore all the district works; the sub-divisional village road works are superintended chiefly by the sub-divisional officers assisted by the Vice-Chairman and members of the sub-divisional branch committees, and the sub inspectors of police-stations; but in the execution of works requiring professional skill they are assisted by the overseer and sub-overseers under the District Engineer.

Chairman of the District Committee.—Mr. W. M. Souttar was the Chairman during the first quarter of the year, and I succeeded him in the latter part of December, and was the Chairman of the district road cess committee for the rest of the year under report, with the exception of a short period towards the end of it, when Mr. T. E. Coxhead officiated for me during my absence on leave.

The Vice-Chairman of the District Committee.—Rai Ram Shunker Sen was the Vice-Chairman of the district road cess committee during the early part of the year, and Mr. P. Nolan relieved him of the charge when the former officer resigned the post and went away on sick-leave. Mr. Nolan was transferred to Cuttack in March, and Mr. W D. Blyth, the present Vice-Chairman, succeeded him and held the office for the rest of the year.

Sub-Divisional Officers who are ex-officio Chairmen of Branch Committees.—All the sub-divisional officers in the district exerted themselves in the execution of works undertaken for the improvement of village roads and communications in the district.

The District Engineer.—The District Engineer, Baboo Radhika Prosad Mookerjee, B C.E., who holds the rank of an Executive Engineer in the D.P. W., was in charge of the district works throughout the year, and has shown great intelligence, activity and energy in the discharge of his arduous duties. It requires great trouble and care to keep up such a network of pucka and kutcha roads as is in the 24-Pergunnahs on our comparatively limited income; and in this respect Baboo Radhica Prosad Mookerjee's intimate acquaintance with the district and its requirements is especially valuable.

Feelings of the people with regard to the Cess.—On this subject I have nothing to add to what was said last year.

Operations of the next year.—The following is a brief account of the proposed road-cess operations for the next cess-year.

Expected Income.—The income from all sources has been estimated as follows:—

	Rs.	A.	P.
Land-cess	1,08,000	0	0
Ditto on houses	.....		
Fines and fees	1,250	0	0
Other cesses	150	0	0
Road tolls	6,500	0	0
Sales of produce and stores	700	0	0
Contributions, &c.	4,450	0	0
Grant-in-aid from provincial reserve	9,650	0	0
Total ...	1,30,700	0	0
Estimated balance on 30th September 1879 ...	15,000	0	0
Grand Total ...	1,45,700	0	0

Proposed Expenditure.—The expenditure on original works has been put down at Rs. 17,650-0-0 against Rs. 19,000 in 1878-79, and in maintenance and repairs Rs. 95,800 has been estimated against Rs. 94,000 in 1878-79. The lastmentioned amount includes Rs. 15,000 which has been allotted for improvement of village roads and communications, and Rs. 4,000 has been put down for unforeseen works, which also includes Rs. 3,000 for relief purposes during the ensuing cess-year.

ALIPORE,
The 15th December 1879.

W. D. BLYTH,
Vice-Chairman, Road Cess Committee.

Memorandum showing in detail the Actual Cash Balance on 30th September 1879.

Particulars.	Amount.	Total.
	Rs. A. P.	Rs. A. P.
Balance of credit of 24-Pergunnahs District Road Fund in the treasury as per pass-book	13,450 8 8	
Imprest cash with the District Engineer	.	
Total ...	.....	13,450 8 9

Explanatory Memorandum to accompany the Road Cess Annual Accounts of the District of 24-Pergunnahs for the year 1878-79, under paragraph 14 of the Instructions from Government for the preparation of the Annual Accounts, conveyed in its Circular No. 8A, dated the 14th February 1878, of the Public Works Department.

As per budget head.	Increase or decrease.	EXPLANATION.
Receipts.		
Land-cess	Decrease	The decrease is owing to less voluntary payments by parties. The rate of process fee has of late been reduced from one rupee to four annas per process. Processes, however, have been issued for the realization of the arrear.
House cess	Ditto	The decrease is owing to the abolition of the cess,—*vide* Government Resolution No. 553A, dated 13th May 1879.
One per cent. Road Fund ...	Ditto	The decrease under this head was owing to resettlement of khasmehul lands on which, under the scope of the Board's order, No. 264A, dated the 14th May 1874, the cess can no longer be imposed. Hence the income under this head is susceptible to reduction every year.
Road tolls	Increase	The increase is owing to the fact that the district roads are almost all in good order. Consequently fair collections were made from the farmers of toll bars.
Fees and forfeiture	Ditto	The increase was owing to realization of greater amount of process and searching fees that was anticipated when the budget was framed.
Miscellaneous	Increase	The increase is attributable to the vigilance of the District Engineer in watching the sale of fruits and right of fishery, in consequence of which the sale-proceeds were greater than what had been provided for in the budget. Several contributions have also been received from private parties for road work, and from Government for road-cess establishment.
Expenditure.		
General management	Decrease	The decrease arises from saving of cost of certain "extra establishment for revising the valuation" included in the budget, but not incurred during the year, as well as to other savings of expenditure in office establishment.
Contingencies	Ditto	The decrease under this head is owing to the non-purchase of office furniture, for which money was provided for in the budget.
Original work	Ditto	The decrease is in consequence of the non-construction of the Goburdanga bridge which was provided for in the budget, as the promised contribution of half the cost had not been paid by the Goburdanga wards' estate. From the saving thus effected, other original works which were urgently necessary in other portions of the district that were undertaken, for which the Commissioner's sanction was obtained in a supplementary estimate.
Repairs	Increase and decrease ...	The difference of expenditure under several items, between the "amount sanctioned as per budget" and the amount "expended" is owing to revision of the budget allotment by the committee, according to the necessity of each work. Such transfer has always been found necessary by the committee to keep the roads in their charge in efficient order. For this transfer a supplementary estimate was made, and Commissioner's sanction obtained,—*vide* his No. 401R, dated the 4th September 1879.
Establishment	Decrease	The decrease is owing to savings effected in office establishment.
Tools and plant	Ditto	The decrease under this head was owing to non-purchase of any valuable stores during the year.

W. S. WELLS,
Chairman of the Road Cess Committee,
24-Pergunnahs.

The 16th August 1879.

Statement showing alterations since made in the allotment of the several works provided for in the Budget Estimate for the current year, sanctioned as per Government No. 553A, dated the 13th May 1879.

NAME OF WORKS.	Amount provided for in the budget estimate.	Amounts as since altered.	REMARKS.
Original Works.	Rs.	Rs.	These alterations which are due to transfer of allotments from one class of work to another, or from one work to another under the same class, have been made by the committee without affecting the total amount of the budget already sanctioned.

W. S. WELLS,
Chairman, Road Cess Committee.

The 13th August 1879.

No. 335RF, dated Kishnaghur, the 3rd February 1880.

From—W. V. G. TAYLER, Esq., Magistrate and Chairman, District Road Cess Committee, Nuddea,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit the accompanying annual account of the road works carried out in this district during the cess year ending 30th September last, with the following observations.

2. During the year under review the district committee worked satisfactorily on the whole. Altogether seven meetings were held by them. At one of these meetings the requisite quorum was not in attendance; the others were largely attended. The majority of the members took interest in their works, and among them Mr. Savi of Mohesgunge Factory, and Baboo Nuffur Chandra Pal Chowdhry of Natudah, deserve special notice. These gentlemen took much active part in the execution of work. The former undertook the annual renewals and repairs of the metalled road from Kishnaghur to Nuddea under his personal superintendence, and completed the works in an efficient and workmanlike manner, and the latter repaired the Ramnuggur and Manicknuggur road, which is over 18 miles in length, and in addition to this undertook the construction and repairs of some village roads in the Chooadangah and Meherpore sub-divisions. Baboos Mirtunjoy Rai, Jodu Nath Chatterjee, and Kartick Chandra Rai were entrusted with the task of auditing accounts and returns of the committee in conjunction with the Vice-Chairman. This duty was performed by them satisfactorily. Baboos Anundamoy Moitra, and Jodunath Khan, and the Executive Engineer of the Presidency Division attended only one meeting during the year; and Mollah Khodadad and Baboo Bhuputty Chatterjee have attended none since their appointment. Mr. G. Smith left the district during the year. Rai Jodunath, Rai Bahadoor, held the office of the Vice-Chairman till the middle of December 1878, when on his resigning the post, he was relieved by Mr. Gun. Both these gentlemen took their full share of the work. Baboo Tarinee Charan Chatterjee was appointed to be a member of this committee on the 16th December 1878, *vice* Rai Jodunath, Rai Bahadoor.

3. The branch road cess committee at Meherpore met four times during the year. At all of these meetings the requisite quorum was in attendance. Nearly all of the members took an active interest in their duties, and the Europeans specially were glad to undertake the supervision of works. The Chairman of this branch commitee has, in particular, recorded his obligations to the Vice-Charman, Mr. Patrick Smith, who attended these meetings at the cost of a good deal of personal inconvenience, and whose intimate knowledge of the whole sub-division was of the greatest use in disposing of the sum allotted for village communications. The other gentlemen who took conspicuous interest in the administration of the fund placed at the disposal of this committee, were Mr Macnaughten, Mr. F. G. Gibson, Mr H. A. Abbott, Baboo Jodu Nath Mozoomdar, and Baboo Brojo Coomar Mullick. In this sub-division, where much has yet to be done in the way of village improvements, it has, I am glad to notice, been the desire of the members of the branch committee to induce zemindars to regard grants from village road fund as supplementary to their own expenditure for the benefit of their estates; and in so doing they have hitherto been greatly assisted by the excellent example set by Mr. H. Sibbuld, who has now, I regret to say, left the district. It would perhaps be too much to expect that the present proprietor of the Sibbuldgunge should keep up the network of roads round the village, damaged as they have been by the floods in August last. But in many cases applicants for grants have promised to contribute an equal sum from their own pockets and this branch committee hope to extend the system further during the current year.

4. *Kooshtea Branch Committee.*—Many of the non-official members of this committee failed to attend meetings regularly during the year under report. Their Chairman writes that several meetings were called for, but three of them only were attended by requisite quorums. The average number of the members present at each of these meetings was 6 66 There were altogether fourteen members, of whom three did not attend any of the meetings held during the year, and four of them attended only one meeting. Many of them, however, took much active part in the performance of the work. Almost all of the village roads were constructed under their supervision, and some of the main roads also were repaired by them.

5. *Chooadangah Branch Committee.*—Mr. A. Hills held the office of the Vice-Chairman of this committee up to the 24th of June 1879, when, on his resigning the post, and his seat as member, on plea of inability to attend meetings, Baboo Shoshee Bhusan Bannerjee was nominated for the post of the Vice-Chairman, and Mr. Eddis was elected member in his place. But the Judge of the District having objected to Baboo Shoshee Bhusan Bannerjee's appointment as Vice-Chairman (he being the Moonsiff of Chooadangah), Baboo Moumohun Bannerjee was elected a member, and nominated for the post on the 15th September last. There were altogether four meetings during the year under report. Of these meetings one was not attended by a quorum. Almost every one of the members undertook the construction of a road. Mr. Sheriff, Baboos Nuffur Chandra Pal Chowdhry, Prosunno Chandra Rai, and Moonshee Naffir Ali Biswas were specially conspicuous in attending to repairs of roads in the vicinity of their residences. Baboo Nuffur Chandra Pal, and Moonshee Nuffer Ali Biswas, also supplemented the fund supplied to them by liberal contributions from their private funds. This branch committee on the whole, worked very satisfactorily.

6. *Ranaghat Branch Committee*—Held four meetings during the year, and all of the meetings were attended by requisite quorums. Of the eleven non-official members, five did not

attend meetings at all during the year. The repairs of some of the roads were entrusted to members Baboos Shibkrishna Rai, Kadernath Mookerjee, Sree Ram Chandra, Indro and Banee Madhub Mookerjee, and they took much interest in supervising and completing those works. Baboo Kadernath Mookerjee supplemented the grant made for roads entrusted to him by Rs. 102 from his private fund.

7. *Bongong Branch Committee*—Met thrice during the year. Their Chairman and Vice-Chairman, and Baboos Bhuban Mohan Rai Chowdhry, and Ram Chandra Bannerjee, members were present at all of the meetings. Baboo Mohendra Nath Rai attended the first meeting only. Baboo Modhu Sudden Bannerjee died after attending one meeting. In him the committee have lost a most valuable adviser who was thoroughly acquainted with the requirements of all parts of the sub-division. Baboo Bereshur Pauray did not attend meetings at all. The members generally took much active part in the performance of their works, and they stand very high in the estimation of their Chairman, who has in particular eluogized the Vice-Chairman for his zealous co-operation. In his report for the previous year the Chairman made some remarks which were construed to mean that the members had taken little interest that year in their duties. But from a paragraph in his last administration report, it is quite clear now, that by that remark he simply meant to say that most of the members knew little beyond the requirements of their immediate neighbourhood.

8. The accompanying statement A shows in figures the particulars regarding the attendance of members of both Sudder and branch committees.

9. In the first part of the year under review, the financial condition of the committee was very bad; and in the latter part, the district was visited by very unusually high floods, which damaged the existing roads and bridges on them and interfered with the committee's work in various ways. Some of the estimated original works were therefore not undertaken during the year, and some repairs could not be completed properly.

10. Instead of a *plus* balance of Rs. 9,900 as was estimated when the budget was prepared, the year opened with a *deficit* balance amounting to Rs. 4,970-13-11 in the shape of liability to contractors for work. This was partly due to short collections and partly to other causes which affected the revenue of the previous year.

11. The income for the year as per budget estimate was Rs. 96,267, but the actual revenue amounted to Rs. 1,05,476-10-5. The increase is chiefly due to Government grant obtained in the latter part of March 1879.

12. The revenue from the cess on lands was worse than the estimates by Rs. 1,544-6-3, because Rs. 170-12 2 only was received during the year from other districts for lands lying in this district, against an estimated receipt of Rs. 1,887. No explanation of the difference has as yet been received from the Collector's office.

13. Under the head "cess on houses" only Rs. 2-4, arrear of the previous year, was collected, against an estimated income of Rs. 10,700.

14. The short collection from Gopalnuggur toll bar was due to the late inundations. The balance has since been realized from the farmer.

15. Rs. 234-3-7 was derived from the "One per cent. Road Cess." This source of income escaped the notice of the committee when the budget for the year under report was prepared.

16. The collection under the head of "Miscellaneous" exceeded the estimate owing to inclusion of the sums realized by the sale of the properties of late Accountant, Beni Gopal Mookerjee, in that head.

17. Rs. 25,000 was sanctioned by Government during the year as grant-in-aid. Of this sum, Rs. 24,594-5-6 has appeared in the accompanying account, and the balance Rs. 405-10-6 has been excluded from it, in accordance with the instructions received from the Examiner of P. Works Accounts, Bengal, because an amount equal to that sum which was drawn in excess of the Government grant in the year 1872 was refunded during the year under review under instruction of the Examiner.

18. The amount shown against the sub-head "Advance" is owing to a mere adjustment of the advance account.

19. Rs. 6,512-0-6 treated as deposit, represents the contractor's security deposits and liabilities incurred for work. The latter is dealt with under this head of accounts in accordance with instruction of the Examiner.

20. The outlay provided in the main budget was Rs. 96,267, viz.—

	Rs.
Establishment on collection of revenue, including committee's office establishment	7,348
Contingent charges of the establishment	1,009
Original works	12,974
Repairs	60,972
Establishment on work	12,904
Contingent charges	910
Tools and plant	150
	96,267

A supplementary budget was subsequently prepared on receipt of the Government grant, and with your sanction some alterations in the allotments made in the first budget were also made in order to meet the actual requirements of the roads and bridges on them.

The amounts shown in the column of the accompanying annual account headed "Budget Estimate," represent the sums which were available for each work after all additions and alterations made in the budget estimate.

21. The expenditure for establishment on collection of revenue was less than estimate, chiefly because the whole amount provided for establishment for revising the valuation was not spent as the work was not done. Rs. 205-12-9 only was expended against an estimated outlay of Rs. 2,331.

22. The expenditure on original works was much below the estimate, chiefly owing to the fact that some of the principal works could not be undertaken at all, for the following reasons. When the budget was prepared and money allotted for them, it was anticipated that the year would open with a *plus* balance, amounting to Rs. 9,900, and thus funds would be available for them, but the actual state of affairs however, was contrary to expectation. Instead of a *plus* balance, the year opened with a *deficit* amounting to Rs. 4,790, and the income of the committee was further reduced by Rs. 10,700 by the non-collection of house-cess. The Government grant which improved the finance was received on the expiration of the brick-making season.

23. The expenditure on the repairs slightly exceeded the estimate owing to the late flood.

24. Establishment for eleven months only was paid during the year, because that for September of the previous year was paid within that month in consequence of the Doorga Pooja holidays having commenced before the end of that month. And there was some saving under the head of travelling allowance, owing to all works being stopped last year for a long time by the late flood. The decrease of expenditure under this head of establishment was due to the above circumstances.

25. The figures against the sub-head "Deposit," represent the liability for last year's work paid up during the year under report.

26. Form No. 6, part II, accompanies this report, and shows the details of all expenditure.

27. Rs. 8,408-9 was the total expenditure during the year on original works, of which the principal are the following :—

28. Masonry culvert of one opening of three feet span, has been constructed on the 11th mile of the Chagda and Bongong road, at a cost of Rs. 327-1-9. The estimated cost of this culvert was Rs. 312.

29. Rs. 951-8 has been spent on the construction of a timber bridge on masonry abutments, having two openings each of ten feet clear span. The estimated cost was Rs. 935. The excess is owing to interference caused by the late floods, during the construction of this work. The bridge has since been completed in accordance with the sanctioned plan.

30. Rs. 350-0-9 has been expended on the construction of a timber bridge on the Halsa and Doorgapore road. This work has not been completed owing to interruption caused by the last flood. The estimated outlay for the work was Rs. 540.

31. Two culverts have been built on the road from Allumdanga to Jamjami at a cost of Rs. 487-7-9. In the budget Rs. 850 was provided for these works in accordance with the information supplied by the Chairman of the Chooadanga branch committee, whose estimate was not correct.

32. The original works (marked C in the accompanying annual account) were not undertaken for reasons explained in paragraph 22 of this report.

33. Six village roads were undertaken in the Sudder. Of these five have been constructed at a cost of Rs. 430-9; and the remaining one, which was commenced in the Toongy village could not be completed owing to the late flood. Only Rs. 5-5-3 were spent on this.

34. Ten village roads have been constructed in the Kooshtea sub-division at a cost of Rs. 957-4.

35. In Meherpore the branch committee spent Rs. 779 on the construction of ten village roads, and besides these, some minor village communications were improved by the branch committee at an outlay of Rs. 611-6.

36. The Chooadanga branch committee spent Rs. 335 on the construction of new village roads.

37. In the Ranaghat sub-division the branch committee spent Rs. 1,000 on the construction of twelve new village roads.

38. The Bongong branch committee expended Rs. 1,201-10-9 on the construction of nine new village roads and some culverts on some of them.

39. Rs. 246-14 was expended by the committee on the survey of the proposed new roads from Khoksa bazar to Khoksa railway station, and from Khoksa station to Ajoodia on the river Pudma. This work was undertaken under special order of the Government. There was no provision in the budget for it.

40. During the year under report the committee spent Rs. 704-11-9 on arboriculture. Four nursery gardens have been established, and a large number of fruit-bearing trees have been planted on the sides of seven of the most important metalled roads. These plants are growing satisfactorily. The plants now in the nurseries will be fit for transplantation by the next rainy season.

41. Of the sum of Rs. 61,534-4-2 spent during the year under review on the repairs of the existing roads, Rs. 44,458-6-8 were spent on the annual renewals and maintenance

repairs of the feeders and other metalled roads in the district; and Rs. 17,075-13-6 only were expended on the maintenance of the several unmetalled communications and existing village roads. The works were executed satisfactorily in accordance with their detailed estimates.

42. For want of funds nothing has been provided for original works for the current year in the budget already sent up for sanction. Three new roads have, however, been undertaken in the distressed parts of the district as relief works, in accordance with your permission, conveyed in your No. 78PR., dated the 8th November last. Rs. 25,000 has been lately sanctioned by Government. There is, however, no chance of any portion of the fund being spent on original works other than those already undertaken, unless the Government sanctions some more money for the repairs of the damages caused by the late flood to the existing roads and bridges of the district. The repairs provided in the budget for the current year will be carried out with slight modifications, which have been rendered necessary by the effects of the last flood.

43. The Act is not as popular in the district as one would like to see it, and the dissatisfaction has somewhat increased of late. Even in ordinary years the funds of the committee scarcely suffice to keep up properly existing communications, and it is quite impossible therefore to construct new roads. This year the floods have done much damage to a very large number of existing roads; but as I have already separately reported, unless the Government will give a large extra grant, but little can be done in the way of repairs, and it must take some years before all the roads can be put into the same state they formerly were.

44. The work establishment has on the whole worked satisfactorily. The staff consists of a District Engineer (Baboo Dwarkanath Sircar), two overseers, five sub-overseers, with eight peons, there being one sub-overseer and five peons fewer than in previous year. The Chairman's establishment, too, has on the whole given satisfaction.

45. The District Engineer is an officer of considerable ability, and thoroughly understands his duties, which he performs with zeal and efficiency.

No. 405RF, dated Kishnaghur, the 26th February 1880.

From—W. H. M. GUN, ESQ., for Magistrate and Chairman, Nuddea,

To—The Commissioner of the Presidency Division.

IN reply to your No. 13PR, dated the 18th instant, paragraph 1, I have the honor to inform you that the Assistant Magistrate of Kooshtea explains that all the work there was for his branch committee to do, was done in the meetings held, as they had received a small sum to lay upon village roads. He adds that it would have been useless to call other meetings, when there was no money to dispose of. The Deputy Magistrate of Bongong also reports, that there was no business for a fourth meeting, so "it was deemed unnecessary to put non-resident members to the trouble and expense to attend a purely formal meeting." The attention of the officers concerned will be called to the requirements of the law.

2. In reference to paragraph 2 of your letter under reply, I beg to report that the amount expended on the improvement of village roads in each sub-division of the district has been shown distinctly in the annual accounts, details of which are given below:—

Constructing Village Roads.

	Rs.	A.	P.
Sudder sub-division	435	14	3
Kooshtea	957	4	0
Meherpore	1,390	6	0
Chooadanga	335	0	0
Ranaghat	1,000	0	0
Bongong	1,201	10	9

Meherpore	270	0	0
Chooadanga	800	0	0
Ranaghat	250	0	0
Bongong	452	6	9
Total ...	2,397	0	9

No. 24PR, dated Alipore, the 6th March 1880.

Memo. by—J. MONRO, ESQ., Offg. Commissioner of the Presidency Division.

THE Chairman has been requested to see that in future the expenditure on the improvement of village roads is shown in one place, and by sub-divisions, as is done in the accounts of the other districts of this Division.

No. 6.—Part I.

W. H. M. GUN,
Vice-Chairman.

EXPLANATIONS.

(*a*)—The deficiency is due to short collections received from other districts on account of lands lying in this district, only Rs. 170-12-2 being received against an estimated receipt of Rs. 1,887. No explanation of the deficiencies has been received from the Collector's office.

(*b*)—Rs. 2,331 was estimated as cost of establishment for revising valuation. The work was not done, however, and only Rs. 205-12-9 was spent.

(*c*)—*Original works Nos. 2, 18, 55 and 141.*—When the budget was prepared and money allotted to these works, it was anticipated that the year would open with a *plus* balance amounting to Rs. 9,900, and thus funds would be available for them. But the actual state of affairs turned out quite contrary to expectation. Instead of a *plus* balance, the year opened with a *deficit*, amounting to Rs. 4,970, and the income of the committee was further reduced by Rs. 10,700 by the suspension of collection from the house-cess.

(*d*)—The excess is due to interference of the floods during the construction of the work; sanction will be applied for.

(*e*)—The entry in the budget was made in accordance with the information supplied by the branch committee. Their estimate was found to be much in excess of the actual requirement.

(*f*)—The difference is trifling, and does not require explanation.

(*g*)—The road could not be completed owing to the floods.

(*h*)—The original estimate for village roads in Meherpore was Rs. 1,000; but Rs. 464 was subsequently added to that amount, being transferred from Nundunpore to Teyhutta (Rs. 125), and Meherpore to Plassipara (Rs. 190), and Nundunpore to Meherpore (Rs. 150) roads,—*see* Commissioner's letters Nos. 61PR, and 65PR, dated 3rd September 1879 and 19th September 1879.

(*i*)—Rs. 1,000 was sanctioned for constructing village roads. But the branch committee distributed the sum of Rs. 335 to village roads and the balance to repairs of several minor and main roads, as per Commissioner's No. 24PR, dated 26th February 1879.

(*k*)—The branch committee has been called on to explain their excess expenditure over the estimate.

(*l*)—The road was surveyed under special orders of Government, No. 907C, dated 7th October 1878, though money was not provided for it in the budget.

(*m*)—Rs. 1,800 was allotted for the construction of Gurkhal bridge, which was not undertaken for reasons explained under the head (*c*). Only a temporary bamboo bridge was built over the gap in order to keep up the traffic.

(*n*)—In the column headed "Amount as per budget," the figures in antique indicate the amount of supplementary budget sanctioned by the Commissioner, as per his No. 51PR, dated 23rd July 1879.

(*o*)—Already explained under head (*h*).

(*p*)—The road was overflooded just after the commencement of the work, and no payments were made on account of it.

(*q*)—Barokhada, Nowpara, and Chaprah to Teyhutta. After subsequent enquiry it was found that the sums allotted to the roads were too small for thorough repair, and that no advantage would be derived by incurring the expenditure. The works were therefore not undertaken at all.

(*r*)—Rs. 200 was allotted to this road from the money reserved for repairs of several minor roads,—*see* Commissioner's No. 19PR, dated 11th February 1879.

(*s*)—The branch committee distributed the sum from the allotment placed at their disposal for constructing village roads to these roads as explained under the head (*j*).

(*t*)—The expenditure was incurred during the floods in order to save the riverside road from being cut away by the flood current. There was no time to obtain sanction.

(*u*)—A ferry-boat was engaged on the Gurkhal, which was not bridged.

(*v*)—Rs. 200 was at first allotted for the repairs of the dâk bungalows, but the amount being insufficient, it was supplemented by Rs. 180 from savings made from other works,—*see* Commissioner's No. 42PR, dated the 20th June 1879.

(*w*)—Payments for establishments were made for 11 months during the year, because the establishments for September of the previous year was paid within that month in consequence of the Doorga Poojah holidays in 1878 commencing before the end of September.

(*x*)—The actual expenditure has exceeded the budget allotment, owing to payments of Rs. 229-4-9 on account of compensation for land taken up for Mura and Plassipara road.

(*y*)—The provision for the compensation for land taken up for Poradah station road was made by special order of Government in the supplementary budget, sanctioned as per Commissioner's No. 51PR, of the 23rd July 1879, though no provision was made for it in the original budget.

In case of some repairs there have been some small differences between the budget grant and actual expenditure. The estimates show probable and approximate outlay. Endeavours are always made to keep the expenditure within the sanctioned amount; but in spite of all attempts, it has been found necessary, in some cases, to go beyond it. In many cases last year a slight additional expenditure was rendered necessary by the high floods.

W. H. M. GUN.

NUDDEA DISTRICT.

Explanatory Notes.

Particulars.	Total as per four quarterly returns.	Total as per annual return.	More.	Less.	REMARKS.
Receipts.					
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
Miscellaneous	6,114 3 0	5,742 2 5	....	372 0 7	Rs. 372-0-7 has been transferred to the new heads "Staging Bungalow" and "Fees and Forfeitures," which was included in 1st and 2nd quarterly returns under the head of "Miscellaneous."
Third and Fourth quarters.					
Staging Bungalow ...	103 0 0	210 0 0	107 0 0	.....	Rs. 107 received in transfer from "Miscellaneous" in accordance with the above remarks.
Fees and forfeitures ...	293 0 0	558 0 7	265 0 7	.....	Rs. 265 0-7 has been added to it according to the remarks alluded to above.
Grants-in-aid	25,000 0 0	24,594 5 6	.....	405 10 6	Rs. 25,000 was sanctioned by Government during the year as grant-in-aid. Of this sum Rs. 24,594-5-6 has appeared in the annual account, and the balance (Rs. 405-10-6) has been excluded from it in accordance with the instruction received from the Examiner of Public Works Accounts, Bengal, because an amount equal to that sum, which was drawn in excess of the Government grant in the year 1872, was refunded during the year under review under instruction of the Examiner.
Expenditure.					
Repairs	61,682 12 2	61,534 4 2	....	148 8 0	Rs. 148-8 on account of salary of dák bungalow establishment and contingencies, which was included in the first and second quarterly returns under the head of "Repairs," has been transferred to "Staging Bungalow and Serais."
Staging Bungalow	488 4 3	636 12 3	148 8 0	.....	In accordance with the above remarks, Rs. 148-8 has been added to it.
Deposits	197 12 0	3,378 4 10	3,180 8 10	.....	In the old form of quarterly return liabilities to contractors were shown on the reverse (statement of total receipts, outlay, and balance of the quarter) under the head "Less balance at credit of deposit," instead of being shown in the expenditure side of the same. And instead of directly showing the expenditure only, the balance at the end of the quarter after all expenditure under this head was given. In the revised quarterly return form, which had been submitted from the third quarter, there is a head "Deposits" in the expenditure side, under which liabilities to contractors are charged. The Rs 3,180-8-10 was the expenditure under this head in the first and second quarters of the year, viz. in the first quarter Rs. 1,840-11-4 (Rs 4,110-5-10—1,840-11-4=Rs. 2,269-10-6, the balance at the end of the quarter), and in the second Rs. 1,339-13-6 (Rs. 2,269-10-6.—339-13-6=Rs. 929-13-0, the balance at the end of the quarter).
Advances	301 8 9	244 13 9	....	56 11 0	The amount shown against the sub-head "Advance" is owing to a mere adjustment of the advance account.

W. H. M. GUN,
For Magistrate and Chairman, Nuddea.

No. 98R, dated Jessore, the 19th January 1880.

From—E. H. RUDDOCK, ESQ., Magistrate and Chairman, District Road Cess Committee, Jessore,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit herewith the road fund annual report and accounts for the cess-year 1878-79, together with the requisite explanatory notes required under Government circular No. 8A, dated 4th February 1878.

2. The estimates of income and expenditure for the year under review were considered and passed by the district committee at a meeting held on the 19th August 1878. The receipts were estimated at Rs. 1,18,679 and the expenditure at Rs. 1,12,967. The actual receipts were Rs. 1,12,986, inclusive of the balance of the previous year. The actual expenditure amounted to Rs. 1,05,840. The details of the expenditure are given in Form No. 6, Part II of the annual accounts. All the important local works were carried out by the District Engineer, and the village roads and minor works by the branch committees, under the supervision of the Chairman and members.

3. The district committee met ten times (on three of which occasions there was no quorum,; three times at the beginning of the year to pass the annual accounts; four times in the middle to consider various estimates, sanction appointments in their establishment, and for the transaction of miscellaneous business, and three times towards the close to pass the budget-estimates for 1879-80 and to fix the cess-rates. With few exceptions, the non-official members took but little interest in the administration of the fund at their disposal.

4. The committee resolved, at a meeting held on the 6th September last, to levy the maximum rates of cess during the year to meet the estimate for expenditure passed at the previous meeting (19th July).

5. The accounts now submitted were laid before a meeting held on the 15th November 1879, when a sub-committee, consisting of the Vice-Chairman and three members, was appointed to examine them under section 82 of the Act. The report of the sub-committee was received at another meeting held on the 10th January 1880, and the accounts as now submitted were finally passed (*vide* report of the sub-committee herewith attached).

6. The result of the inspection made by Mr. F. Moore, Deputy Examiner, on the 26th May 1879, for the first half of the year, was considered satisfactory in regard to the accounts and books kept in the combined offices of the Chairman and District Engineer (*vide* copy of report herewith annexed, forwarded by the Examiner of Public Works Accounts, Bengal, with his memorandum No. 260D of the 30th May last).

7. The following is a brief description of the works carried out during the year.

8. Surface repairs have been executed on the following roads, viz:—

	Miles.
Jessore to Khajurah	8½
Jessore station roads, outside municipal limits	4
Taragunge to Narrail	13
Jessore to Salkea	17½
Singhea to Khoolna	27
Rajahât to Keshabpore	17½
Keshabpore to Trimohoni	6
Churamunkhali to Chowgatcha	10½
Chowgatcha to Kotechandpore	10½
Jessore to Kalligunge	16
Ghorakholly to Singhea	6¾
Narrail to Ghorakholly	8
Chowgatcha to Trimohoni	27¾
Kalligunge to Kharagoda	13½
Jhenidah to Magurah	16
Gopalpore to Narainpore	4½
Garakola to Soilcopa	3¾
Jhenidah to Kacharkote	14
Kalligunge to Jhenidah	8½
Polughât to Dodaria	9½
Magura to Benodepur	6
Khajura to Magurah	16¾
Benodepur to Singhea	14
Salkea to Nohatta	10
Nohatta to Mahomedpur	7
Benodepur to Mahomedpur	8
Sinduri to Bhowanipore	11
Dhulea to Bhowanipore	3½

9. Repairs to flanks and renewal of metal has been carried out on the following roads, viz:—

	Miles.
Jessore to Afra	10½
Singhea to Bausantea	2
Jessore to Kalligunge	12
Kalligunge to Khalispore	10
Jhenidah to Borai	12½
Station roads outside municipality	2

10. New metalling has been put down on the Jessore and Kalligunge road, for a distance of two miles and ten chains, on the 12th and 13th miles, and the embankment has been raised and widened on the following roads, viz :—

	Miles.
Kalligunge to Kharagoda	2¾
Ditto to Jhenidah	1¼
Polughât to Dodaria	1
Chowgatcha to Trimohoni	2¾
Jhenidah to Magura	1
Jessore to Khajura	1

11. *Khajura and Magura Road.*—Last year there remained 2½ miles of this road to complete as a low level road throughout. This work has now been finished.

12. *Maintenance of Bridges and Culverts.*—Fifty-seven culverts have been repaired on the following roads :—

	No.
Jessore and Kalligunge	11
Chowgatcha and Trimohoni	9
Jessore and Salkea	2
Ditto and Khajura	3
Polughât and Dodaria	2
Singhea and Khulna	1
Jhenidah and Kalligunge	5
Ditto and Borae	4
Kalligunge and Kharagoda	1
Jhenidah and Magurah	12
Gopalpore to Narainpore	1
Jhenidah to Kacharkole	1
Magura to Benodepur	5
Total ...	57

and the following new bridges and culverts have been constructed on the roads named below, viz :—

Chowgatcha to Trimohoni	3
Kalligunge to Kharagoda	3
Taragunge to Narrail { causeways	3
{ culvert	1
Jhenidah and Magura road	1
Ditto and Kalligunge	1
Total ...	12

Two masonry wing-walls have also been added to the up-stream side of the bridge at Kalligunge over the river Chitra.

13. *Inspection-bungalows* have been built during the year at Kalligunge, on the Jessore and Kalligunge road ; at Khedapora, on the Polughât and Dodaria road, and at Irudia, on the Taragunge and Narrail road.

14. *Bandal work* was constructed on both banks of the Muchikhali, near Kishtopore village, for a length of 600 feet, with a view to deepening the channel for boat traffic. The work proved successful, the channel having been deepened from 3 to 12 feet at a cost of Rs. 234-11-10.

15. *Arboriculture* —Three thousand four hundred cuttings from banian and pipul trees have been planted on the following roads, viz :—

	No.
Jessore and Kalligunge	1,400
Taragunge and Narrail	500
Jhenidah and Borae	1,000
Ditto to Magura	500

but many of these perished from the drought during the summer, and afterwards from the floods.

A nursery garden has also been established at the Sudder station, in which 3,525 indigenous fruit trees have been planted. This work was only taken up in July last.

16. *Setarampore khal bridge, on the Taragunge and Narrail road.*—This is to be an iron-girder, screw-pile bridge of three spans of 30 feet each. The greater part of the earthwork approaches has been completed, and the iron-work for the bridge has been delivered at site.

17. *Station roads.*—The sum of Rs. 1,100 was expended in repairs to station roads at Jhenidah, Magura, Narrail, Khoolna, and Bagirhat, and the work was carried out under the immediate supervision of the different sub-divisional officers.

18. *Village roads.*—The sum of Rs. 15,949 has been expended on village roads in the district, for which the following work has been done, viz.—

Sudder sub-division.—Five important roads, aggregating 17 miles, have been repaired and one masonry culvert of two-feet span constructed at a cost of Rs. 1,800.

Jhenidah sub-division.—Thirteen old roads have been repaired, and one new road and seven temporary bridges constructed at a cost of Rs. 2,112.

Magura sub-division.—Twenty-three old roads have been repaired, and three new ones constructed, as also four temporary bridges, at a cost of Rs. 2,000.

Narrail sub-division.—Twenty-one old roads have been repaired, and 26 new ones constructed, as also four temporary bridges, at a cost of Rs. 2,393.

Khoolna sub-division.—Sixteen old roads and 11 temporary bridges have been repaired ; five new roads and 58 temporary bridges have been constructed. The jungle has also been cleared for a portion of the towpath between Afra and Khulna. These works have cost Rs. 2,682.

Bagirhât sub-division.—Eleven old roads and 27 temporary bridges have been repaired, and 11 new roads and 7 bridges constructed, at a cost of Rs. 4,961.

19. In the budget-estimate a sum of Rs. 19,500 was allowed for village roads; the expenditure was, however, only Rs. 15,949. This was owing partly to not being able to expend the whole of the grant in the Khulna sub-division, and also being obliged to curtail the expenditure in other sub-divisions to make up the loss sustained in the income by the withdrawal of the cess on houses, consequent on the introduction of the license-tax. Most of the village roads have been personally inspected either by the sub-divisional officers or by some of the members.

20. I now proceed to state briefly the proposed road-cess operations for the ensuing year 1879-80, as required by Government circular No. 50, dated 23rd July 1873.

21. The expected income from cesses leviable under the Act and from other sources, is estimated at Rs. 1,04,609, of which sum it is proposed to expend Rs. 18,868 on original works, and Rs. 58,647 on maintenance and repairs. The sum last-mentioned includes Rs. 16,000 allotted to village roads.

22. The principal works for execution are the following :—

(*a*) The existing roads (which are exclusive of the station roads), 356 miles in length, will be repaired and kept in order.

(*b*) Three and a quarter miles of the Jessore and Kalligunge road will be raised and widened, and 2½ miles of old metalling will be thoroughly renewed.

(*c*) Three and a half miles of the Polughât and Dodaria road will be raised and widened, and a masonary culvert constructed of 4-feet span.

(*d*) Portions of metalling will be renewed on the following roads:—

Jessore to Afra.
Singhia to Bausontea.
Station road, beyond municipal limits.
Jessore to Kalligunge.
Kallygunge to Khalispore.
Jhenidah to Borae.

(*e*) The iron screw-pile bridge of 3 spans of 30 feet each, over the Setarampore khal, on the Taragunge and Narrail road, will be completed.

(*f*) The existing bridges and culverts in the different sub-divisions will be repaired to the extent of the budget allotments, aggregating Rs. 5,252.

(*g*) Three inspection bungalows will be built at Afra, Keshabpore, and Kotechandpore.

(*h*) New village roads will be constructed and the old ones kept in repair.

23. A statement is herewith appended, showing the meetings held by the district and branch committees for the cess-year 1878-79, as per form referred to in Bengal Government Resolution No. 395A, dated 15th May 1877, from which it will be seen that the percentage showing attendance of members has been, on the whole, fairly satisfactory.

24. All the sub-divisional officers in the district displayed great interest in the welfare of their respective sub-divisions by actively supervising the construction and repairs of the village roads situated therein; and the undermentioned gentlemen also deserve prominent notice for the active interest taken by them in the working of the road-cess operations.

Jhenidah sub-division.

Messrs. William, and R. F. Stevens.	Baboo Srinath Roy.
Mr. Alexander Sherriff.	,, Hurronath Chatterjee.

Babu Taruck Chunder Chatterjee.

Magura Sub-division.

Mr. C. Selly.	Mr. J. Oatts.
,, T. Slatter.	,, C Meares.
Baboo Jogendra Sunker Chakroburty.	Baboo Umesh Chunder Sunyal.

25. The sub-divisional officer of Jhenidah reports that "three meetings of the branch committee were held during the year. The sub-divisional officer as Chairman was of course present at each meeting, but of the members, Mr. R. F. Stevens attended two meetings; Srinath Roy one meeting; Hurronath Chatterjee one meeting; Kedarnath Buxi one meeting. The other members, viz. Mr. W. Sheriff, Taruck Nath Chatterjee, Chunder Kanto Roy, and Kessub Chunder Banerjee did not attend at all.

"But although they did not attend, Mr. W. Sherriff and Taruck Nath Chatterjee were most useful in superintending and carrying out the road works entrusted to them; and, as stated in paragraph 12 of my report, are deserving of mention. Baboos Chunder Kanto Roy and Kessub Chunder Banerjee took no part in the operations of the year. I would not recommend their removal, as their term of membership will expire in August; a better selection can then be made."

26. The sub-divisional officer of Magura reports that "six meetings were held during the year; the members of the branch road cess committee evinced great interest in the welfare of the roads entrusted to them, and they always shewed a marked zeal in attending the committees Mr. Selly was the Vice-Chairman of the branch road cess committee, and he often took an interest for all the works entrusted to him, and for.

general improvement. Baboo Sriram Gangooly, the canoongoe, had the accounts of the money, and he was always found willing in the execution of his work. Baboo Kally Prosono Mukerjee, the road cess sub-overseer attached to this sub-division, always evinced zeal and promptitude in executing orders, and proved himself to be useful. He rendered good service during the recent flood."

27. The sub-divisional officer of Narrail reports that "eight meetings of the branch committee were held during the year, at one of which only there was no quorum. Average number of members present at each meeting was 5, 25. Two members did not attend any of the meetings. All but Baboo Rai Churn Roy took interest in the work of committee, by either undertaking the construction or repairs of village roads or bridges, or superintending them when entrusted to village headmen." Baboo Borada Dass, sub-deputy collector and Vice-Chairman, inspected nearly three fourths of the village roads and bridges constructed or repaired during the year. The members also made suggestions for the consideration of the committee for the improvement of village communications; but, as might naturally be supposed, they took more interest in works by which they were personally benefited. I am sorry to report of no gentleman, European and native, who have rendered me special assistance in carrying out village road operations.

"The road-cess, as observed in previous reports, continues to enjoy the confidence of the people in general. The people have understood that the money advanced by them in the shape of road-cess is only spent for their good. The fact that during the sittings of the committee people from all parts of the sub-division flock in with petitions for improvements of their roads does simply prove that they have realized the importance of the cess."

28. The sub-divisional officer of Khulna reports that seven meetings of the branch committee were held during the year, in all of which there was a quorum, that the official members were present and attended most of the meetings. In regard to the non-official members, the Rev. G. C. Dutt and Baboo Borada Charran Sen have attended the meetings with more regularity, and have taken a greater interest in the works and shewn more energy than the others.

29. The sub-divisional officer of Bagirhat reports that eight meetings of the branch committee were held during the year, in one of which only, held on the 2nd August last, there was no quorum. In the others the average number of members present was seven, which shows a decided improvement on the attendance of the previous year. The members seem to have taken much interest in the work of the committee; some of them undertook the supervision of the construction and repairs to the village roads.

30. The Executive Enginer did not attend any of the road-cess meetings during the year under report, though notices were invariably sent to him. It was found during the year that notices of branch meetings were not always sent to him; this has now been rectified.

31. *Floods of* 1879.—The floods, which were about one foot above the average of the previous four years; and about 2½ feet below that of 1871, passed over the following roads:—

(1) Jessore and Kalligunge road, 15th and 16th miles.
(2) Chowgatcha to Trimohoni, portions of most of the miles between Chowgatcha and Jingargacha, a distance of 16 miles.
(3) Taragunge to Narrail, from 12th to 19th miles.
(4) Jessore to Salkea road, from 9th to 16th mile. Each mile was affected more or less.
(5) Salkea to Nohatta. Ditto ditto.
(6) Nohatta to Mohamedpur. Ditto ditto.
(7) Magura to Benodepur. Ditto ditto.
(8) Benodepur to Singhea. Ditto ditto.
(9) Benodepur to Mohamedpur. Ditto ditto.
(10) Ghorakhalli to Singhea. Ditto ditto.
(11) Khujura to Magorah. The whole of this low-level road, 20 miles in length, was submerged except about 3½ miles.
(12) Jhenidah and Magurah road: small portions of the 5th, 6th, 7th and 8th miles.

With the exception of the destruction of three temporary bridges on the Jhenidah and Magurah road, no other damage has occurred anywhere to the works. Every precaution, was taken by timely cuts by the road establishments to relieve the bridges.

32. The collections during the year have not averaged so good a percentage as usual, being only 96½ per cent as against 97¼ in the previous year. This is, however, sufficiently accounted for by the heavy floods which occurred in August and September, and which for some time placed in jeopardy both the aus and amun crops. I regret also to have to report that a discrepancy of Rs. 1,455 has been found out between the balance shown in the quarterly return ending 30th September 1879 and that obtained from the towji accounts. A most searching enquiry is being made into the accounts from the very commencement of the road-cess system, and about Rs. 850 have been already accounted for. The discrepancy has arisen partly through mistakes in entering the challans into the accounts, and partly through the negligence, if no stronger term is subsequently found to be necessary, of the road-cess nazirs and the towjid amlas. The fund will suffer no loss, inasmuch as the accounts that may be found on enquiry to have fallen short, and any misappropriation that may be proved, will be recovered either from the nazirs and amlas concerned or from the security of the former.

33. Mr. C. H. Burt, the District Engineer, continues both to deserve and to enjoy the full confidence of the committee, and he has been well supported by his engineering

establishment, among whom I would specially select for commendation Baboos Uma Churan Ghose and Panchcorry Banerjee the sub-overseers in charge—the former of the Sudder and Narrail sub-divisions, the latter of the Jhenidah sub-divisions. Also Baboo Woomesh Chunder Sen who superintended the execution of the two large masonry bridges on the Narrail road. I also agree with the remark of the sub-divisional officer of Magurah about Baboo Kali Prosono Mukerjee, the sub-overseer at Magurah. The office hands have also worked well, and the Accountant, Baboo Mohindro Chunder Sen, is deserving of special mention.

Sub-Committee report on examination of the Annual Account, under section 88 of the Act, dated 18th December 1879.

E. H. RUDDOCK, ESQ. ... ... *Chairman.*
R. J. F. STEVENS, ESQ ... ...
BABOO DAKINA PROSAD BOSE ... } *Members.*
„ JADOO NATH CHOWDARY ...

WE, the sub-committee appointed to examine the accounts of the district road fund for the cess-year 1878-79, beg to lay our report before the district road cess committee.

We have carefully compared the accounts of the whole year, month by month, with the quarterly returns and vouchers in full detail, and found them correct.

We have also compared the actual receipts and expenditure with the budget-estimate, and found that they, in most cases, approximate closely.

Rs. 6,532-1-5 have been expended in original works above the budget-estimate, which were transferred from under the head of "Repairs" with the sanction of the Commissioner.

Rs. 195-9-1 have been expended under the head of "Tools and Plant" above the budget-estimate, owing to the loss in bills of exchange and freight of bringing the Abyssinian tube-wells from England, which was not correctly provided in the budget and that excess expenditure has been covered from the saving of the contingencies.

On "Cess on Lands" Rs. 3,645-6-9 less than the amount estimated were collected. This was owing to the distress of the people in several parts of the district caused by inundation and high prices of food-grains.

Rs. 5,804 were estimated under the head of "House Cess" which was not realized according to Board's instructions, conveyed in their letter No. 7×4A, dated 18th October 1878. Only Rs. 245-12 were realized under this head out of the arrears of the previous year.

E. H. RUDDOCK, *Chairman*,
R. J. F. STEVENS,
JODOO NATH CHOWDARY, } *Members.*
DAKINA PROSAD BOSE,

APPENDIX A.

Abstract of particulars regarding Meetings of District and Branch Road Cess Committees for the cess year 1878-79.

Commissionership.	DISTRICT.	NUMBER OF MEMBERS FORMING COMMITTEE.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting.	NUMBER OF MEMBERS WHO ATTENDED ONLY—						Percentage of average attendance to whole Committee.
									ONE MEETING.		TWO MEETINGS.		THREE MEETINGS.		
		Official.	Non-official.						Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	
Presidency Division.	(a) Jessore District Committee ...	8	13	8	10	8	7	9	1	3	..	1	4	7	27
	(b) Jhenidah Branch Committee ...	1	8	3	3	1	2	3	...	3	..	1	1	...	22·4
	(c) Magurah Branch Committee ..	1	14	4	6	.....	9	1	...	3	...	3	1	4	60
	(d) Narrail Branch Committee ...	3	9	4	8	1	5	2	...	1	...	1	1	6	42
	(e) Khulna Branch Committee ..	4	9	4	7	.....	6·71	...	...	1	1	2	2	2	54
	(f) Bagirhat Branch Committee ..	3	11	5	8	1	7	1	...	1	...	4	3	5	50

(a) With few exceptions the non official members took but little interest in the administration of the fund at their disposal.
(b) The members were perhaps not very regular in their attendance, but many of them took an active interest in the construction and repairs of village roads.
(c) Attendance good: the members have worked well.
(d) Ditto fairly satisfactory.
(e) Ditto ditto
(f) Ditto ditto. Many of the members evinced an active interest by supervising the construction and repairs of village road works.

C. H. BURT,
District Engineer.

E. H. RUDDOCK,
Chairman.

LOCAL.

Report of an Inspection of the Office of the District Road Fund Committee, Jessore, made by Mr. F. Moore, Deputy Examiner of Public Works Accounts, Bengal, on the 26th May 1879.

(First-class district.)

E. H. RUDDOCK, ESQ., C.S., *Chairman.*

F. B. TAYLOR, ESQ., C.S., *Vice-Chairman.*

THE office was last inspected by me on the 15th April 1878.

2. Mr. Ruddock succeeded Mr. W. H Page, C.S., as Chairman, on the 16th January 1879. Mr. Taylor succeeded Mr. T. M. Kirkwood, C.S., as Vice-Chairman, on the 18th May 1878.

3. The branch committees continue to render their monthly accounts with punctuality; but the accounts are based on expenditure as exhibited by cheques cashed, and not as exhibited by cheques drawn and issued: in other words, cheques are not accounted for until they are cashed by the sub-treasuries. This is incorrect. In future all cheques should be entered in the accounts for the month during which they are issued, whether they be cashed or not.

4. A sub-committee was appointed, for the first time, for the audit of the accounts for the cess-year 1877-78, and the system of audit may now be considered complete and satisfactory.

5. As already mentioned last year, the statement of revenue assessed and realized is not kept up. All the other matters brought to notice in the last inspection report on the office have received careful attention, and the accounts and books are correct, complete, and in excellent order.

DISTRICT ENGINEER'S OFFICE.

6. Mr. C. H. Burt, C.E., continues as District Engineer.

7. The arrangements in connection with the work of the district remain unchanged. The accounts and books were carefully inspected and found to be satisfactory in all respects.

8. Baboo Mohind Chunder Sen, Head-Clerk and Accountant, performs the work of both the Vice-Chairman's and District Engineer's offices with care and ability.

F. MOORE,
Deputy Examiner, P. W. Accts., Bengal.

JESSORE,
The 26th May 1879.

No 259D, dated Fort William, the 30th May 1879.

Memo. by—F. R BOYCE, ESQ., Examiner of P. W. Accounts, Bengal.

COPY of the above forwarded to the Chairman of the District Road Fund Committee, Jessore, for information and guidance.

No. 48, dated Jhenidah, the 23rd February 1880

From—W. E. DEARE, ESQ., Deputy Magistrate, and Chairman of the Branch Road Cess Committee, Jhenidah,

To—The Magistrate and Chairman of the District Road Cess Committee, Jessore.

WITH reference to your No. 123R, of the 20th instant, I beg to submit the explanation required by the Commissioner. The fourth meeting was not held, because there was no business to place before the committee.

2. The sum placed at the disposal of the branch committee is small: during 1878-79 the amount was Rs. 2,000. The first meeting of the year, held on the 28th October 1878, distributed the whole amount.

3 The village roads in this sub-division extend over many miles of country, connecting distant places, and are in fact more main traffic lines than village roads. The small amount allowed is almost all disbursed at once in keeping existing lines in repair; and it is seldom the committee can spare even Rs. 300 for new works. The work to be done during the year is settled at the first meeting; the grant is distributed; and by the end of March the works undertaken are completed, and there is nothing more for the committee to do at the other three meetings.

4. During the year 1878-79 a second meeting was called for the 22nd May, but no one attended. A third meeting was called for the 3rd June: only two members and the Chairman were present. The business done was the selection of a representative member. There was no business needing the attention of a fourth meeting, and I did not consider it necessary to call the members together merely to show in the returns that four meetings were held as required by law.

No. 6—PART I.

Explanatory Note to accompany the Road Cess Annual Accounts of the district of Jessore for the cess-year 1878-79, *under paragraph* 14 *of the Instructions from Government for the preparation of the annual accounts circulated with Government No.* 8A, *dated 4th February* 1878, *of the Public Works Department.*

Sub-head.	Sanctioned as per budget-estimate.	Expenditure as per annual account.	Excess.	Deficiency or saving.	Explanations.
General Management.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
Collection establishment ...	4,000 0 0	3,371 12 1	.....	628 3 11	1. This saving is due to the establishment having been paid for only 11 months. The extra month in the year was disbursed in advance, as shown in accounts for 1877-78.
Collection contingencies ...	300 0 0	516 6 11	216 6 11	.....	2. This increase is due to the extra charge for office-rent, the office having been removed from the Government to a private building.
Committee contingencies...	2,100 0 0	1,871 16 9 193 10 0 1,765 4 9*	.....	334 11 3	3. This decrease is due to the saving effected in the purchase of office stationery and printed forms.
Original work	28,502 0 0	35,084 1 6	6,582 1 5	.....	4. The Commissioner's sanction was obtained for the transfer of various sums amounting to Rs. 6,985 from under the head of "Repairs" to "Original works." This amount, added to the budget allotment, shows a saving of Rs. 453 on the different estimates.
Repairs	58,883 0 0	43,756 8 8	.....	15,126 9 4	5. Do. do. do. Rs. 6,985 has been transferred from "Repairs" to "Original works." If this amount is therefore deducted from the budget allotment, there will be a saving of Rs. 8,142, which has been effected in the item of village roads, and also from several estimates for repair works.
Engineering establishment	17,982 0 0	16,536 8 5	.....	1,445 7 7	6. This saving is due to the establishment having been paid only for 11 months as explained above.
Tools and plant	1,800 0 0	1,895 9 11	195 9 11	.....	7. This increase is due principally to the freight on Abyssinian tube-wells and loss on bills of exchange for do.; repair to shaft of pug-mill, and freight on tools and plant, not provided for in the budget estimate.

* Miscellaneous P. form.

C. H. BURT, C.E., *District Engineer.* E. H. RUDDOCK, *Chairman.*

No. 70R, dated Jessore, the 12th December 1879.

From—BABOO JODU NATH CHOWDRY, Deputy Collector, in charge of Road Cess Department, Jessore,

To—The Chairman of the District Road Cess Committee, Jessore.

WITH reference to your letter No. 50R, dated the 9th instant, I have the honor to inform you that the cause of deficiency of collection of Rs. 3,645-3-9 is that, at the latter end of the year high prices of food-grains ruled throughout the district, and several parts of the district were flooded, which caused great distress among the people, and the proprietors generally complained that they could not realize their rents and road, cess and public work cess from the ryots.

Sub-Committee's Report on Examination of the Annual Account, under Section 88 of the Act, Dated 18th December 1879.

E. H. RUDDOCK, ESQ., *Chairman, for Vice-Chairman.*
MR. R. J. F. STEVENS,
BABOO DOKHINA PROSAD BOSE,
,, JODU NATH CHOWDRY, } *Members.*

WE the sub-committee appointed to examine the accounts of the district road fund for the cess-year 1878-79, beg to lay our report before the district road cess committee.

We have carefully compared the accounts of the whole year month by month with the quarterly returns and vouchers in full detail and found them correct.

We have also compared the actual receipts and expenditure with the budget-estimate, and found that they in most cases approximate closely.

Rs. 6,532-1-5 have been expended in "Original works" above the budget-estimate, which were transferred from under the head of "Repairs" with the sanction of the Commissioner.

Rs. 195-9-1 have been expended under the head of "Tools and plant" above the budget-estimate, owing to the loss in bill of exchange and freight of bringing the Abyssinian tube-wells from England, which was not correctly provided in the budget, and that excess expenditure has been covered from the saving of the contingencies.

"On Cess on Lands" Rs. 3,645-6-9 less than the amount estimated were collected. This was owing to the distress of the people in several parts of the district caused by inundation and high prices of food-grains.

Rs. 5,804 were estimated under the head of "House cess" which was not realized according to Board's instruction conveyed in their letter, No. 784A, dated 18th October 1878. Only Rs. 245-12 were realized under this head out of the arrears of the previous year.

E. H. RUDDOCK,
for Vice-Chairman.

No. 1137G, dated Jessore, the 24th December 1879.

From—C. M. W. BRETT, ESQ., Covenanted Deputy Collector in charge,

To—The Chairman of the District Road Cess Committee, Jessore.

IN reply to your No. 51R, of the 9th instant, enquiring why the actual receipts under head of one per cent. road cess during 1878-79 have fallen short of the estimated amount under that head by Rs. 65-14-3, I have the honor to inform you that in consequence of fresh settlement of certain estates, remission of land revenue of some, and default of some other estates, the receipts of the last year on which the budget-estimate was based were less than those of the previous year.

No. 27, dated Berhampore, the 19th January 1880.

From—H. MOSLEY, ESQ., Chairman of the Moorshedabad District Road Cess Committee,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit, under section 89 of the Road Cess Act, the following annual report on the operation of the Moorshedabad district road fund during the past year, from 1st October 1878 to 30th September 1879.

2. The estimate of income and expenditure for the year under report was passed by the committee at a meeting held on the 28th August 1878. The receipts, including the balance of previous year, were estimated at Rs. 97,422, and the expenditure at Rs. 92,955. The actual receipts were Rs. 1,00,730-6-11, inclusive of the balance of the

previous year, and the actual expenditure amounted to Rs. 96,693-11-8. The details of the actual receipts mentioned above are as follows :—

	Rs.	A.	P.
Unexpended balance of previous year	16,850	1	5
Cess on lands	74,482	11	3
Do. on houses	142	13	6
One per cent. road-cess	412	15	8
Receipts from dâk bungalow	210	8	0
Fees and forfeitures	170	8	10
Miscellaneous	1,090	12	10
Recovery of advance by cash and work done ...	7,357	15	5
Deposit	50	0	0
Total ...	1,00,768	6	11
Deduct ferry tolls received in excess which had to be refunded	38	0	0
Actual Receipts ...	1,00,730	6	11

And the details of the actual expenditure are as noted below—

Establishment and contingencies for general management	4,045	2	6
Maintenance of dâk bungalow	165	7	0
Original works	3,887	7	6
Repairs	70,772	10	8
Executive establishment	11,578	6	9
Tools and plant	894	9	3
Advances made	5,850	0	0
Actual Expenditure ...	96,693	11	8

3. The committee resolved, at a meeting held on the 26th October 1878, to levy the maximum rates of cess during the year

4. The main roads of the district are 47 in number and 647¾ miles in length, for the maintenance and construction of which, the repairs of the southern drainage cut, village roads, and other district works, Rs. 83,272 were originally allotted; Rs. 56,020 being the estimated cost of repairing and maintaining the main roads and bridges; Rs. 15,000 being allotted to village roads; and Rs. 400 being sanctioned for tools and plant, the remainder, Rs. 11,852, being for work establishment. In addition to the above, Rs. 170 were allotted for the Berhampore dâk bungalow.

5. The original works constructed during the year were 11 culverts varying from 2 feet up to 9-feet span, at a cost of Rs. 3,780-15-1, and an inspection hut on the Barromassia road, at a cost of Rs. 415-4-6. Besides these, 339,226 bricks were manufactured at a cost of Rs. 1,430-15-11 for the construction of bridges and culverts which will be taken in hand next year.

6. Of the 47 roads, 46 were more or less repaired, and the cost incurred amounted to Rs. 54,727-8-2. The Berhampore dâk bungalow was also kept up by the committee at a cost of Rs. 165-7-0 up to the month of June 1879, when, by the order of Government, the charge and the maintenance of it was made over to the Executive Engineer, Nuddea Rivers Division.

7. Almost all the roads on the eastern and northern parts of the district have suffered very considerably from the high floods that we had this year of the Jellinghee, Bhoyrub, Bhagiruttee, and Ganges.

8 A sum of Rs. 15,000 was originally allotted for the repairs of the village roads during the year, being 15·4 per cent. on the estimated income of the year, and of this Rs. 14,286-3-3 were spent as follows, partly through the agency of the branch committees, and partly through private parties and other members of the district committee :—

	Rs.	A.	P.
Expenditure on village roads under Sudder and Lalbagh sub-division	4,907	9	3
Expenditure on village roads under Kandee branch committee	1,986	11	0
Ditto ditto Choa ditto ...	2,810	5	0
Ditto ditto Jungipore ditto ...	1,909	0	3
Ditto ditto Rampore Hât ditto ...	2,672	9	9
Total ...	14,286	3	3

9. A greatly increased interest was shown during the year under review by the local members of branch commitees—zemindars, planters, and others—in the expenditure of the allotments for village roads, over 95 per cent. of the whole allotment having been expended during the year, against 87 per cent. of the same allotment during the previous year. The Choa branch committee still stands foremost in the interest taken in these allotments owing to the number of European planters in the eastern part of the district; but a very greatly increased interest was also shown by the other branch committees. The district committee found that the large sum of Rs. 15,000 was the utmost they could afford to allot for village roads, having due regard at the same time to the interests of the other main roads of the district. The general distribution of the allotments for village roads and their expenditure are believed to have given general satisfaction to the villagers concerned, and, as a result of the working of the Road Cess Act, is beginning to be more appreciated in the more remote parts of the district.

53 village roads were raised and repaired in the Sudder and Lalbagh sub-division.
16 ditto under Kandee branch committee.
29 ditto do. Choa ditto.
19 ditto do. Jungipore ditto.
28 ditto do. Rampore Hât ditto.

10. In the collection of road cess no improvement is observable, chiefly owing to the arrears from the estates in the Court of Wards and to some revenue-free estates. The percentage of collection to demand (90·67) is below the mark.

11. At some of the meetings difficulty was experienced in securing the attendance of non-official members who live at a distance from head-quarters, but those who live in or about the head-quarters take a great deal of interest in the working of the Road Cess Act.

12. The table A annexed herewith shows the number of meetings held, and the particulars of the attendance of members of district and branch committees during the year under review.

13. The accounts for the year 1878-79 have been examined and audited by a sub-committee consisting of the Vice-Chairman and three members appointed under section 88 of the Road Cess Act to examine them.

14. The District Engineer performed his work to the satisfaction of the committee, and the establishment under him appears to have worked well with the exception of two men. Baboo Haran Chunder Chatterjee, overseer, failed completely to give satisfaction in the discharge of his duties, and his services were dispensed with, when he accepted an appointment under the Collector of the Midnapore district. Baboo Radha Nath Sen works well, but requires to be closely looked after.

15. At a meeting held on the 12th July 1879, an estimate was prepared for the coming year in which the total income, including the estimated balance, was set down at Rs. 80,712 and the expenditure Rs. 80,712 also. Rs. 6,600 and Rs. 41,738 were allotted, being estimated cost of constructing and repairing main roads and bridges, Rs. 15,000 being allotted for the village roads, and Rs. 5,801 being sanctioned for planting trees and special survey establishment.

16. However, since this budget was framed, the damage done by the late floods to certain roads in the north and east of the district, as also the transfer of Rampore Hât sub-division from this district, and receipt of Burwa thana from the Beerbhoom district, will necessitate an entire revision of the budget which is now under preparation.

Abstract of Particulars regarding Meetings of Sudder and Branch Committees for the cess-year 1878-79.

MOORSHEDABAD DISTRICT ROAD FUND.

Explanatory Memorandum of the discrepancies of the receipts and expenditure, to accompany the annual accounts for the year 1878-79.

ITEMS.	Amount as per budget estimate.	Collection during the year.	Difference.	EXPLANATION.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	
Cess on lands	78,500 0 0	74,482 11 2	4,017 4 10	About Rs. 4,000 is due from estates under the Court of Wards. The balance will not be realized until the Government revenue due from these estates are fully paid in.
Cess on houses	2,800 0 0	142 13 6	2,657 2 6	The realization of cess on houses has been postponed on the introduction of the license tax.
Fines	100 0 0	...	100 0 0	No fine has been realized during the year.
Miscellaneous	200 0 0	1,090 12 10	890 12 10	The receipt of Rs. 1,000 on account of the proportion of the cost of joint establishment for collecting road and public work cesses was not estimated for in budget, hence the difference.
Establishment on collection	3,656 0 0	3,433 11 8	222 4 4	The decreased expenditure is chiefly owing to the salary of September 1879 being paid in October 1879. The appointment of a nazir at Rs. 15 was sanctioned by the committee, *vide* resolution No. 6 of meeting held on the 27th May 1879. The committee, at the meeting on the 28th October 1878, raised the pay of the Vice-Chairman's clerk by Rs. 5. An increase of Re 1 to the salary of the peon attached to the Vice-Chairman's office was sanctioned by the committee, *vide* resolution No. 7 of the meeting held on the 17th February 1879.
Constructing a culvert at Latial, on Baromassia road.	738 0 0	777 1 3	40 1 3	A sum of Rs. 207-13-4 was sanctioned in addition to budget allotment, *vide* proceedings of the meeting held on the 21st November 1879.
Constructing one inspection hut on Baromassia road.	405 0 0	415 4 6	10 4 6	The excess expenditure was approved by the meeting on 21st November 1879.
Constructing one culvert on old Calcutta road.	163 0 0	163 15 3	0 15 3	Ditto ditto.
Constructing three culverts at Rampore hât.	516 0 0	573 11 6	57 11 6	Ditto ditto.
Manufacturing bricks on Baromassia road.	833 0 0	1,084 11 2	251 11 2	Ditto ditto.
Manufacturing bricks on Ramporehât and Narsinpore road.	918 0 0	... ..	918 0 0	Bricks to the value of Rs. 749-10-9 were manufactured during the year, but transferred to other works.
Erecting a tal-wood bridge over southern drainage cut.	.....	235 11 6	235 11 6	A sum of Rs. 235 was sanctioned for this bridge by meeting on 27th May 1879.
Constructing a culvert on Patkabari road.	.....	975 1 10	975 1 10	Rs. 921 and Rs. 51-1-6 were sanctioned by the committee at their meetings held on the 27th May and 21st November 1879, respectively.
Berhampore station roads	1,111 0 0	1,605 10 0	494 10 0	A sum of Rs. 554-10 was sanctioned in addition to budget allotment, *vide* proceedings of meeting held on 21st November 1879.
Ramporehât road	2,091 0 0	2,468 14 0	377 14 0	This expenditure was approved, *vide* proceedings of meeting on 21st November 1879.
Choonakhali to Jellinghee road ...	1,705 0 0	2,099 13 11	394 13 11	Rs. 400 was sanctioned in addition to budget allotment, *vide* proceedings of meeting held on the 12th July 1879.
Radharghat to Kullee road ...	1,419 0 0	1,992 8 2	573 8 2	Rs. 300 and Rs. 236-8-2 were sanctioned in addition, *vide* proceedings of meetings held on the 12th July 1879, and 21st November 1879, respectively.
Jungypore to Moorarce road	1,972 0 0	2,048 8 2	76 8 2	Additional sum of Rs. 400 was granted, *vide* resolution No. 2 of meeting on 12th July 1879.
Azimgunge to Nalhati road ...	2,108 0 0	2,124 8 3	16 8 3	The excess expenditure was approved, *vide* proceedings of meeting on 21st November 1879.
Puranadamaree to Murcha road ...	2,838 0 0	3,031 7 6	193 7 6	Ditto ditto.
Gorabazar to Mankurah road ...	90 0 0	146 11 0	56 11 4	Ditto ditto.
Berhampore to Lokenathpore road ...	1,328 0 0	1,582 9 0	254 9 2	Rs. 250 and Rs. 4-9-2 were sanctioned in addition to budget allotment, *vide* proceedings of meetings held on 12th July and 21st November 1879.
Ramnagur to Dhoolian road	2,301 0 0	2,925 0 0	624 0 0	The excess expenditure was approved, vide proceedings of meeting on 21st November 1879.
Dewanserai to Murcha road	660 0 0	665 11 0	5 11 0	Ditto ditto.
Jungipore to Khamrah ,, ...	311 0 0	316 13 3	5 13 3	Ditto ditto.
Peertollah to Bhaptha ,, ...	378 0 0	444 7 0	66 7 0	Ditto ditto.
Baromassia to Jellinghee road ...	630 0 0	717 14 3	87 14 3	Ditto ditto.
Gorabazar to Patkabari road ...	1,416 0 0	1,810 6 4	393 6 4	Rs. 300 and Rs. 72-6-4 were sanctioned by the Committee in addition to budget allotments, *vide* proceedings of meetings on 12th July and 21st November 1879.
Dobaparah to Dowgram road ...	893 0 0	1,059 0 6	166 0 6	The excess expenditure was approved by the meeting on 21st November 1879.
Ramporehât Muraipore road ...	315 0 0	369 3 9	54 3 9	Ditto ditto.
Punchanund to Gobrahnullah road	801 0 0	876 1 11	74 1 11	A sum of Rs. 80 was sanctioned in addition to budget allotment, *vide* proceedings of meeting on 12th July 1879.
Purandarpore to Goas road	600 0 0	750 0 6	150 0 6	Rs. 150 and Rs. 0-0-6 were sanctioned in addition to budget allotment at meetings on 12th July and 21st November 1879, respectively.
Furreedpore to Godhunpara road ...	460 0 0	561 15 6	101 15 6	The excess expenditure was approved by meeting on 21st November 1879.
Village roads under Sudder and Lalbagh sub-divisions.	4,750 0 0	4,907 9 3	157 9 3	A further sum of Rs. 165 was sanctioned, *vide* resolution No. 9 of meeting on 27th May 1879.
Village roads under Choa Branch Committees.	2,250 0 0	2,810 5 0	560 5 0	A further sum of Rs. 600 was sanctioned, *vide* resolution No. 4 of meeting on 17th February 1879.
Bunding up drain and bridge on account of flood.	.....	100 8 3	100 8 3	This was done to prevent flood-water coming into the station.
District Engineer's salary	5,400 0 0	5,500 0 0	100 0 0	The increased amount of pay at Rs. 50 per mensem, sanctioned by the committee at the meeting held on 13th July 1878, for July and August, was paid in October 1878, hence it shows an excess expenditure to budget allotment.

T. BEATTY, *Vice-Chairman.*

Report by the members of the Moorshedabad District Road Cess Committee, appointed to examine the Road Cess Accounts under section 88 of the Road Cess Act.

WE the undersigned members of the district road cess committee appointed under section 88 of the Road Cess Act, to examine the annual accounts of the Vice-Chairman, for the road-cess year 1878-79, beg leave to report that we have examined the said accounts, and found them to be correct.

The statement of total outstandings due at the end of the cess-year 1878-79, and the general abstract showing the total value of materials at site of different works at the end of the cess-year, were also received by us, as recommended by the sub-committee appointed to examine the accounts of 1877-78.

J. W. STOCKS,
E. GALLOIS,
SHAMA CHURN BHUTTOR, } *Members.*
T. BEATTY, *Vice-Chairman.*

BERHAMPORE, *the 22nd December* 1879.

No. 15PR, dated Alipore, the 10th February 1880.

From—F. B. PEACOCK, Esq., Offg. Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, in the Public Works Department.

I HAVE the honor to submit the annual accounts of income and expenditure of the road funds in the several districts of this Division for the past cess-year ending the 30th of September 1879, together with copies of administration reports received from the Chairman of the different road cess committees as noted in the margin.

24-Pergunnahs.
Letter No. 91R, dated 20th January 1880.
Nuddea.
" No. 335RF, dated 3rd February 1880.
Jessore.
" No. 98R, dated 19th January 1880.
Moorshedabad.
" No. 27, dated 19th January 1880.

2. The following statement shews the number of general meetings which were held during the year by the road cess committees in each district :—

Districts.	Number of meetings.
24-Pergunnahs	7
Nuddea	7
Jessore	10
Moorshedabad	9

3. In all the district accounts the balances at the close of the previous cess-year, as exhibited in the annual accounts published in the *Calcutta Gazette*, have been brought forward.

4. In all the district accounts, with the exception of those received from Nuddea, the totals furnished in the annual statements agree with the aggregate of the figures given in the four quarterly returns. The Chairman of the Nuddea district has been requested to submit an explanation of the discrepancies which were found to exist, and this will be forwarded in due course.

5. The following table shews the total cess, &c., realized and income available for expenditure in each district during the year under report as compared with the previous year :—

Districts.	Total receipts. 1877-78.	Total receipts. 1878-79.	Increase.	Decrease.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
24-Pergunnahs	1,50,854 8 8	1,43,257 15 6	.....	10,096 9 2
Nuddea	84,054 7 9	1,05,476 10 5	21,422 2 8	.....
Jessore	1,21,627 3 4	1,16,616 13 6	.....	5,010 5 10
Moorshedabad	94,295 12 8	1,00,730 6 11	6,444 10 3	.....

6. The comparative decrease in the 24-Pergunnahs district is chiefly attributable to the large balance of Rs. 28,258-13-5, which remained in hand at the close of the year 1876-77, against Rs. 16,141-12-7 only at close of the year 1877-78.

7. The increase in the Nuddea district is due to the grant of Rs. 25,000 sanctioned by Government from the provincial fund in aid of the local fund.

8. The decrease in the Jessore district is chiefly attributable to short collections. It is reported that at the end of the year especially the price of food-grains ruled high throughout the district, several parts of which were then flooded, causing great distress among the people. The consequence was that there was a general complaint from landlords that they could not realize their rents and road and public works cesses from the ryots.

9. The increase in the Moorshedabad district is due to the fact that in the previous year the cess was levied at 1½ pice per rupee only, instead of at the rate of two pice, which has been levied in the year under report.

10. The following table shews the total expenditure incurred in each district during the year, and the financial condition of each of the funds at the close of the year :—

DISTRICTS.	Total income, including the balance from the last year.			Total expenditure.			Balance in hand at the close of the year.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
24-Pergunnahs	1,43,237	15	8	1,29,807	6	9	13,430	8	9
Nuddea	1,05,476	10	5	91,856	14	1	13,619	13	4
Jessore	1,16,816	13	6	1,05,840	2	11	10,776	10	7
Moorshedabad	1,00,730	6	11	96,693	11	8	4,036	11	3

11. A statement shewing particulars regarding the attendance of members at the meetings of district and branch road committees in the several districts of this division is appended.

12. *Working of the District Committee.*—The members of the district committee in the 24-Pergunnahs were on the whole regular in attending the meetings, and took an interest in the matters brought before them in all points relating to the improvement of communications in the district

13. In Nuddea the district committee worked generally satisfactorily during the year under review. Altogether seven meetings were held by them. At one the number requisite to form a quorum was not in attendance, but the others were largely attended. The majority of the members are stated to have taken interest in their work, as proved by their taking part in supervising the works executed in the district.

14. The district committee in Jessore met ten times as stated above : three at the beginning of the year, to pass the annual accounts ; four times in the middle, to consider various estimates, sanction appointments in their establishments, and for the transaction of miscellaneous business ; and three times towards the close, to pass the budget estimates for the cess-year 1879-80 and to fix the cess rates. With few exceptions, the non-official members are said to take but little interest in the administration of the fund at their disposal.

15. In Moorshedabad, difficulty was experienced at some of the meetings in securing the attendance of non-official members who live at a distance from head-quarters, but those who live in or about the head-quarters take a great deal of interest in the working of the Road Cess Act. I am afraid that more than this we cannot look for. Natives, as a rule, are opposed to much locomotion, and it is useless to expect them to travel long distances to attend meetings of this kind, in some of which at any rate they personally may not take interest.

16. *Working of the Branch Committee.*—There are seven branch committees in the 24-Pergunnahs, namely, one at each of the sub-divisions of Barripore, Diamond Harbour, Baraset, Barrackpore, Dum-Dum, Busseerhat, and Satkhira. Some only among the members of these branch committees have really co-operated with the sub-divisional officers in carrying out village road works in their neighbourhood.

17. The following memorandum shews the number of meetings held in the branch committees in the district of Nuddea :—

Bongong	...	...	...	...	3
Ranaghat	...	...	...	...	4
Chooadanga	...	...	...	...	4
Kooshtea	...	...	...	...	3
Meherpore	...	...	...	...	4

The number of meetings held by the branch committees at Bongong and Kooshtea falls short of the minimum number fixed by section 54 of Act X of 1871, and this was the case in the first-named in the year preceding that under report. Explanations have been called for from the Magistrate and Chairman as to why the requirements of the law were not complied with by these branch committees. Notwithstanding the small number of meetings generally held by them, the branch committees are stated to have taken much interest in supervising the works entrusted to them, in some instances supplementing the grant made for the roads entrusted to them from their private funds. The branch committee at Meherpore is specially referred to, and of those composing it Messrs. Patrick Smith, Magnaughten, Gibson, Abott, Baboos Jadu Nath Mozoomdar and Brojo Coomar Mullick are specially mentioned in connection with services rendered by them.

18. In Jessore the branch committee at Jhenidah met only thrice, and an explanation has been called for from the sub-divisional officer on the subject, as the same thing happened in 1877-78. The committee at Bagirhat and Narail met eight times each, while those at Magoorah and Khoolnah met six and seven times respectively. The members of these committees generally evinced an active interest in their duties by supervising the construction and repairs of village roads.

19. In Moorshedabad it is satisfactory to notice that a greatly increased interest was shown during the year under review by the local members of branch committes, zemindars, planters and others in the expenditure of the allotments for village roads. The Dhoa branch committee still stand foremost in this respect, but the improvement is noticeable in the other branch committees as well.

20. *Working of the Road Cess system.*—In 24-Pergunnahs, the Chairman writes that he has nothing to add to what was said last year on the subject, viz., that the

road cess is regarded as a tax which cannot be avoided, its redeeming feature being that the proceeds are spent in improving the communications and village roads of the district in which it is levied.

21. The Chairman of the road cess committee of Nuddea writes that the Act is not as popular in the district as one would like to see it, and the dissatisfaction has somewhat increased of late. Even in ordinary years the funds of the committee scarcely suffice to keep up properly existing communications, and it is quite impossible therefore to construct new roads. I must say I think this dissatisfaction, if it is at all general, which I am inclined to doubt, is rather unreasonable. The district is unusually well off in the matter of communications, and it is impossible with a limited income to go on keeping up not only a large number of existing roads, but also adding constantly fresh ones to them. I am altogether against the construction of new roads until a real necessity for them has been established. They not only run away with a great deal of money that might probably be better spent, but they are of course a continually recurring source of expense. It is far better, therefore, to keep useful existing roads in good order than to spend money on original works, until, as I said before, the necessity for them is imperative.

22. In Jessore, the Chairman reports that in those parts of the district where the road cess has been able to do anything, the people are very well contented with the work that is done; and even in those outlying parts, where very little has as yet been done, the people are keenly alive to the benefits of the system and anxious to secure their share of them.

The money granted for village roads has also been a decided boon in many places, and is thoroughly appreciated.

23. In Moorshedabad, it is stated that the distribution of the allotments for village roads and their expenditure is believed to have given general satisfaction to the villagers concerned, and the working of the Road Cess Act is beginning to be more appreciated in the more remote parts of the district.

24. *24-Pergunnahs.*—In the 24-Pergunnahs the receipts during the year under review, including the balance of the previous year, aggregated, as stated above, Rs. 1,43,257-15-6 as noted in the margin, against Rs. 1,59,354 8-8 in the previous year, showing a decrease of Rs. 16,096-9-2. The cause of this decrease has been already explained.

	Rs.	A.	P.
Balance on the 1st October 1879 ...	16,141	12	7
Cess on lands	1,06,857	3	10
,, ,, houses	5	12	0
One per cent. road-cess	131	12	6
Road tolls	13,160	8	0
Fines and forfeitures	1,448	10	10
Miscellaneous	2,812	3	9
Deposit	2,680	0	0
Total ...	1,43,257	15	6

25. The receipts from the cess on lands and houses amounted to Rs. 1,06,857-3-10 and Rs. 5-12 respectively, against Rs. 1,06,954-4 and Rs. 5,823-1 in the previous year, showing a decrease of Rs. 97-0-2 in the cess on lands and of Rs. 5,817-5-0 in the cess on houses. The decrease in the cess on lands being very small, does not call for any special notice. The decrease in the cess on houses was owing to the abolition of the cess, *vide* Government resolution No. 553A, dated 13th May 1879.

26. Of the total sum of Rs. 1,43,257-15-6 at the disposal of the committee, Rs. 25,371-14 or 17-7 per cent. were spent on establishments; Rs. 3,407-4 or 2·3 per cent. on original works; Rs. 97,746-6-9 or 68·2 per cent. on repairs; and Rs. 531-14. or ·3 under the heading of "Miscellaneous" and "Tools and Plant," as well as Rs. 2,750 kept in suspense account, leaving a balance of Rs. 13,450-8-9 at the close of the year.

27. Under the head of "Original Works" the following were the chief undertakings of the year:—

(1) The construction of 14 pipe culverts on different roads in the district for the discharge of rain-water, on which a sum of Rs. 1,618-3-6 was spent.

(2) Reconstruction of a bridge on the 9th mile of the Takee road in the place of an old and dilapidated one which had suddenly given way during the rise of water of the Jaboona in the last rainy season, at a cost of Rs. 1,789-0 6.

28. Of the sum of Rs. 97,746-6-9 expended under the head of "Repairs," the following call for notice:—

(1) Repairing the Barripore road throughout its length, at an outlay of Rs. 16,141-10.

(2) Repairs of the Takee road throughout its length from 1st to 25th mile, on which a sum of Rs. 12,212-5-3 was spent.

(3) Repairing the Culpee road, pucca portion, on which a sum of Rs. 4,970-3-6 was spent.

(4) Repairing the Tacoorpookoor road on which a sum of Rs. 3,345-7-0 was expended.

(5) Repairing the Sonarpore road with a new coating of stone metal at a cost of Rs. 2,938-20.

29. In the year under review Rs. 17,372-10-7 were expended for the improvement and repairs of village roads, against Rs. 12,917-14-11 in the previous year, showing an increase of Rs. 4,454-11-8. This increased expenditure indicates that the committee are fully alive to the importance of spending a fair amount of their income in the improvement of roads of this description.

30. I concur with the opinion expressed by the Chairman regarding the manner in which the District Engineer, Baboo Radhica Persaud Mookerjee, has conducted the duties of his office during the year under review. He not only possesses very considerable professional skill, but his energy is untiring, and his sole aim and object is to make the money placed at his disposal go as far as possible, and to have it spent to the best advantage.

31. *Nuddea.*—The receipts from the cess on lands and other sources of income amounted to Rs. 1,05,476-10-5 during the year under report, as noted in the margin, against Rs. 84,054-7-9, thus showing an increase of Rs. 21,422-2-8.

	1,05,476	10	5

32. Of the net income at the disposal of the committee, Rs. 17,585-1-4, or 16·67 per cent. was spent on establishments; Rs. 8,40 8-9, or 7·97 per cent. on original work; Rs. 61,534-4-2 or 58·33 per cent. on repairs, and Rs. 705-12-3, or ·66 per cent. on staging bungalows and tools and plant, leaving a balance of Rs. 13,619-12-4 at the close of the year, and Rs. 3,623-2-7 being kept in suspense account.

33. Under the head of "Original Works" the following, which were executed during the year, were of the most importance :—

(1) Construction of a timber bridge on the Coomarkhally and Simla road, on which a sum of Rs. 951-3 was spent.

(2) Constructing a culvert on the Chagda and Bongong road, at an outlay of Rs. 327-1-9.

(3) Constructing a timber bridge on the Koksa and Doorgapore road, at a cost of Rs. 350-0-9.

34. Under the head of "Repairs," on account of which Rs. 61,534-4-2 were expended, the most important works were the following :—

(1) Repairs of the Chagdah and Bongong road, at an outlay of Rs. 14,346-1-.

(2) Repairs of the Kissengunge and Baromassia road, on which a sum of Rs. 8,597-1 was expended.

(3) Repairing the Bagjulla and Kishnaghur road at an outlay of Rs 7,684-0-3.

(4) Repairing the Ranaghat and Santipore road, on which a sum of Rs. 5,134-1-9 was spent.

(5) Repairing the Kishnaghur and Kishengunge road at an outlay of Rs. 2,660-15-8.

35. The Chairman has not stated in his report, nor has he clearly shown in the accounts forwarded by him, what amount has been actually spent on the improvement of village roads in each sub-division of his district. He has therefore been requested to supply this omission.

36. I see no reason to differ from the opinion expressed by the Chairman regarding the District Engineer, Baboo Dwarka Nath Sirkar's ability, and I know from what I saw of him when on tour in that district during the floods, that he is an officer of great energy and activity. I should say he was a thoroughly good man for the post he fills.

37. *Jessore.*—The receipts in this district from land cess and sources of income during he year under review amounted to Rs. 1,16,616-13-6, as noted in the margin, against Rs. 1,21,627-3-4 in the previous year, showing a decrease of Rs. 5,010-5-10. The cause of this decrease has already been explained above.

	Rs.	A.	P.
Balance in hand on the 1st October 1878 ...	11,595	0	9
Cess on lands	98,851	12	3
,, houses	245	12	0
One per cent. cess ...	424	1	6
Ferry tolls	9	8	0
Fees and forfeitures ...	1	8	0
Miscellaneous	1,868	0	9
Advances	3,021	2	0
Total ...	1,16,616	13	6

38. Of the total amount at the disposal of the committee, Rs. 22,190-0-2, or 19 per cent. was spent on establishments; Rs. 35,034-1-5, or 30 per cent. on original works; Rs. 43,756-6-8 or, 37·52 per cent. on repairs; and Rs. 1,395-9-11 or, 1·19 per cent. on tools and plant, leaving a balance of Rs. 10,776-10 7 at the close of the year and Rs. 3,464-0-9 kept in "suspense" account.

39. The most important undertakings during the year under the head of original works were the following :—

1. Construction of a masonry bridge of two arches of 25 feet-span each, with a roadway of 18 feet over the Bashbitta khal on the 12th mile of the Jessore and Narail road, on which a sum of Rs. 1,258-14-7 was spent.

2. The commencement of the construction of wrought-iron girder bridge of three spans of 30 feet each, on screw-piles over the flood known as Sitarampore khal, on the 18th mile of Jessore and Narail road, on which a sum of Rs. 11,992-8 was spent.

3. Metalling two miles and 10 chains of Jessore and Kalligunge road, on which a sum of Rs. 6,391-14-3 was expended.

4. Widening and raising Jhenidah and Kalligunge road, and adding wing-walls to Kalligunge, bridge on which a sum of Rs. 2,897-0-3 was spent.

5. Constructing a fair-weather road from Khajoora to Magoora, on which a sum of Rs. 11,796-9 was spent up to the end of the year.

40. Under the head of "Repairs" Rs. 43,756-6-8 were expended. The most important works were as follows:—

1. Repairing the road from Taragunge to Narail at an outlay of Rs. 2,430-2-1.
2. Repairs of the road from Jessore to Kalligunge at a cost of Rs. 1,640-3-0.
3. Repairing the road from Khajoora to Magoora, on which a sum of Rs. 1,605-15-9 was spent.
4. Repairing the road from Jessore to Afra at an outlay of Rs. 1,505-7-10.

41. A sum of Rs. 19,500 was provided for the repairs and improvement of the village roads. Of this amount Rs. 15,949-7-3 only have been expended during the year under report. The Chairman explains that this was owing partly to the branch committee at Khulna not being able to expend the whole of their grant, and also to the district committee being obliged to curtail the expenditure in other sub-divisions to make up the loss sustained in the income by the withdrawal of the cess on houses consequent on the introduction of the license tax.

42. Favorable mention is made of the active interest taken by all the sub-divisional officers in this district in supervising the construction and repairs of village roads, and of the co-operation and assistance which was afforded to the local officers by a number of European and native gentlemen. The names of these gentlemen have been mentioned in paragraph 55 of the Chairman's report.

43. I concur in the opinion recorded by the Chairman regarding the valuable services rendered by the District Engineer, Mr. Burt, whose work has always given me great satisfaction.

44. With reference to paragraph 32 of the Chairman's report, I have requested him to submit a special report on the discrepancy therein alluded to, between the balance shewn in the quarterly return ending 30th September 1879 and that obtained from the towjee accounts, which when received will be submitted to Government in due course.

45. *Moorshedabad.*—The receipts from all sources of income during the year under report, including the balance of the previous year, amounted to Rs. 1,00,730-6-11, as shewn in the margin, against Rs. 94,285-12-8 in the previous year, shewing an increase of Rs. 6,444-10-3. This result is attributable to the levy of maximum rates of cess during the year, against three-fourths rates in the previous year.

	Rs.	A.	P.
Balance in hand on the 1st October 1878	16,850	1	5
Cess on lands	74,482	11	3
Cess on houses	142	13	6
One per cent. cess	412	15	8
Ferry tolls	38	0	0
Rent of serais and staging bungalows ...	210	8	0
Fees and forfeitures	170	8	10
Miscellaneous	1,090	13	10
Advances	7,357	15	5
Deposits	80	0	0
Total ...	1,00,730	6	11

46. Of the total sum at the disposal of the committee, Rs. 15,623-9-3, or 15·5 per cent were spent on establishments; Rs. 3,887-7-6 or 3·85 per cent. on original works; Rs. 70,972-10-8 or 70·45 per cent. on repairs; Rs. 165-7-0 under the heading of miscellaneous; and Rs. 394-9-3 or ·39 per cent. on tools and plant, leaving a balance of Rs. 4,036-11-3 at the close of the year under report, and Rs. 5,850 was kept in suspense account.

47. Of original works on account of which Rs. 3,887-7-6 was spent during the year, the most important were the following :—

(1) Construction of a culvert at Latial on the Baromassia road, on which a sum of Rs. 777-1-3 was spent, constructing a culvert on the Patkabaree road at a cost of Rs. 975-1-10.

(2) Constructing culvert on the 8th mile of Jellinghee road, on which a sum of Rs. 460-7-7 was spent this year.

48. Under the head of repairs a sum of Rs. 70,972-10-8 was expended. The chief works were the following :—

(1) Repairing the road from Berhampore to Bhaggwangola, and a branch to Jeagunge, at an outlay of Rs. 9,503-3-6

(2) Repairing the road from Poornadewrie to Murcha, at a cost of Rs. 3,031-7-6.

(3) Repairing the road from Ramnuggur to Dhulian, on which a sum of Rs. 2,925-6-0 was spent.

49. In the budget estimate of 1878-79, Rs. 15,000 were provided for the improvement of village roads, against Rs. 10,000 in the previous year. Of this sum Rs. 14,286-3-3 was spent. It is satisfactory to observe that the importance of spending a fair amount of the year's income in this direction was duly observed in the year under report by the committee in this district.

50. I have had less opportunity of forming an opinion regarding the District Engineer, Baboo Soorjee Coomar Pundit, than I have of the other District Engineers in the Division; but the committee are satisfied with him, and I have no reason for supposing that he is otherwise than efficient.

Abstract of particulars regarding meetings of District and Branch Committees in the Presidency Division for the cess-year 1878-79.

ALIPORE;
COMMR.'S OFFICE, PRESY. DIVN.,
Dated the February 1880.

J. MONRO,
Offg. Commissioner.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situate in the district of Bhagulpore will be put up to sale at the Bhagulpore Collectorate on Tuesday, the 7th September 1880, corresponding with the 18th Bhaudon 1287, Fuslee.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidder above the upset price. The purchaser of these estates will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estates will be transferred to him subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and the rights conferred by the settlement proceedings and the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Supdg. Engr., 4th Circle, I. W., N. W. P.
Aligarh, the 24th September 1879.

Notice.

1. Tenders are invited for the supply of 3,640,660 semi-vetrified or jhama bricks for soling the road, 26 miles in length, from Belda to Contai, in the Midnapur district, and for 5,14,800 cubic feet of broken jhama for metalling the same.

2. The work may be divided into three sections, and tenders will be received for each separately or collectively.

3. Tenders will be received up to the 15th of September, and must be in the form which will be supplied on payment of a fee of 8 annas.

4. The sum of Rs. 500 as earnest money must accompany the tenders for each section, which will be returned in the event of any tender not being accepted.

5. Further particulars can be obtained from the District Engineer's Office, Midnapur.

R. MCKENNIE, C.E., District Engineer.
The 14th July 1880. (210—6)

Notice.

ON the 30th August 1880 offers will be received in the Office of the undersigned for the lease of mica mines situated in the Koderma (Government) estate, district Hazaribagh.

A description of the mines and the area included in the lease can be obtained at the Office of the Deputy Magistrate of Pachamba (Giridi), from which place Kodarma is about 50 miles distant. The tenders should state the amount and period for which the lease will be taken. On the basis of these offers settlement will be made with one or other of the persons tendering.

W. L. SAMUELLS, Offg. Dy. Commr.

SURVEYOR-GENERAL'S OFFICE,
Calcutta, the 24th July 1880.

J. O. N. JAMES,
Assistant Surveyor-General.

Bhopal State Railway.

SEALED tenders are invited on a schedule of rates for the construction of the above railway to join the city of Bhopal with the G. I. P. Railway at Itarsi station. The conditions of contract, specification, and drawings can be seen at the Office of the Engineer-in-Chief at Pachmarhi Central Provinces, where forms of tender and all other necessary information can be obtained.

The work will be divided into four sections as under :—

I.—Itarsi to river Nerbudda.
II.—Nerbudda bridge.
III.—The ghat incline.
IV.—From head of ghat incline to Bhopal.

The Government of India (with whom the acceptance of tenders rests) do not bind themselves to accept the lowest or any tender, nor to give to any contractor more than one section of the work.

The tenders are required by the 15th September next.

The following sums must accompany tenders as earnest money to be returned on rejection of tenders, and to be forfeited in case of non-fulfilment of accepted tenders, viz.—

	Rs.
For section I	300
" " II	600
" " III	1,000
" " IV	700

H. T. GROCHEGAN, Engineer-in-Chief,
Bhopal State Railway.

Pachmarhi, dated 17th August 1880.

Notice.

THE public are hereby informed that the well-known Kartick Baruni Mela, which is held on the banks of the Dhaleshwari, near Munshigunge, in the Dacca district, will commence on the 16th November 1880 A.D., corresponding with the 2nd Ugrahayan 1287 B.S., and continue up to the 27th December 1880. Tradesmen, dealers, and others may buy and sell there during these six weeks.

T. E. COXHEAD, Magistrate of Dacca.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine, and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates :—per four ounce tin, *Rs.* 4 *ans.* 8 ; per eight ounce tin, *Rs.* 8 *ans.* 8 ; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the undernoted rates :—per four ounce tin, *Rs.* 5 *ans.* 8 ; per eight ounce tin, *Rs.* 10 *ans.* 8 ; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Dr. *Accountant-General, Bengal, and the Secretary to the Government of Bengal in the Revenue Department, on account of Municipal Loan Reserve Fund in account with Bank of Bengal.* Cr.

No. 3, Hungerford Street, Calcutta, the 23rd August 1880. (285—8)

Notice.

Oudh Forest Department.

BYRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHUND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet. at „ 2 „

The above prices are for ordinary building purposes.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, Oudh Circle,
KANHYA LAL, in charge Byramghat Depôt.

The 22nd May 1879.

Hindu Family Annuity Fund.

THE following Resolutions, passed at the adjourned Special General Meeting of the Subscribers held on the 17th July 1880, is published for general information:—

"That an additional grant of Rs. 100 for payment to the Auditors of the Accounts of 1878-79 be sanctioned.

"That the other supplementary grants, viz. Rs. 70 under medical fees, Rs. 100 under printing charges, and Rs. 45 under miscellaneous charges, viz. Rs. 30 for stamps and Rs. 15 for contingencies, making the total supplementary grant for 1880-81 Rs. 315, as proposed by the Directors, be sanctioned."

RAMSHUNKER SEN, Chairman.
PEEONATH DUTT, Secretary. (281—1)

In the High Court of Judicature at Fort William in Bengal.

ORDINARY ORIGINAL CIVIL JURISDICTION.

In the matter of the Indian Companies Act, 1866, and of the Calcutta Jute Mills Company, Limited.

THE High Court of Judicature at Fort William in Bengal has, by an order dated the 26th day of July 1880, appointed Alexander Rankin McIntosh of Calcutta, a member of the firm of Messrs. A. R. McIntosh & Co., Merchants and Agents, to be the Official Liquidator of the above-named Company.

Dated this 18th day of August 1880.
R. BELCHAMBERS, Registrar.
Joseeline F. Watkins, Attorney. (277—2)

High Court of Judicature at Fort William in Bengal.

ORDINARY ORIGINAL CIVIL JURISDICTION.

The 8th day of July 1880 A.D.

In the matter of the Indian Companies Act, 1866, and of the Calcutta Jute Mills Company, Limited.

THE creditors of the abovenamed Company are required, on or before the seventh day of January next, to send their names and addresses, and the particulars of their debts or claims, and the names and addresses of their Attorneys, if any, to A. R. MacIntosh, of Messieurs A. R. Mackintosh and Company of Calcutta, Merchants and Agents, the Official Liquidators of the said Company, and if so required, by notice in writing from the said Official Liquidator, are by their Attorneys or Pleaders to come in and prove their said debts or claims at the High Court of Calcutta at such time as shall be specified in such notice, or, in default thereof, they will be excluded from the benefit of any distribution made before such debts are proved.

The twelfth day of February one thousand eight hundred and eighty-one, at eleven o'clock in the forenoon, at the Court House, is appointed for hearing and adjudicating upon the debts and claims.

R. BELCHAMBERS, Registrar.
Joseeline F. Watkins, Attorney. (241—6)

Notice.

TO be peremptorily sold pursuant to the decree of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, dated the 1st day of September 1879, made in suit No. 526 of 1879 (wherein Jadoonath Ghose is plaintiff and Hafez Hossen Ali is defendant), by the Registrar of the said Court, at his sale-room in the Court-house on Saturday, the 11th day of September next, at the hour of 12 o'clock at noon, the following property of the defendant:—

All that one storied house and tiled hut, with the piece of land on part whereof the same are built standing, containing by estimation about 9 cottahs 14 chittacks and 14 square feet, situate at and being No. 9, Anthoney's Bagan Lane in Calcutta, and bounded on the north by the said Anthoney's Bagan Lane; on the west by a drain; on the south by Moonshee Nucksudally's ryotee land; and on the east partly by a lane and partly by the ryotee land of Bheekoo Sarang and of Moonshee Heerashollah.

The abstract of title and conditions of sale may be seen at the office of the said Registrar and of Baboo Abhaya Charan Ghose, at No. 12, Old Post Office Street on any day before the sale and will be produced at the sale.

R. BELCHAMBERS, Registrar.
ABHAYA CHARAN GHOSE, Plaintiff's Attorney.
Calcutta High Court, Original Side,
the 28th July 1880. (284—1)

Lost, Stolen, or Destroyed.

THE Government Promissory Note No. 060508, of the 4 per cent. of 1st May 1865 for Rs. 500, originally standing in the name of Besseshur Bose, and last endorsed to Monsah Churn Chutterjee, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

NOBIN CHAND HULDER, Howrah.
Care of Baboo GRICE CHUNDER CHATTERJEE,
(257—3) Pleader, Munsiff's Court.

LOST.—The Government Promissory Note No. 102273 of the 4 per cent. of 1865, for Rs. 1,000, originally standing in the name of Coomar Sen Goya Prosad, and last endorsed to Rakhal Chunder Dutt, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favor of the proprietor.

RAKHAL CHUNDER DUTT,
(276—3) 65, Mooktaram Baboo's Street.

Notification.

1. The Corporation of the Town of Calcutta are prepared, with the sanction of the Lieutenant-Governor of Bengal under the provisions of section 334 of Act IV (B.C.) of 1876, to receive tenders for a Debenture Loan of Rs. (2,50,000) two lakhs and fifty thousand on the security of the water-rate imposed and levied under the provisions of the said Act, to be expended in carrying out a scheme for increasing the water-supply of the town.

2. Debentures will be issued for the said amount bearing interest at the rate of 5 per cent. per annum, payable on the 1st April and 1st October of each year, and having a currency of 30 years.

3. The form of Debenture Bonds will be that given in the 7th Schedule of the aforesaid Act.

4. No Debentures will be issued for any less sum than Rs. 500, and above that amount Debentures will be issued only for even sums of Rs. 100.

5. Subscriptions will be received and receipts granted by the Bank of Bengal. Debentures will be issued as soon as possible in exchange for the Bank's receipts.

6. Tenders for the whole or any part of the above-named sum of Rs. (2,50,000) two lakhs and fifty thousand will be received by the Secretary to the Corporation up to noon of Saturday, the 4th of September.

7. Each tender must be addressed in the form annexed to this Notification and enclosed in a sealed cover superscribed "Tender for Municipal Loan of 1880."

8. The tenders will be opened at the Municipal Office on Saturday, the 4th of September, at 4 P.M., a minimum rate having first been fixed.

9. Parties tendering must pay into the Bank of Bengal to the credit of the Corporation a sum equal to 2 per cent. of the amount tendered, and forward the Bank's receipt with the tender.

10. If the tender be accepted, the deposit will be taken in part payment; but it will be forfeited if, after the acceptance of the tender, the allotment is not fully taken up on or before the 1st October 1880.

11. The deposit on tenders which may not be accepted will be returned on application.

12. In the case of two or more tenders at the same rate (being not below the minimum) a *pro rata* allotment will, if necessary, be made.

13. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

14. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit must accompany each tender. It is desirable that the tender, or at least the name of the person making the tender and the amount and rate tendered, should be written in English.

ROBERT TURNBULL,
Secretary to the Corporation.

Calcutta, 23*rd August* 1880.

FORM OF TENDER.

I hereby tender for Rs. of the Loan advertised in the Notification published in the *Calcutta Gazette*, dated the 25th August, and agree to pay for the same, subject to the conditions notified, at the rate of Rs. for every Rupees 100 allotted to me.

Fraction of an anna not allowed.

I enclose a deposit receipt of the Bank of Bengal, Calcutta, for Rs. and engage, if my offer be accepted, to pay to the account of the Corporation at the Bank of Bengal, Calcutta, the sum allotted to me on or before the 1st October 1880. (283—1)

PRAYAG NATH, B.L., intends to be admitted as a Vakeel of the High Court, Calcutta. (279—4)

KANAI LAL SIL, B.L., intends to apply for enrolment as a Vakeel of the High Court. (261—4)

Bank of Bengal.

NOTICE is hereby given that the Bank of Bengal and Public Debt Office will be closed on the following days:—

On Monday, the 4th October, on account of the Hindoo festival Mohalaya and from Friday, the 8th, to Tuesday, the 19th October (both days inclusive), on account of the Doorga and Luckhi Poojah holidays.

All Government acceptances falling due between the 8th and 19th October will be paid by the Bank on and after the 5th idem.

By order of the Directors,
R. HARDIE, Secretary and Treasurer.

CALCUTTA, the 19th August 1880. (272—2)

PROCEEDINGS at the Annual General Meeting of the Proprietors and Shareholders of the Bank of Bengal, held on Monday, the 16th August 1880, in terms of Section 49 of the Presidency Banks' Act, 1876.

Mr. G. F. Mewburn, President of the Board of Directors, in the chair.

The Chairman submitted the papers noted below* relative to the business for the year ended 30th June last.

On the motion of the Chairman, seconded by Mr. W. Alexander, the accounts for the year were unanimously passed and approved.

On the motion of the Chairman, seconded by Mr. F. J. Fergusson, Mr. F. Clarke was unanimously re-elected a Director.

On the motion of Mr. J. J. J. Keswick, seconded by Mr. W. Alexander, Mr. G. F. Mewburn was unanimously re-elected a Director.

On the motion of the Chairman, seconded by Mr. F. Clarke, Messrs. H. W. I. Wood and W. A. Browne were unanimously re-elected Auditors for the ensuing year, and their remuneration fixed at Rs. 2,500 for each audit, or Rs. 1,250 to each Auditor.

With a vote of thanks to the Chairman the meeting terminated.

(274—1) G. F. MEWBURN, Chairman.

* I.—Copy of the statement of the affairs of the Bank on 31st December 1879, transmitted to Government agreeably to Section 43, Act XI of 1876.
II.—Directors' Report for the half-year ended 31st December 1879 and the report of the Auditors.
III.—Copy of the statement of the affairs of the Bank on 30th June 1880, transmitted to Government agreeably to Section 43, Act XI of 1876.

MESSRS. THACKER, VINING, *Bombay*,
MESSRS. THACKER, SPINK & Co., *Calcutta*, or
SUPDT., CHIEF COMMR.'s OFFICE, *Nagpúr*.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published at soon as possible after the first of each month as Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9
Complete set	45	„ 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
„ „ Madras Series ...	1	0
„ „ Bombay Series ...	1	0
„ „ Allahabad Series ...	1	0
Complete set ... ... — ...	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.;
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay.
The Government Book Depôt, Allahabad.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

No. 2326.

GOVERNMENT OF INDIA,—DEPARTMENT OF FINANCE AND COMMERCE.

ACCOUNTS AND FINANCE.

Simla, the 14th August 1880.

Read—

Resolution by the Government of India in the Financial Department, No. 3556, dated 19th October 1877.

RESOLUTION.—By this Resolution the Governor-General in Council prescribed measures for preventing legal-tender copper coin from circulating at a discount in British India, Mysore and Berar.

In paragraph 5 His Excellency in Council directed that, if, notwithstanding the orders issued, legal-tender copper coin should, at any time or anywhere, circulate at a discount, the fact was to be immediately reported to the Local Government, and, by the Local Government, to the Government of India, "with full explanation of the causes of the phenomenon and of the measures taken to remedy the evil."

The Governor-General in Council now further directs that the report prescribed in paragraph 5 shall be made whenever legal-tender copper coin may be found to circulate at a premium. The causes of its doing so and the measures adopted to neutralise them must also be stated.

Ordered, that this Resolution be published in the *Gazette of India*, and communicated to the several Local Governments and Administrations, to the Comptroller-General, and the several Accountants-General and Deputy Accountants-General in independent charge, and to the Mint Masters, Calcutta and Bombay.

NOTIFICATION.

Under Section 25 of the Chota Nagpore Tenures Act, II (B.C.) of 1869.

The 24th August 1880.—It is hereby notified that the registers of Bhuinhari and other tenures in the villages belonging to the marginally named pergunnahs of the Chota Nagpore Estate, Lohardugga district, prepared under the provisions of section 5 of Act II (B.C.) of 1869, having been finally revised and corrected in accordance with the decisions and orders of the Special Commissioner and the Commissioner of the Division under the aforesaid Act, have been confirmed by the Commissioner of the Division on the 13th August 1880.

Pergunnah	Rasia	...	17 villages.
,,	Doesa	...	14 ,,
,,	Ardhe	..	2 ,,
,,	Arngi	...	4 ,,
,,	Panari	...	10 ,,
,,	Korame	...	90 ,,
,,	Khukra	...	80 ,,

2. It is further declared, agreeably to the provisions of section 26 of the aforesaid Act, that the confirmation of the Commissioner of the Division notified above having thus been published, the registers shall be conclusive evidence of all matters recorded therein; and from and after this publication of the confirmation of the register relating to any village, no evidence shall be received that any lands in such village not mentioned in such register are of Bhuinhari or Manjhus tenure.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 28th August 1880.—The Lieutenant-Governor is pleased, under the provisions of section 4, Act VII (B.C.) of 1873, to sanction the following rule in modification of Rule 89 of the rules framed under the said Act:—

Exclusive of hospital space, gangways, ventilating hatches, space for crew and attendants, and—on boats—for rowing and baling out, properly sheltered deck space shall be provided on board steamers, flats, and boats at the rate of 10 superficial feet to each statute adult during the months of November, December, and January, and of 12 superficial feet for the rest of the year. Every infant also shall be allowed deck space in proportion of one-half of that which is prescribed for a statute adult.

The Lieutenant-Governor is also pleased, under the provisions of the above-named section, to sanction the cancellation of Rules 58 and 66 of the rules above referred to.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 12th August 1880.—It is hereby notified, under section 19 of the Indian Forest Act (Act VII of 1878), that the following tracts of land in the Darjeeling district, which, in notification of the 18th October 1879, under section 4 of that Act, it was proposed to constitute reserved forests, shall, from the 1st September next, be "Reserved Forests" under the said Act.

District.	Pergunnah or other sub-division.	No.	Name of forest.	Boundaries.
Darjeeling ...	Hill Territory ..	1	Manering (an addition to the Sukna-Tista Forest).	*North.*—The ridge separating the valley of the Mahanadi from that of the Reyang *East.*—The Mana Jhora. *West.*—The east boundary of the Mahalderam tea estate, being a demarcated line, and a stream tributary to the Mana Jhora.
Ditto ...	Ditto ...	2	Babookhola ...	*North.*—A demarcated line along the ridge separating the valley of the Mahanadi from that of the Reyang. *East.*—The west boundary of the Mahalderam tea estate, being a demarcated line, then a stream tributary to the Mahanadi river. *South.*—A demarcated line separating the forest from Captain E. T. Fitzgerald's land, and passing from the Mahanadi river in a south-west direction to the Buffoopanee, then the Buffoopanee to its junction with the Mahanadi. *West.*—The Mahanadi river, then a stream to the south-east boundary line of the Majna tea estate (Mr W. C. Muller's block), then the demarcated boundary of that estate to its north-west corner, then a stream running into the Mahanadi river, then that river, then a demarcated line running north-east to the Buffoopanee and separating the forest from Jamun Sing's land, then the Buffoopanee, then a demarcated line to the old military road.
Ditto ...	Terai sub-division, pergunnah Hatti-gheesa.	3	Tookria Jhar ...	*North.*—A demarcated line from the edge of the plateau south of Dangy Jote to the Kemchi nadi, where it forms the boundary of the Hoodoobhita Jote. *East.*—The Kemchi nadi, then a demarcated line separating the forests from jotes Mahmed Daorbux and Soobul. *South.*—A demarcated line separating the forest from jotes Daugur-bhita, Charla, Munjoy, Huldur, Doolail Dass and Gundagole. *West.*—A demarcated line separating the forest from jotes Bajaroo, Futeh, Dowlut, Gour Singh, Ramdhun, Prosadeo, Chamroo and Bongy.
Ditto	Terai sub-division, pergunnah Hatti-gheesa.	4	Moolta (an addition to the Dalka Jhar Reserve).	*North.*—A demarcated line from the Jibhodar nadi, south of Jhabra Jote to the Forest Reserve boundary. *East.*—The Forest Reserve, then the Dalka nadi, then a demarcated line separating it from jotes Sham Lall (2) and Raghoo, then the Lalfa nadi to its junction with the Jibhodar. *West.*—The Jibhodar nadi to its junction with the west branch of the Moolta nadi, then a demarcated line separating the forest from the Jhakocadura and Omee Jotes, then the Jibhodar nadi.
Ditto ...	Terai sub-division, pergunnah Patturghatta.	5	Rishabari, Major Wardroper's and Kanoo Choudry's Bhita Jotes (additions to the Dalka Jhar Reserve).	On all sides Government Forest Reserve.
Ditto ...	Ditto ...	6	Beng-dubi (an addition to the Dalka Jhar reserve).	*North.*—Forest reserve. *East.*—A demarcated line following the bed of the old Balasun river and skirting jotes Bownee Bhita (26) and Dhemal, then a demarcated line south of the last named jote and west of jote Tarabari, then again a line following the bed of the old Balasun river and skirting jotes Bownee Bhita (24) and (22). *South.*—A demarcated line from the old Balasun river to the Hurlia river, separating the forest from jotes Henglall Powa, Barobhita, Dhumram, Beng-doobee and Byranti Saul. *West.*—The Forest Reserve.
Ditto ...	Ditto ...	7	Shilibhita Jote (an addition to the Sukna-Tista Forest).	On all sides Government Forest Reserve
Ditto ...	Terai sub-division, pergunnah Hatti-gheesa.	8	Nipania (an addition to the Mechi Forest).	*North.*—The Lohargarhi Forest Reserve, then a stream leaving the reserve at its southernmost point, then a line running eastwards to the Aolia Manjha nadi. *East.*—The Aolia Manjha nadi, then a line skirting the Nipania tea estate. *South.*—A demarcated line to the Raja Pounri nadi, then that stream, then a demarcated line to the new Mechi river. *West.*—The Mechi Forest Reserve.
Ditto ...	Ditto ...	9	Gurabadi (an addition to the Mechi Forest Reserve).	*North.*—The Mechi Forest Reserve. *East.*—A demarcated line following the bed of the new Mechi river. *South.*—A demarcated line to the old Mechi river separating the forest from Jote Soorjbur. *West.*—The Nepal frontier.

A. Mackenzie,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 16th August 1880.—The following rule, passed by the Lieutenant-Governor under the provisions of section 41 of the Indian Forest Act, having received the sanction of the Governor-General in Council, is hereby published for general information. It will take effect in respect of the forest tracts of the Sunderbuns, both reserved and protected as described in the schedules attached to the following notifications :—

Reserved forests,—notification of 23rd January 1879.
Protected forests,—notification of 7th December 1878.
Protected forests,—notification of 24th February 1879.

Any person who desires to transport any forest produce through the Sunderbuns forests, or through any part of them, or along any of the water-channels intersecting or skirting them, shall take out a pass at some one of the revenue stations, a list of which will be published from time to time in the *Calcutta Gazette;* and he shall further produce such pass

when called upon to do so by any forest or police officer, and return such pass at any one of the said stations on passing out of the boundary of the forests. The fee, if any, payable for such passes will from time to time be fixed by the Conservator of Forests and notified in the *Calcutta Gazette*. The following is a list of the revenue stations actually open :—

1. Lower Bhola.
2. Upper Bhola.
3. Pussur.
4. Khulna.
5. Bhudder.
6. Sheepsah.
7. Koyrah.
8. Cabaduk.
9. Isrcepore (Eshamuttee).
10. Bussuntpore.
11. Roymungul.
12. Mutlah.
13. Bogee.
14. Saterbog.
15. Tangra khall.
16. Samukpatha.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication]

NOTIFICATION.

The 17th August 1880.—The following revised rules passed by the Lieutenant-Governor under sections 31 and 41 of the Indian Forest Act (VII of 1878), having received the sanction of the Governor-General in Council, are hereby published for general information, in supersession of the notification of 13th January 1880 published in the *Calcutta Gazette* of the 14th idem. They will take effect in the protected forest tracts of the Sunderbuns described in the schedule annexed to the notifications of the 7th December 1878 and 24th February 1879 (published in the *Calcutta Gazette* of 11th December 1878 and 26th February 1879), and will come into force from the date of their publication :—

Rule I.—No trees, timber, or any other forest produce shall be cut, sawn, gathered, or removed from within the boundaries of the Sunderbuns protected forests without prepayment in full of the charges due thereon at the rates following :—

(1) For every maund of sundri timber, one anna.

(2) For every maund of any other forest produce, one-fourth of an anna.

These, or such other charges as may from time to time be fixed under this rule, will also be levied on timber and other forest produce which may be exported from lands leased under the rules for the lease of waste lands in the Sunderbuns.

Rule II.—Any person desiring to enter the Sunderbuns protected forests for the purpose of cutting, sawing, converting, gathering, or removing trees, timber or any other forest produce, shall take out a permit or license for the produce which he proposes to remove. The said permit will be granted only on prepayment of the prescribed charges by the officer in charge of the Sunderbuns Forest Division, or by any of his subordinates duly authorized to receive payment and to issue permits.

Rule III.—The holder of a permit or license for the cutting, sawing, conversion, gathering, or removal of any forest produce within the boundaries of the Sunderbuns protected forests, shall produce the said permit or license when called upon to do so by any forest or police officer, and shall further be bound, on leaving the Sunderbuns protected forests, to return the said permit or license to one of the forest officers in charge of the revenue stations, a list of which will be notified from time to time in the *Calcutta Gazette*.

Rule IV.—Any forest produce in transit within, or passing out of, the Sunderbuns Protected Forests, and any such produce found in any water-channel skirting or leading from the said forests, when there is reason to believe that any thing is payable to the Government in respect of such produce, may be stopped and examined by any forest or police officer.

The following is a list of the revenue stations referred to in Rule III of the above rules :—

1. Lower Bhola.
2. Upper Bhola.
3. Pussur.
4. Khulna.
5. Bhudder.
6. Sheepsah.
7. Koyrah.
8. Cobaduk.
9. Isreepore (Eshamuttee).
10. Bussuntpore.
11. Roymungul.
12. Rampura.
13. Mutlah.
14. Bogee.
15. Saterbog.
16. Tangra khall.
17. Samukpatha.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 16th August 1880.—In supersession of the notification dated the 5th July 1875, published in the *Calcutta Gazette* of the 7th idem, it is hereby notified for general information that the district of Tipperah will be transferred from the Dacca to the Chittagong Division from the 1st November 1880.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 12th August 1880.—A plan and estimate for a further extension of the jetty embankment between jetties Nos. 4 and 5, and for taking down import shed No. 1 and re-erecting it at No 4 jetty, at a cost of Rs. 1,20,000, having been submitted by the Commissioners for making improvements in the Port of Calcutta with their Vice-Chairman's letter No. 1182 of the 12th July 1880, the Lieutenant-Governor is pleased to sanction the project under section 35 of Act V (B.C.) of 1870.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 13th August 1880.—In continuation of the notification of the 18th August 1879, defining the limits of the Port of Calcutta, which was published at page 841 of the *Calcutta Gazette* of the 20th August 1879, the Lieutenant-Governor is pleased, with the sanction of the Government of India, to declare, in accordance with the provisions of sections 5 and 6 of the Indian Ports Act (XII of 1875), that high water-mark shall extend to 15·09 feet above the sill of the Kidderpore dock, that being the highest point reached by ordinary spring-tides in any season of the year.

2. On the Howrah side of the river this boundary has been defined and marked off by stone blocks fixed level with the river bank to mark the exact position of the 15·09 feet waterline, between the Port Commissioners' land at Sibpore on the south, and the southern boundary of the East Indian Railway Company's premises on the north, as shown on a plan submitted by the Commissioners.

A. MACKENZIE,
Secy to the Govt. of Bengal.

[Third Publication.]

The 17th August 1880.—The following notification is published for general information

A. MACKENZIE,
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.—MARINE BRANCH—MILITARY DEPARTMENT.

NOTICE TO MARINERS.—(No. 9.)

RED SEA—GULF OF SUEZ.

Suez Bay—Lights at Port Ibraham.

Information has been received that the undermentioned lights are now exhibited at Port Ibraham, Suez Bay:—

1. Two floating lights are placed 897 yards seaward of the entrance of the harbour—*green* on the northern side of the channel, *red* on the southern side.
2. A fixed *green* light is shown from the extremity of the north mole head; a fixed *red* light from the extremity of the south mole head.
3. A fixed *white* light is shown from the extreme (western) end of the inner pier of the harbour.

NOTE.—The foregoing green and red lights mark the channel into the port.

Entering Port Ibraham—the green lights are left on the port hand, the red lights on the starboard hand, the vessel being steered for the white light on the inner pier.

4. Also, that it is intended, when the state of the sea prevents the exhibition of the floating lights, to show two lights, *green* and *red* placed vertically, from the eastern commencement of the inner pier. These lights kept in line with the white light at the extreme (or western) end of the pier will then indicate the channel.

Buoyage.

Also, that a buoy has been placed on each side of the channel to Port Ibraham, 568 yards from the mole heads—the northern buoy in a line with the green lights, the southern buoy in a line with the red lights.

By direction of the Government of India,
A. DUNDAS TAYLOR, *Comdr. (late I. N.),*
Superintendent, Marine Survey of India.
MARINE SURVEY DEPARTMENT, CALCUTTA, *the 7th August* 1880.

This Notice affects the following:—

BRITISH ADMIRALTY Charts Nos. 2523, 8*a*. 757, 238, and 734.
" " Sailing Directions, Red Sea Pilot, 1873, pages 23 and 36.
" " Light Lists for 1880.
INDIAN MARINE SURVEY Light List for 1880; also Taylor's Sailing Directory, Vol. 1, page 27.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

NOTIFICATION.

The 4th February 1880.—The Lieutenant-Governor is pleased to publish for general information the following Order in Council, and the Regulations appended thereto, for preventing collisions at sea, which will come into force on the 1st September 1880.

H. J. REYNOLDS,
Secy. to the Govt. of Bengal.

At the Court at Osborne House, Isle of Wight, the 14th day of August 1879.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the table marked C in the schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto or in substitution therefor; and that any alterations in, or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said schedule:

And whereas by the same Act it was further provided that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country, whether within British jurisdiction or not; and it was further provided by the said Act that whenever an Order in Council had been issued applying any Regulation made by, or in pursuance of, the said Act to the ships of any foreign country, such ships should in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct: First, that the Regulations contained in the schedule to the said Act should be modified by the substitution for such Regulations of certain Regulations appended to the said Order;

Secondly, that the said Regulations appended to the said Order should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said Order of the ninth of January one thousand eight hundred and sixty-three, should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council, dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council, for the purpose of explaining Articles 11 and 13 of the said Regulations, and of removing doubt and misapprehension concerning the effect of the said two Articles:

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the Regulations contained in the Order in Council dated the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled from the first day of September one thousand eight hundred and eighty, and that there shall be substituted for the said Regulations and additions respectively the new Regulations hereinafter set forth:

And whereas it has been made to appear to Her Majesty that the Governments of the several foreign countries mentioned in the second schedule hereto are respectively willing that the Regulations contained in the first schedule hereto shall apply to ships of the said countries respectively, whether within British jurisdiction or not:

Now therefore Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct—

First, that on and after the first day of September one thousand eight hundred and eighty, the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled, and that there shall be substituted for the said Regulations and additions respectively the new Regulations contained in the first schedule hereto.

Second, that the said Regulations contained in the said first schedule hereto shall, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said second schedule hereto, whether within British jurisdiction or not.

C. L. PEEL.

FIRST SCHEDULE.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

Preliminary.

ART. 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

Rules Concerning Lights.

ART. 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ART. 3. A sea-going steam-ship when under way shall carry—

(*a.*) On or in front of the foremast, at a height above the hull of not less than 20 feet and if the breadth of the ship exceeds 20 feet, then at a height above the hull not less than such breadth, a bright white light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.

(*b.*) On the starboard side, a green light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*c.*) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*d.*) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ART. 4. A steam-ship, when towing another ship, shall, in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position, as the white light which other steam-ships are required to carry.

ART. 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light, three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of, but not lower than, her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ART. 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ART. 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use: and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ART. 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ART. 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the mast-head visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ART. 10. (*a*)—Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(*b*)—A fishing vessel and an open boat when at anchor shall exhibit a bright white light.

(*c*)—A fishing vessel when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(*d*)—A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red and the lower green, and shall also either carry the side lights required for other vessels, or if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (*a*) of this Article.

(*e*)—Fishing vessels and open boats shall not be prevented from using a flare-up in addition if they desire to do so.

(*f*)—The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(*g*)—All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

ART. 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

Sound Signals for Fog, &c.

ART. 12. A steam-ship shall be provided with a steam whistle, or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog-horn to be sounded by bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog-horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows, that is to say—

(*a*)—A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(*b*)—A sailing ship under way shall make with her fog-horn, at intervals of not more than two minutes, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*c*)—A steam-ship and a sailing ship when not under way shall, at intervals of not more than two minutes, ring the bell.

Speed of Ships to be moderate in Fog, &c.

ART. 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow, go at a moderate speed.

Steering and Sailing Rules.

ART. 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz :—

(*a*)—A ship which is running free shall keep out of the way of a ship which is close-hauled.

(*b*)—A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(*c*)—When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(*d*)—When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(*e*)—A ship which has the wind aft shall keep out of the way of the other ship.

ART. 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on to the other, in other words, to cases in which by day each ship sees the mast of the other in a line, or nearly in a line, with her own and by night, to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 16. If two ships under steam are crossing so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ART. 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ART. 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed, or stop and reverse if necessary.

ART. 19. In taking any course authorized or required by these Regulations a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz:—

One short blast to mean—"I am directing my course to starboard."

Two short blasts to mean—"I am directing my course to port."

Three short blasts to mean—"I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ART. 20. Notwithstanding anything contained in any preceding Article every ship, whether a sailing ship or steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ART. 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fair way or midchannel which lies on the starboard side of such ship.

ART. 22. Where by the above rules one of two ships is to keep out of the way the other shall keep her course.

ART. 23. In obeying and construing these rules due regard shall be had to all dangers of navigation, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

No Ship under any circumstances to neglect proper precautions.

ART. 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

ART. 25. Nothing in these rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, or inland navigation.

Special Lights for Squadrons and Convoys.

ART. 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for ships sailing under convoy.

SECOND SCHEDULE.

DECLARATION.

The 12th August 1880.—Whereas it appears to the Lieutenant-Governor that land is required to be taken up by Government at the public expense for a public purpose, viz. for a post-office bungalow in the village of Karakdi, pergunnah Nasibshahi, district Faridpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8½ cottahs of standard measurement, is required within the aforesaid village of Karakdi. It is bounded as follows:—

On the west by Nibaran Chang's residence;
On the east and north by the land belonging to Chintamani Bhattacharjea;
On the south by the land belonging to Mohonlal Bhadury and others.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

A. MACKENZIE,
Secy to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 3927A.

The 19th August 1880.—The Lieutenant-Governor accepts the resignation tendered by Baboo Ashutosh Mitra of his appointment of Honorary Magistrate of the Perozepore Bench in the district of Backergunge.

The undermentioned gentlemen are appointed to be Honorary Magistrates for the Perozepore Bench of Magistrates in the district of Backergunge, and are vested with the powers of a Magistrate of the Third Class.

Baboo Gopal Chunder Bose, Sub-Engineer of the Canal Department.
Baboo Bhagwan Chandra Sanyal, Sub-Inspector of Schools.

The 23rd August 1880.—Moulvi Abdool Rohman, Rural Sub-Registrar of Paroo, is appointed to be an Honorary Magistrate for the Bench of Magistrates at Paroo in the district of Mozufferpore, and is vested with the powers of a Magistrate of the Third Class.

The 25th August 1880.—Baboo Hurro Gobind Mookerjee, B.L., Moonsif of Bankoora, is appointed to be a Moonsif in the district of Burdwan. Baboo Hurro Gobind Mookerjee will be ordinarily stationed at Raneegunge.

Baboo Mohendro Nath Mitter, Officiating Moonsif of Alipore, in the district of the 24-Pergunnahs, is vested with the powers of a Small Cause Court Judge for the trial, in that moonsifee, of suits not exceeding Rs. 50 in value.

Baboo Bepin Behary Mookerjee, Deputy Magistrate and Deputy Collector, Manickgunge, Dacca, is vested with the power to try summarily the offences mentioned in section 222 of the Criminal Procedure Code.

The 26th August 1880.—Baboo Soorjee Coomar Sen, Deputy Magistrate and Deputy Collector, Jehanabad, Hooghly, is vested with the powers of a Magistrate of the First Class.

The 27th August 1880.—Baboo Mohendro Chunder Mozoomdar, Officiating Deputy Magistrate and Deputy Collector, Mymensing, is vested with the powers of a Magistrate of the Second Class.

Mr. K. J. Badshah, Assistant Magistrate and Collector, Dacca, is vested with the powers of a Magistrate of the Second Class.

The 30th August 1880.—Mr. J. C. Arbuthnot, Assistant Magistrate and Collector, Bhagulpore, is vested with the powers of a Magistrate of the Second Class.

LEAVE OF ABSENCE TO MOONSIFS.—*The 5th June* 1880.—Moulvi Noorool Hossein, Moonsif of Tajpore, in the district of Tirhoot, obtained leave of absence for 15 days under section 6, Supplement F of the Civil Leave Code, with effect from 21st May 1880.

The 28th August 1880.—Baboo Nilmadhub Samanto, Moonsif of Putneetollah, in the district of Dinagepore, having returned to duty on the afternoon of the 21st July 1880, the unexpired portion of the leave granted him on the 11th May 1880 is cancelled.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 30th August 1880.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has granted a license to Moulvi Abdul Halim authorizing him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the jurisdictions of the outpost of Raypura in the police station of Lakhimpore, and the police station of Ramgunge in the district of Noakholly.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal

[First Publication.]

NOTIFICATION.

The 30th August 1880.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has granted a license to Mir Furrakh Hossain, authorizing him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the jurisdiction of the police station of Nawabgunj, in the district of Dacca.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 31st August 1880.—Under paragraph II, Clause (*f*) of the Notification issued by the Government of India in the Home Department on the 6th March 1879, spears of all kinds are excluded from the operation of any prohibition and direction contained in the Indian Arms Act (XI) of 1878 so far as regards districts or parts of districts in Bengal which the local Government may declare to come within this exemption. In accordance with the provisions of the said clause of paragraph II of the Notification of the Government of India, all districts within the Lower Provinces of Bengal are hereby declared to come within this exemption.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 20th August 1880.—Under section 3, Act I (B.C.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has granted a license to Moonshee Nasiruddin, authorizing him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the police station of Chagulniya, in the district of Noakholly.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 17th August 1880.—It is hereby notified under the provisions of section 15 of Act V of 1861 that the villages of Deotulla, Bhygoorah, Karaitallah, Koichoichora, Talleshur, Sonbaria, Jaffurkhally, Amtalla, Bamna, Bolaibuniah, Golaghata, Katakhali, Lattabuniah and Borokalaliah, in the Perozepore Sub-Division in the district of Backergunge, being still in a very disturbed and dangerous state, owing to the existence of disputes regarding the possession of lands and collection of rents, and owing to the animosity between the rival parties, the Lieutenant-Governor has sanctioned from the 16th August 1880, the employment for a further period of one year, of a Special Police Force consisting of one Sub-Inspector, four Head-Constables and fifty Constables to be quartered at the said villages for the purpose of keeping the peace between the members of the family of the Bamna Chowdhuries and their rivals respecting the estate known as Jooar Ramna Bamna.

2. The cost of the police force noted below will be assessed and levied from the inhabitants of the villages in proportion to their respective means :—

		Rs.	A.	P.
1 Sub-Inspector at Rs. 50		50	0	0
1 Head-Constable at Rs. 25		25	0	0
1 Ditto at Rs. 20		20	0	0
1 Ditto at Rs. 15		15	0	0
1 Ditto at Rs. 10		10	0	0

Bremner, Assistant Engineer, First Grade, is transferred temporarily, in the interests of the public service, from the Julpigoree to the Burdwan Division, to officiate as Executive Engineer of the latter division, during the absence, on privilege leave, of Mr. L. R. Roberts, or until further orders.

F. S. STANTON, *Lieut.-Coll.*, R.E.,
Offg. Secy. to the Govt. of Bengal,
in the P. W. Dept.

IRRIGATION.

Dated the 31st August 1880.

No. 114.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to pass the following rules for the Sone Canals in supersession of those now in force.

21st and 28th July, and 4th, 11th, 18th and 25th August 1880.

A draft of the rules was published, as provided in the aforesaid section of the said Act, in the *Calcutta Gazette* of the dates noted in the margin.

C. TAYLOR,
Offg. Asst. Secy., for Joint.-Secy.
to the Govt. of Bengal, P. W. Dept.,
Irrigation Branch.

RULES UNDER ACT III (B.C.) 1876.

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.

3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.

4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latterobjects, no water will be given.

5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.

6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.

7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.

8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—

(*a*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b*)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambardar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.

(*c*)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambardar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 81, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lambardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (*a*), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified

to the *Lambardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76(*b*) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76(*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(*a.*)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(*b.*)—No tank shall be so filled from which irrigation is practised.

(*c.*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(*e.*)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions.

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 33, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *ahrahs*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice-seed beds.

22. If in the opinion of the Divisional Canal Officer it appears advisable to grant a lease for a block of less than 50 acres in area, he must refer the matter for the decision of the Superintending Canal Officer, at whose discretion the restriction as to area may be relaxed.

23. Present holders of three-year leases may at their option avail themselves of the terms offered to the holders of five-year leases, but without retrospective effect.

24. Leases for five years at the rates entered in Rule 33 may be given—(1) on the application of all the cultivators of the area proposed to be leased, on condition of their agreeing in such application to become jointly and severally responsible for the payment of all amounts due on account of water-rates; or (2) on the joint application of the cultivators and of some

person hereinafter called the Contractor, who may agree to collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The agreement of villagers binding themselves jointly and severally will be in the form prescribed in Appendix C. The joint agreement of villagers and a water-rate Contractor shall be in the form prescribed in Appendix D. Every agreement under this rule must be signed by each applicant in the presence of at least one respectable witness.

25. Contractors shall be entitled to collect water-dues, at the rates given in schedule 4 attached to Rule 33, from the cultivators who have applied for the water supplied. Every due from a cultivator to the Contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

26. A Contractor (or in case there be more than one, each Contractor severally and jointly) shall be responsible for all sums payable on the agreement (Appendix D), except such sums as may be remitted by competent authority under the rules in force, and shall be entitled to a deduction of 5 per cent. for cost of collection.

27. No water shall be taken previous to the receipt of a permit (Appendix B) signed by the Divisional Canal Officer. When an agreement has been made for the collection of the rates by a Contractor, the Divisional Canal Officer shall under section 82 furnish such Contractor with a written authority to collect the amounts due by the cultivators according to a list furnished in the application, one copy of which is to be sent to the Collector.

28. Every Contractor shall nominate a headman, to be approved of by the Divisional Canal Officer, to perform the duties specified in Rule 10. Such headman or the contractor, according to the arrangement made at the time of contract, shall receive 5 per cent. on the assessment, but the Divisional Canal Officer may retrench the whole or any part of these fees if the duties are not properly performed.

29. All water-rates leviable under the above rules for five-years leases shall become due on the 31st December and 15th March in equal portions, and shall be paid within one month of such dates.

30. Under section 78 of the Act, the rates chargeable per acre for water supplied to the different description of crops up to 1st of April 1881, except in cases of three-year leases now in existence, will be as follow :—

SCHEDULE I.—*Existing rates.* (*Annual.*)

CLASS.	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER			Per
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre.	
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
I	Sugarcane	0 2 6	3 2 0	5 0 0	0 1 8	2 1 4	3 5 4	Crop.
II	Rice, vegetable, water-nuts, wheat, barley, cotton, tobacco, indigo, opium, garden and all crops not otherwise specified ...	0 1 3	1 9 0	2 8 0	0 0 10	1 0 8	1 10 8	

NOTE.

1 Cottah = 1,361·25 square feet.
1 Beegah = 27,225·00 ditto.
1 Acre = 43,560·00 ditto.

31. On and after the 25th June 1881 the following rates will be charged on crop-leases for water supplied between the 25th June of one year and the 1st April of the following year :—

SCHEDULE II.—*Annual Leases.*

CLASS.	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER		
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
	Rice	0 1 6	1 14 0	3 0 0	0 1 0	1 4 0	2 0 0
	Rhadoi, except rice	0 1 3	1 9 0	2 8 0	0 0 10	1 0 8	1 10 8
	Rabi	0 1 3	1 9 0	2 8 0	0 0 10	1 0 8	1 10 8
	Sugarcane, ...	0 2 6	3 2 0	5 0 0	0 1 8	2 1 4	3 5 4

Note.—If water is taken for sugarcane in the hot months, in addition, under Rule 32, the total charge will be as follows :—

	Rs. A. P.
Under annual leases per acre	5 0 0
During hot months ,, ,, ...	4 0 0
Total per acre ...	9 0 0

32. On and after the 1st April 1881 the following rates will be charged for water supplied to crops between the 1st April and 25th June of each year :—

SCHEDULE III.—*Special for hot months.*

CLASS	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER		
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
	For all crops	0 2 0	2 8 0	4 0 0	1 0 4	1 10 8	2 10 8

33. The following rates will be charged for water supplied to different crops between the 25th June and 1st April of each year on five-year leases :—

SCHEDULE IV.—*Five-years Leases.*

CLASS.	Nature of crop.	FLOW IRRIGATION PER			LIFT IRRIGATION PER		
		Cottah.	Beegah.	Acre.	Cottah.	Beegah.	Acre.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
	For all crops	0 1 0	1 4 0	2 0 0	0 0 8	0 13 4	1 8 0

Note.—If water is taken for sugarcane in the hot months, in addition, under Rule 32, the total charge will be as follows :—

	Rs. A. P.
Under five-years leases per acre	2 0 0
During hot months ,, ,, ...	4 0 0
Total per acre ...	6 0 0

34. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

35. All water-rates shall become due on the dates below stated, and shall be paid within one month of such dates :—

Water-rate on spring crops, wheat, barley, peas, poppy, &c. ...	15th March.
Water-rate on summer crops, cheena, &c. ...	15th July.
Water-rate on bhadoi crops, early rice, indian-corn, murwa, &c. ...	31st October.
Water-rate on annual and winter crops, sugarcane, aghani rice, jowar, &c.	31st December.

36. In the case of lands held in *bhaoli*, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them.

37. In the case of lands held in *bhaoli*, the zemindar shall sign jointly with the cultivators. (This rule only applies to the case of five-year leases.)

38. The area irrigated in any village shall be measured by an *Ameen* appointed for the purpose The *Putwari* shall be present at the measurement, and shall at the time take a copy of the *khusrah* of the *Ameen*; if for any reason the *Putwari* is not present, the cost of preparing the copy will be charged against him. This copy shall be delivered to the *Putwari*, or, in his absence, to the *Lambardar*. Both the *Lambardar* and *Putwari* shall sign the *khusrah*.

39. When the measurement is completed, the *khusrah* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the *khatiani* with all possible despatch. A copy of the *khatiani*, signed and sealed by the *Zilladar*, shall, as soon as it is prepared, be forwarded to the *Putwari*, who shall grant a receipt for the same. If the *Putwari* is not present, or declines to receive the *khatiani*, the Sub-Divisional Officer shall forward it direct to the Collector.

40. It shall be the duty of the *Putwari*, immediately on the completion of the measurement, to inform each ryot, on application, of the fields measured against him, and on receipt of the *khatiani* to supply each person charged with a *percha* showing the water-rates due. For these duties, and for attending the measurement and rendering such other reasonable assistance to the Canal Officer and Collector as may be required, an allowance of one quarter anna per rupee on the amount collected shall be made.

41. This allowance shall be paid to the *Putwari* by the Collector if he is satisfied that the work has been properly done.

42. The Canal Officer shall note on the *khatiani* whether the *Putwari* has given proper assistance during the measurement.

43. If a cultivator is dissatisfied with the entries made against him in the *khatiani*, whether as to the fact of the land having been charged "flow" instead of "lift" or as to the measurements and entries of classes of crops, he must lodge a complaint, either personally or through the *Lambardar* of his village channel, with the Divisional or Sub-Divisional Canal Officer within a month after the date of the demand being made on him.

44. The *Zilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Ameens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khatiani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tehsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tehsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tehsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tehsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tehsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The *Lambardar* will be held personally responsible that any breach of this rule or of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1877-78 and 1878-79, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Wednesday, the 29th* September 1880, at 11 A.M., and will comprise 4,700 chests, viz.—

	Chests.
Behar Opium	2,350
Benares ,, ...	2,350
Total ...	4,700

Of the 2,350 chests of Benares Opium 271 are of a consistence of 75°. The usual consistence of Benares Opium is 70°. These 271 chests are numbered 17176 to 17446, and are marked with a red × on each end.

* This date has been changed from the 4th October 1880, as fixed in the general notification dated 2nd December 1879, on a presentation from the merchants.

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 2nd December 1879, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest date for deposit will be the 5th October 1880, and the latest date for clearance will, owing to the intervention of the Doorga Pooja holidays, be the 21st October 1880—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 5th October 1880, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 21st October 1880.

4. The following table shows the quantity of Opium that will be brought to sale in the next twelve months. The Board of Revenue, however, reserve to themselves the right of altering dates should circumstances render it expedient to do so:—

Dates.	Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Thursday, 4th November 1880 ...	2,350	2,350	4,700
Ditto Wednesday, 1st December ,, ...	2,350	2,350	4,700
Early in January 1881 ...	2,350	2,350	4,700
,, February ,, ...	2,350	2,350	4,700
,, March ,, ...	2,350	2,350	4,700
,, April ,, ...	2,350	2,350	4,700
,, May ,, ...	The number of chests of each kind to be sold each month will be advertized hereafter.		4,700
,, June ,, ...			4,700
,, July ,, ...			4,700
,, August ,, ...			4,700
,, September ,, ...			4,700
,, October ,, ...			4,700
Total ...	.....	.....	56,400

By order of the Board of Revenue, L. P.,

A. FORBES, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 24th August* 1880.

No. 859B.

IT is hereby notified that out of the 3,000 chests of Benares opium of 1878-79 of 75° consistence, referred to in Clause 18 of the Board's general notification No. 1581B, dated 2nd December 1879, 271 chests will be sold at the sale on the 4th October next, together with 2,079 chests of Benares opium of 1877-78.

The remaining quantity of the 3,000 chests of Benares opium at 75° of 1878-79 will be sold as follows as a part of the fixed monthly number of 2,350 Benares chests:—

4th November 1880	500 chests.
1st December ,, ...	500 ,,
January 1881	500 ,,
February ,, ...	500 ,,
March ,, ...	500 ,,
April ,, ...	229 ,,

By order of the Board of Revenue, L. P.,

A. FORBES, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, *the 20th July* 1880.

Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

The following order, issued by the Government of India in the Foreign Department, is republished for general information :—

NOTIFICATIONS.—GENERAL

Simla, the 14th August 1880.

No. 1623*G.-G.*—Mr. W. B Savi, Assistant Superintendent of Police, was employed as Assistant to the Political Agent in the Naga Hills from the 1st March to the 24th April 1880, *vice* Mr. G. J. Cawley.

The following order, issued by the Government of India in the Finance and Commerce Department, is republished for general information :—

NOTIFICATIONS.

Simla, the 21st August 1880.

No. 2368.—In continuation of the Regulations for preventing Collisions at Sea, published in the *Gazette of India*, Part I, dated the 31st January 1880, the following is notified for general information and guidance :—

AT THE COURT AT WINDSOR.

The 24th day of March 1880.

PRESENT :

The Queen's Most Excellent Majesty in Council.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the Table marked C in the Schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto, or in substitution therefor; and that any alterations in or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said Schedule :

And whereas by the same Act it was further provided, that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the Schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country whether within British jurisdiction or not; and it was further provided by the said Act, that whenever an Order in Council had been issued applying any Regulation made by or in pursuance of the said Act to the ships of any foreign country, such ships should, in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships :

And whereas, by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct that there should be substituted for the Regulations contained in the Schedule to the said Act certain Regulations appended to the said Order, and that the said appended Regulations should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said recited Order should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council:

And whereas by Order in Council dated the fourteenth day of August one thousand eight hundred and seventy-nine, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to direct that on and after the first day of September one thousand eight hundred and eighty, the said Regulations and the additions thereto should be annulled, and that there should be substituted therefor the new Regulations contained in the First Schedule thereto, and that the same should, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said Second Schedule thereto, whether within British jurisdiction or not:

And whereas Article numbered 9 of the Regulations appended to the said recited Order in Council of the ninth day of January one thousand eight hundred and sixty-three is as follows; that is to say,—

Art. 9.—Open fishing boats and other open boats shall not be required to carry the side lights required for other vessels; but shall, if they do not carry such lights, carry a lantern having a green slide on the one side and a red slide on the other side; and on the approach of, or to, other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

Fishing vessels and open boats when at anchor, or attached to their nets and stationary, shall exhibit a bright white light.

Fishing vessels and open boats shall, however, not be prevented from using a flare-up in addition, if considered expedient.

And whereas the Article numbered 10 of the said new Regulations, contained in the First Schedule of the said recited Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine, which said Article is to be in substitution for the said recited Article numbered 9, is as follows; that is to say,—

Art. 10.—(*a*) Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of, or to, other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(*b*) A fishing vessel, and an open boat, when at anchor, shall exhibit a bright white light.

(*c*) A fishing vessel, when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(*d*) A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red, and the lower green, and shall also either carry the side lights required for other vessels, or, if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass, as described in paragraph (*a*) of this Article.

(*e*) Fishing vessels and open boats shall not be prevented from using a flare-up in addition, if they desire to do so.

(*f*) The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(*g*) All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the operation of the said recited Article numbered 10 of the New Regulations contained in the First Schedule of the said Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine shall be suspended until the first day of September one thousand eight hundred and eighty-one, and that, in lieu thereof and in substitution therefor, the recited Article numbered 9 of the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three shall continue and remain in force until the said first day of September one thousand eight hundred and eighty-one.

Now THEREFORE Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct that the operation of the said recited Article numbered 10 of the New Regulations contained in the First Schedule of the said Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine shall be suspended until the first day of September one thousand eight hundred and eighty-one, and that in lieu thereof and in substitution therefor, the said recited Article numbered 9 of the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three shall continue and remain in force until the said first day of September one thousand eight hundred and eighty-one.

C. L. PEEL.

The following order, issued by the Government of India in the Military Department, is republished for general information :—

SPECIAL.

Simla, the 20th August 1880.

No. 487.—With reference to the G. G. O. quoted in the margin, the services of the undermentioned Local Lieutenants, lately employed in the Transport Department in the field, having been replaced at the disposal of the Local Governments and Administrations under which they were originally serving, the local and temporary rank conferred upon them ceases from the dates expressed opposite their names :—

Nos. 118, 135, and 202 of 1880.

Local Lieutenant C. H. C. Sevenoaks,—1st August 1880.

PUBLIC WORKS DEPARTMENT BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 145.

The 23rd August 1880.

UNDER section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the District Road Committees of Burdwan, Bankoora, Beerbhoom, Midnapore, and Hooghly with Howrah, of works done and in progress during the past cess-year 1878-79, together with the remarks thereon of the Commissioner of the Burdwan Division, are published for general information.

T. H. WICKES,

Asst. Secy. to the Govt. of Bengal,
Public Works Department.

No. 122, dated Burdwan, the 22nd January 1880.

From—F. WYER, ESQ., Chairman, District Road Committee, Burdwan,
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the annual Road Cess Report of this district for the year 1878-79, together with a copy of the audit report of the sub-committee appointed under section 88 of the Road Cess Act. The accounts submitted by the sub-committee were passed by a meeting of the Committee held on the 17th ultimo.

2. *Working of the Road Cess System.*—The cess was levied at the maximum rate. The demand for the year was Rs. 1,97,171, and the collections Rs. 1,88,172. Full particulars are given in my report as Collector, of which I annex a copy.

3. *Whether the Road Cess is popular or not.*—The cess is now accepted without any grumbling, and the people appear to be thoroughly alive to the objects of the cess. I have frequent applications for making new roads or repairing old ones in which the applicants state that since they pay the tax they should benefit by it.

4. The following is a list of the Road Cess Committee, showing the number of times each member attended the Road Cess meeting:—

Members.	Number of meetings attended.	Number of meetings at which absent.	Total number of meetings held.
Ex-officio members.			
Magistrate, Chairman	5	2	
Joint-Magistrate, Vice-Chairman	6	1	
Executive Engineer, Member	2	5	
District Superintendent of Police, Member	5	2	
Official but not ex-officio members.			
Baboo Bogolanund Mookerjee	5	2	7
Non-official members.			
Mr. F. E. F. DelaCourneuve	...	7	
Rajah Bissessur Malia	...	7	
Munshi Eggut Hossein	1	6	
Baboo Chandi Lall Singh	2	5	
,, Umesh Chunder Mitter Chowdhry	...	7	
Shajad Rohoman	1	6	
Syed Sudderuddeen Ahmed	1	6	
Baboo Trilock Chand Kenya	6	1	
,, Mutty Lall Chowdhry	3	4	
,, Surbessur Bhattacharjee	2	5	
,, Boistub Churn Budder	1	6	
,, Hit Lall Misser	...	7	
,, Baikunt Nath Rai	1	6	
,, Bholanath Kabiraj	6	1	

I succeeded Mr. Larminie as Chairman in May last, and Mr. Roberts, Mr. Heyman, as Executive Engineer. The only two non-official members who were regular in their attendance were Baboo Trilock Chand Kenya and Baboo Bholanath Kabiraj.

5. The number of meetings held by the branch committees of Cutwa, Culna, Raneegunge, Bood-Bood, and Jehanabad is noted in the margin, and the annexed statement A shows the particulars of the attendance of the Road Cess Committees in the district. Statement B shows the names of the members who did not attend any meeting during the year. In the Raneegunge Committee, Mr. Savage was succeeded by Mr. Bayley as Chairman, and Mr. Grace by Mr Kenny as Vice-Chairman. In the Culna Committee, Baboo Mohendra Lall Gupto, Vice-Chairman, was succeeded by Baboo Khetter Prosad Mookerjea, on transfer of the former. The members of the branch committees of Bood-Bood and Raneegunge were irregular in their attendance. Those of the other branch committees are reported to have taken interest in their work and to have been regular in their attendance. They were chiefly employed by allotting funds for the village roads.

Cutwa	8	Raneegunge	3
Culna	6	Bood-Bood	2
Jehanabad	4		

6. *Financial result.*—The enclosed accounts show the state of the fund. You will see from them that the income of the committee was Rs. 1,78,134-7-7, and the total expenditure Rs. 1,19,496-15-4, excluding suspense account under both sides. The details of expenditure, under several heads are given in the margin. The reason of decrease of expenditure as compared with the budget estimate, is given in paragraph 4 of the audit report. Besides the Buddipore road mentioned in that report, Rs. 2,323 were provided in the budget for constructing a causeway on the Gooshkera and Aushgram road, and Rs. 2,532 for completing the Jumnah nullah bridge on the Boinchee to Buddipore road. The small amount actually spent on these works was due to the failure of the contractors.

	Rs.	A.	P.
General management ...	7,923	13	5
Original works ...	21,346	4	8
Repairs ...	75,944	10	3
Tools and plant ...	2,983	8	0
Establishment ...	11,299	0	0
Total ...	1,19,496	15	4

7. *Road works.*—With the exception of the Jumnah bridge, and Gooshkera causeway, and Buddipore road, and a few petty works, all the road works were completed within the year. The non-completion of the Jumnah bridge and Gooshkera causeway was due to the failure of contractors to deliver bricks according to their contract. Out of the total sum Rs. 97,290-14 expended on road works, Rs. 21,346-4-8 were for original works, including Rs. 2,068-14 for work done the year before last, but for which final payments were made during the year under report, and Rs. 75,944-10-3 for repairs and village roads. The enclosed account shows the expenditure against each road during the year. I have added a statement showing the amount paid after the close of the year for work done during the year.

8. *Original works.*—The District Engineer reports that all the works were satisfactorily done. I have seen only roads Nos. 23 and 2. They both have been very fairly finished, though the contractor on the latter road would probably have palmed off a lot of bad metal had the District Engineer and myself not made a local investigation into the matter.

9. *Repairs.*—Most of the roads in the district were repaired during the year. Accounts show the amount expended on each road. The District Engineer has reported that all these repairs, with the exception of those on the roads Nos. 20, 8, 1, 14, 3, 10, 15, 64, 18, 43, 29, 21, and 23, on which he has not expressed any opinion, were satisfactorily done. I have seen roads Nos. 2, 1, 8, 3, 11; the metalled portion of road No. 20; Nos. 5, 12, 22, 18, 19 (for the portion up to the Damuda river); No. 23, and a part of No. 28. I found the repairs on roads 2, 1, 3, 11, 12, 22, 18, 19, and 23 satisfactorily done; but I was not satisfied with the work on the other roads. The metalling on No. 8 had not been properly consolidated. The

District Engineer explained that the reason of this was the very dry season, and the fact that horn-blende had been laid down for the first time. The bad state of No. 20 is due, I think, to the faulty way in which the contract was carried out. Possibly that of No. 5 is due to the amount of traffic on it, and that of No. 20 to the fault of the contractor. All the inspection bungalows were repaired at a total cost of Rs. 393-15.

	Rs.
Sudder	3,200
Raneegunge	1,650
Bood-Bood	1,650
Cutwa	1,650
Culna	1,650
Jehanabad	2,200
Total ...	12,000

10. *Village roads*—Rs. 12,000 were provided in the budget for repair of village roads allotted to the several sub-divisions, as noted in the margin. The roads repaired, and the amount spent, are entered below for each sub-division.

Sudder Sub-division.

Name of thana.	Name of village road.	Amount sanctioned.	Amount spent.	Total.	Remarks.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	
Burdwan .	Repairing Rayon village road	230 0 0	230 0 0	230 0 0	
	Ditto a culvert in Punrah road ...	35 0 0	35 0 0	35 0 0	
Khundghose ...	Ditto Shoshunga and Kankoonal village road	300 0 0	300 0 0	300 0 0	Account submitted late, and not adjusted in the annual accounts.
	Repairing Khundghose village road ...	90 0 0	90 0 0	90 0 0	
Gangoor ...	Ditto Debogram ditto	25 0 0	25 0 0	25 0 0	
	Ditto Bursool ditto	100 0 0	100 0 0	100 0 0	
Sahibgunge ...	Ditto Ghose Pachkin ditto	100 0 0	50 0 0	50 0 0	Account not yet submitted.
	Ditto Mahata ditto	300 0 0	300 0 0	300 0 0	Ditto ditto.
	Ditto culverts on Sahibgunge to Sripore village road	538 0 0	.....	.....	Not done, as the amount was sanctioned when the year was far advanced.
Selimabad ...	Repairing Rampore village road	30 0 0	30 0 0	30 0 0	
	Ditto Selimabad ditto	100 0 0	100 0 0	100 0 0	
	Ditto Bamapore ditto	250 0 0	210 0 0	210 0 0	
Indas ...	Ditto the Bhalsi ditto	50 0 0	50 0 0	50 0 0	
	Ditto Shashpore ditto	170 0 0	170 0 0	170 0 0	
	Ditto ditto Dongalone	95 0 0	95 0 0	95 0 0	
	Total ...	2,413 0 0	1,785 0 0	1,785 0 0	

Rs. 300 were also sanctioned for repairing the village road in Boliar, but the amount was not taken by the party.

Cutwa Sub-division—Rs. 340 *only spent.*

	Rs.
Gopikhanjee to Jheenukghatta road	60
Khajudihi to Shyambazar ,, ...	80
Bachundi to Ketugram ,, ...	200
Total ...	340

The works were not completed within the year, and hence the expenditure was only one-fifth of the allotment.

Bood-Bood Sub-division—Rs. 813 *spent.*

	Rs.
Sookdal village road	118
Bhursiem ditto	132
Paloshdunga to Rungamati village road	300
Jogomohunpore to Moheshpore ditto	263
Total ...	813

Rs. 766 were also advanced for other village roads, but the works were not done during the year.

Kulna Sub-division—Rs. 1,384-0-6.

	Rs.	A.	P.
Rameshurpore village road ...	183	3	0
Kaigram and Rauigram ditto	200	0	0*
Poorbashtholy village road	259	0	0
Salguchia ditto	225	7	0
Dhatrigram ditto	50	0	0
Jewdhara ditto	77	7	6
Bodhagachee ditto	132	15	6
Jumnah and Kooshungram village road ...	150	0	0
Gram Culna ditto ...	90	7	0
Nashipore ditto ...	15	8	6
Total ...	1,384	0	6

* Rs. 300 sanctioned and Rs. 100 refunded.

Raneegunge Sub-division—Rs. 892-12-0 *spent.*

Bansarah	village road	...	...	30	0	0
Sagurbhanga	ditto	...	...	117	0	0
Nachan	ditto	...	...	150	0	0
Nichimter	ditto	...	...	100	0	0
Kaksah	ditto	..	...	80	0	0
Adjadhya	ditto	...	...	104	5	6
Nagur	ditto	...	...	42	2	6
Lalkatiangbur	ditto	...	...	60	0	0
Raghoonathpore	ditto	...	...	40	0	0
Contiugencies	...	...	...	2	12	0
				726	4	0
Domohain road	...	...	...	166	8	0*
		Total	...	892	12	0

Rs. 1,699-6-0† *were spent in the sub-division of Jehanabad on the following roads.*

Poorshooru	village road.	Lakunda	village road
Arandi	ditto.	Kamarhatee	ditto.
Roynah	ditto.	Bengui	ditto.
Gourhatee	ditto.	Goghat to Hajeepore	ditto.
Bhangamora	ditto.	Moyapore	Road.
Sheur	ditto.	Kotulpore to Moyapore	ditto.
Dehee Bagnon	ditto.	Oochabun to Mungobunee.	
Pandugram	ditto.		

Thus the actual expenditure on village roads repaired during the year under report was only Rs. 6,915-2-6. The annual accounts show Rs. 5,261-11-3 for repair of village roads. This amount includes adjustment on account of previous year's expenditure, and excludes part of the expenditure actually incurred during the year, but adjusted after its close. The attention of the chairmen of branch committees has been drawn to Government circular No. 903A., dated 15th August 1879, regarding submission of monthly accounts of expenditure on village roads, and I hope that there will be no difficulty about these accounts in future. The number of village roads repaired was much larger than any previous year.

11. *Arboriculture.*—No tree-nurseries have been established in this district by the Road Cess Committees. In January last the sub-divisional officers were requested to induce zemindars and others to form nurseries of mangoe, jack, and other indigenous fruit-trees for plantation along the roadsides. The following zemindars complied with the chairmen's request:—

Babu Joykissen Mukerjea.	Babu Gobind Prosad Bose.
„ Bama Charan Banerjea.	„ Banimadhub Mullick.
„ Bonomali Nundy.	„ Nushigram Bhattacharji.
„ Nocoor Chunder Shah.	„ Hit Lall Misser.
„ Jodunath Chuckerbutty.	„ Protap Chander Ghose.

Babu Boistub Charan Bhudder.

Since that time I have endeavoured to get the trees planted and looked after by contract, but with no success. The sub-divisional officer of Kulna planted 277 trees aloug the Cutwa and Kulna road. Of these 235 are still flourishing. I have ordered the chowkidars in charge of each inspection bungalow to plant out and tend some trees in his immediate neighbourhood. In the sudder sub-division Moulavi Sadur Rohamian, a member of the Road Cess Committee, agreed to have the Khund Ghose to Indas road planted with suitable trees. The District Engineer had orders to have four miles of the Burdwan and Cutwa road planted with trees, which Babu Joykissen Mukerjea offered to supply, but this could not be done on account of lateness of the season. In the Raneegunge sub-division the Searsole road has been planted with trees by Babu Dukhnishur Malia.

12. *Establishment.*—Mr. Deputy Collector R. T. Sevestre took charge of the Road Cess office in April last, on the transfer of Babu Bogolanund Mukerji, and by a careful supervision of the office has reduced the establishment, and caused it to do work for which formerly extra hands were employed. The office establishment worked fairly well during the year.

Mr. Stoney, District Engineer, is a young officer, who is too much led by his subordinates. However, he is very active, and I hope, with further experience, will prove a good engineer.

The subordinates under him are reported to have worked, on the whole, satisfactorily, and I can mark his opinion. He remarks that many works would have been carried out in a much better manner and progressed more rapidly, but the time of the overseer and one sub-overseer was almost wholly taken up with works on the Burdwan and Cutwa road, and thus many works suffered somewhat for want of supervision.

The office establishment has worked well.

* Adjusted in November last.
† The details of expenditure have not been yet given by the sub-divisional officer.

13. It is proposed to take the following works in hand during the present year:—

ORIGINAL WORKS.

Sudder Sub-division.

No. of road in general list.		
21.	Mymari to Satgatchea road.	
43.	Constructing causeway on the Gushkhara to Ausgram road.	
23.	Completing 9th to 25th mile of Kurjonah to Cutwa road.	

Raneegunge Sub-division.

	Constructing	a road from Damoodah to Doorgapore railway station.
11.	Ditto	a culvert in the 5th mile of Panighur and Ellambazar road.
33.	Ditto	a road from Doorgapore to Kuldiha.
	Ditto	a road from Rajband to Amlajorah.

Culna Sub-division.

16.	Completing	Jumnah nullah bridge on the Boinchee to Buddipore road.
18.	Metalling	30th and 31st miles of Burdwan and Culna road.

REPAIRS.

Sudder Sub-division.

25.	Repairing	first three miles of Oochabun to Midnapore road.
19.	Ditto	Burdwan to Jehanabad road up to Oochabun.
2.	Ditto	Mymari to Chuckdighi ditto.
1.	Ditto	Burdwan to Kurjonah road.
3.	Ditto	Gushkhara to Nittyanundpore road.
20.	Ditto	Burdwan to Bankoora road (44th to 52nd mile).
43.	Ditto	Gooshkhara to Ausgram road.
9.	Ditto	Kanoo Junction feeder road.
20.	Ditto	Burdwan to Bankoora, called Edilpore road.
44.	Ditto	Kanoo to Sahebgunge road.
29.	Ditto	First three miles of Khnudghose to Indus road.
36.	Ditto	Mancoor to Digunggur road.
13.	Ditto	Gushkhara to ditto.
21.	Ditto	Mymari to Satgatchea road.
61.	Ditto	ditto to Ganguria road.
23.	Ditto	Kurjonah to Cutwa road (9th to 34th mile).
54.	Ditto	ditto to Suekhund *vid* Poorandhat.
18.	Ditto	Burdwan to Culna (1st to 23rd mile).
17.	Ditto	ditto to Soori road.
69.	Ditto	village roads.

Raneegunge Sub-divison.

6.	Repairing	Sitarampore feeder road.
7.	Ditto	Buraker ditto.
22.	Ditto	Raneegunge to Mungulpore feeder road.
8.	Ditto	ditto feeder road.
11.	Ditto	Panighur to Ellambazar.
8.	Ditto	Dubrajpore road.
10.	Ditto	Panighur to Colhanpore road.
34.	Ditto	Rajbund to Gopalpore road.
35.	Ditto	Undal to Ukrah road.
70.	Ditto	Village roads.

Culna Sub-division.

15.	Repairing	Panduah to Culna road.
18.	Ditto	Burdwan to ditto.
16.	Ditto	Boinchee to Buddipore road.
73.	Ditto	Village roads.

Cutwa Sub-division.

64.	Repairing	Dewangunge to Culna road.
14.	Ditto	Cutwa to Dewangunge road.
45.	Ditto	ditto to Paltia road.
24.	Ditto	ditto to Soori road.
72.	Ditto	village roads.

C. J. O'DONNELL,
For Chairman.

No. 118, dated Burdwan, the 16th December 1879.

From—F. WYER, ESQ., Officiating Collector of Burdwan,
To—The Chairman, District Road Cess Committee, Burdwan.

I HAVE the honor to submit the annual report of the working of the Road Cess Act during the year 1878-79.

2. The following figures show the demand and collection of the year under notice:—

Demand.

		Rs.
Demand realised in this district	...	1,34,960
Ditto by other districts for this district		6,725
		1,48,685
Demand realised on account of other districts	...	46,676
Total	...	1,90,261
Balance of last year	...	7,417
Total	...	1,97,678
Deduct remission	...	507
Net demand	...	1,97,171
Net collection	...	1,88,172
Outstanding balance	...	8,999

Collection.

		Rs.
Collection realised in this district	...	1,28,767
Ditto by other districts	...	8,021
		1,36,788
Collection realised for other districts	...	46,183
		1,82,971
Add arrear of previous year	...	5,201
Total collection	...	1,88,172

This shows that the total collection amounts to 95·4 per cent. of demand.

3. From the amount, Rs. 8,999, shown as outstanding, Rs. 721 are due from other districts, leaving a balance of Rs. 8,278. The greater portion of this arrear is due on revenue-free estates which were assessed under section 8 of the Act. It appears that at the time of making the assessment, the names of the proprietors of the estates not being known, no attempt was made to recover the cess. This difficulty, however, has been met by reference to records of cases under Act VII of 1877, names of the proprietors of the greater portion of these estates have been ascertained, and accumulated arrears of cess are under realisation. The sanction of the Board has been obtained to bring under the provision of the Road Cess Act, the proprietors of about 400 revenue-free estates, which have hitherto escaped being assessed. A reference was made to records of cases under Act VII of 1877, and the name, residence, and quantity of land held by each party has been ascertained. Measures are being taken to issue notices under section 6 of the Act.

4. In November 1878, a circular from the Government of Bengal was received directing that after March 1878 no house-tax was to be realised. The collections continued to be made up to August 1879, when it was found that a great number of persons from whom house-tax was recoverable had either died or deserted owing to the cyclone and scarcity during the year 1874. The assessment was made during the year 1872-73, and collections did not commence to be made before October 1875.

5. The services of a clerk at Rs. 25 and a mohurir at Rs. 15 have been dispensed with. Under section 22 of the Act, about 8,000 notices on proprietors of estates, calling their attention to the time at which instalments were to be paid and the rate of Road Cess fixed for the year, have been prepared by the office establishment, which hitherto was prepared by an extra establishment. The plan of recovering arrears of cess by a staff of peons as directed by the Board in their circular No. 680A., dated 29th October, was introduced in June last. The plan has worked well, as arrears realized have been larger, and in every instance in which an arrear has been recovered, the defaulter has paid peon fees and thus portion of the peon's salary has been recouped. The services of these peons have been utilized in serving the notices under section 22 of the Act. In previous years a number of extra peons was engaged for the purpose.

6. Mr. Deputy Collector R. T. Sevestre took charge of the Road Cess office in April last on the transfer of Baboo Bogola Nundo Mookerjee to sub-division Magoorah, and has successfully devoted a great deal of time and energy to carrying on the work of the department.

No. 96, dated Burdwan, the 16th December 1879.

From—C. J. O'DONNELL, Esq., Vice-Chairman, District Road Committee, Burdwan, and three members of the Audit sub-committee,

To—The Chairman, District Road Committee, Burdwan.

As sub-committee appointed under section 88 of the Road Cess Act, we have the honor to submit the accounts of the District Road Fund for the year ending 30th September 1879 with the following remarks.

2. We have carefully gone through the cash-book, treasury pass-book, cheques, vouchers, and the abstract-books and found that they all agreed with each other on both sides of the accounts.

3. We noticed the following discrepancies between the budget-estimate for the year and the actual income and expenditure:—

Receipts.

		Rs.	A.	P.
Land-cess, as provided in the budget	...	1,34,500	0	0
Ditto, as collected	...	1,20,556	14	0
The difference	...	13,943	2	0

is due to arrears.

		Rs.	A.	P.
House-cess, as per budget	... ...	7,943	0	0
Ditto, as realized	... ...	548	8	0
	The difference ...	7,394	8	0

is owing to the abolition of the cess.

Miscellaneous.

		Rs.	A.	P.
Receipts, as provided in the budget	... ...	8,877	0	0
Ditto, as realized	... ...	2,391	8	9
	Difference ...	6,485	7	3

The large discrepancy in this head is due to the following causes :—

A receipt of Rs. 2,381, on account of the sale of kodalies was estimated in the last year's budget, but the amount, as a matter of fact, was realized in the year before last. The subscription (Rs. 6,266) for Buddipore to Culna road was not realized as provided for; Rs. 1,700 due from Government on account of one-third cost of the establishment employed in collecting the Road and Public Works cesses have not yet been credited to this department, pending instructions asked for by the Collector from the Accountant-General.

Expenditure.

4. The expenditure on account of road works is much below the allotments in the budget-estimate Rs. 1,72,137 being provided in the budget, whereas only Rs. 97,290-14-11 has been spent. In the case of several works, both original and repairs, though completed within the year, the final payment were not made until the current year. A few also of the works were not taken into hand at all, and no expenditure incurred on them in consequence. Thus Rs. 7,000 were provided in the budget for constructing the road from Buddipore to Culna, but the project was postponed by a committee held in March last. There was an expenditure of Rs. 2,983 for tools and plant, though no provision was made in the budget for the purpose. The expenditure was afterwards sanctioned by the committee as their purchase was urgently needed.

5. We noticed that the long outstanding advance of Rs. 813 was at last realized from the Equitable Coal Company, Raneegunge, and credited in the current year's account. No other fluctuations in the account call for remarks.

6. We find that all the accounts have been well, clearly, and carefully kept by the accountant, Umbica Charan Mitter, and we beg to draw the Committee's attention to the very satisfactory performance of his duties.

No. 6.—PART I.

C. J. O'DONELL,

Vice-Chairman.

No. 18, dated Bankoora, the 1st December 1879.

From—J. ANDERSON, ESQ., M.A., Magistrate and Chairman of the District Road Cess Committee, Bankoora.

To—The Commissioner for the Burdwan Division.

I HAVE the honor to submit the Road Fund annual report for the cess-year 1878-79.

2. *Committee.*—The following statement shows the names of the gentlemen who were members of the district road committee during the year under review, and the number of meetings attended by each :—

	Names of Members.			Number of meetings attended.	Number at which absent.	Total number of meetings.
	Ex-officio.					
1.	R. M. Waller, Esq., B.A., ...	4				
	J. Anderson, Esq., M.A. ...	7	Chairman ...	11	...	11
2.	Heyman, Esq.... ...		Executive Engineer	1	10	11
3.	D. Lacey, Esq.	1	District Superintendent of Police ...			
	H. V. H. Roberts, Esq. ...	7		8	3	11
4.	Baboo Bhabatosh Banerji ...	6	Senior Deputy Collector ...			
	„ Pratapnarayan Singh ...	1		7	4	11
	Official, but not ex-officio.					
5.	Baboo Mohendronath Bhattacharji, M.A., Vice-Chairman.			9	2	11
	Non-official.					
6.	J. O. B. Sceales, Esq.			4	7	11
7.	Baboo Radhabullav Singh, Rai Bahadoor ...			1	10	11
8.	„ Ram Lal Misser			4	7	11
9.	„ Dwarkanath Mukerji			6	5	11
10.	„ Nadiar Chand Rai			4	7	11
11.	„ Nobin Chandra Chatterji			10	1	11
12.	„ Gunga Govinda Mukerji			11	11	
13.	Munshi Alizamin			6	5	11

3. It will be seen from this that 11 meetings were held during the year, in all of which the chairman presided. The District Superintendent of Police attended eight meetings. The Executive Engineer was present at one meeting only. It is much to be regretted that the distance of this officer's head-quarters from Bankoora prevents him from attending the committee's meetings more frequently and assisting them with his valuable advice in professional matters. Baboo Bhabatosh Banerji, Deputy Collector, attended six meetings, and Baboo Protapnarain Singh, Deputy Collector, was present at the meeting held towards the close of the year after he joined the district. Baboo Mahendronath Bhattacharji, Vice-Chairman, attended nine meetings and was absent from the two which were held while he was on privilege leave. Of the non-official members, Baboo Nobin Chandra Chatterji attended 10 out of 11 meetings, and Baboo Dwarkanath Mukerji and Munshi Alizamin were present at six and Baboos Ramlal Misser and Nadiar Chand Rai and Mr. Sceales at four meetings.

Rai Radhabullav Singh, Bahadoor, could not attend more than one meeting, owing probably to pressure of his private zemindari business. Baboo Gunga Govinda Mukerji did not attend any meeting at all. This gentleman is now employed as rural sub-registrar of Onda, and it is therefore difficult for him to attend committee meetings.

4. *Branch Committee.*—There is no branch committe in this district. Steps are being taken to organize one at the new sub-division of Bishenpore.

5. *Finance.*—The year opened with a balance of Rs. 14,420-4-7, exeluding Rs. 2,340, the amount at credit of deposits. The receipts during the year were Rs. 18,829-14. The total sum available for expenditure was therefore Rs. 33,250-2-7.

6. *Receipts.*—The subjoined statement shows the receipts of the year under the several heads as compared with the preceding year :—

	1877-78.			1878-79.		
	Rs.	A.	P.	Rs.	A.	P.
Cess on lands	17,099	9	10	17,484	3	4
Do. on mines, &c.	12	3	9	12	3	9
Do. on houses	1,038	4	0	216	14	0
One per cent. road cess	272	11	9	238	14	3
Road tolls	2,003	0	0	.....		
Miscellaneous	349	0	3	877	10	8
Total ...	20,774	13	7	18,829	14	0

7. The increase in the amount of collections under the head of cess on lands is principally due to the measures adopted by the Collector for the realization of the arrears outstanding at the close of the preceding year. The sum of Rs. 12-3 9 was paid by Bengal Stone Company, Limited, as cess on the annual net profits derived by them from the stone-quarry at Susunia. The sum of Rs. 216-14-0, under the head of cess on houses, represents the amount of arrears collected during the year. The remission of the house-cess has been accepted by the people as a boon. The decrease under the head of one per cent. road cess is chiefly due to advance payments made during the preceding year. There were three toll-bars in this district, which were abolished at the close of the previous year under the orders of Government contained in their resolution No. 814A., dated the 16th August 1878, and communicated by the Commissioner with his circular No. 353, dated the 31st idem. The large increase of revenue under the head "Miscellaneous" is owing to the sum of Rs. 600 sanctioned by the Government from the Provincial Public Works Cess Fund on account of the proportionate cost of establishment entertained for the collection of the amalgamated road and public works cesses having been included under it. But for this, there would have been a decrease in consequence of the reduction in the rate of process fees from one rupee to four annas per process.

8. *Working of the Road Cess Act.*—Road-cess is levied at the maximum rates in the district. On the whole it is realized without much difficulty with the exception of the ghatwals, who are notoriously behind-hand in payment, and some non-resident proprietors of petty estates. All owners of land, whether revenue-paying or revenue-free, pay their road-cess with very fair regularity and punctuality. It has been the custom here to hold the sirdar ghatwal responsible for the payment of the road-cess as well as the punchak or quit-rent on account of the lands comprised in the ghât. He has to collect the road-cess and quit-rent from the dependent ghatwals and pay them to the Collector. Even if the sirdar pays his own share of the road-cess assessed on his ghât, his movable property has been held liable to sale for arrears made by his subordinates. But, inasmuch as he collects on behalf of Government and not on account of himself, and derives no benefit whatever from the lands held by his tabadar ghatwals, it is contended that the relation of landlord and tenant does not subsist between him and them. The civil court has also lately decided that the sirdar ghatwal cannot sue for the recovery of rents due from his tabadars except in his representative capacity for Government, which must be set forth in the plaint. As the dependent ghatwals are generally poor, and not unfrequently refractory, and as the civil court has refused to recognize him as the landlord of his tabadars, which he was assumed to be when assessements were made under the Road Cess Act, the sirdar has now applied to be relieved from the task of collecting road-cess from his subordinates, a task which he has been hitherto performing without any remuneration whatever. The Collector has therefore placed himself in communication with the Commissioner, and it is to be hoped that before long all difficulties will be solved and some satisfactory measures devised from the prompt realization of the road-cess from the ghatwals without entailing any hardship on the sirdars.

9. *Popular feeling in reference to Road-cess.*—The road-cess is by no means unpopular with the people of the district. Its popularity, or, to speak more correctly, want of unpopularity is chiefly due to its being applied to the construction and improvement of district and village roads. The people know very well that every pice of it is spent in the district and for its benefit. The house-cess was somewhat obnoxious to the people, but that was chiefly because of the injudicious and careless manner in which the assessment was made.

10. *Expenditure.*—There was a total expenditure of Rs. 19,950-8-2 under the following heads, against Rs. 20,729-11-1 during the preceding year:

	1877-78.			1878-79.		
	Rs.	A.	P.	Rs.	A.	P.
Office establishment	1,502	1	3	1,319	1	1
Contingencies	519	10	7	269	4	2
Original works	7,180	2	9	6,412	2	8
Repairs	8,202	1	3	9,082	4	0
Work establishment	2,484	8	9	2,818	15	6
Tools and plant	841	2	6	48	12	0
Total ...	20,729	11	1	19,950	8	2

11. The decrease in the cost of office establishment is an apparent and not a real one. No payments on account of establishment were made in October 1878, the salaries for September 1878 having been paid within the month before the offices closed for the Doorga Pooja holidays. The sum of Rs. 1,502-1-3, disbursed in September 1877-78 under this head, therefore represents the cost of establishment for 13 months, while that of Rs. 1,319-1-1, expended in 1878-79, shows the cost incurred for 11 months, from November 1878 to September 1879.

12. The decrease under the head of contingencies is due to no stationery having been purchased during the last year from the Superintendent of Stationery. The large stock received during the previous year was found sufficient for all the requirements of the year under review. Again, in 1877-78, Rs. 234-8-0 had to be paid to Government on account of the rent demanded for the room occupied by the road-cess office for 2 years 9½ months, from 15th June 1875 to 31st March 1878. During the past year the rent was monthly paid into the treasury.

13. The total amount spent on original and repair works during the past cess-year was Rs. 6,412-2-8 + Rs 9,082-4-9 = Rs. 15,494-7-5, against Rs. 7,180-2-9 + Rs. 8,202-1-3 = Rs. 15,382-4-0 of the preceding year. The enclosed accounts will show how the amount was spent during the year 1878-79.

14. The increase in the cost of work establishment is principally due to the increase of pay allowed to the district overseer and to his clerk and draftsman, and also to the entertainment of a duffadar under him.

15. Under the head of tools and plant there was an expenditure of Rs. 48-12-0, against Rs. 841-2-6 spent in the previous year in purchasing one iron and two stone-rollers. The sum of Rs. 48-12-0, disbursed during the past year, was on account of charges of conveyance of the rollers purchased in the previous year. No additions were made to the stock of tools and plant during the year under report, as all works are done in this district by contractors who procure their own tools. It is unnecessary to spend much money in the purchase of tools and plant.

16. *Original works.*—No new lines of road were opened during the year. Provision was made in the budget for the construction of culverts on the Bishenpur and Sonamukhi, Maliara and Durlavpur, Susunia and Mejia, and Bishenpur and Namchara roads. A sum of Rs. 500 was allotted for the construction of an embankment on the 2nd mile of the Bankoora and Taldangra road. Another sum of Rs. 2,500 was provided for the construction of village roads.

17. *No.* 8.—*Bishenpur and Namchara road.*—Provision was made in the budget for the construction of two culverts on the 7th and 10th miles of this road at a cost of Rs. 500. An estimate, amounting to Rs. 501, was sanctioned for one single 6-foot and one double 8-foot culvert. The 6-foot culvert was completed during the year, and the double 3-foot one is in course of construction

18. *No.* 9.—*Bishenpur to Sonamukhi road.*—The amount of the estimate sanctioned by the Superintending Engineer was Rs. 5,116. A sum of Rs. 2,079 was allotted in the budget in addition to the amount of Rs. 3,000 previously sanctioned for bridges on the first 7 miles of this road. Seventeen culverts, namely, six of single 2-feet, six of single 3-feet and three of single 5-feet and two of single 10-feet were provided for in the estimate. 16 culverts, viz., 5 of single 2-feet, six of single 3-feet, two of single 10-feet, one of single 5-feet, one of double 3-feet, and one of double 5-feet have been erected at a total cost of Rs. 4,520-15-6. Of this sum, Rs. 1,224 were paid in 1877-78 and Rs. 1 300 during 1878-79, and Rs. 1,960 have been paid since the close of the year. A sum of Rs. 60-15-6 is still due to the contractor.

19. *No* 13 —*Maliara to Durlavpur road.*—In 1877-78, three estimates were passed for the construction of 11 culverts on this road at a total cost of Rs. 1,268. The allotment for that year was Rs. 900. In the budget estimate for the year, Rs. 363 were therefore allotted for this purpose. The actual outlay during 1877-78, was Rs. 60 only on account of the pay of a mohurir employed on the road to look after the construction of the culverts. The amount spent during the year was Rs. 872-7, and a small balance is still due to the contractor.

20. *No.* 15. *Susunia to Mejia road.*—A sum of Rs. 200 was allotted in the budget for a culvert on this road, an arch of 8-feet span has been added to the 8-feet culvert on the 12th mile of the road. The work was not completed before the close of the year, and hence no payment was made.

21. *No.* 15.—*Bankoora to Taldangra road.*—A sum of Rs. 60 was sanctioned for filling up the gap on the right bank of the river Darkessur near the 2nd mile of this road. The work has not been completed yet.

22. The subjoined statement will show the actual outlay on original works during the year under report:—

No. of road.	Name of road and the particulars of work done.	Amount as per budget estimate of 1878-79.	Amount of estimate sanctioned during the year.	Amount expended during the year 1878-79.		
				On account of previous year.	On account of 1878-79.	Total.
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
1	Bankoora and Sonamukhi, value of land taken up for inspection bungalow at Beliatore	.....	3 13 11	.....	3 13 11	3 13 11
5	Bankoora and Taldangra culverts	.....	.....	611 15 9	.....	611 15 9
	Construction of an embankment on the 2nd mile	500 0 0	.....	.....	.....	.....
13	Mallara and Durlavpur culverts	303 0 0	1,263 0 0	872 7 0	.....	872 7 0
14	Chatna and Susunia culverts	.....	.....	90 0 0	.....	90 0 0

20 30	Village roads	2,500 0 0	2,925 0 0	1,150 0 3	.....	1,150 0 3
	Total ...			5,222 8 0	189 10 8	6,412 2 8

23. It will be seen from this that certain payments were made during the year under review for works done during the preceding year on the Bishenpur and Sonamukhi, Bankoora, and Taldangra, Dalpur and Mohesua, Beliatore to the Damuda, and Chatna to Susunia roads.

24. *Village roads.*—One of the most important works under the head of original works is the construction of village roads. Nothing has contributed more to the popularity of the cess than the efforts made to provide the villagers with improved means of communication. It is very gratifying to find that the demand for village roads is increasing. Unfortunately, the funds at the disposal of the committee are so limited that very much cannot be done in the way of meeting the peoples' wishes in this respect. There remains but little, after defraying the cost of maintaining and repairing the district roads, available for expenditure on village roads. Still I cannot say that as yet the required money has failed. The system which is now being followed, is, as a rule, though not without exceptions, to grant a sum of, money to such villages as contribute to some extent to the cost of the roads given them, and undertake to repair and maintain them at their own expense in future. Under this grant-in-aid system, which I have introduced into this district, 57 village roads have been started. Three only were completed before the end of the year. Many new ones have since been taken up, and 40 roads are in course of construction. The people are gladly coming forward with aid wherever I go, offering even up to one-half. In this way they can get their village roads before others. Before I finish my tour, I expect very many such roads to be constructed. The branch committee which is now being arranged for the newly-opened sub-division of Bishenpur will be entrusted with the work of administering village road expenditure in the sub-division, and will, it is hoped, do much in the way of providing that part of the district with good village communications. Further, I found new district roads being constructed under the guise of village roads, thus silently increasing our annual liabilities.

25. No payments were made on account of village roads taken up during the year. The reason of this is that, until inspected by the district overseer, they are not finally paid. A sum of Rs. 503 has been advanced to respectable village people who have executed piece-work agreements for their construction. The sum of Rs. 1,150-0-3 shown as disbursed under the head "village roads," in the accompanying accounts, represents the outlay on account of the preceding year's work.

26. *Repair works.*—There are altogether 18 district roads, extending over a length of 200 miles, in the four thanas which formed the district before the 18th October last. Of these 15 are metalled throughout their entire lengths. The remaining three are only partly metalled. During the year under review, repairs were done to all but two of these 18 roads. The details are given below.

27. *No.* 1—*Bankoora and Sonamukhi road*—21 *miles.*—Rs. 2,274 were allotted in the budget for repairs to this road but Rs. 2,633 were subsequently sanctioned, out of which Rs. 400 were for the planting of trees. A new coat of 3″ metal has been given on the worn-out portions of miles Nos. 3, 4, 6, 9, 10, 12, 13, 17, and 18. The rest of the road was maintained by petty repairs. Rs. 1,241-15 only were paid to the contractor on account of the works done during the year. Final payments will be made as soon as the contractor submits his bills. Rs. 232-13 were paid on account of works done during the preceding year.

28. *No.* 2—*Bankoora and Roghunathpur road*—18 *miles.*—Budget allotment for repairs, Rs. 1,305. Amount sanctioned, Rs. 1,305. Worn-out portions of miles Nos. 1, 2, 4, 5, 8, and 10 to 1 were repaired thoroughly with a renewed coating of 2″ to 3″ metal. The other miles

were maintained by petty repairs. Rs. 1,250-6-9 were spent on this road during the year, viz. Rs. 890-9-6 on account of the works done during the year, and Rs. 359-13-3 for that of the year before.

29. *No. 3—Bankoora and Birsingpur road—3 miles.*—Allotment Rs. 250. Estimate sanctioned for Rs. 188. This road is not much used. The work portions only were repaired. The total outlay on this road was Rs. 148-7-6 of which Rs. 48-13 were on account of preceding year's work.

30. *No. 4—Bankoora and Judpur road—7 miles.*—Allotment Rs 500. Sanctioned estimate Rs. 572. Portions of miles Nos. 1, 3, 4, and 6 were thoroughly repaired with a new coating of 3″ metal. The other miles were maintained in proper order. Rs. 496-2 were disbursed for repairs on this road, including Rs. 172-1 for works of 1877-78.

31. *No. 5—Bankoora and Taldangra road—16 miles.*—Rs. 1,080 were allotted in the budget; Rs. 980 sanctioned as per estimate. The 1st, 2nd, 5th, and the 15th miles were repaired in their worst portions with 2″ to 3″ metal. The other portions of the road were maintained by petty repairs. Rs. 844-3-6 were spent on account of repairs, of which Rs. 308-13 6 were for works done during the previous year.

32. *No. 6—Bankoora and Badulara—2 miles.*—This road lies entirely within the limits of the Bankoora Municipality. It has been hitherto repaired and maintained at the expense of the road cess committee. The municipal committee, on a representation made by the road cess committee, have agreed to maintain their own roads, and the matter has gone up to the Commissioner. Petty repairs only were done to this road. Rs. 39-15, shown in the accounts as disbursed on this road, were for works of 1877-78.

33. *No. 7—Barachakra road—5 miles.*—Budgeted Rs. 270. Sanctioned Rs. 145. A portion of this road lies within the newly amended boundaries of the Bankoora municipality. Petty repairs only were executed during the year. Rs. 326-4 were spent, of which Rs. 306-1-6 were for works of 1877-78. Rs. 150 have been paid to the contractor since the close of year, of which Rs. 34-2-3 were for planting trees.

34. *No. 8—Bishenpur and Namchara road, 11¾ miles.*—Rs. 510 were sanctioned for repair to this road. The first nine miles were repaired in their worst portions. The remaining mile will be attended to as the road beyond Namchara has come into this district with thana Kotulpur. The total disbursement on account of repairs to this road was Rs. 404-2-9, of which Rs. 265-1-3 were for preceding year's work. Final payment for the repairs done last year has not been made, as the contractor has not yet submitted his bill.

35. *No. 9—Bishenpur and Sonamukhi road 13 miles.*—Allotment Rs. 403, amount of estimate subsequently sanctioned Rs. 430. This is a feeder road leading to the railway station of Panaghar. Before 1st October last 13 miles of it were within the jurisdiction of this district; 11 more miles have come in with thana Sonamukhi since the close of the year. The first seven miles of the road have not yet been metalled. Rs. 2,614 have been provided in the current year's budget for metalling a portion of it. The metalled portion was kept under proper repairs during the last year. The repair works, which had not been executed in the previous year, owing to the failure of the contractor, were done during the year under report. The sum of Rs. 590-5-9, shown in the annual accounts as spent on this road, includes Rs. 370 paid on account of the previous year's work.

36. *No. 10—Onda and Taldangra road, 11 miles.*—Budget allotment Rs. 100, amount of estimate Rs. 100. The only work done on the road was the sloping down of the approaches to the gaps left unbridged from want of funds. Rs. 82-4-3, shown in the accounts as spent on this road, were for works of the previous year. No bill for payment has yet been received for works done during the year.

37. *No. 11—Gungajulghati and Saltora road, 15 miles.*—Budget allotment Rs. 349, amount of estimate sanctioned Rs. 349. Petty repairs were done last year to maintain the road in proper order. No paymont has yet been made on account of last year's works. Rs. 9-15-3 were paid on account of the salary of the bungalow chowkidar of Saltora.

38. *No. 12—Mejia and Murohi road, 15 miles.*—Budgeted Rs. 3,760, sanctioned Rs. 3,510. This is an important road because a considerable traffic is carried over it from Manbhoom and other western districts to Mejia and the railway station of Raneegunge. However, the Burrakur road ought to relieve us soon of much of it, as it does little good to our district, passing over only a jungly portion of it. The worst portions of miles Nos. 1 to 5 received a new coating of three-inch metal during the year. The remainder of the road was kept up in proper order by petty repairs. Rs. 560 were disbursed last year, viz. Rs. 530 on account of the previous year's work and Rs. 30 on account of the salary of the bungalow chowkidar of Satdeoli.

39. *No. 13, Mahara and Durlanpur road, 6 miles.*—No repairs were done to this road during the year. Rs. 97-8 were paid for repairs done in the preceding year.

40. *No. 14.—Chatna and Susunia road, 6 miles.*—Rs. 690 were sanctioned when the estimate was submitted. The worst portions of miles Nos. 2, 4, 5, and 6 were repaired, and the remainder of the road was maintained by petty repairs. Total outlay during the year on this road was Rs. 477-13-3, including Rs. 107-7-6 on account of payments made for previous year's works.

41. *No 15—Susunia and Mejia road.*—Budget allotment Rs. 1,504, amount sanctioned Rs. 1,504. The wornout portions of miles Nos. 3, 8, 11, 12, and 13 were repaired with a new coating of three-inch metal. The other miles received petty repairs. The expenditure on account of this road during the last year was Rs. 1,248-4-9, of which Rs. 943-8-9 were on account of the last year's works.

42. *No.* 16—*Dalpur and Mohesua road, 9 miles.*—Rs. 850 were allotted in the budget for keeping this road in repairs. Rs. 857 were sanctioned according to the estimate. Portions of miles Nos. 1, 2, 3, and 8 were thoroughly repaired and the rest maintained by petty repairs. The total amount spent on account of this road was Rs. 564-7-3 for works of 1877-78 and Rs. 375-10 for those of 1878-79.

43. *No.* 17—*Beliatore to the Damunda road, via Barjora, 11¼ miles.*—This is a most important road, being in the line of the shortest distance from Bankoora to the East Indian Railway. The distance of Raneegunge from Bankoora is 30 miles, whereas Barjora is 21¼ miles from Bankoora, and five miles from the railway station of Durgapur. There is a good metalled road from Bankoora to Beliatore, and the first nine miles from Beliatore were bridged and partially metalled. The last 2¼ miles to the Damuda are in a wretched state and impassable even for carts. This latter portion will get immediate attention. It is also satisfactory to find that the Burdwan committee have at last resolved upon constructing a road from the other side of the Damuda to the railway station. This road when completed will shorten the distance to Calcutta by about four miles. Rs. 160 were sanctioned for maintaining the first nine miles of the road. Rs. 188-14-6 were paid during the year on account of works done in 1877-78. No payments have yet been made for works done in 1878-79.

44. *No.* 18—*Mejia to Mahara and Burjora road, 14¼ miles.*—No repairs were done to this road during the year under review. Rs. 87-18-9 were expended on account of works done in the preceding year. The road near Mejia is lost in the valleys by being cut down and appropriated for dhan cultivation. It crosses many villages and one main stream quite unnecessarily, as a road from Lagurdang, on the Bankoora side of the Kuniamara, over which is the bridge of the provincial road, to join it about one or two miles on, would save all this bridging and be almost as straight.

45. *Repairs to village roads.*—The following village roads were also repaired during the year, and a sum of Rs. 175 was sanctioned for the purpose :—

		Rs.
Mejia	village roads	40
Ramsagar	ditto	40
Saltora	ditto	25
Bikna	ditto	30
Sanbanda	ditto	40

The repairs were made by respectable villagers under piece-work agreement. Payments will be made as soon as bills are submitted. It has been decided by the committee not to make any further grants for the repairs of village roads, as the funds at their disposal are barely sufficient to meet the cost of repairing and maintaining the district roads and the construction of new village roads which, as has been stated above, are now being extensively applied for.

46. *Repairs to store-godown.*—A sum of Rs. 32 was sanctioned for petty repairs to the building which is used by the district overseer as his office and godown. Rs. 2-6 9 were paid as salary of the godown chowkidar whose services were dispensed with at the middle of October 1878.

47. *Repairs to bungalows.*—A sum of Rs. 188-1-9 was spent during the year on account of repairs done to the inspection bungalows. The outlay for the year 1878-79 on this head has been included in the charges for the repairs of the roads in which the bungalows stand in conformity with the instructions contained in Government Resolution No. 814A, dated 16th August 1878. There are altogether seven bungalows in the four thanas comprised in the district as it stood before 1st October last. One more bungalow has come with thana Sonamukhi from Burdwan.

48. *Arboriculture.*—The subject of planting fruit-bearing trees on the sides of the district roads in accordance with the orders of Government contained in circular No. 10, dated the 28th October 1878, engaged the special attention of the committee during the year under review. Rs. 500 were allotted in the budget, under the head of repairs, for planting and maintaining trees on the sides of the following roads :—

	Rs.
Bankoora and Taldangra	100
Barachakra	150
Mejia and Murohi	250

This was subsequently revised, and a sum of Rs. 400 was sanctioned for planting trees for the Bankoora and Sonamukhi road, and sums of Rs. 53 and Rs. 23 were passed for maintaining trees on the Barachakra and Taldangra roads respectively. There is no regular nursery-garden in the district, but there is a small one at Satdeoh bungalow kept by the chowkidar. Arrangements have been made with contractors for the planting of trees on the sides of the Bankoora and Sonamukhi road according to the terms of the contracts; the contractors are to find young plants and plant 176 healthy young trees, 88 on each side in each mile of the road; of these 88, at least 20 must be mangoes, ten jacks, ten mohowas, ten guavas, ten jams, and ten tamarinds. The contractors are paid half the amount of the estimate on planting and fencing, and the other half a year after, if the trees are then found to be alive and thriving. On the whole this system appears to be less expensive than that of keeping up nurseries.

49. *How works are done.*—All road works are done in this district by the agency of contractors, under the supervision of the district overseer. It would not be out of place to mention here that tenders were not received last year for several works which had ultimately to be given to petty contractors on piece-work agreements at the estimated rates. It is an

important part of the duty of the district overseer to foster contractors, and more attention will be paid to this matter in future.

50. *Road materials.*—This district is rich in laterite quartz and other materials for road making. In places near the Damuda, calcareous nodules called ghooting which are well-suited for metalling roads are very common. In the tract between the Damuda and the Darkessur, laterite and other stones are found in abundance, and the north-western parts of the district from the Durkessur to the confines of Purulia, are covered with granite, gneiss, quartz, hornblende, and other metamorphic rocks.

51. *General remarks on roads and communications.*—When the materials for road-making are at hand, and the cost of labour so cheap as it is in this district, it is needless to add that even with the scanty funds at the disposal of the Committee, the roads are maintained in fair order. Still a number of famine roads are not yet bridged, and the waterway is in some cases being provided for by tapping the drainage areas of the culverts by means of drains taking water away elsewhere.

52. *Proposed works.*—It is proposed to undertake, among others, the following works as soon as possible:—

(1) Building a bungalow for the Road Cess office.
(2) Metalling the Bishenpur and Senamukhi road.
(3) Constructing a road from Taldangra to Raipur, the head-quarters of one of the two thanas which have lately come from Manbhoom.
(4) Constructing a road from Indpur to Khatra the head-quarters of the other thana which has been transferred from that district.
(5) Improving the last 2¾ miles of Bishenpur and Namchara road.
(6) Ditto ditto of the Beliatore to the Damuda road.

Provision has has been made in the current year's budget for repairing and maintaing all the existing roads.

53. *Engineering establishment.*—This district is only a 3rd class district. Babu Nobo Gopal Banerji, Overseer, is in charge of the District Engineer's office. In view of the addition of four new thanas to the district, and the consequent increase of the work, the district road cess committee at a meeting held in September last, decided to appoint a sub-district overseer to assist him on a salary of Rs. 60 and horse allowance of Rs. 16 per month. It has also been resolved to appoint two rural sub-overseers on a monthly salary of Rs. 30 each, whose duty it will be to induce the villagers to apply for grants for village roads, and to look after their construction.

54. *Road Cess Office establishment.*—There is no separate office in the district under the committee. The clerks of the road cess collection office also perform all works in connection with the disbursment side. The office was inspected in March last by Mr. Moore, Deputy Examiner of Public Works Accounts, who reported its state to be satisfactory.

55. *Audit of accounts.*—The annual accounts were audited by a sub-committee, appointed under section 88 of the Act, consisting of Mr. Lacy, District Superintendent of Police, Mr. Sceales, Baboo Nabin Chandra Chatterji, and the Vice-Chairman Babu Mahendra Nath Bhattacharjya.

56. The annual accounts, together with the report of the sub-committee, are submitted herewith in duplicate.

57. *Merits of officers.*—Babu Mahendra Nath Bhattacharjyi, Vice-Chairman. This officer has taken a considerable interest in the working of the department, considering that he has not travelled along any of the district roads, and has been especially valuable in looking after the accounts. He is anxious to have the collection and disbursement side separated. This matter may be considered now that the district has been doubled. I have to thank him for his aid in compiling the above report.

Babu Nobo Gopal Banerjyi, District Overseer. This officer, so far as I have seen, has looked after his roads with a good amount of intelligence and competence. He takes a real interest in his work, and I must say the rates he vigilantly keeps down. I am now especially anxious for him to qualify for the Engineer grade so as to better administer our enlarged extent of roads, and to save constant reference to the Public Works Department which can give so little of its time to this work. He is energetic and painstaking and has given, as before, entire satisfaction.

I think it fair to add that the road cess head clerk, Babu Mahendra Lal Basu, who is permanently in charge of this department as its head ministerial officer, has shown, as hitherto, that he has its real interests at heart and has worked very hard, intelligently, and conscientiously on both sides.

Report by the members of the Bankoora District Road Cess Committee, appointed to examine the Road Cess Accounts, under section 88 *of the Road Cess Act, X of* 1871, *for the year* 1878-79.

WE, the undersigned members of the Road Cess Committee, appointed under Section 88 of the Road Cess Act, to examine the Vice-Chairman's accounts, beg leave to report that we have examined the said accounts and found them to be correct.

No. dated Camp Sakulipore, the 9th February 1880.

From—A. A. WACE, ESQ., Chairman, Road Cess Committee, Beerbhoom,
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the Road Cess Accounts and Report of this district for the cess-year 1878-79.

2. I must first remind you that the accounts submitted show only payments made during the year, and cannot therefore be followed as an exact index of the work done. Thus the accounts show over Rs. 4,000 as spent on the Ahmoodpur-Laghatta road against a budget allotment of Rs. 782. As a matter of fact the only work undertaken on this road during the year under report was ordinary repair. The excess over the budget allotment is due to the payment during the year of large sums for work done in the previous year.

3. The original works undertaken during the year under report were as follows:

(*a*) A bridge 2 spans of 22-feet, iron girder, was erected on the road from Bulpore to Sakulipore.

(*b*) A bridge, of a single 22-feet span was commenced on the road from Sakulipore to Donaipore to replace one that gave way in the rains of 1878. This was not completed till the commencement of the current year.

(*c*) Two spans of 15-feet each were added to a bridge on the road from Soory to Mohomed bazar.

(*d*) A bridge of 3 spans of 8-feet each was built on the Ranigunge road.

(*e*) A bridge 2 spans of 6-feet each was built on the road from Rajnaggur to Khoyrasole,

(*f*) One 6-feet culvert was built on each of the two roads Bulpore to Surul and Bulpore to Sakulipore. One 4-feet culvert on the Bulpore-Kusba road and two smaller culverts elsewhere.

4. To the other works shown in the accounts under the head "Outlay on (original) district works" the remarks made in paragraph 2 apply. Mr. Grant mentioned these in his report of 1877-78 as works of that year, but the final bills for them were presented within the year. I am unable to fill up the column "amount provided in the budget" against these, because, apparently, no district allotments were made for these works.

5. In addition to the bridge and culvert work mentioned in the last paragraph, a very important improvement was made on the road from Bulpur to Elambazar in the rivetting of that part of the road which runs through Bulpore. This was always in bad order, sometimes impassable. The work was well done and has answered its purpose.

6. The repairs of the metalled roads were well done on the whole. Some of the bills for work done had not been presented by the end of the year, but on the other hand some bills for the previous year were paid in this year.

7. The repairs of the kutcha roads did not come under my eye at the time they were done, as I only took charge of the district at the commencement of the last quarter; but from what I have seen this year of the attempts made to scamp work on these roads, I doubt if they have ever received the same attention as the pucca roads. I have had much fault to find this cold-weather with the slovenliness shown in dressing earthwork, and I doubt if contractors' work on these roads has hitherto been checked by the District Engineer as carefully as on those roads on which travelling is pleasant at all seasons.

8. The inspection bungalows have been kept in proper order.

9. The village road allotment was not worked up to when I took charge of the district. I found that only one-seventh of the not very liberal grant of Rs. 2,928 had been spent. I at once took the best advice available as to the probability of effecting repairs to village roads in this district during the rains, and came to the conclusion that money then spent would be simply thrown away. I therefore decided to ask the committee to re-allot the unexpeded balance under this head, for expenditure during the current year, in addition to that already allotted in the budget. This was done, and I trust to see between Rs. 5,000 and Rs. 6,000 spent this year on these minor works.

10. The bridges which have been recently erected seem in excellent order. The only disasters of the year have been on the road from Dasbrajpore to Elam bazar on which we have lost, during the last two years, three bridges erected under the supervision of the overseer who was, till 1877, in charge of the district works. The waterway originally provided was quite insufficient.

11. Attached to the accounts is a statement of works proposed to be undertaken during the current year. You will find no sort of agreement, I am sorry to say, between this and the budget already submitted. That was prepared and submitted, before I joined the district, on insufficient information. In the first place no cognizance was taken of the fact that from the commencement of the new year the district would lose Burdwan outpost and receive Rampore Hât, Nulhatee, and Pulsa. In the next place the balance which would be available at the end of the year had been very much understated. The necessary revision has already been once discussed in committee. It will be completed at the next meeting. There has been some unavoidable delay in ascertaining the exact changes in income which the alteration of the district boundary has made. I shall submit at an early date a supplemental budget, showing on the credit side (1) the difference between the balance of last year as budgeted for and as it actually stood on 31st October. (2) The gain to the Road Cess Fund by the acquisition of Rampore Hât, Nulhatee, and Pulsa less the loss by transfer of Burwan, and on the debit side the way in which it is proposed to spend the sum thus available. The statement now forwarded shows the plan of this year's work which the proceedings of the Committee so far justify me in putting forward.

12. You will observe that besides the ordinary repairs to roads the following projects are in hand:—

(*a*) A bridge in the Byree Bheel on the road from Bulpore to Benglahatra. This has been discussed more than once in the annual reports of this district.

(*b*) Doubling the waterway of, and repairing three bridges on the road from Doobrajpore to Elam bazar. This is a very important road. At present the entire circuit of the district is broken for wheeled traffic, and even for riders, in the rains, simply owing to the collapse of the bridges on this road. The committee made an allotment of Rs. 2,000 for this work in the original budget, and the difference between this and the District Engineer's estimate will be allotted from last year's balance.

(*c*) Bridges and causeways on the Mohomed bazar-Mullarpore road. This is a famine road; a heavy expenditure has been incurred on it in earthwork and in the acquisition of land which was practically nullified by the absence of all bridges and culverts. Attention has been lately drawn to its importance by the railway authorities, and the fact that it is the direct line of communication with the new sub-division of Rampore Hât is another argument for its being put in proper order. The whole scheme will be sent up for approval directly. Money will be available from savings on the pucca roads, and I also propose to ask the committee to transfer to this head the allotment made in the budget as first framed for.

(*d*) The bridge on the Bulpore Kandar. This work would be a most unnecessary piece of extravagrance. Two roads run into Bulpore on the east side of the railway. They each cross a stream known as the Bulpore Kandar about a mile from the village. This stream has already been bridged on one of the roads at heavy cost, and to erect another bridge on the other road, half a mile higher up, would in my opinion be waste of money. A cross road running over high land could bring the traffic from the latter road on to the bridge already built when the river is not fordable. As a matter of fact it generally is fordable even when other rivers are in high flood. I feel bound to mention the project, as it was included in the original budget, not because there is any intention of really carrying out the work this year.

(*e*) The sum of Rs. 6,346 has been set aside for bridges and culverts in the thanas lately transferred from Moorshedabad. The condition of the roads we have received is decidedly bad. Most of the so-called bridges are merely temporary structures of tâl trees, and the majority of there were either wrecked or in bad

condition when made over. The income from the three thanas has been ascertained to be Rs. 15,278-8-8. The sum of Rs. 2,800, must be charged against this as the proportion due for establishment. From the balances allotments have been made for such earthwork as is absolutely necessary to keep the roads open, and the remainder will be spent on pucka bridges and culverts. I cannot yet name the roads on which these will be built as the District Engineer's plans and estimates are not yet furnished.

13. The cess was realized without difficulty in the old district of Beerbhoom. Collection in the transferred thanas is still in the lands of the Moorshedabad authorities. The grumbling which of course the tax at first challenged seems to me to have subsided, and I think people generally realize that they have got something for their money in the great improvements that have been made on all the principal lines of roads within the last three years.

14. A statement showing the attendance at meetings is attached. I have done my best to remedy the state of things, which this shows, by constituting a new committee which has lately been gazetted. Two of the meetings which I have held of the old committee even were very fairly attended, and from the interest shown at them I cannot think that the failure of the past year is to be laid altogether at the door of members. I have every hope that I shall receive the same assistance in this district as I have always received elsewhere from these bodies.

15. The collection establishment has worked well. On the subordinate engineering establishment I am not prepared at present to pass any opinion. Mr. Grant, the District Engineer, has undoubted abilities, and his bridgework seems always good. I have induced the committee to increase his travelling allowance, and they have proposed to make it a condition of his service that he should spend 175 days in the year in the interior. I hope that these measures may have the effect of making him more active, and getting from him more supervision of repairs, notably on the 2nd and 3rd class roads than he seems yet to have given.

APPENDIX.

Abstract of particulars regarding Meetings of District Road Cess Committee for the cess-year 1878-79.

A. A. WACE, *Chairman.*

No. 145, dated Midnapore, the 9th February 1880.

From—J. C. PRICE, ESQ., Chairman,
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the annual accounts of the Midnapore District Road Fund for the cess-year 1878-79, and to report in the following paragraphs on the administration of the fund during the year.

2. The annual accounts were duly examined and audited by a sub-committee consisting of the members noted in the margin, and were passed at a general meeting of the committee held on the 3rd instant, in accordance with the requirements of the Act.

J. W. Badcock, Esq., Joint-Magistrate, *ex-officio* member.
Baboo Jogendro Nath Roy, Pleader and Zemindar.
„ Bhooboneshur Mitter, Zemindar and Medical Practitioner.
„ Guroo Churn Dutt, Manager of the Zemindar of Midnapore.

3. The following gentlemen continued to be members of the committee from 1st October to 9th December 1878:—

R. H. Wilson, Esq., Chairman.
(There was no Vice-Chairman).
Executive Engineer of Burdwan Division.
W. F. Smith, Esq., District Superintendent of Police.
R. Anderson, Esq., Manager of Messrs. R. Watson & Co.
P. L. Richards, Esq., ditto ditto.
F. T. Rice, Esq., Assistant Manager of ditto.
H. W. McKennie, Esq., Assistant Engineer, Midnapore.
C. A. Dubus, Esq., Manager of Messrs. Payne & Co.
J. H. Apjohn, Esq, Executive Engineer of the Cossye Division.
A. D. Larymore, Esq., Superintendent of Jails.
Baboo Bhoobon Chunder Banerjee, Pleader and Zemindar.
„ Jogendro Nath Roy, ditto ditto.
„ Rughoo Nath Dass Pohoraj, Zemindar of Balaberiah.
„ Nobo Coomar Chowdhry, Zemindar of Mulighatty.
„ Joumejoy Mullick, Zemindar.
„ Mokoondo Lall Roy, Zemindar of Majnamootap.
„ Gopendro Nundon Dass Mohapatro, Zemindar of Potaspore.
„ Ram Chunder Roy, Zemindar of Dantoon.

4. But in consequence of the non-attendance of some of the members, and the expiration of the period of their appointment in the case of others, certain changes, as prescribed in section 49 of the Road Cess Act, were made, and the following list of members was sanctioned by Government in their letter No. 5185A., dated 27th November 1878:—

The Magistrate and Collector, Chairman,
„ Senior Covenanted Assistant to ditto,
„ Executive Engineer of the Burdwan Division,
„ District Superintendent of Police,
} *Ex-officio.*
J. H. Apjohn, Esq., Executive Engineer of the Cossye Division.
Mr. P. L. Richards, Manager of Messrs. R. Watson & Co.
„ F. T. Rice, Assistant to ditto.
C. A. Dubus, Esq., Manager of Messrs. Payne & Co.
Baboo Bhooboneshur Mitter, Talookdar and Medical Practitioner.
„ Bhoobon Chunder Banerjee, Pleader and Zemindar.

Baboo Guroo Churan Dutt, Manager of the Zemindar of Midnapore.
" Jogendro Nath Roy, Zemindar and Pleader.
" Kristo Lall Mozoomdar, ditto ditto.
" Bipeen Behary Dutta, ditto ditto.
" Guroo Dass Pyne, Zemindar.
Moulvi Khoyrat Ali, Zemindar.
" Mahomed Ali, Pleader and Zemindar.
Baboo Nobo Coomar Chowdhry, Zemindar of Mulighatty.
" Rughoo Nath Dass Pohoraj, Zemindar of Balaberiah.
" Joumejoy Mullick, Zemindar.

5. The following changes took place in the personell of the Committee:—

Mr. R. H. Wilson was Chairman until 18th May 1879, when he was succeeded by Mr. T. D. Beighton. The latter officer was relieved by me on the 21st July 1879, since which time I have been in charge of the district.

Mr. T. D. Beighton was Vice-Chairman from 12th October 1878 to 18th May 1879, and from 21st July to 18th August 1879. From 1st to 11th October 1878, from 19th May to 20th July, and from 19th August to 30th September 1879, the office of the Vice-Chairman was vacant owing to the transfer of Mr. Beighton from this district.

Mr. W. T. Smith, the District Superintendent of Police, was transferred from this district on the 19th November 1878, and was replaced as a member of the Road Cess Committee by his successor Mr. F. Graves. Mr. J. H. Apjhon, the Executive Engineer of the Cossye Division went on furlough on the 22nd March 1879, and his place was filled by Mr. H. Unwin.

6. There were seven meetings held during the year in two of which there was no quorum. The other five meetings were well attended. The number of meetings attended by each member is shown in the statement given below:—

Commissionership.	District.	Number of members forming Committee.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meeting.	Number of members who did not attend any meeting.	Number of Members who attended—														Percentage of average attendance to whole committee.
									One meeting.		Two meetings.		Three meetings.		Four meetings.		Five meetings.		Six meetings.		Seven meetings.		
		Official.	Non-official.						Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	
Burdwan Division.	Midnapore	5	15	7	7	2	6·6	4	...	3	1	5	...	3	...	1	1	...	1	...	...	1	33

7. From the statement it will be seen that the percentage of attendance of members was only 33. Almost all the official members and a few of the non-officials evinced considerable interest in the administration of the fund. Some of the non-official members showed themselves quite apathetic. Three of them did not attend a single meeting. The Executive Engineer of the Burdwan Division could not attend any meeting in consequence of his head-quarters being far removed from this station.

8. During the year under report there was no branch committee in this district, but on my suggestion the committee at a meeting, held on the 29th September 1879, unanimously came to the conclusion that at each sub-divisional head-quarters there should be appointed a branch committee presided over by the sub-divisional officer. It was to be the business of the branch committee to supervise the expenditure of all road cess money in the sub-division, and its deliberations were to be carried on in a manner similar to that in which the proceedings of the district road cess committee are conducted. Sub-divisional officers have accordingly been asked to send in the lists of the names of the members of branch committee, and as soon as they are received they will be submitted to Government for approval.

9. The work under the committee was carried out almost throughout the year by Mr. G. J. R. Leeson the District Engineer. As reported in this office letter No. 4, dated 16th October 1878, Mr. Leeson took charge of the road office from Baboo Gopal Chunder Bose on the 21st October 1878, in anticipation of the Chief Engineer's approval of his qualifications, and subsequently his appointment on probation for one year was approved by Government in their letter No. 1753E., dated 6th November 1878.

10. Baboo Bipeen Behary Mazoomdar, Overseer, resigned his appointment in January 1879. His place was occupied by Baboo Gunga Churan Gangooly, a sub-overseer of this Department, and Baboo Nacoor Chunder Bose was appointed in the sub-overseer's post. Both these appointments were duly reported to Government, and were sanctioned on probation for one year—*vide* Government letter No. 1107E., of the 27th June 1879.

11. It will be seen from the accompanying accounts, that the year opened with a net balance of Rs. 75,921-0-7 (*vide* details shown in the margin) which being added to Rs. 1,51,640-9-10, received during the year as income, there was a net available income of Rs. 2,27,561-10-5. The total expenditure incurred during the year under the several heads amounted to Rs. 1,68,203-4-9, leaving an unexpended balance of Rs. 56,424-0-1 at the close of the year.

		Rs.	A.	P.
Balance on the 30th September 1878.	Cash in hand	79,018	3	5
	Advances outstanding	2,135	1	2
		81,153	4	7
Deduct balance at credit of deposit		5,232	4	0
Net balance		75,921	0	7

12. The works carried out on the several roads of this district are shown in detail in part II of the annual accounts. The works are shown under the heads of "Original" and "Repairs," the expenditure under these heads being Rs. 1,38,723-6-10, as per detail given in the margin. Of the original works the most important are those executed on the undermentionedroads.

	Rs.	A.	P.
Repairs	58,810	0	5
Original work	79,913	6	5
	1,38,723	6	10

Road No. 3—*Lodhaseye to Purihatti*—

18th	mile,	1	bridge	of 3	spans	of 17	feet each.
„	„	1	„	of 2	„	of 10	„ „
„	„	1	„	of 2	„	of 18	„ „
26th	„	1	„	of 1	span	of 12	„ „
28th	„	1	„	of 1	„	of 11	„ „
29th	„	1	„	of 1	„	of 9½	„ „
30th	„	1	„	of 2	spans	of 10	„ „
31st	„	1	„	of 2	„	of 15	„ „
„	„	2	culverts	each of 1	span	of 4	feet.
32nd	„	1	bridge	of 2	spans	of 13	feet each.
33rd	„	1	„	of 6	„	of 20	„ „

(1) Construction of 10 bridges of different spans as per margin, and 2 culverts with the exception of pointing, plastering, and earthwork on approaches.

(2) The greater portion of the materials for the iron girder bridge of 3 spans of the 30-feet each, proposed to be built over the Bansikhal, has also been collected.

(3) Completing the pucca bungalow at Purihatti.

13. The cost incurred on the abovementioned works during the year under review is Rs. 23,196-1-6.

14. I am glad to say that this road has now been brought into thorough good order, and taps the whole of the west of the district, comprising what are called Jungle Mehals. The country is greatly benefited by the contruction of this road.

Road No. 4—*Bombay Road*—

(1) A portion of the road, about 9 miles in length, has been reformed to proper section, and 2½ miles of the road newly metalled to a width of 8-feet at a cost of Rs. 4,298-8-6.

(2) Construction of a pucca culvert of one span of 3 feet, and making two additional openings to a bridge in the 3rd mile of the road; cost Rs. 429.

15. I am sorry to say that this road, except for the first 20 miles which are metalled, is in bad order, but it does not appear to be so important a road as the lastmentioned. Traffic is much less.

Road No. 5—*Ghattal to Chunderkonah*—

(1) Extending Mousatollah causeway to a length of 550 feet, and reconstruction of a temporary bridge over Solakhal, cost—Rs. 6,342-0-11.

Road No. 6—Burdwan Road—

(1) Completing a bridge of two spans of 20-feet each, at Elahigunge, in the 4th mile of the road, from the crown of the arch, costing Rs. 1,195-9.

(2) Reforming and deepening the Elahigunge khal, cost—Rs. 183-5.

2	culverts	each of	1	span	of	3	feet.
5	„	„	of 1	„	of	5	„
2	„	„	of 1	„	of	6	„
1	culvert	„	of 1	„	of	4	„
1	„		of 1	„	of	7	„

Road No. 8—Lodhasoli to Mohapal—

(1) Construction of 11 pucca culverts of different spans as per margin; costing Rs. 1,293-5-3.

Road No. 9—*Gurbetta to Ramgurh*—

(1) Metalling a portion of the road about 2½ miles in length to a width of 8 feet, costing Rs. 1,479-13-9.

(2) Construction of a bridge of 2 spans of 10 feet each. Cost Rs. 1,096-0-6.

Road No. 11—*Chunderkonah to Goaltore*—

(1) The low parts of a portion of the road, about 4 miles in length, have been metalled at a cost of Rs. 2,317-10-9.

Road No. 21—*Kheerpoy to Buddengunge*—

(1) Construction of 14 pucca culverts, each of 1 span of 3 feet, at a cost of Rs. 1,482-13-6.

Road No. 30—*Satpatti to Goaltore*—

(1) Construction of a bridge of 5 spans of 17 feet each over the Parang khal. Cost Rs. 5,528-6-9.

(2) Completing the construction of the road commenced last year at a cost of Rs. 440-6.

Road No. 76—*Burdah to Khorar*—

(1) Completing the construction of the road commenced last year. Cost Rs. 1,259-10-9.

Road No. 109—*Pilgrim road*—

(1) Earthwork of nearly half of the road completed during the year. Cost Rs. 1,152-1-6

16. The original works on several other roads are of a less important character, and need no special remarks. Metalling of road No. 17—Belda to Contai—was not taken in hand last year, as the sanction of Government to the estimate was received only in July 1879, that is, after the expiration of the working season.

17. The amount provided in the budget for 1878-79 for repairs to the roads in this district was, of course, only the probable amount which it was considered necessary to spend to keep the roads in order during the year. The budget was submitted on the 6th August 1878; but it was subsequently found necessary, in order to effect the necessary repairs to the roads, to expend more money on them, and the committee finally sanctioned the following reallotments on the road for 1878-79 :—

Number and name of roads.	Budget allotment for repairs.	Reallotment subsequently sanctioned by the Committee.	Amount actually spent.
	Rs.	Rs.	Rs. A. P.
No. 1, Gope roads	1,000	1,043	964 10 3

Total ...	46,900	67,549	60,735 0 6

18. Works done under the head of "Repairs" consisted chiefly of (1) petty repairs to surface of unmetalled roads in order to keep them in suitable order for dry-weather traffic; (2) repairs to earthwork, dressing, and turfing; (3) renewing metalling of metalled roads wherever necessary; and (4) repairs to bridges, culverts, temporary wooden bridges, causeways, and inspection bungalows. Works done under these heads are given in money value in the annual accounts of Part II referred to above.

19. Among the roads on which important repairs were effected during the year under review are the following :—

	Rs. A. P.
Road No. 2, Panscoorah to Tumlook	2,969 2 9
„ „ 3, Lodhassye to Purihatty	6,395 9 3
„ „ 4, Bombay Road	8,828 5 0
„ „ 5, Ghattal to Chunderkona	12,727 15 9
„ „ 6, Burdwan Road	7,105 7 0
„ „ 9, Gurbetta to Ramgurh	3,290 10 9
„ „ 11, Chunderkona to Goaltore	2,359 2 0
„ „ 17, Belda to Contai	4,469 3 3
Total ...	48,145 7 9

20. A sum of Rs. 15,000 was allotted for repairing and improving village roads in the four sub-divisions, of which Rs. 14,620-7-9 were spent during the year under report, as per detail given in the annual accounts Part II. The allotment of Rs 15,000 only for village roads in so large a district as Midnapore does not appear sufficient, and the allotment will be increased next year. These village roads are greatly appreciated by the people, especially when they are properly constructed as they are in the Ghattal sub-division. During the current year, village roads are being constructed entirely under the superintendence of village punchayets; professional overseers and sub-overseers are not allowed to have any thing to do with them. It is found that punchayets turn out very good work at the least possible cost when perfect trust is reposed on them.

21. As detailed in paragraph 12 of this report, the total amount spent on works, both "Original" and "Repairs" during the year, was Rs. 1,38,723-6-10; and the cost of engineering and office establishments amounts to Rs. 23,107-5-7. These figures give a percentage of Rs. 16·65, while the percentage of last year was Rs. 20·94.

22. Operations proposed for the next year. The committee at a meeting held on the 29th September 1879, resolved that the road cess in the district for the year 1879-80 be collected at the maximum rate provided in the law; and the income from all sources has been estimated as follows:—

	Rs.
Cess on lands	1,34,400
One per cent. road cess	2,700
Three per cent. improvement fund on Government and temporarily-settled estates	4,200
Government contribution towards the joint road cess and public works cess establishment	2,400
Miscellaneous receipts	3,300
	1,47,000
Estimated balance on the 30th September 1879	70,000
Grand Total ...	2,17,000

23. The expenditure proposed to be incurred is also Rs. 2,17,000 as per detail given below:—

General management.	
Clerks	3,745
Servants	3,440
Contingencies	660
Public work.	
Establishment	26,000
Repairs	78,850
Original work	1,02,805
Tools and plant	1,500
Total ...	2,17,000

24. The sum of Rs. 78,850 provided under the head of "Repairs," includes Rs. 20,060 on account of repairing and improving village roads of the district. Of the proposed original works the most important are those named below:—

(1)	Completing an iron girder bridge of 3 spans of 30 feet each on road No. 3—Lodhassye to Purihatti	6,000
(2)	Completing Solakhal bridge and extending Mousatollah causeway	4,000
(3)	Metalling a portion of road No. 6—Burdwan road—and construction of two causeways	16,799
(4)	Metalling a portion of road No. 17—Belda to Contai ...	25,074
(5)	Bridging road No. 24 from Dohijuree to Sildah ...	14,000
(6)	Completing the pilgrim road, including metalling and bridging	12,669
	Total ...	78,542

25. The other original works to be done during the year are of minor importance.

26. The repair works provided for in the budget estimate for 1879-80 do not call for special remarks. They consist chiefly in maintaining the roads and their existing bridges, culverts, &c., in good order.

27. The Road Cess Act has, from a financial point of view, worked satisfactorily. It has also worked smoothly. Although the cess is not a popular one, it is far less unpopular than the license tax. The absence from the existing Road Cess Act of a provision authorizing the opening of a separate account in the road cess office for the separate payment of the cess by owners of separate shares in lakhiraj estates entered in Register C, has been the subject of general complaint in this district where such estates are numerous.

28. The District Engineer, under the committee and his staff of overseers and sub-overseers, carried out and supervised all the works done in the district during the year. At sub-divisions village road works were superintended mainly by sub-divisional officers assisted by zemindars and head of villages. In works requiring professional skill, they were assisted by the overseer and sub-overseers under the District Engineer There were no causes for serious complaint in the conduct of work by the District Engineer and his subordinates. Mr. Leeson, the District Engineer, resigned his appointment to better himself elsewhere, and I need say nothing special about him here. Some of the subordinates are very good men. I may more particularly mention Baboo Chunder Sikhor Dass, overseer.

29. The office establishment works satisfactorily. The accountant, M. Abdoor Rubb, has considerable experience and ability.

Explanatory memorandum to accompany the Annual Accounts.

RECEIPT SIDE.

Under the head of "one per cent. road cess," a sum of Rs. 1,400-7-11 is shown in the annual accounts, but adding the totals of the quarterly returns already submitted, the total amount comes to Rs. 3,743-12-9. As usual, the sum of Rs. 2,343-4-10, being the amount of contributions from the three per cent. Improvement fund, on Government and temporary settled estates, was shown in the first quarterly return under the head of "Road Cess leviable otherwise than under the Road Cess Act," but in the annual account, which has been drawn up agreeably to the new form prescribed in Government resolution No. 607A., of the 23rd May 1879, this sum has been shown under the head of "Miscellaneous" (*vide* Government letter No. 1139A., dated 13th October 1879). The sum of Rs. 1-6 and Rs. 16 which were shown in the first and second quarterly returns respectively, under the head of "Sales of Produce and Stores," have been shown in the annual accounts under the head of "Miscellaneous," agreeably to the instructions given in the Examiner of Public Works Accounts, objection statement No. 456D., dated 20th August 1879.

As the quarterly returns for the first and second quarters were submitted in the old form, the sums on account of advance and deposits as detailed in the margin were not shown in those returns. Hence these returns have now been drawn out in the new forms and herewith submitted.

	Advance. Rs. A. P.	Deposit. Rs. A. P.	Total. Rs. A. P.
First quarter ...	325 15 3	.....	325 15 3
Second ditto ...	500 9 0	60 0 0	560 9 0
	826 8 3	60 0 0	886 8 3

EXPENDITURE SIDE.

As stated above, the quarterly returns for the first and second quarters having been drawn out and submitted in the old form, the details under the head of "General Management," and the sums paid on account of "advance" and refund of "deposits" were not shown. Now, in the annual accounts which have been prepared in the new form, agreeably to the instructions conveyed in the Examiner of Public Works Accounts, Bengal's No. 674, dated 19th November 1879, these sums as per details given below have been shown.

Details of "General Management."

J. C. PRICE,
Chairman.

No. 22, dated Hooghly, the 6th February 1880.

From—C. C. QUINN, Esq., Chairman of the District Road Committee, Hooghly,
To—The Commissioner of the Burdwan Division.

WITH reference to your No. 69 of the 4th instant, I have the honor to submit herewith the annual accounts and the administration report of the district road fund for the cess-year 1878-79, as drawn up by Mr. Cornish while he was Chairman of the road cess committee.

2. I beg further to inform you that, in accordance with the wishes of the members of the road cess committee, Mr. Beames ordered the circulation of the papers amongst the members. As we have not as yet received the reports back from the members, I am obliged to send to you the accounts and the report without waiting further for the expression of an opinion on the part of the members.

No. A., dated Hooghly, the 25th October 1879.

From—R. CORNISH, Esq., Chairman of the District Road Committee, Hooghly,
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the annual report* on the administration of the Hooghly and Howrah District Road Fund for the cess-year 1878-79.

* With accounts for 1878-79.

2. The following were the members of the district road committee:—

The Magistrate and Collector, Chairman.
Baboo Shyamadhuba Roy, Vice-Chairman.
The Magistrate of Howrah.
„ Sub-divisional Officer of Serampore.
„ Executive Engineer of the Burdwan Division.
The District Superintendent of Police, Hooghly.
Baboo Joykissen Mookerjee.
„ Bejoy Kissen Mookerjee.
„ Norendro Chunder Roy.
Baboo Chunder Cunto Mookerjee.
„ Anooroop Chunder Mookerjee.
„ Sutto Doyal Banerjee.
„ Juggessur Sing.
„ Lolit Mohun Sing.
„ Obhoy Churn Nundy.
„ Opendro Narain Nundy.
„ Poornendro Deb Roy.
„ Brojo Nath Mitter.
„ Hurro Chunder Ghose.
Pundit Mohesh Chunder Nyarutna.

3. I received charge of the office on the 28th April 1879 from Mr. Hime, who had been Chairman from the 1st October 1878 to the 28th December 1878, and again from early in January 1879 to the 28th April.

Mr. Pellew was Chairman for a few days in December and January 1879.

APPENDIX A.

Abstract of particulars regarding meetings of District Road Committees for the cess year 1878-79.

Commissionership.	District.	Number of Members forming Committee.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meeting.	Number of members who did not attend any meeting.	Number of Members who attended only—						Percentage of average attendance to whole Committee.
									One meeting.		Two meetings.		Three meetings or more.		
		Official.	Non-official.						Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	
Burdwan ...	Hooghly ...	6	14	7	7	...	9	1	1	...	2	1	3	4	·45

4. From the "abstract of particulars of road cess meetings," it will be seen that there were seven meetings during the year. Only one member failed to attend at all. He explains that repeated attacks of fever prevented his attendance. The average attendance was poor, though the questions before more than one meeting excited considerable public interest.

5. The Howrah branch committee held only one meeting at which a quorum did not attend.

The Serampore branch committee held also one meeting at which 8 out of 14 members attended. There would probably have been more meetings, but for Mr. Harding's illness and the consequent double change of sub-divisional officers.

The Howrah Magistrate is unable to say whether any members of the committee took any interest in their work; but the fact that no non-official member attended a meeting raises a presumption of want of interest on their part. Five of the 13 non-official members of the Serampore branch committee are said to have taken an active interest in village roads.

6. There was a balance of Rs. 38,674-1-10 at the end of the preceding year. The total receipts during the year under the several heads amounted to Rs. 1,25,520-3-11* as shown in the margin.

Receipts of the year.

	Rs.	A.	P.
Cess on lands	1,14,666	2	2
Cess on houses	641	4	0
One per cent. road cess	199	12	3
Road tolls of previous years	2,649	8	0
Canal or river tolls	3,387	8	0
Fees and forfeitures	424	1	3
Miscellaneous	3,559	0	3
	1,25,520	3	11*

On collection of revenue and committees' control	7,374	0	10
Original works	21,698	6	3
Repairs	62,637	13	6
Establishment, engineering	16,839	13	8
Tools and plant	338	2	6
	1,08,882	4	9†

7. The expenditure of the year amounted to Rs. 1,08,882-4-9† as per margin.

Rs. 14,020-6-9 and Rs. 6,907-1-3 of the sums shown against heads "original works" and "repairs" respectively, were paid on account of previous year.

8. During the year under review the experiment was tried of employing only four large contractors (one for each sub-division) instead of a number of petty contractors as heretofore. It was thought that this would give the committee a greater hold over the contractors, but the system was not found to work well, and the committee decided to revert to the former practice.

Tenders were called for and the contracts given as far as possible by open competition.

9. Works remaining incomplete for previous year were finished early in the year.

10. Only one road, that from Janiti to Gaighatta, in Howrah sub-division, was brought on to the Committee's list at the close of the year.

11. All works provided for in the budget estimate were undertaken with the exception of repairs to the Sheya and Malipara road. The cause of this was delay in receipt of possession of the land.

All original estimates for repairs were duly carried out during the year, as also supplementary estimates for the Pandooah and Culna road, Bhastorah and Dhaniakhali road, Pandooah and Culti road, and the Nalicul and Tarakeswar road, the only work remaining incomplete being the supplementary estimate for repairs to the Bydebatti feeder road, amounting to Rs. 11,071. This work was begun late owing to unavoidable delay. It was then difficult to get sufficient stone and coolies, and eventually the early cessation of the rains operated most prejudicially. The work is still incomplete, but the District Engineer hopes to bring it to a not unsatisfactory termination.

The surface repairs to kutcha roads were uniformly late during the past season. This was not attributable to the neglect of the contractors, but owing to the estimates for this class of work having been embodied in the regular estimates for the year, and as these last were not framed and did not all receive official sanction until near the end of November, the work for each sub-division was not given out until the 10th December, and the consequence was that the contractors were unable to make satisfactory cold-weather repairs.

12. About 5,717 feet of the Howrah and Juggutbullubpore road have been metalled with brick during the year. There is now a continuous brick metalled road from Howrah to Burgachea; 2½ miles still remain to be metalled hereafter.

13. *Shagunge and Tribaney Road, No.* 6.—This road although not on the Engineer's list has been remetalled at the expense of the road cess committee. The estimate was prepared in 1877-78 by Mr. Wells, but the work could not be undertaken until the last season owing to want of funds. The road is now, however, repaired, and the municipality will in future keep it in repair.

14. *Dipa and Ampta Road, No.* 127.—For this work an estimate amounting to about Rs. 32,000 was framed by Mr. Wells, and the sum of Rs. 15,600 was allotted for the first portion in previous year's budget estimates. Of this, a sum of Rs. 5,000 was transferred to the very urgent requirements of the Bydebatti feeder road, and the remaining Rs. 10,000 has been spent upon the work.

15. *Khynan feeder road, No.* 130.—This work would have been completed last season, that is, in 1877-78, only that possession of the land was not obtained until the 15th April 1879, hence the road has only lately been completed and opened for traffic.

16. *Sheya and Malipara Road, No.* 126.—The same remarks apply to this road also, with the exception that this road passes through very low country, and there has not been sufficient time since we were put in possession for the contractor to thoroughly finish his work. The road is, however, very nearly finished and but little remains for its due completion.

RIVER AND CANAL WORKS.

17. *Gaighatta khal, No.* 122.—Under instructions from the Superintending Engineer, Western Circle, a series of complete tidal observations in the Damooda and Roopnarain rivers has been taken, together with a new section of the bed of the khal, with this result, that we find the clearing of the khal will be very much more expensive than profitable.

The scheme for dredging and otherwise clearing the channel has therefore been abandoned for the present.

18. *Relief works.*—No relief works were undertaken this year.

19. *Toll gates.*—The last three toll gates, viz., Bydebatti, Jhumperdah, and Daburparah were abolished before the commencement of the year under review.

20. *Village roads.*—The allotment for the year was Rs. 12,100. This was divided as follows:—

	Rs.
Sudder sub-division	2,600
Serampore ditto	2,500
Howrah ditto	3,000
Moisrakha ditto	4,000
Total ...	12,100

The cause of this unequal division lies in the fact that the Moisrakha and Howrah sub-divisions being low and swampy are less thickly provided with district roads than the neighbourhoods of Hooghly and Serampore.

The total expenditure in each sub-division including payment for previous years was—

	Rs.	A.	P.
Hooghly	6,408	6	3
Serampore	3,607	11	10
Howrah	3,570	1	9
Moisrakha	5,167	12	5
Total ...	18,754	0	3

This form of application of the road-cess fund is always popular, and as the committee generally take a practical interest in the matter, I believe the money was usefully and carefully expended.

21. The general condition of the roads and bridges may be described as fair.

It is not at all perfect, but perhaps on the whole it is as satisfactory as the limited revenue at our disposal would justify us in anticipating.

The demands on the income of the committee and the means of meeting them grow more disproportionate year by year. The committee have lost in turn all revenue from ferries, house-cess, and toll-gates, while the price of labour and raw materials show, if any thing, a tendency to increase.

22. No trees were planted during the year, but an allotment of Rs. 1,200 has been made for the purpose in the current year's budget.

23. Baboo Shyamadhuba Ray was Vice-Chairman throughout the year. He discharged the duties of a somewhat difficult post to the entire satisfaction of my predecessor and myself.

24. Mr. Forbes was District Engineer throughout the year. He is an able and experienced Engineer and a man of great activity; unfortunately, a series of domestic misfortunes sometimes prevented him from doing full justice to the district work.

The subordinate establishments worked most satisfactorily. The District Engineer makes special mention of Baboos Raj Kissen Mookerjee and Rakhal Doss Chatterjee, Sub-Overseers of Pandooah and Hooghly sub-divisions, and of his Accountant, Baboo Jogendro Nath Mullick. The office has been inspected once during the year by Mr. Billings who expressed himself as fully satisfied with the result.

The committee sustained a great loss by the death of their Accountant Baboo Chunder Coomer Mookerjee, in August last. His successor, Baboo Rakhal Chunder Doss, is working quite satisfactorily.

25. The non-official members of the committee seem to be well selected, and have generally shown a practical and independent interest in its affairs.

26. *Working of the road cess system.*—On the whole I believe the system may be said to work well. If the existence of committees does occasionally cause delay and diminish the sense of personal responsibility on the part of the Chairman, it more than makes up for those drawbacks by bringing the district authorities into direct communication with the chief zemindars, by creating a *quasi* representative body, and by fostering in its members a sense of public spirit and corporate action.

As stated above, the resources of the committee are not equal to the demands made on them, an inevitable consequence of which is that those applicants whose wishes cannot be met feel a natural, though scarcely reasonable, dissatisfaction which, in this district, is apt to find expression in newspaper correspondence and petitions to the local Government.

Another grievance is the disproportion of the expenditure in different parts of the district. This cannot be avoided for the following reasons:—1*st* the northern portion of the district lying near the railway already possesses a net-work of roads which must be kept in repairs; 2*ndly* the character of the country to the south is such that roads are at once less needed and more costly.

I have given the matter much thought, and am convinced that the allotments made by the committee are best calculated to meet the requirements of the district as a whole.

R. CORNISH,
Officiating Chairman.

J. BEAMES,

Chairman.

No. 113, dated Chinsurah, the 5th March 1880.

From—T. E. RAVENSHAW, Esq., Commissioner of the Burdwan Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to forward in original, for publication in the *Calcutta Gazette*, the annual reports and accounts of the district road fund for the cess-year 1878-79, submitted by the Chairmen, of the several district committees as noted at margin. There has been some little delay in preparation and submission of accounts by district officers. The report and returns for Midnapore reached me on the 12th February, while the corrected accounts for Beerbhoom came to hand so late as 24th February.

Chairman, Burdwan District Road Committee's No. 122, dated 22nd January 1880, with annual accounts.

Chairman, Bankoora District Road Committee's No. 18, dated 1st December 1879, with annual accounts.

Chairman, Beerbhoom District Road Committee's No. , dated 9th February 1880, with annual accounts and enclosures.

Chairman, Midnapore District Road Committee's No. 145, dated 9th February 1880, with annual accounts and enclosures.

Chairman, Hooghly *cum* Howrah District Road Committee's No. 22, dated 6th February with annual accounts.

Financial results of the working of the committees.

2. The following statements show the aggregate financial results of the working of the district road committees during the past five years :—

Receipts.

ITEMS.	1874-75.	1875-76	1876-77.	1877-78.	1878-79.
	Rs.	Rs.	Rs.	Rs.	Rs.
Cesses under Act X (B.C.) of 1871	51,860	2,50,306	4,71,277	4,39,571	4,46,051
Fines under the above Act	1,616	3,323	2,454	568	.....
One per cent. road-cess	2,203	2,054	9,258	2,123	2,070
Road tolls	32,422	38,690	34,114	19,504	3,852
Canal or river tolls	4,050	3,408	2,722	1,725	3,387
Ferry tolls	23,957	24,578	23,636	1,664	.....
Rents of serais and staging bungalows	.....	.....	.....	.....	236
Fees and forfeitures	.....	.....	.....	.....	941
Fine and refunds	655	5	4	55	.....
Miscellaneous	18,741	3,372	5,406	10,556	12,629
Grants in-aid from Provincial services	1,18,371	2,82,041	.....	.....	.....
Suspense accounts { Advances	.....	.....	.....	.....	41,894
Suspense accounts { Deposits	.....	.....	.....	.....	8,617
Total Receipts of the year	2,49,775	6,04,477	5,47,881	4,76,766	5,21,216

Expenditure.

PARTICULARS OF EXPENDITURE.	1874-75.	1875-76.	1876-77.	1877-78.	1878-79.
	Rs.	Rs.	Rs.	Rs.	Rs.
Establishment on collection of revenue	22,771	34,166	27,536	29,182	23,682

Establishment on works	8,382	56,168	57,117	66,108	61,862
Tools and plant	935	786	5,284	4,453	3,864
Refunds	10,721	1,476	43,937	.....	.....
Compensation for lands	8,029	.....	.....	.....	.....
Suspense accounts { Advances	.....	.....	.....	.....	40,231
Suspense accounts { Deposits	.....	.....	.....	.....	13,371
Total	5,35,923	3,24,100	4,90,197	4,46,681	5,16,426

6. The total receipts for the Division show an increase as compared with the previous year, but if the suspense accounts which have been inserted in the statements, with reference to the recent orders of Government, are excluded, the figures indicate a slight decrease. There is an increase under heads "Cesses under Act X (B.C.) of 1871" and "Miscellaneous." The increase under the first head occurs in Burdwan and Hooghly, where collections show an improvement over the preceding year, the per centage being 96·5 and 91·5, respectively, against 96 2 and 90·39 in 1877-78. The increase shown under head "Miscellaneous" is due to the fact that several items (e.g. fines under Road Cess Act, sale proceeds of road-side trees, and of old and useless public works materials) which in previous years were shown under separate heads are now included in "Miscellaneous." On the other hand, the most considerable decrease appears under head "Road tolls." These tolls have been abolished, and the collections shown under this head during the past year were on account of arrear demands. The one per cent. road-cess shows a slight decrease, due mainly to resettlement of some mehals in Midnapore in which, under Board's orders of 1874, the separate assessment of one per cent. road-cess was discontinued. The revenue derived from ferries is, under recent orders of Government, credited to the Provincial Services, consequently the head "Ferry tolls" is blank.

4. On the expenditure side the aggregate figures show an increase, even after exclusion of the suspense accounts. The chief increase has been on works generally, and on repairs in particular; decrease is shown under the following heads :—

"Establishment for collection."

"Establishment on works" and "Tools and plant."

5. The subjoined statement shows the income and expenditure in each district during the past year :—

District.	Income.			Expenditure.		
	Rs.	A.	P.	Rs.	A.	P.
Burdwan	1,45,045	11	1	1,32,462	15	4
Bankoora	19,649	14	0	22,196	8	2
Beerbhoom	42,431	4	9	48,480	5	0
Midnapore	1,67,699	10	5	1,90,293	13	9
Hooghly *cum* Howrah ...	1,46,383	3	10	1,25,183	0	9
Total ...	5,21,209	12	1	5,18,616	11	0

6. Most of the districts show an increase both in receipts and disbursements, while in Beerbhoom and Hooghly there has been a decrease in expenditure. The decrease in Beerbhoom is noticeable as the work done during the year was considerably less than is indicated by the expenditure, which includes payments made for work executed in the previous year.

7. The following statement shows the amounts spent in each district in original works and on repairs during the past five years.

Districts.	1874-75.		1875-76.		1876-77.		1877-78.		1878-79.	
	Original works.	Repairs.	Original works.	Repairs.	Original works.	Repairs.	Original works.	Repairs.	Original works.	Repairs.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Burdwan	88,153	1,51,545	12,858	63,282	34,343	46,416	26,325	68,996	21,346	75,945
Bankoora	93,320	3,914	11,707	2,768	6,528	5,512	7,180	8,202	6,412	9,082
Beerbhoom	77,704	9,340	25,544	18,328	24,741	12,430	495	37,140	22,785	16,674
Midnapore	20,110	13,635	11,685	15,836	22,795	42,845	53,481	52,041	58,810	79,913
Hooghly *cum* Howrah... ...	25,096	43,228	35,042	34,433	36,191	62,512	40,114	52,365	29,092	62,838

8. Expenditure on original works has decreased in all districts except Beerbhoom and Midnapore, but, as above explained, expenditure in Beerbhoom includes payments made for works executed in the preceding year. The most important original works in Midnapore were—

		Rs.	A.	P.
3.	Road from Lodhasye to Puribattee, including iron girder bridge and pucca bungalow	23,196	1	6
4.	Bombay road	4,298	8	6
5.	Ghattal to Chunderkona road	6,342	11	0

Hooghly shows a considerable decrease under head "Original works." The most important work of the year in this district was reconstruction of the road from Dipa to Amptah, at a cost of Rs. 10,297. In Burdwan, the Karjona to Cutwa road was metalled at a cost of Rs. 10,484-15. A few other minor works in Burdwan and Midnapore are mentioned in detail in the district reports. As regards repairs, Burdwan and Midnapore show the largest expenditure. In Burdwan, a large amount, Rs. 34,505, was spent on repairs to two important roads, viz. Kurjona to Cutwa, and Mymari to Chackdiggi. In Midnapore, Rs. 12,727 were expended on repair of the road from Ghattal to Chunderkona; considerable sums were also spent on repairs to the Burdwan and Bombay roads, and the road from Lodhasye to Puribattee.

9. *Village roads.*—It is satisfactory to notice that the outlay on village roads shows considerable increase, the total amount being Rs. 40 374-3-3, against Rs. 23,175 of 1877-78. The following statement shows the expenditure under this head in each district during the past two years:—

Districts.	1877-78.	1878-79.
	Rs.	Rs.
Burdwan	1,582	5,262
Bankoora	199	1,325
Beerbhoom	772	413
Midnapore	4,859	14,620
Hooghly *cum* Howrah	15,763	18,754
Total ...	23,175	40,374

10. Beerbhoom alone shows a decrease. The expenditure actually incurred was only one-seventh of the village road allotment. This indicates absence of good management and defective administration. The present Chairman has taken steps to have the unexpended balance re-allotted, and he trusts to see between Rs. 5,000 and Rs. 6,000 spent this year on these minor works. In Hooghly, the expenditure under this head (Rs. 18,754) exceeds the budget allotment, as it includes payments made for works done in the preceding year. The general results are decidedly better than last year; but continued attention is necessary to the execution of village works, so as to let the people see that they derive direct benefit from the cesses they pay. I have observed that grants for these works are eagerly sought for, and in many cases the zemindars and villagers have given material assistance in carrying them out, and have in some instances supplemented grants from the cess funds by private contributions. This is a system I hope to be able to extend.

It has occasionally been found possible to get the villagers to agree to maintain a road once made, in repair by their own labour.

11. *Establishment on works.*—The subjoined statement shews the cost of establishment on district works during the past two years:—

Districts.	1877-78.	1878-79.
	Rs.	Rs.
Burdwan	10,960	11,299
Bankoora	2,484	2,819
Beerbhoom	12,995	7,796
Midnapore	22,177	23,107
Hooghly *cum* Howrah	17,491	16,839

12. These charges have increased every where except in Beerbhoom and Hooghly The decrease in Beerbhoom is satisfactory, as in this district the cost had risen from Rs. 4,154 in 1876-77 to Rs. 12,995 in 1878-79. The decrease in Hooghly, as also the increase in other districts is not so considerable as to require special notice. There were no important changes in the staff of officers during the year. Mr. Leeson, District Engineer of Midnapore, resigned his appointment after the close of the year, and Mr. R. C. McKennie has been appointed on probation in his place. Mr. Forbes, District Engineer of Hooghly, has not yet been confirmed, but continues to give fair satisfaction in the discharge of his duties.

13. *General working of the system.*—Generally speaking the Road Cess Act has worked fairly in this Division, and there is marked improvement in the means of communication. Increased outlay on village roads has gone a great way to bring home to the rate-payers the benefits of the system, and has diminished and is decreasing the unpopularity of the cess. Actual collections do not compare favourably with the preceding year, the percentage being 91·4 against 92·9 in 1877-78. Bankoora and Midnapore show the most unsatisfactory results, owing to the existence of a large number of ghatwali mehals in the former, and in the latter to erroneous assessment, and also to the fact that the coercive process provided in the Act is not sufficiently prompt and effective. The amended Bill now before the Legislative Council will probably remedy this.

14. As regards the Bankoora ghatwals, I am not prepared to accept the objection of the sirdar ghatwals as to their exemption from the responsibility of collecting the cess from the tabedars or subordinates. Many of the sirdars hold large tracts of land and due discharge of all legal dues and cesses is a necessary condition of their tenure of office, and contumacious refusal to discharge the dues, as well as the duties of their office, may afford grounds for dismissal until the Collector and Magistrate has exhausted all legislative means of coercion. I am averse to any change, inasmuch as to levy the cess separately from every ghatwal and tabedar would involve most difficult and intricate accounts, and would undermine the authority of the sirdars.

15. The attendance of non-official members at meetings is not so good as could be wished; in some instances causes other than indifference and want of interest in road-cess administration prevented members from attending meetings. In Burdwan, the people are said to accept the cess without grumbling, and they are beginning to be thoroughly alive to its objects and benefits. In Hooghly, though the average attendance at meetings was poor, the questions before more than one meeting excited considerably public interest. Midnapore was noticed in Government resolution on last year's report as the only district in this Division where the tax was unpopular. During the year now under report, a few of the non-official members are reported to have taken considerable interest in the business coming before them, but the majority continue apathetic.

16. The question of appointment of a Superintending Engineer for the Burdwan and Orissa Divisions combined has been discussed, and is still under consideration; the scheme has not, so far, met with acceptance by all district committees.

PUBLIC WORKS DEPARTMENT.—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 146.

The 23rd August 1880.

UNDER section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the District Road Committees of Monghyr, Bhagulpore, Purneah and Maldah, and of the Deputy Commissioner of the Southal Pergunnahs, of works done and in progress during the past cess year 1878-79, together with the remarks thereon of the Commissioner of the Bhagulpore Division, are published for general information.

T. H. WICKES,
Asst. Secy. to the Govt. of Bengal
in the Public Works Dept.

No. 140R, dated Monghyr, the 20th November 1879.

From—C. A. SAMUELLS, ESQ., Chairman, District Road Fund Committee, Monghyr,
To—The Commissioner of the Bhagulpore Division.

I HAVE the honor to submit the following report on the administration of the Monghyr District Road Fund for the cess year ending 30th September last.

2. The annual accounts are in course of preparation, and will be submitted as soon as they are passed in a meeting.

The delay that has arisen in the submission of this report is due to the fact that, while in charge of the district during the absence of Mr. H. F. Kean on leave, I had no Vice-Chairman, and was in camp till 29th November. A Sub-Committee to audit the accounts of the past year will be appointed in the next meeting. The appointment of a new District Engineer has also hindered the preparation of the annual statement.

3. *Road Cess Meetings.*—There were five meetings held during the year. The subjoined table will show the names of members, number of meetings held, and the number of meetings attended by each member.

No.	Names of Members.	Number of meetings attended.	Number of meetings in which absent.	Total number of meetings held.
1	C. F. Magrath, Esq., Chairman	.....	5	5
2	F. J. H. Kean, Esq. Do.	1	4	5
3	C. A. Samuells, Esq., Vice-Chairman	5	.....	5
4	Major-General C. Murray	1	4	5
5	H. Dear, Esq.	1	4	5
6	Lieutenant-Colonel H. E. Waller	.....	5	5
7	G. Thomas, Esq.	5	.....	5
8	E. MacNaughten, Esq.	.....	5	5
9	J. D. Savi, Esq.	3	2	5
10	W. S. Crowdy, Esq.	.....	5	5
11	Baboo Gunga Pershad	5	.....	5
12	Maharajah Sir Joy Mungul Singh Bahadoor, K.C.S.I.	.....	5	5
13	Shah Myonooddin Ahmed	1	4	5
14	Shah Wasid Ali	.....	5	5
15	Chowdry Taz Ali	1	4	5
16	Baboo Kumleswri Pershad	1	4	5
17	Ram Pershad Das	.....	5	5
18	Executive Engineer, Bhagulpore Division	3	2	5

It is as a rule, as reported in other years, the meetings are only held through the regular attendance of official members and some of the non-official members residing in the town. It will appear from the table given above that some of the non-official members have not attended a single meeting during the year. Mr. Magrath, the late Chairman, proposed last year to remove some of these members from the list, and replace them by adding names of fresh members who might evince more interest. This has been done during the year under review. Nominations were obtained through the sub-divisional officers of Jamui and Begoosarai, who guaranteed the regular attendance of their nominees, as well as their fitness to become members of the Sudder Committee. The sub-divisional officers have also been enlisted as members of the Sudder Committee, to act as representatives of their respective Sub-Committees. The fresh nominations were submitted some time ago, but sanction has only just been received.

4. *Meetings of the Committee.*—Out of the five meetings held during the year, I attended every meeting and presided in all of them except one, which was presided over by Mr. Kean, the permanent Magistrate of the district. In three of the meetings I presided as Vice-Chairman, and once in the capacity of Chairman. In the early part of the year Mr. Magrath was Chairman, but as he was out on his winter tour, the only meeting held during his time could not be attended by him. Among the members, Mr. Connan, the Executive Engineer of Bhagulpore, is very regular in attendance; and of the non-official members, Mr. Thomas and Baboo Gunga

Pershad. Mr. Connan invariably shows the greatest interest in the works of the Committee, and his professional experience has been of the greatest service. Mr. Thomas and Baboo Gunga Pershad seldom fail to attend, and render every assistance in their power. I have not received any report as yet from the Chairman of the Jamui Branch Committee, and consequently cannot form an opinion regarding the members of his Committee. The report from Begoosarai has since been received, and the Chairman reports that in all the four meetings of his Sub-Committee held during the year the attendance was good. The statement showing attendance of members furnished by the Sub-Committee is herewith appended.

5. *Quorum.*—Business was regularly transacted in four out of the five meetings held during the year. In one meeting there was no quorum, and it had to be adjourned in consequence.

6. *Notice of Meetings.*—Due attention was paid in complying with the provisions of section 57 of the Road Cess Act in issuing notices of meetings.

7. *Changes in the personnel of the Committee.*—The following changes took place in the *personnel* of the Committee. Mr. Magrath remained Chairman from 1st October to 20th March 1879, when he left the country on furlough. Mr. Kean succeeded him, and held the office of Chairman up to 1st of May, when he left on privilege leave. During his absence I exercised the functions of both Chairman and Vice-Chairman. From 20th June to 29th August Mr. Kean was again Chairman, when he left the district a second time on leave, and I became Chairman and held office till 29th November 1879. Among the members Mr. MacNaughten resigned during the year and Colonel Waller left the country. I, as Vice-Chairman, held the charge of office accounts throughout the year. As no Vice-Chairman was appointed during the period of my officiating incumbency, I had to attend to the duties of Vice-Chairman and Chairman.

8. *Interest taken by members in the transaction of Committee's business.*—In expressing my opinion on the interest taken by the members carrying out the Committee's business, I should first name the Executive Engineer, Mr. Connan, among the official members. He takes the most lively interest in all matters of the Committee, and gave them the benefit of his advice. He never fails to attend meetings, and I am much indebted to him for his readiness in furnishing me always with his professional advice. Lieutenant-Colonel Waller, the late District Superintendent of Police, had a vast local experience on account of his long and continued stay in the district. He was a great help to the Committee from his knowledge of the country. His successor, Mr. O. S. Stack, has recently been appointed member of our Committee, and I expect equally valuable assistance from him as rendered by his predecessor Colonel Waller. Mr. Savi, the Sub-Deputy Opium Agent, is also a very useful member on account of his most intimate knowledge of the southern portion of the district. Among the non-official members, my thanks are due to Mr. Thomas and Baboo Gunga Pershad, who are very regular in attending meetings, and take an active part in the Committee's business. There was one application received during the year from one Mr. Bryce, Manager of the Sungrampore Indigo Concern, praying for extension of one of our district roads to a certain important place for the facility of trade. The Committee paid due attention to his suggestion, and, considering the opening of the road would be beneficial, caused an estimate to be prepared amounting to Rs. 10,000. The estimate, although approved of by the Committee, and provision made in the current year's budget, could not be taken in hand for want of sanction from higher authority.

9. *Minute Book.*—The minute book has been duly kept up, but is never inspected except by members.

10. *Appointment and removal of officers by Committee.*—No officer was appointed by the Committee during the year under review. In the month of May the Committee found it necessary to comment very strongly on the manner in which Mr. Roberts, the District Engineer, carried on his duties. His tours were short even during the cold weather, and in May his annual estimates were in consequence returned to him as worthless. It was hoped that the warning then administered would have had the effect of stimulating him in his endeavours to please the Chairman and the Committee; but during the rains he seldom left head-quarters, though requested to do so, and several miles of valuable works were carried away by floods, without an endeavour on his part to adopt the most ordinary precautions. In addition to this, the attitude which he thought fit to assume towards the Chairman and Vice-Chairman rendered it inexpedient to exhibit any further leniency towards him, and at a meeting held on 10th October, the Committee unanimously resolved that he be called on to resign; as he declined to do this, the Committee had no alternative but to dismiss him from their employ. The circumstances were duly reported to Government, and Mr. Leeson appointed in his place on a reduced salary of Rs. 500 rising to Rs. 700 on approved good service.

11. *Members and officers concerned in contract or work executed for the Committee.*—No member or officer was concerned in any contract or work executed on the Committee's behalf.

11½. *Estimates.*—I am aware of no work undertaken or executed by this Committee without having at first proper estimates prepared and sanctioned by competent authorities. I must not omit to mention here the unusual time taken in obtaining estimates sanctioned by the higher authorities. Some of our estimates are pending with Government for years past. Provisions were made for these works in our last year's budget, and the year preceding it; but this year the Committee abstained from allotting money, as there was no certainty when these estimates may be sanctioned. As it will be useless to make imaginary allotments

for works which the Committee are not in a position to start, I considered it better to reserve a large sum for distributing it to any work hereafter to be sanctioned, than to scatter the amount to such works for which estimates have not been sanctioned.

It is not improbable that the estimates have been found impracticable, and as they have hung fire so long, it would I think be advisable to recall them. The present Committee are inclined to think that the real work of opening up the district communications has been subordinated to a desire for large and imposing schemes, and that too little attention has been paid to securing a well-connected and useful system of roads of all classes. In a district like this, where rail is so largely used by officers and others in the interior, the duty of providing villages and tracts of country untouched by the rail, with means of transit for produce, are apt to be overlooked; and though a road run across the map by a ruler and costing "over a lakh" may be a source of gratification to an engineer, it is not quite what we want, and certainly not what the district requires.

The appointment of a Superintending Engineer will form a useful check on the District Engineer in this respect, and it is hoped that the duty of minutely scrutinizing the estimates, and inspecting the style of work when completed, will be frequently and systematically performed. At present Committees have to accept what work they get, and be thankful it is no worse.

12. *Additions and alterations in the Budget.*—Any alteration or addition made in the budget estimate has been supported by a supplementary estimate.

13. *Working of Road Cess system.*—I beg to make the following report on the road cess system. The total demand for the year was Rs. 1,08,125, out of which Rs. 1,00,758 was collected, leaving a sum of Rs. 7,367, unrealized balance, at the close of the year. Out of the outstanding balance Rs. 704 is arrears of previous years, which is expected to be realized shortly under the new rules for collection of road cess. The collection of last year amounted to Rs. 93·2 per cent, and it was fair as compared with the 91 per cent of the preceding year. The reason assigned by the Collector for the collection falling short of 95 per cent is this: "owing to disputes among shareholders in joint estates, and the numerous small estates in this district." During the whole of last year I held charge of the collection department in my capacity as Deputy Collector, and my particular attention was devoted for the speedy realization of the arrears. The matter was not lost sight of at any time, and every effort made after each kist-day to bring in the arrears. The conclusion I arrived at was that the so-called "coercive" measures were so cumbrous as to be practically of little use. The large number of joint estates, the proprietors of which never dreamed of paying till the peon was at the door, rendered the task of collection very great; and the delay of two months, created by the law for no purpose apparently except to render the process of recovering a lawful due as pleasant to the defaulter as possible, made it almost impossible to keep down the arrear at all, and when the arrears of subsequent quarters accumulated on these, the matter called for more powers of organization and method than a small department was capable of. The new law should put an end to this, and the payment along with land revenue of both cesses should be strictly enforced.

There was no collection under the head "House cess," as it has been postponed under Board's orders, owing to the License Tax Act having come into operation.

14. *Branch Committees.*—The members of the Branch Committees are the same as reported in other years. There are two branch Committees in the two sub-divisions of Jamui and Begoosarai. The works carried out by the Branch Committees chiefly consist of repairs of village roads, the main roads being under the immediate supervision of the District Engineer and Sudder Committee. Each of the Sub-Committees forward annually a rough statement of cost for the works they propose carrying out, and this statement, when sanctioned by the District Committee, forms the basis of works to be undertaken by the Sub-Committees. The allotments in the budget were Rs. 5,000 for each of the Branch Committees. Those allotments, although they may seem to be insufficient in comparison with other years, were made on the distinct understanding that further allotments will be made if the Sub-Committees can advantageously spend the amount. But it has always been found that the Sub-Committees have not in a single year been able to spend the total amount of money made over to them; therefore the Committee have decreased their allotments for the last two years. The Sub-Committees sometimes complain that a fair share of the road cess proceeds derived in their respective sub-divisions are not made over to them; but they do not take into consideration the heavy amount of expenditure annually incurred by the Committee in constructing and maintaining the several main roads traversing their sub-divisional jurisdictions. For instance, most of our district roads lie in the Jamui sub-division, and for their maintenance alone annually carries a large proportion of our road cess income. It is, however, a fact that the expenditure of the funds has been confined too much to certain tracts lying adjacent and within reach of the sudder or the rail. This at least is the only ground I can find for the absence of the Committee's roads in Begoosarai sub-division (where only one exists), and the same north of Jamui and Chakye. For this state of things the sub-divisional officers are themselves very much to blame. The amount at present allotted is fully sufficient for village roads, but owing to the District Engineer having hitherto ignored the requirements of Begoosarai, the money is chiefly spent in maintaining what should be district roads. Endeavours will be made to remedy this In the Begoosarai sub-division the road mentioned has absorbed an enormous sum of money for the last 20 years, and still it is in the most unsatisfactory state and quite impassable. An estimate for a lakh and a half has gone up for sanction. If, however, the Ganges is kept out by an embankment, much less will suffice.

The system of repairs to village roads does not seem to have proved acceptable to the people in this district. It is not an easy system to work, except in the estates of large proprietors; still I think something better can be done. I should like to see at least half our receipts spent in this way. It may indicate that the laborers are too well off to care to work on roads for anything less than Public Works Department rates, and those of course they would not get under a local landlord. The importance of the subject must be impressed on the sub-divisional officers. In the sudder the District Superintendent of Police and Sub-Deputy Opium Agent will be asked to co-operate.

The Branch Committee of Jamui have been supplied with a professional overseer, and I hope they will do well with him. I have recently been over this sub-division, and have seen most part of their works. Mr. Martin is the Chairman of this Branch Committee. A copy of the report received from this Branch Committee is herewith annexed.

There is no Branch Committee in the sudder sub-division; any village roads suggested by the Committee are executed by the District Engineer.

15. *Way of doing work.*—All works under the Committee are superintended and executed by the District Engineer and his subordinates. The large works are let out in contract by the Chairman under the rules of the Public Works Department. All works exceeding Rs. 1,000 have been let out to regular contract by the Chairman, and the petty works by the District Engineer.

16. *Inspection of works by Superintending Engineer and Executive Engineer.*—The Superintending Engineer has not to my knowledge visited the district during the year under review.

17. *Opinion of people towards the cess.*—The people now look on the tax as one of their dues, and is looked on as beyond discussion. This feeling will be strengthened when they are compelled to pay the two together, subject to the same penalties for default. The real tax-payers on the Committee are few, and they evince little interest in the proceedings after the yearly rate is fixed.

18 *Relation between Chairman and District Engineer.*—This, with the reasons for dispensing with the services of Mr. Roberts, District Engineer, has been touched on in another place.

As Vice-Chairman, I was in a position more correctly to gauge the value of Mr. Roberts' works perhaps than even the Chairman himself. It was evident to me some time ago that, if we were to have any improvement, Mr. Roberts would have to alter his procedure, and Mr. Connan was of the same opinion. Our efforts, however, were met with persistent opposition.

Indeed the whole tenor of the late District Engineer's conduct showed that he considered himself in no way responsible to the Committee or Chairman. As Chairman, I found him not only disinclined to do his duty, but insubordinate as well, and the Committee agreed with me in thinking a change was necessary.

19. *Annual Accounts*—The annual accounts will be audited in Sub-Committee, and their report will be forwarded.

20. The meeting held for the framing of the budget was attended by the Executive Engineer.

21. The Deputy Examiner of Public Works Accounts, Mr. F. Moore, inspected the offices of both Chairman and the District Engineer. His report was favourable.

22. I wish to make the following review on the works carried out during the year. There were Rs. 69,762-14-4 as unexpended balance at the commencement of the year. The total receipt of the year was Rs. 1,19,419-14-2, which, included with the balance, make a total of Rs. 1,89,182-12-6 available for expenditure. The large balance at the beginning of the year was owing to our inability to spend the sum on certain works provided in the budget, the estimates for them not having been sanctioned, although submitted.

23. The expenditure on several heads is detailed below:

	Rs.	A.	P.
Establishment and contingencies on collection ...	3,903	10	0
Ditto ditto on Committee's control ...	1,473	14	5
Original works	41,288	8	8
Repairs	49,084	0	11
Establishment on works	17,905	14	9
Tools and plant	784	13	9
Total ...	1,14,440	14	6

24. The amount expended on several establishments did not exceed one-fourth of the Committee's entire income for the year. Out of Rs. 49,084 expended under the head of Repairs, Rs. 41,484 was expended by the Committee's own engineering establishment, and the remainder by the Branch Committees.

25. The following is a brief statistic on the state of the roads and communications in the district.

This district being intersected by the Ganges, is subject, on both banks, to heavy floods during the rains, which greatly increase the difficulty of road-making. Begooserai sub-division is flooded in addition by the Gunduck, and the Keul river at Luckheserai overflows a great extent of country in those parts. Jamui sub-division and the country about Khurruckpore is high, but in those parts hills and jungles have to be overcome.

26. *Original works.*—Among the several original works for which provisions were made in the last year's budget, the Committee were able to take a few in hand, estimates for the others not having been sanctioned. Up to the present date Government have strictly prohibited the execution of works in anticipation of sanction. The effect of this is that a large unexpended balance is left in hand at the close of every year. This year they provided money for a single original work only—"the extension of Sooltangunge road"—the estimated expenditure of which is less than Rs. 10,000, and is within the limit of the Commissioner's power to sanction. A full allotment has been made for this work with a view to complete it within the year.

27. The only original works carried out last year are as follow:—

(*a*) *Completion of Secundra to Nowadah road.*—The most part of this work was executed during the previous year, only a small portion left unfinished that year has been completed during the year under report. An expenditure of Rs. 5,000 was incurred on it during the year. The total expenditure on this road is Rs. 28,000, and it is now complete with bridges throughout. It was constructed with a view to effect direct communication with this and the Gya district.

(*b*) *Bridging Luckheserai to Secundra road.*—This road was constructed by the special Public Works Department during the late famine of 1873-74, but it was not completed with bridges, &c. The Road Cess Committee took it in their list of district roads, and to make it permanent for communication during all seasons of the year, spent Rs. 20,000 towards the completion of its bridges and culverts. The work was let out in contract to Mr. J. H. Floyd, who finished the work within the last year. I have been over this road myself and found the work done satisfactorily.

(*c*) *Constructing diversion road between Sheikpurah to Luckheserai.*—This road was undertaken on the suggestion of Colonel Waller, the late District Superintendent of Police, in order to afford a short cut between Luckheserai and Sheikpurah throughout the year. An estimate, amounting to Rs. 17,000, was sanctioned by Government, and the work was intended to be finished within last year by Mr. Floyd, to whom it was let out in contract. But on account of the cholera epidemic the contractor could not finish it within the fixed time, and an extension had to be granted to him. It has, however, been completed now, and the work executed in workmanlike and satisfactory manner. I am happy to say that the road will serve the purpose for which it has been constructed.

28. *Tree planting.*—Besides the above, no other original works were taken in hand last year. The expenditure on tree planting will appear in the annual accounts. During my short incumbency in this district for the last two years, I have seen the state of trees planted on different roads, and I cannot but say that the tree planting is a failure in comparison with the vast amount of money spent during the last few years. The system was in itself an incentive to the malees to destroy the trees, because, with the trees, their employment would cease. At present the Committee have an establishment of certain number of malees employed on each of their roads. These malees are paid at the rate of one rupee for looking after and tending every hundred trees. But the state of the plants evidently show that the trees are neglected, and very little care is taken of them. The Committee propose abolishing this practice heretofore in force, and wish to make over a certain portion of each road to the respective zemindars and ryots, executing an agreement with each that the fruits of the trees planted by them will be divided between them and the Road Cess Committee into two equal shares. This will be tried as an experiment, and the result will be communicated in other years.

29. *Repairs.*—A sum of Rs. 41 667 was allotted in the budget under this head of expenditure. Repairs were carried out on all the roads under the Committee. The amount expended on each road will appear from the statement furnished by the District Engineer; a copy herewith enclosed.

30. The largest share of the money expended in maintenance and repairs was on the Tirhoot road, or "road from Ganges to Russeedpore." This road is the only main road on the north part of the district, and it is the most extensive road in the district.

31. The next road calling for notice is the road from "Monghyr Municipality to Burhea," generally termed Patna road. This road runs on the south bank of the Ganges parallel on one side the river, and another the East Indian Railway, and it is equally subject to the spill of the Ganges as the Tirhoot road on the other side. The length of this road is 35 miles, and amount spent on its repairs was Rs. 3,335. It is passable only in the dry weather, and in the rains it is impossible to make a journey throughout its whole length, as in many places several large gaps are left, and also several small and large streams intersect the road in different parts.

32. The most important of the metalled roads are the Bhagulpore road, Barriarpore to Khurruckpore road, and the Jamui to Mullehpore road, Jamalpore road, and the Kujrah road, all of which serve as feeders to the railway. Estimates have been prepared for re-metalling them this year. The estimates for the metalling of those roads which exceed Rs. 3,000 have been submitted to the Commissioner for his sanction; and other roads, the expenditure of which is estimated at less than the above sum, have been let out by me on contract.

33. It is only necessary now to add a few lines on the works proposed to be carried out during the present year. In framing the budget estimate this year, a Sub-Committee, consisting of the Executive Engineer, Mr. Thomas and myself was formed to examine the estimates. After a careful examination the necessary estimates were passed. A sum of Rs. 76,842 has been

provided for the maintenance and repairs of all roads; Rs. 11,000 has been allotted for the repairs of village roads in the Jamui and Begoosarai sub-division; Rs. 2,000 for the village roads of the Sudder Committee; Rs. 9,937 for extension of Sooltangunge road up to Sungrampore; and Rs. 2,500 for completion of Sheikpurah diversion road.

34. I have suggested certain localities which, in my opinion, should be provided with communications, notably Begoosarai sub-division, pergunnah Furkya and south Jamui and Chakye. Until roads are provided in these tracts, the work of the Committee will be far from complete, and we hope, with our new District Engineer, to be able to open up not only these, but to penetrate more effectually the villages and tracts lying adjacent to our main lines of communication. The necessary statements showing attendance of members, &c., are also enclosed.

No. 412, dated Monghyr, the 12th November 1879.

From—A. V. ROBERTS, ESQ., District Engineer, Monghyr,
To—The Chairman of the District Road Committee, Monghyr.

IN submitting the annual account for the year ending 30th September last, I have the honor to make the following general remarks on the state of communication during the year, and the general result of the working of my establishment.

Under the system in force the operations of the Committee are carried on through two agencies, viz. the agency of District Engineer, through whom the more important works are executed; and the agency of Branch Road Committees presided over by Sub-Divisional Magistrates, through whom the petty works are being done. The district is intersected by various lines of roads and tracks described in statements prepared under sections 66 and 68 of Road Cess Act X of 1871, and approved by Government of Bengal, *vide* their letter No. 632A, dated 2nd June 1879, received with your memorandum No. 216R of 16th June 1879. The total length of roads under my immediate charge is 395 miles and 52 chains, and that of the Sub-Divisional Magistrates, &c., is 225 miles. Out of the total length in my charge there are only 11 pucca or first class roads, and the rest are kutcha roads. Amongst these there are some incomplete and fairweather ones. In my opinion these roads should be completed to carry out my views. I have already submitted several projects for Government sanction for some time past, but nothing has been heard of them, excepting that two estimates have come back for filling up minor omissions. On several occasions I have witnessed the difficulties of cartmen during the rainy season in crossing small gaps though properly sloped, and without bridges the roads are generally in a bad state during the rains.

There were only three original works in progress during the year, viz. completing Secundra to Arha, Luckheserai to Secundra, and road diversion from Luckheserai to Sheikpurah; the former two have been satisfactorily completed by contractor Mr. J. H. Floyd, and the latter is in progress. This work could have been finished within the year had there not been a natural obstruction towards its completion, *i.e.* the outbreak of cholera and strong fever amongst the work-people, and the matter was represented to you, *vide* my No. 138 of 25th April 1879, and subsequent correspondence on the subject. The contractor has sent in a reminder, copy of which I have sent to you with my letter No. 378 of 18th October 1879, asking to be informed whether his application for the extension of time for the completion of the above road is sanctioned, but regret to notice that I have not heard anything from you up to this moment I doubt not that this work will be completed in a month's time or so, and the opening of the road will be a great benefit to the district. The construction of this road was urged by the late District Superintendent of Police, Colonel Waller, the officer who has recently retired from the Government service. I am much indebted to the above officer for his kind and general advice he used to give me as regards works, and for his having traced out the line which is the last cut from Luckheserai to Sheikpurah. There is only a line left unopened, which is the Burbeega road, to connect that part of the country for which I had sent in an estimate, and which has come back for correction, and the papers will be made over to my successor, whom I shall urge to take up the matter at once and hope he will finish the scheme. The project was prepared at the special request of Mr. Magrath, the late Chairman. Almost all the important works have been completed during my incumbency for the last four years, excepting the Patna road estimate, for which I have taken levels and prepared the estimate, which is only to be seen once and to submit for sanction. The flood line is to be changed according to the present flood marks, which I shall hand over to the new Engineer. As a general rule, the works were carried on chiefly by contracts, which is the best system approved of by Government; the tenders for original works have hitherto been received in form No. 7M, and for repair works in form No. 9M. It was a practice in this district that the Chairman let out contracts for original works only, and the repair works by the District Engineer; but from the present year Mr. Samuells has taken up the duties himself, which is in accordance with Government Resolution. In each year's budget there is a certain sum allotted for the maintenance of the district roads, and to the best of my belief and knowledge the money has been properly spent, and the roads were kept in a thoroughly good state. The roads of this district have so well been opened that there is not the slightest difficulty in the way of free communication as far as practicable. I forgot to mention above that there is also an important work to be attended to, which is the construction of the Nepal road; this will connect Monghyr, Bhagulpore, and Tirhoot with the Nepal frontier. The construction of this road was proposed by Mr. C. E. R. Girdlestone, the Resident in Nepal, and I submitted the project in June last. Mr. Magrath, the late Chairman, had a great mind to get

the project sanctioned and to commence the work, but unfortunately he has left the district and has gone home on furlough for ten months. Planting trees, the progress is fair, but a visible change cannot be expected, though the plants throughout the district are thriving. Much care has been taken to economise the establishment engaged for the inspection and maintenance of the planting. I am sorry to state that the great and the only drawback towards its speedy progress is that the trespass of cattle of neighbouring ryots proved almost impracticable, notwithstanding the constant severe measures having been taken by handing over the animals to the thana and getting the owners fined, &c., by the Magistrates. Hence it has been proposed of late by the Committee, in order to get rid of this difficulty, to make over all the plantation to the zemindars of the respective roads running through their *elakas*, which I hope will prove efficacious, as there appears to be no other alternative than this when economy is to be observed. In conclusion, I think it to be my duty to recommend to the Committee, pointing out that, as the Tirhoot road is in a very deplorable state owing to the constant Gangetic floods, whereas this is a main road on the other side of the Ganges, I would propose that some measures should be taken towards its improvement. It is the duty of the Committee to enable the ryots, who pay in the *rates*, to enjoy the same advantage which others do; otherwise, as I have found on my inspection trips all along, the constant and various complaints of the ryots are to be pitied. All my subordinates have worked well, with the exception of Baboo Kissoree Mohun Ghose, the estimator and draftsman, who requires to be ruled with a tight hand.

District Engineer's opinion on the working of Engineering Office Establishment.

OF the remainder of the staff; viz. Mothoora Lal Shome, accountant, Bhola Nath Dey, clerk and general assistant, and Kissoree Mohun Ghose, draftsman, I have hardly been as yet able to form a proper idea of their merits. Since I joined on the 27th November 1879, I have been very little in the office, but what I required from them has been done satisfactorily.

G. J. R. LEESON, *District Engineer, Monghyr.*

Chairman's opinion on the working of several Officers employed under the District Road Fund Committee of Monghyr during the Cess year 1878-79.

Names of Officers.	Rank.	Remarks by the Chairman, District Road Committee.
Chairman's Office.		
Neelcomul Bhuttacharjee	Head clerk and accountant under the Committee ...	A good accountant and writer. Though not passed, he is fully up to the work, and has given satisfaction.
Engineering Establishment.		
A. V. Roberts	District Engineer	The District Engineer failed to give satisfaction and his services were dispensed with.
H. S. Phillipe	Supervisor	Mr. Phillipe has I believe done good work, but I have not seen much of him.
Munshee Muneeruddin	Overseer	Munshee Muneeruddin has apparently been ubiquitous, as the shortcomings of the District Engineer were mainly balanced by his energy. He has worked well.
Aubinash Chunder Chumpati	Sub-Overseer	Aubinash Chumpati was made over to the Sub-Committee, as the Committee had not enough work for him. I consider him a hard-working and willing officer.

The District Engineer will report on the rest of the staff.

C. A. SAMUELLS, *for Chairman, District Road Committee.*

No. 55R, dated Jamui, the 22nd December 1879.

From—W. B. MARTIN, ESQ., Chairman, Branch Road Committee, Jamui,

To—The Chairman, District Road Committee, Monghyr.

WITH reference to your No. 93R of 29th ultimo, I beg to send you the report of the Branch Road Committee operations for the year 1878-79.

My predecessor, Mr. Hampton, was Chairman when the amounts sanctioned for the year were estimated. I was ordered on the 24th May 1879 to make over the sums sanctioned to the zemindars chosen to do the work; accordingly, on the 2nd June 1879, the amounts were duly sent.

Rajah Ramnarain Singh of Khyra took Rs. 2,000, viz. Rs. 1,000 for the Futtehpore road, which he refunded, as he said owing to the rains the road could not be commenced, and Rs. 1,000 for the Khyra and Jamui road, which he got on with very fairly, until Rajah Sheopershad Singh, and Murli Singh, Mokaridar of Nima, needlessly obstructed him. The matter had to be repeatedly reported to head-quarters, and in November, when the Officiating Collector came out, he finally decided what was to be done. I send now the account of what the Rajah actually completed. The gap at Singarpore is being filled up, and a separate bill for this year will be sent. This obstructiveness delayed us much in both completing the road and accounts.

Another road, the Tatti road, was in the hands of Tasaduq Hossein Khan of Sheikpurah, who has just completed the work and has sent in accounts; he has spent somewhat more than he received. Rajah Ramnarain Singh spent Rs. 30 more than he received, but desires no payment of the amount. I believe Tasaduq Hossein Khan will apply for the amount spent in excess. These two roads are of great use; the former is the road by which timber and other building materials are brought northwards, and a good deal of traffic goes over it. I would suggest that this road, which is an embanked one, and is really a continuation of the Mullehpore and Jamui road, be made over to the District Engineer, together with the Jamui Bazar road, which joins it to the Mullehpore road. The latter or Tatti and Sheikpurah road is much used in the rains to bring goods received for Sheikpurah by boat at the Tatti ghât; it also acts as a breakwater, and saves the paddy east of it from the rushes of water when the Tatti overflows.

The Aligunge road was a minor work entrusted to Roopan Singh.

As so much money remained in hand, with your permission I made a few improvements in and around Jamui. A road was made to join the cutchery road to the Mullehpore road, and a road was made from the Mullehpore road through a part of the Maharajgunge Bazar to a suburb called Mahsouri; the bazar roads were made and six culverts made for the latter roads. I would here suggest that, as the bazars here are so narrow, the roads be made pucca without drains, but so managed that, when rain falls, the water can run along each side. This can be easily managed; the width of the bazar wont allow of drains.

There has been a deal of delay in completing the works in hand and sending in accounts this year, but as we now have an overseer, I trust the whole of the present year's roads will be completed well within the road cess year, and allow us to send in accounts in October.

The Khyra road and bazar roads have been done well; the others not quite so well.

I append such forms and memoranda as are necessary, and as they contain the requisite remarks, I need not further explain them.

MEMORANDUM.

	Rs.
Amount sanctioned for 1878-79, road cess year ...	5,000
Drawn	3,600
Refunded	1,000
Expended	2,600
Spent for Nima and Khyra road	1,000

The Rajah spent Rs. 43-5-11 out of his own packet, which he does not wish to receive back. The receipts for Rs. 1,043-5-11 are sent; five receipts in all.

	Rs.	A.	P.	
Spent for Jamui, Nima, Mahsouri and cutchery roads, 94 chains, at Rs. 2-12 per chain ...	258	8	0	one receipt
Six pucca masonry culverts	232	0	0	five receipts.
Aligunge village roads, the work made by coolies at daily rates	100	0	0	four receipts.
Refunded	9	8	0	
Spent by Mohamed Tasaduq Hossein Khan of Sheikpurah on account of Tatti road, *i.e.*—				
337,816 c. ft. earthwork at Rs. 1-14 ...	633	6	8	
214,233 c. ft. earthwork at „ 2-4 ...	482	0	6	
Peons' wages	18	12	0	
Total ...	1,729	3	2	

From the above account it will be seen that Rs. 2,600, out of Rs. 5000 sanctioned, were taken out of the sub-treasury and spent, but the account shows an expenditure of Rs. 2,729-3-2. The Nawab Tasaduq Hossein Khan was paid Rs. 1,000, but he spent according to his receipts Rs. 1,129-3-2; hence the increase, Rs. 129 3-2.

The overseer's measurement, which is correct for this road at the rates quoted, comes to Rs. 1,030-1-3.

JAMUI, *the 22nd December* 1879. W. B. MARTIN, *Chairman, D. R. Committee.*

No. 15R. dated Begôôserai, the 1st December 1879.

From—J. KENNEDY, ESQ., Chairman, Branch Road Committee,

To—The Chairman, District Road Committee, Monghyr.

WITH reference to your No. 72R, dated 19th November 1879, and No. 94R, dated 29th ultimo, I beg to submit the report called for.

2. The most marked feature in the year was the flood which did more towards destroying and obliterating roads than several years of traffic could have done. Such a flood, I must acknowledge, no roads could have stood without damage, and perhaps in that respect it is a matter to be thankful for that no large expense had been previously expended in the raising of high embanked roads. Indeed, if an embankment sufficient to shut out the annual floods of the Ganges be not made, it will be useless to go to any expense on high embanked roads within the sub-division. At the same time I would submit that, for the keeping in order of only fairweather roads, the sum placed at the disposal of this Committee annually can hardly be termed sufficient.

3. I have found great difficulty in inducing any but planters to accept grants for road-making. Towards the end of the hot weather, however, I induced one large zemindar, Shah

Mohamed Musharaff, to accept a grant, and hope others may be induced to follow his example. As the aforesaid zemindar, however, received the money too late to do much before the rains came on, it remains for him to show what kind of road-maker he is. What the zemindars are afraid of is that their accounts will be looked into in a captious spirit. This of course is neither the intention nor the desire of Government.

4. I must express my gratitude to the planters as a body for their aid in making and repairing roads. Without their aid a separate staff would be required for this sub-division alone.

5. In all, five meetings of the Branch Committee took place in the year ending 30th September 1879. The meetings on all occasions were well attended. I submit a table showing the number of meetings attended by each member.

6. I also beg to submit a return showing how the Committee expended the grants for the year.

Passed in a meeting of Road Cess Committee held on the 30th January 1880

C. A. SAMUELLS, *for Chairman.*

C. MURRAY, *Major-General.*
W. S. CROWDY.
J. KENNEDY.
GUNGA PERSHAD.
MAHOMED ALI KHAN.
SHAH MAHOMED MUSHRUFF.

C. A. SAMUELLS, *Vice-Chairman, D. R. C.*

No. 159, dated Bhagulpore, the 8th January 1880.

From—H. J. NEWBERY, Esq., Chairman, District Road Cess Committee,
To—The Commissioner of the Bhagulpore Division.

I HAVE the honor to submit the District Road Fund report for the year 1878-79.

2. *Committee.*—The following gentlemen were the members of the District Committee for the year under review :—

Magistrate and Chairman.
W. Connan, Esq., Executive Engineer.
C. R. Marindin, Esq , Joint Magistrate, Vice-Chairman.
Major R. P. Davis, District Superintendent of Police.
Baboo Chunder Narain Singh, Deputy Collector.
Baboo Soorji Narain Singh, Pleader and Zemindar.
T. Curtis, Esq., Zemindar.
M. B. Morison, Esq., Zemindar.
Baboo Shib Chunder Banerji, Zemindar and Pleader.
Rajah Hurbullub Narain Singh, Zemindar.
Rai Thacoor Man Singh, Zemindar.
Baboo Jodoonath Sircar, Zemindar and Pleader.
Baboo Hury Mohun Thacoor, Zemindar.
Baboo Tej Narain, Zemindar.
Moulvi Soojaitali Khan, Zemindar.
W. St. B. Grant, Esq., Manager of Indigo Concern.
T. Griffith, Esq., Manager of Indigo Concern.

3. *Committee Meetings.*—Eight meetings were held during the year, and in each there was a quorum. The attendance was fair on all the occasions. The greater number of members attended regularly, with the exception of Rai Thacoor Man Singh, Bahadoor, who has never yet attended a single meeting, and of Rajah Hurbullub Narain Singh and Baboo Hury Mohun Thacoor, each of whom attended but once in the course of the year. The Rajah, however, always wrote his views on all important matters, and they were forwarded to the Chairman when he was himself unable to attend.

4. The following tables show in full detail the attendance at each meeting of the District and Branch Committees during the year under review :—

Attendance of Members at each Meeting.

5. The members of the District Committee evinced a very lively interest in discussing all matters under their consideration, and I have derived much assistance from them in carrying out the provisions of the Act. I would specially mention the following names of non-official members as deserving of special commendation for regularity of attendance and zeal in furthering the interests of the fund :—

Baboo Soorjonarain Singh.
W. St. B. Grant, Esq.

6. *Branch Committees.*—Copies of the reports of the Chairmen of the Branch Road Committees at Banka, Muddehpoorah and Supole are forwarded. I would specially bring to notice the services of the following gentlemen in the Branch Committees to which they respectively belong, namely :—

Mr. Patrick Duff at Supole.
Mr. Stevens at Muddehpoorah.

There is great room for improvement in the working of the Banka Committee with reference to expenditure of amounts allotted by the District Committee. By the Banka Committee only Rs. 1,650-1-1 were expended from an allotment of Rs. 3,000 made by the District Committee. The Supole Committee expended the full allotment The attention of the Banka Branch Committee has been drawn to the necessity of expending the amounts allotted. The Branch Committees of Supole and Muddehpoorah have worked satisfactorily.

7. *The demand and collections.*—The maximum rate of assessment, six pie per rupee, was fixed for the year. The demand as per register was Rs. 1,15,206 (includes arrears of previous year, Rs. 4,202). The actual receipts were Rs. 1,13,091 ; arrears Rs. 2,115 (of this Rs. 141 of previous year). The percentage of collection with reference to demand 98·16 per cent. The actual cost of collection was Rs. 3,257 or 2 88 per cent on the amount collected.

8. *Working of the system.*—The people and zemindars have accepted the road cess as an inevitable tax, and have now quietly acquiesced in it. I think one thing has contributed to make it as little unpopular as a tax can be, and that is that cultivators and zemindars found themselves exempted from the hated license tax. The people also see the roads near their own houses being smoothed or raised as the case may be, and they now fully grasp the idea that the whole of the cess is really spent in the district where it is raised, and that no part of it finds its way into the Imperial Exchequer.

9. *Income and Expenditure.*—The total income of the year, including the unexpended balance of the past year, amounted to Rs. 1,80,431-11-3 as detailed below :—

	Rs.	A.	P.
Last year's unexpended balance	64,314	4	5
Land cess	1,13,091	6	4
House cess	27	0	0
One per cent road cess	332	15	3
Miscellaneous	2,666	1	3

10. There was a total expenditure of Rs. 92,075-1-10 under the following heads :—

	R.	A.	P.
Collection establishment	2,884	9	8
Committee's Office establishment	1,138	10	8
Engineer's establishment	18,373	10	7
ROADS AND BRIDGES.			
Original works	6,725	0	6
Repairs	57,915	10	5

OTHER WORKS.	Rs.	A.	P.
Original works, Committee's office building	2,389	1	5
Repairs	1,472	10	11
Contingencies	960	2	11
Tools and plant	215	8	9

11. At the end of the year there was in hand the large balance of Rs. 94,725-15-2, an addition of more than Rs. 30,000 to the cash balance of the preceding year. This represents so much direct loss to the district, and is due principally to sanction to original works being withheld by the higher authorities. This was adverted to in the last annual report, and was brought under the notice of Government in your report. Up to date this still remains unremedied, although many of the estimates are for very minor works.

The appointment of a Divisional Superintending Engineer (which was to remedy this evil) has not yet been made, and another year is slipping away with our works stopped for want of sanction.

12. *Examination of Accounts.*—The Sub-Committee appointed for the purpose of examining and auditing the accounts for the year, under section 88 of the Act, consisted of the following members:—

W. Connan, Esq., Vice-Chairman.
Baboo Chunder Narain Singh.
" Soorji Narain Singh.
" Tej Narain.

The last-named gentleman did not attend. The examination and audit were conducted by the three others. The following is an extract from their report:—

"The Committee examined the account and compared the expenditure shown therein with the cash book, cash abstract book, cheque book and vouchers, and passed the accounts."

13. *Examination by Government Examiners.*—The accounts of Committee and District Engineer's Office were examined on the 12th June 1879 by Mr. F. Moore, Deputy Examiner, Public Works Accounts, who was apparently satisfied with the state of accounts. His report has not yet been received from the Office of Examiner, Public Works Accounts, whose attention has been called to this matter.

14. *Village roads.*—A sum of Rs. 4,767-6-5 was spent during the year in the construction and repairs of village roads in the district, of which Rs. 271-7-2 was spent in the sudder sub-division, Rs. 2,561-8-0 in Supole, Rs. 1,555-2-3 in Muddehpoorah, and Rs. 379-5-0 in Banka sub-division. I am glad to say that some of the members of the District Committee have interested themselves in this important branch of work. Mr. W. St. B. Grant of Narainpore Factory caused repairs to the road No. 29, Lutipore to Goghri; No 30, Milki to Sonbursa ghât *vid* Narainpore; road No. 42, from Mozima to Nurkutia *vid* Bikrumpore and Shahpore road under his immediate supervision. Mr. Curtis of Khunjerpore Factory did equally good work in connection with the road No. 31, from Peepulpati to Sohore hât, and Mr. Griffith of Colgong carried out the works on road No. 42 B, from Bishenpore railway overbridge to Peerpointee *vid* Ekdora and Gowhatee and on the Bedaire road.

15. *Committee's Office.*—The Committee's head clerk and accountant, Baboo Unnoda Proshad Sircar, a careful and painstaking officer, died during the year. His place was filled by the District Engineer's accountant, Baboo Denonath Mookerji, who has on the whole worked satisfactorily. It was found necessary to engage a second clerk to assist the accountant in the Committee's Office.

16. *Superintendence of works.*—All first, second, and third classes of roads, and all original works, are under the direct supervision of District Engineer and staff; fourth class and village roads, except in the sudder sub-division, being under the Branch Committees. Each Branch Committee has engaged a competent sub-overseer for supervision of work. All works carried out by Branch Committees are subject to inspection and report by District Engineer and staff; and it is expected, as work becomes more systematized, that each road entered in the list will receive thorough supervision.

17. *Change in Engineering Staff.*—A considerable change has been made in the engineering staff during the year. I need not recapitulate the reasons which led the Committee to accept the resignation of their late Engineer, Baboo Ram Rutton Mozoomdar. His successor, Mr. Robinson, though appointed during the year, did not take charge of his duties till October. He was appointed on a salary of Rs. 500 per mensem, the late District Engineer's salary being Rs. 687-8. The district as a road cess charge was formerly divided into two sub-divisions—North and South Bhagulpore—each in sub-charge of an overseer. The district has now been divided into three sub-divisions—one overseer to South Bhagulpore, one overseer at Supole, and one at Muddehpoorah. The overseer formerly at Supole, Baboo Trylocco nath Chatterjee, having resigned his post, his place has been filled at a reduced salary. While it is expected that road works will be supervised more strictly, and work pushed on more vigorously, it will be less expensive than the former arrangement. It is noteworthy that partly owing to the recent reductions in the Public Works Department, qualified men for road cess works can be had at less expense than was formerly the case.

18. *Operations of the next year.*—The budget for 1879-80, forwarded with this office No. 418 of the 30th July 1879, shows in detail the operations proposed during that year. Briefly these are—

1*st.*—Placing the whole of the roads, as per list of roads, in excellent order.

2nd.—Carrying out the following original works :—

1. Completion of the bridging, Muddehpoorah-Sonbursa road.
2. Culverts on the Muddehpoorah-Singessur road.
3. Ditto Protabgunge to Balooah.
4. Ditto Milki to Sonbursa Ghât.
5. Ditto Peerpointee to Barahat.
6. Ditto Peepra to Protabgunge.
7. Ditto Muddehpoorah Station road.
8. New road from Dhaka to Sanki.
9. New metalling three miles Bowsi road.
10. Boundary pillars ditto.
11. Temporary bridge over the Koonala of the above work.

Estimates for Nos. 1, 4, and 10 are sanctioned; Nos. 2, 3, 5, 6, 8, 9 submitted and not sanctioned up to date by higher authority; and No. 11 only under consideration by District Engineer.

19. During my recent tour in South Bhagulpore, I have been over the two main roads. The Bhagulpore-Bowsi road is a fine embanked, bridged, pucca road, driveable throughout the road. From Simultola through Kotoriah to Banka is also an excellent road, and is every year drawing more and more traffic to it. Everybody is delighted with the idea of the new road from Dhaka (on the Bowsi road) to Banka. I went over this line and expect the earthwork to be finished by next rains. Though only a little over four miles, there will have to be numerous small bridges and culverts in it, as it cuts the line of the drainage and the many artificial irrigation channels at right angles. The new road from Banka to Umerpore will also, I hope, be finished this year. As funds become available, the Committee hope to have a good road made from Bowsi *vid* Bhooria and Mohiama to Ghogha, and estimates are under preparation for bridging the road.

20. Annexed is the District Engineer's statement of the work done in the various roads during the past year.

SOUTH BHAGULPORE SUB-DIVISION.

1. *Class I, miles* 12, *road No.* 1, *from Bhagulpore overbridge to Sonthal Pergunnahs.*—The metalled portion, 33 miles, of the road has been maintained throughout the year, and the contractors having failed to collect the full estimated quantities of road metal, all the re-coating as estimated could not be done; 40,020 c.ft. stone metal, 26,100 c.ft. ghooting metal, and 18,950 c.ft. quartz metal were supplied, and 41,406 c.ft. metal spread and consolidated, and 86,100 c.ft. earthwork to earthen sides done in the year under report. The kutcha portion was partly repaired and kept passable, and the three bungalows were repaired and kept in order. All the timber-topped bridges from 2nd to 4th mile have been repaired (masonry plastered, wood-works, coal-tarred and railings bolted) and kept in good order; seventeen culverts up to 7th mile have received petty repairs. During 1879-80 it is proposed to collect a larger quantity of metal for re-coating the bad miles, to repair the earthen side well, and to repair the kutcha portion of the road. Miles 34 to 38 not metalled are proposed to be metalled this year as an original work.

2. *Class I, miles* 3, *road No.* 2, *from Sooltangunge to Arjungunge road.*—Out of three miles in this road only two are metalled; these have been petty repaired; 14,605 c.ft. metal spread and consolidated, and road generally maintained during the year.

The work having been begun late in the year, the collection of metal was not all done. Only 9,300 c.ft. stone metal, 7,250 c.ft. brick metal, 6,450 c.ft. ghooting metal was supplied, and 237,000 c.ft. earthwork done, 18,000 s.ft. turfing, and the three timber bridges and culverts coal-tarred, repaired, and kept in order. During 1879-80 it is proposed to collect stone metal 26,600 c.ft. to improve the metalled portion of the road, to extend the metalling over a portion of 3rd mile, to smooth the kutcha portion, to take up the bricks and metal from the filled bund on an old breach, strengthen and re-metal it, and to refit one opening of a timber bridge sunk by last flood.

3. *Class I, mile* 1, *road No.* 3, *from Sooltangunge Railway Station to River Ghât.*—Only petty repairs done last year. The road metalling is much cut up. This year's operation contemplate for petty repairing the same with ghooting metal and improving the flanks and side drains.

4. *Class I, mile* ¼*th, road No.* 4, *Ghogha Bazar road.*—There was no provision for this road in the year 1878-79. This metalled surface is very rough, and it has been proposed for 1879-80 to reform the surface with the addition of some new metal, and to repair the flanks by cutting side drains.

5. *Class II, miles* 18, *road No.* 5, *from Ghoreghat to Bhagulpore.*—This road has been maintained in good passable order during the whole year. The work done was 190,000 c.ft. earthwork, 3,000 c.ft. repair of metal, repairing two timber bridges and brick pitching. The works estimated for 1879-80 consist of earthwork to fill up the breaches and other damage done by floods, surface dressing all over the miles.

6. *Class II, miles* 33, *road No.* 6, *from Bhagulpore to Peerpointee with Inspection Bungalow and Hut.*—This road was maintained during the whole year, the bridges and culverts repaired, and by making a new culvert constructed in mile 6. The work done was 776,000 c.ft. earthwork, surface dressing to 5 miles, repairs to 15 bridges and culverts with pointing and plastering.

Serais at Colgong and Peerpointee are repaired. This road has been damaged in several places by the late floods of 1879 between miles 6 to 20. Work estimated in this year is to raise certain low portions and fill up the breaches all along the miles, raising surface repair from miles 4 to 7 and 20 to 33 (Colgong to Peerpointee) in 15½ miles, and several improvements and maintenance.

7. *Class II, miles* 16, *road No.* 7, *from Bhagulpore to Umerpore.*—This road was maintained and kept in good order; about 7 miles of road have been improved by cutting ramps, raising road, and turfing slopes. Works done in this were earthwork 646,500 c.ft., turfing 219,000 s.ft., one culvert constructed of brick, one new timber bridge of 120 r.ft. waterway restored. At the four gaps caused by floods, it is proposed this year to construct permanent culverts to improve the road alignments, to execute surface repairs generally to the bridges and culverts in order to lay metal on the planking of all the timber bridges, and to maintain the road throughout the year.

8. *Class II, miles* 28¾, *road No.* 8, *from Banka to Simultola-Kotoriah road.*—Works done during the last year were surface repairs 28 miles, cutting sloped approaches of 10 nalas, repairing 3 inspection bungalows, pucca masonry (stone) in 4 new gullets, and culverts 1,600 c.ft. and Mohna wood planking 40 c.ft. done. The works proposed to be done in 1879-80 are repairs to surface of the road all along the 28 miles, sloping the approaches of nalas, to make gullet drains for additional waterways in 7 and 8 miles by the hill sides, new wing walls and repairs to all bungalows, for a bridge in 21st mile. Road in very good order.

9. *Class II, miles* 2, *road No.* 9, *rom Peepulpati to Sohore Hât.*—This road was maintained and repaired last year; present estimate of this is, surface repairs to all along the road (2 miles), to level and smooth the surface by filling up ruts and holes.

10. *Class III, miles* 8, *road No.* 10, *from Jugdishpore to Sonodi.*—One timber bridge of 7 openings of 13 feet span each has been built on the Kotoriah nala, which, however, requires more waterway. This year it is proposed to make 12 pucca drains for irrigation in several gaps, to raise the road in places overtopped by floods, and to maintain the road.

11. *Class III, miles* 9, *road No.* 11, *from Sonodi to Bela via Nowadah and Rajabur.*—This road had to be improved with a fairweather road, but the work was undertaken late in the season and very little was done; only 98,000 c.ft. earthwork done. This year's estimate provides for completing the cart track.

12. *Class III, miles* 11, *road No.* 12, *from Colgong to Barahat.*—This road has been kept passable the whole year round; about 5 miles of road is altogether remodelled, on which 378,000 c.ft. earthwork, 3½ miles surface repair, 1,100 c.ft. stone rubble masonry, 960 c.ft. dry rubble, and 120 c.ft. brick masonry in making a causeway 2½ feet, and clearing 5 miles of jungle were the work executed. The works proposed to be done in this year is to raise certain low portions of road, the provision of mile-post and ordinary repairs.

13. *Class III, miles* 6, *road No.* 13, *from Peerpointee to Barahat.*—This road was maintained and kept passable during the whole year. The work of 1878-79 was 88,000 c. ft. earthwork, some brick rubbish laid on a muddy portion, two temporary bridges repaired, surface repair all along the 6 miles of the road. Work proposed to be done in this year—earthwork to raise certain low portions of the road and provide mile-posts and execute ordinary repairs.

14. *Class III, miles* 5, *road No.* 14, *from Peerpointee Railway Station to River Ganges.*—The road was kept in order throughout the year. The works done in this were 99,000 c. ft. earthwork, some stone rubbish laid on the muddy portions, petty repairs to the existing temporary bridges, two new temporary bridges made in mile 3rd, inspection bungalow repaired, the floors of bridges protected by rubble stone, and 3 mile-posts (new) put up. The works to be executed in 1879-80 is earthwork to raise certain low portions of the road; 8 miles of fairweather road to be re-opened from Peerpointee Bazar (iron girder bridge) to Chattain Ghât by making *chil chal* repair through *Deorah* to open the road to Karagola Ghât all along.

15. *Class III, miles* 11, *road No.* 15, *from Umerpore to Banka.*—The work executed in 1878-79 was earthwork 247,000 c. ft., turfing 44,000 s. ft., two pucca stone gullet drains, two new timber bridges 85 r. ft., stone concreting 1,632 c. ft. The contractor having commenced work very late in the season, the work progressed slowly. Work proposed to be done in 1879-80 is for raising certain portions of road approaches of the bridges, &c., turfing slopes left undone from last year, surface dressing, restoring the Nonyhoree bridge which has been injured by flood, making 15 gullet drains for irrigation, making 5 timber-topped dry stone culverts.

16. *Class III, miles* 11, *road No.* 16, *from Bowsi to Mohiama vid Dhooriah.*—The work done in 1878-79 was earthwork 41,000 c. ft. and repairs to the temporary bridges, repairing approaches of nala, repairing surface of the road 5 miles, repairing the inspection bungalow. Work proposed to be done in 1879-80 is repairing surface of the road all along 22 miles, repairs to 42 timber culverts and bridges [which have mostly tumbled down (being old and rotten) and washed by floods], repairs to Dhooriah bungalow, earthwork to make a diversion line in 6th mile of road where cut by flood of *Cheer* river, turfing slopes of the same.

17. *Class III, miles* 11, *road No.* 17, *from Ghogha to Assee.*—The road was made passable for traffic by repairing and opening a cart track temporarily. The work intended to be done in 1879-80 is to widen the first mile of the road from 16 to 20 feet, to raise certain low portions of the road in miles 1 to 6, 8 and 9, to filling up two gaps, and to finish the remaining portion of the new road from 9th to 12th mile.

18. *Class IV, miles* 11, *road No.* 32, *from Shahcoom to Soultangunge.*—This cart road was made in 1878-79, but damaged much by the flood, most part being over-flooded in the rains. The work proposed to be done in 1879-80 is to repair the track made last year by clearing side drains, repairing surface of the roadway, and making it 16 feet wide.

19. *Class IV, miles* 4, *road No.* 47, *from Umerpore to Bhurkoa.*—This is a newly taken up road, and no work was done last year. Work estimated for 1879-80 is to open 4 miles of fairweather surface road from a point on a high ground near Umerpore to Kolehaut and thence to Bhurkoa.

BHAGULPORE, *the* 10*th December* 1879. J. ROBINSON, *District Engineer.*

NORTH BHAGULPORE SUB-DIVISION.

1. *Class II, miles* 17¼, *road No.* 18, *from Muddehpoorah to Sonbursa vid Shahpore.*—Expenditure up to 30th September Rs. 1,503-13-2. Work done 566,123 c. ft. of earthwork, petty repairs to road surface 9½ miles, 55,670 s. ft. turfing. For 1879-80 ordinary repairs estimated, and several new bridges and culverts as original work.

2. *Class II, miles* 35, *road No.* 19, *from Gopalpore Ghât (also called South Emigration Road) to Keotgama vid Sookhpore and Singessur.*—The estimate for this road amounted to Rs. 2,694, but the work done up to 30th September amounted to Rs. 1,237. The total work done on this road between Gopalpore to Singessur was 128,734 c. ft. earthwork, 12¼ miles surface dressing, 210 r. ft. repairing, metalling on one iron bridge, and constructing four masonry abutments to two iron bridges to prevent slips at approaches. Beyond Singessur 6 miles road surface has been dressed. The road is in good driveable order up to 70th mile-post, *i.e* up to 6 miles east of Singessur. The planking of three timber bridges, which have become bad, being of jamoon wood, in position more than seven years, plank has recently been repaired. The work proposed for 1879-80 is 6 lakh c. ft. of earthwork, 24 miles surface dressing, metalling over the three iron bridges, repairing wooden bridges and culverts.

3. *Class II, miles* 31, *road No.* 20, *from Sookhpore to Kondowlee vid Supole, Bhoptea and Dogmara.*—Amount of estimate during 1878-79 Rs. 3,608; expenditure up to 30th September Rs. 2,790. The following work has been done during the past cess year, viz. earthwork 335,760, c. ft., dressing road surface 14 miles, turfing 4,400 s. ft., renewing planking 469½ c. ft., and constructing two masonry abutments to the iron bridge over Gujna. The road is in good order, except the first portion between Sookhpore and 3rd mile-post, and from Supole to 10th mile-post; being very sandy, these portions cut up very much every year. It is impossible to improve the surface or prevent its being cut up, as earth cannot be had along the road at those places. At one place, near village Amdowlee, the floods topped the road for some distance, and provision has been made for raising this portion. The work proposed in 1879-80 is 864,000 c. ft. earthwork, 15 miles dressing surface, efficiently repairing all timber and masonry bridges, and metalling the iron bridge.

4. *Class II, miles* 4, *road No.* 21, *from Bongong to Mohessee.*—Estimate for 1878-79 amounted to Rs. 100. No work done this year by contractors, Messrs Mathews and Sen, to whom the work was given.

The road is passable, and the surface will be maintained and culverts re-pointed this year.

5. *Class III, miles* 21, *road No.* 22, *from Tiljooga river to Protabgunge vid Bhoptea (also called North Emigration Road).*—Estimate of 1878-79 amounted to Rs. 3,583; amount expended Rs. 2,198. Work done on this road is as follows:—324,000 c. ft. earthwork, dressing road 13 miles, constructing a temporary pipe drain, and repairing planking of timber bridge 420 s. ft.

The temporary bridge platforms are not satisfactorily repaired, and the road is consequently impassable, and has been so during the whole year. The work proposed this year is to strengthen the platforms and abutments of these temporary bridges and make them passable throughout the year, the timber to be changed this year being only few. About two lakhs cubic feet earthwork and 18 miles surface dressing, repairing of culverts, constructing masonry abutments to two iron bridges and metalling the same bridges.

6. *Class III, miles* 28, *road No* 23, *from Supole to Protabgunge vid Peepra.*—Amount of estimate Rs. 1,500 for 1878-79; expenditure up to 30th September Rs. 1,353. Work done on Supole to Peepra section 83,000 c. ft. earthwork, five miles road surface dressing, 215 r. ft. restoring temporary bridges, and maintaining trees over five miles of road.

On Peepra-Protabgunge section work done is 91,259 c. ft. earthwork, 3,000 s. ft. turfing, and 5½ miles surface repairs and petty repairs to Dowsee temporary bridge.

The road from Supole to Protabgunge is intersected by three rivers—one in 4th mile, the Dinra; one in 23rd mile, the Chilonee; and one in 26th mile, the Dowsee; besides the Tilabeh nala in 9th mile, over which a temporary bridge was proposed last year and commenced, but during the high floods the posts put up were washed away and a scour formed in the bed. The road is fairly passable now. It is proposed this year to re-construct the temporary bridge over Tilabeh by driving the piles deeper, to restore the old temporary bridge over Dowsee second branch near Protabgunge, to maintain the other temporary bridges, to execute 234,000 c. ft. earthwork, maintain trees planted on five miles of the road, and to dress 19 miles road surface.

7. *Class III, miles* 9, *road No.* 24, *from Protabgunge to Baboah Bazar.*—Estimate for 1878-79 amounted to Rs. 500; expenditure Rs. 190-5-3. Work done is 43,870 c. ft. earthwork. The road was let by contract to Messrs. Mathews and Sen, but they failed to dress the

road surface and maintain it thoroughly. The work proposed this year is some earthwork and surface dressing, and constructing a temporary bridge over the Chynee dhar.

8. *Class III, miles* 23, *road No* 25, *from Supole to Muddehpoorah vid Gamhoria and Singeessur.*—Estimate amount of 1878-79 Rs. 1,001 on two sections, viz. from Supole to Gamhoria and from Gamhoria to Muddehpoorah. Total expenditure on both sections Rs. 869. Work done 198,182 c. ft. earthwork, repairing temporary bridge 63 r. ft., dressing surface 10 miles. This road has been injured in several places by the late heavy floods. Two large temporary bridges wholly washed away, other minor bridges injured, and the roadway been cut through at several places. It is being repaired and made temporarily driveable til work of 1879-80 commence. Two rivers intersect this road, viz. Dimra near Supole and Tilabeh in 15th mile, on both which ferries are maintained. Proposed this year: earthwork repairs, nine miles surface dressing, repairing 166 r. ft. temporary bridge, and restoring 60 r. ft. of timber bridges.

9. *Class III, miles* 13, *road No.* 26, *from Singeesur to Peepra.*—Estimate amounted to Rs. 400; expenditure Rs. 254. Work done 80,764 c. ft. earthwork, and maintaining temporary bridges, and 2 miles surface dressing. This road was not fully maintained for want of a contractor or piece-worker. The road, however, is in fair state, except that one gap in 3rd mile is formed by the washing off of the temporary bridge by floods. It is proposed to provide a ferry during the rains at this gap, and to maintain the other temporary bridges.

10. *Class III, miles* 16½, *road No.* 27, *from Pursurma to Bulhee.*—Estimates for 1878-79, Rs. 1,306, being for two roads, one Myaghat to Bulhee, and the other Pursurma to Bijulpore; amount expended Rs. 1,098. Work done in 1878-79 as follows:—On Myaghat-Bulhee section 69,555 c. ft. earthwork, 78 r. ft. restoring and constructing temporary bridges, and 190 r. ft. repairing temporary bridges, and 23 miles surface dressing. On Pursurma-Bijulpore section 3 miles surface dressing and 60 r. ft. temporary bridge repairs. The temporary bridges on this road were all washed off during the floods of September last, and only approaches and slopes have been made for passing of traffic till the temporary bridges are restored. Work to be done in 1879-80 are earthwork repairs, renewing 202 r. ft. temporary bridges.

*Expenditure incurred by Mr. St.Blair Grant is not added to this.

11. *Class III, miles* 25, *road No.* 28 *from Muddehpoorah 3rd section to Korama via Kishengunge.*—Expenditure Rs. 2,094; * work done 130,000 c. ft. earthwork, renewing temporary bridges 400 r. ft., repairing the same 882 feet.

Class III, miles 9, *road No.* 29, *from Lutipore 1st section to Goghri.*—Making cart track and surface dressing 21 miles, including road over the dry bed of Ganges.

*Expenditure incurred by Mr. St.Blair Grant is not included in this.

12. *Class III, miles* 11½, *road No.* 30, *from Milki to Sonbursa Ghât via Noranpore.*—Expenditure Rs. 776-3-8;* work done 368,723 c. ft. earthwork, and repairing 16 r. ft. temporary bridges, turfing 32,446 s. ft.

13. *Class IV, miles* 7, *road No.* 55, *from Supole to Chandail.*—This road, since made over to the Branch Road Committee, was under the District Committee in 1878-79, and the expenditure in repairs amounted to Rs. 447. Work done was c. ft. 878-79, earthwork, and restoring 115 r. ft. temporary bridges. The road is in fair condition.

14. *Class IV, miles* 21, *road No.* 64, *from Sookkpore to Bijwar.*—This road also is since made over to the Branch Road Committee; expenditure Rs. 644. Work done 18,000 c. ft. earthwork, 333, r ft. repairing temporary bridges, and 17 miles surface dressing. Road in fair condition. One bridge partially washed away by floods.

BHAGALPORE, *the* 10*th December* 1879. J. ROBINSON, *District Engineer.*

ORIGINAL WORKS.

1. *Class II, miles* 33, *road No* 6, *from Bhagulpore to Peerpointee vid Ghogha and Colgong. Constructing a* 5 *feet Culvert and a timber-topped Bridge* 2 *spans* 12 *feet each.*—The estimate for this work amounts to Rs. 2,496. The 5 feet culvert is completed, and the bridge is commenced; foundation laid. Total expenditure Rs. 232-10-9.

2. *Class II, miles* 17¾, *bridging road No.* 18, *from Muddehpoorah to Sonbursa vid Shahpore.*—Expenditure of 1878-79 Rs. 665; work done as follows:—Within the year 650 c. ft. brickwork, and 5,361 s. ft. pointing and other minor items. Thirteen bridges completed and opened up to date from commencement of work.

3. *Class III, miles* 28, *bridging road No.* 23, *between Peepra and Protabgunge.*—Expenditure of 1878-79 Rs. 2,289; work done 6,115 c. ft. brickwork, 4,045 s. ft. pointing 37,000 c. ft. earthwork, and 490 c. ft. metting roadway. Seven bridges and culverts, out of 12 are constructed since commencement of work.

4. *Class III, miles* 9, *bridging road No.* 24, *from Protabgunge to Balooah Bazar.*—Expenditure Rs. 1,106-11; work done 2,580 c. ft. brickwork, 48,000 c. ft. earthwork, and 600 c. ft. concrete. Five bridges and culverts out of 6 are constructed since commencement of work.

5. *Class III, miles* 11¼, *part of road No.* 30, *from Milki to Sonbursa Ghât vid Noranpore.*—Constructing Noranpore to Sonbursa road, total expenditure Rs. 1,332-8-2. Work done during the year-earthwork 591,261 c. ft. dressing, and renewing 212 chains, turfing 147,596 s. ft. The work is completed.

6. *Class IV, miles* 5, *goad No.* 44, *from Banka to Dhaka.*—No work done last year in this, except nicking out the line of the new road. The estimate for (4 miles of) new earth-work has been submitted.

BHAGULPORE, *the* 10*th December* 1879. J. ROBINSON, *District Engineer.*

No. 121G, dated Muddehpoorah, the 11th October 1879.

From—BABOO SOSHI BHOOSHUN DUTT, Chairman of the Branch Road Cess Committee, Muddehpoorah,

To—The Chairman, District Road Cess Committee, Bhagulpore.

I HAVE the honor to submit the annual Administration Report on the improvement of the village roads of this sub-division for the road cess year ending 30th September 1879.

2. The table below shows abstractly the number of meetings held and the number of members who attended each meeting during the year:—

Number.	Date.	Number of members present.	Number of members absent.	Total number of members.
1	29th November 1878	4	8	12
2	3rd March 1879	6	6	12
3	2nd June „	6	7	13
4	19th „ „	5	8	13

3. The details of attendance of each member with the dates of appointment will be seen from the following statement:—

Number.	Date of appointment by Government.	Names of Members.	Number of meetings attended.	Number at which absent.	Total number of meetings.	DATE ON WHICH MEETING HELD. 29th November.	3rd March.	2nd June.	19th June.
1	22nd May 1876	Sub-Divisional Officer, Chairman	4	0	4	1	1	1	1
2	Ditto	Baboo Kishendhun Dass, Vice-Chairman	2	2	4	0	0	1	0
3	Ditto	„ Kishen Prosad Singh, Member	0	4	4	0	0	0	0
4	Ditto	„ Chooni Bhagut, „	3	1	4	0	1	1	1
5	Ditto	„ Lal Behary Lal, „	0	4	4	0	0	0	0
6	Ditto	Rughoobur Dyal Mundul „	0	4	4	0	0	0	0
7	Ditto	Bharonsi Mander, „	1	3	4	0	1	0	0
8	Ditto	Lulet Singh, „	1	3	4	0	1	0	0
9	Ditto	Kaily Churn Sahu, „	3	1	4	0	1	1	1
10	Ditto	Jhoomack Lal, „	3	1	4	1	0	1	1
11	14th March 1878	A. Stevens, Esq. „	3	1	4	1	0	1	1
12	Ditto	Baboo Soorjeenon Jha, „	1	3	4	0	1	0	0
13	24th April 1879	Rajah Hurbullub Narain Singh, Bahadoor, K.C.S.I.	0	2	2	*	*	0	0

The member Rughoobur Dyal Mundul is dead. Lal Behary Lal has been long away from the station. Kishen Prosad Singh never attended the meetings the last two years. Some of the other members are rather indifferent. The only member who showed sufficient degree of interest was Mr. Stevens of Singessur Factory. Rajah Hurbullub Narian Singh, Bahadoor, of Sonbursa, was lately appointed as a member of the Branch Committee. A re-election is therefore necessary to make the Committee more useful, and I hope I shall be able to submit a revised list shortly.

5. The amount allotted during the year was Rs. 3,500, and the balance in hand of the previous year was Rs. 2,053-3-2. The total amount at the disposal of the Branch Committee was therfore Rs. 5,553-3-2. Out of this money Rs. 4,823-1-5 were expended in the improvement of roads, &c., the details of which are given in the annexed Statement (B). It will be seen that Rs. 250 were advanced to Mr. A. Christian of Pathurghat, Rs. 450 to Mr. A. Stevens of Singessur, and Rs. 450 to Rajah Hurbullub Narian Singh of Sonbursa, for repairing the roads and planting trees in the neighbourhood where the above-mentioned gentlemen reside. The completion report and the final accounts have not yet been received; but the work, as far as I know, has made fair progress under each gentleman. The works done under the direct management of the Branch Committee were, besides the ordinary earthwork, dressing and turfing; the planting of trees about three miles; metalling the station road 62 chains, and repairing several temporary bridges here and there.

6. The Statements A and B will show clearly the amounts drawn from the sub-treasury on different dates, the balance in hand at the beginning of the year under report, the amount expended and refunded, and the money lapsed. The balance in hand was refunded on the 8th current.

7. Much can be done in the way of improving village communications if the people only take some interest in the matter. But here the inhabitants are generally speaking too far backward in appreciating the utility. They are slow to understand the advantage until the road is actually completed. It is then they clearly see that what was an impracticability

to them, especially in the rains, in the way of attending the *hâts and bazars*, has turned a matter of easy access at all times of the year; for a road, provided it is well raised and bridged, is really a boon, and the advantages are too palpable to be under-valued.

The Sub-Overseer, Shama Churn Mookerjee, has on the whole done his work satisfactorily.

No. 386, dated Supole, the 21st November 1879.

From—BABOO R. C. BOSE, Sub-Divisional Officer, Supole,
To—The Chairman, District Road Cess Committee, Bhagulpore.

IN reply to your memorandum No. 54, dated 11th instant, I beg to submit my report on road cess operations for the year 1878-79.

2. The statement heretofore submitted with this office memorandum No. 355, dated 10th ultimo, was erroneous. The corrected copy now enclosed will show the works undertaken and executed during the year under report, and the amount of expenditure incurred for each item of work. The largest outlay was for Supole head-quarters station road; there is too much of sand in the earth of this place. Kutcha roads suffer tangible damage when strong winterly winds blow away sand from the surface of the roads. To ensure a permanent and lasting road, a pucca road was undertaken and executed this year, which has greatly improved the station.

The Balha, Rajpore and Parsa were thoroughly new works, completed in the year under notice, and the rest of the sum devoted to other works was applied for repairs of existing roads, construction of bridges, and improvement of some small village roads.

The whole amount sanctioned for the year, Rs. 2,500, was expended, and this has promoted much improvement in communications, which have helped to develope the inland trade.

There were six Committees held in the year under report. The table showing the attendance of members is set forth per margin. To ensure better attendance, and to enable me to get a quorum on the day of Committee, three last-named members were elected. As a general rule some of the members have been invariably absent, and much inconvenience was experienced in the discharge of duties of the meeting. Of all the members P. Duff, Esq., was most punctual and took a lively interest in road cess operations. The newly selected members have been punctual and of much assistance to the Committee.

Mr. P. Duff	...	Thrice.
Baboo Khublal Sahee	...	Once.
Mr. J. F. K. Miselbach	...	Do.
Baboo Bokoo Singh	...	Twice.
,, Norendra Narain Singh		Once.
,, Bholanath Dey	...	Twice.
Moulvi Ashrufoodin	...	Do.
,, Wahid Ali	...	Once.

With regard to the particulars of the meeting, I would respectfully solicit attention to this office letters Nos. 328, dated 7th January 1879, No. 36, dated 23rd April 1879 (on the 18th June 1879) and No. 244, dated 6th August 1879 (on 23rd September 1879), submitting the proceedings of several meetings held.

Of all the cesses this is not disliked by the people at large; they see the money realized from them laid out in improvements within the precincts of their villages, and the benefits of which are derived by them. They are, I have every reason to say, perfectly reconciled to it.

The balance at the close of the year 1877-78 was Rs. 1,037-8, and not Rs. 1,862-8, as adverted to in the letter under reply. This sum was not drawn out of the treasury and laid out in works. It lapsed to Government.

No. 408T, date Camp Kakwara, the 21st November 1879.

From—BABOO O. C. MULLICK, Chairman, Branch Road Committee, Banka,
To—The Chairman, District Road Committee, Bhagulpore.

WITH reference to your memorandum No. 52, dated 11th November, I have the honor to submit Statements A and B, the former showing the total expenditure on each road under the Branch Committee during the road cess year 1878-79, and the latter showing the attendance of each member, and particulars of the meetings by the Branch Committee.

2. A list has lately been received showing definitely the actual roads which are to be maintained by the Branch Road Cess Committee in future; but in the absence of such a list before, the Branch Committee had nothing definite to go on, and directed their attention to a general improvement of all the means of communication within the sub-division according to the actual requirements in each.

3. The following works were undertaken during the year under report:—

(1.) *Banka station roads; length three miles.*—These roads were in bad condition, and during the rainy season used to be very miry; besides, several gaps or big holes existed, rendering them unsafe. The roads were thoroughly repaired, and six inches sand laid all through, now making them dry and comfortably passable, at a cost of Rs. 328-15-10. With the exception of a few rupees for petty repairs, no expense will be necessary for these roads during the current year.

Discrepancies between this and the annual accounts are charges for work establishment distributed in the Chairman's Office.

(2.) *Banka to Umerpore, under the name of Nonyhoree road; length three miles.*—Rupees 132-9-5 spent on repairs to the road and wooden bridge, including the laying of stones for protecting the foundation of posts of the bridge.

(3.) *Ameerpore to Kolehan'* ; *length three miles.*—This is a new road altogether, and half the length has been completed, and the work tested by the District Road Cess Overseer. Rs. 516 expended for constructions. The remaining portion of the road will be constructed during the current year.

(4.) *Banka to Jamdaha* ; *length ten miles.*—Thorough repairs to one and a half miles of the road completed at a cost of Rs. 175-12-10. Repairs to the remaining portion of the road will be taken in hand during the current year.

(5.) *Bowsi to Jilsee.*—Repairs to the masonry culverts were made at a cost of Rs. 16-11.

(6.) *Subulpore to Bhatdiha.*—Village road, in length one and a half miles. Petty repairs completed at a cost of Rs. 50.

(7.) *Bikrumpore to Nowdiha.*—Village road, in length one and a half miles. Petty repairs completed at a cost of Rs. 150.

(8.) *Kukwara to Katalseñat.*—Village road, in length one and a half miles. Petty repairs completed at a cost of Rs. 50.

(9.) *Dudhari to Kalianpore.*—Village road, in length one and a half miles. Petty repairs completed at a cost of Rs. 50.

4. The above works cost an aggregate sum of Rs. 1,470-1-1, to which add Rs. 180, being the salary of the sub-overseer paid during the year, thus making up a total expenditure of Rs. 1,650-1-10. Of this sum, Rs. 1,155-5-6 has been drawn out of the allotment of Rs. 3,000 for the year under report, and the balance, Rs. 494-11-7, was met from the unexpended amount, during the time of my predecessor, kept in a seperate bag. I am unable to make out from your letter under acknowledgment, paragraph 5, how this amount is put down at Rs. 588-7-1. I have carefully gone through the several statements submitted from time to time from this office, and can find no clue for reconciling the discrepancy. I beg to refer you to my predecessor's last annual Road Cess Report, and the statements submitted under his letter No. 328, dated 12th November 1878. One of these statements, headed "Amount expended out of the balance, Rs. 748-15-8, from the amount drawn by Mr. Eyre, late Sub-Divisional Officer and Chairman, Branch Road Committee, Banka, from the allotment for 1876-77," shows that, after the expenditure for 1877-78, there was a balance of Rs. 384-11-7, and its correctness was never questioned. Add to it Rs. 110, which was drawn by Baboo Hurry Churn Ghose out of the allotment for 1877-78, but not actually spent, and the unexpended balance at the beginning of the year under report amounts to Rs. 494-11-7 as now shown by me. With regard to the Rs. 110 which has been added to the old unexpended balance during this year, I beg to refer you to another of the statements headed "Statement showing the expenditure on each road under the Branch Committee, Banka, from October 1877 to September 1878," submitted by my predecessor with his letter above referred to. Item 6, Jamdaha road repairs Rs. 100, was not actually expended, as the remark against it, "still in hand," shows; and out of item 5, Rs. 10 was kept in hand and not paid to the contractor during 1877-78, as he did not finish the work within the year. I solicit the favor of your referring me to any documents submitted from this office which have led to the entry in your books of Rs. 588-7-1 as the cash balance at the end of the year 1877-78, to enable me to reconcile the difference in question.

5. The road cess system has worked satisfactorily during the year under report, and no special demonstration of public feeling towards the Act was perceived.

No. 6.—Part I.

W. CONNAN, *Vice-Chairman, Bhagulpore D. R. C. C.*

No. 348PW, dated Purneah, the 5th November 1879.

From—J. A. HOPKINS, ESQ., Chairman, District Road Cess Committee, Purneah,
To—The Commissioner of the Bhagulpore Division.

IN accordance with the direction conveyed in section 89 of the Road Cess Act, I have the honor to send herewith a copy of the account prepared by the Vice-Chairman under section 88 for the past cess year 1878-79, examined and audited by a Sub-Committee consisting of the Vice-Chairman himself with three other members, and passed by a full Committee, and a report on the work done and in progress in 1878-79 is also submitted herewith.

2. The following tables show the constitution of the Committee and the attendance of members at each meeting. The proportion of official members to non-official has been maintained.

TABLE I.

3. *Changes in the Committee.*—Several changes took place in the *personnel* of the Committee during the year under report. The office of the Vice-Chairman was occupied by Mr. B. L. Gupta, C.S., from 1st October to 8th December 1878, and again from 7th July to 30th September 1879; by Mr. F Cowley, C. S., from 9th December 1878 to 18th April 1879. The functions of the Vice-Chairman from 19th April to 6th July 1879 were exercised by the Chairman. The names of Baboo Rajonee Nath Chatterjee and of Mr. G. S. Hayes were struck off the list, as they did not attend any meeting; Baboo Gobind Chunder Banerjee and Mr. R. C. Walker were appointed in their places. Mirza Mohamed Hadi was appointed in place of Baboo Soorjoo Mull, who left the district, and Major W. L. N. Knyvett went home on furlough and his place was filled up by his successor Lieutenant-Colonel C. T. Hitchens. The names of Baboo Hem Chunder Rai, Rai Bahadoor, and Baboo Bunshee Lall Jha were struck off the list, as they did not attend any meeting. Their places have not been filled up.

4. *Committee Office.*—The Road Cess Office building was not completed in the past cess year 1878-79, as there was a great delay in the receipt of Government sanction to the site selected by the Committee and of the estimate. The building will be finished by the end of February 1880, and the complaint about the insufficiency of accommodation will be removed.

5. *Special Meetings.*—No special meetings were convened in the past cess year 1878-79.

6. *Notice of Meetings.*—Ten days notice was given of every meeting. The business to be brought forward in the Committee meeting was stated in it. In the interval between the issue of a notice and the Committee meeting, if any important business came up for discussion at the meeting, it was also laid before the members, as it would be a loss of time to defer it for a future meeting. To avoid an infringement of the provisions of section 57 in such cases, a special clause is inserted in the notice to the following effect: "Miscellaneous business, which may come up between the issue of this notice and the Committee meeting, will also be laid for consideration.

7. *Quorum.*—There was no quorum in the meeting held on the 19th of November 1878.

8. *Interest taken by members in the transaction of Committee's business.*—Of the native gentlemen, Baboo Gobind Chunder Bannerjee and Baboo Bishen Chand take great interest in the discussion of road cess matters. They volunteered themselves to be members of the Sub-Committee in examining and auditing the past year's accounts. Messrs McQueen, Picachy, and Knyvett also require mention for their zeal in road cess matters. The following gentlemen not only took interest in the discussion of road ces matters, but also supervised the road works:—

Mr. C. A. Shillingford.
„ H. Cave.
„ R. C. Walker.

The undermentioned gentlemen, who have no connection with the Road Cess Committee, undertook to supervise road works in their neighbourhood:—

Mr. W. Cumming.
„ C. J. Shillingford.
„ R. S. Glass.
„ G. W. Shillingford.
„ T P. Lynch.
„ F. A. Shillingford.
Baboo Hera Lall Nundy.

9. *Minute Book kept under Section* 61 *of the Act.*—The minute book was not inspected by any person other than a member.

10. *Committee Meetings and transaction of business.*—The following were the principal subjects which engaged the attention of the Committee in ten meetings held in the cess year 1878-79:—

(*a*)—The appointment of an Engineer in place of Mr. Fernie, and again in place of Mr. Longland, who succeeded Mr. Fernie.

(*b*)—The distribution of funds for village-roads in suddor sub-division.

(*c*)—The passing of the annual accounts of receipts and expenditure for the cess year 1877-78.

(*d*)—The spur and diversion bund on the Kusba Amour embankment.

(*e*)—Mr. Longland's salary for 1st November 1878.

(*f*)—The four roads which require bridging, first of all, as required in Government Circular No. 5C, dated 23rd January 1879.

(*g*)—The present District Engineer's appointment with qualifications of an Executive Engineer.

(*h*)—The case of Overseer Hari Nath Sen, dismissed the Committee's service.

(*i*)—The appointment of a Divisional Superintendent of district road works.

(*j*)—The preparation and passing of the estimate of income and expenditure for the cess year 1879-80 under section 70 of the Act.

(*k*)—The declaration of the rates of several cesses leviable under the Act.

(*l*)—Several other matters.

11. *Sub-Committee.*—The system of auditing the accounts by a Sub-Committee is, as remarked by Mr. Deputy Examiner Moore, very satisfactory in this district. The Sub-Committee's report on the examination of the annual accounts for the past cess year 1878-79 is given below :—

"We the members of the Sub-Committee appointed to examine and audit the annual accounts of the District Road Fund for the past cess year 1878-79, beg to report, for the Committee's information, that we have found everything correct.

"The cash balance shown in the annual return exactly tallies with that of the treasury pass book, after adding the amounts of cheques unpaid at the close of September 1879, and the imprest cash in the hands of disbursers to it."

12. *Attendance of Members.*—The attendance of members in the year under review, if compared with that of the past year, shows a marked improvement; the only member who did not attend any meeting was Mr. A. J. Forbes. He lives about sixty miles from head-quarters. He is also advanced in years. As he takes great interest in road works, I have recommended his re-appointment. All the meetings were presided by the Chairman, except one, which was held on the 20th of December 1878, as he was then out in camp. His place was taken by Mr. F. Cowley, then Vice-Chairman.

13. *The working of the Road Cess Act and the feelings of the people.*—Direct taxation finds no favour with any class of people in India. The road cess has a further disadvantage, owing to the discussion which arose as to whether it was an infringement of the permanent settlement. Most zemindars, whether they believe it is an infringement or not, affect to do so, and can quote the opinion of many eminent men to support their opinion, even though the confusion of ideas which pervaded the discussion as to the distinction between *rent* and tax or revenue is clearly pointed out to them. The best way to deal with obstructors, who will not understand reason, is to ignore them. The road cess being a direct tax spent almost within sight for the convenience of the people, is not absolutely unpopular, though the same cannot be said of the public works cess. The incidence of the cess being uneven creates some grumbling: thus a Kaibast or Koeree holds, we will say, 30 beeghas of land at Rs. 45 per annum; a Brahmin or Rajput holds the same area at Rs. 5; the cess is fixed on the rent, the Koeree or Kaibast pays for his rack-rented land exactly nine times what the Brahmin and Rajput pay. This can of course be got over by a cess on acreage; but even then the difficulty of valuing lands of various degrees of fertility and convenience of situation meets us. As a rule, old tenure-holders pay a quit-rent and a nominal tax. Lakherajdars pay nothing, for they defy the penal provisions of the Registration law, and zemindars do not care to sue for items under one rupee.

"A good deal can be got out of Committees where the members are properly chosen and judiciously handled." I regret the Chairman is placed on the two horns of a dilemma: on one side there is Government order prohibiting the undertaking of works in the absence of estimates sanctioned by proper authorities, who take generally over a year's time to accord sanction to them; and on the other, the feelings of the people. Popularity of the cess to some extent had been established in this district by the Committee by undertaking works in the absence of sanctioned estimates. In two or three instances petitions were presented to me by the people with donations for roads. The realization of 98 per cent of the cess on lands fully supports my views.

The road cess system will not work harmoniously if there be not a radical change of the directions conveyed in paragraph 34 of Government Resolution No. 1209, dated 8th March 1875, which require the preparation and submission of a complete and perfect project of a whole line of communication once for all. To support the above statement by an illustration, I give the following example :—

A road which is 91 miles in length is to be bridged. The first forty miles are above the highest flood-level, and the next fifty-one miles being below flood-level, to be maintained

as a fairweather road. At least fifty bridges are required in the first forty miles to pass off the drainage of the country at a cost of Rs. 500 each, or total cost Rs. 25,000. The amount will not be expended in less than twelve years, supposing four bridges are built each year. The first four bridges cannot be taken in hand unless a complete and perfect project for the first forty miles are submitted and sanctioned. The preparation of fifty plans for fifty bridges with estimates will take at least the District Engineer's time for two hundred days, at the rate of four days for each design. Now, if there be only ten such roads in a district which require bridging, the District Engineer's time will be confined to the preparation of designs and estimates only. He will hardly be able to go over his road once in a year. His attention will not be directed to the useful branch of his duties—I mean the supervision of works.

Apart from all this, rates rapidly change: a project sanctioned now cannot be completed ten years hence at the same rates of work. It is impossible to foresee how the rates will change. No one could foresee that timber would rise 300 per cent in the last eight years, as it has done.

The appointment of the Divisional Superintendent of district road works will not remove the above difficulties, unless there be a radical change of the system. The road cess system will not come to that standard of perfection if measures be not now taken to remedy the defects pointed out by me.

14. *Working of the District and Branch Committees.*—All the Committees in the past cess year have worked satisfactorily. The district held ten meetings, Kishengunge Branch Committee five, and Arrareah Branch Committee four. If the Branch Committees continue to work in the way they have worked last year, for five or six years, the question of vesting them with full powers under section 79 will then be considered. Copies of their reports are sent herewith.

15. *Appointment and removal of officers by the Committee.*—Overseer Hari Nath Sen whose appointment was approved by Government, was dismissed from the service in the past, cess year.

District	Name and rank.	Date of appointment	Brief account of the circumstances which led to the dismissal of the employé.
Purneah	Hari Nath Sen, Overseer	Government letter No 187E. dated 26th January 1878.	The overseer passed a bill for wood as received which had not been made over to him at site, and he was extremely careless in his measurement of earthwork, which differed vastly with check measurement when made by the District Engineer.
Do.	Mr. R. J. Gregory, ...	Nil	This man having been dismissed from Government service, applied for a post here. He was taken on as an overseer. His services were immediately dispensed with when his misconduct came to light.

16. *The members or servants concerned in contract.*—The members or servants of the Committee were not concerned in any contract.

17. *Statement of roads.*—No supplementary statement of roads were submitted under section 68 during the year under review. The revised classified list of district roads was sanctioned by Government in letter No. 314A, dated 14th March 1879, and the difficulties hitherto felt by all officers in references were removed.

18. *Estimate of income and expenditure under Section 70 of the Act.*—The estimate of income and expenditure for the cess year 1879-80 was prepared and sanctioned by the Commissioner of the Division. I beg to refer you to the details furnished therein. The Executive Engineer was not present when the estimate alluded to above was made out, though notice in due time was given him.

19. *Additions to, and alterations in, the Budget Estimates.*—I beg to send herewith a statement showing the additions to, and alterations in, the budget allotments for the cess year 1878-79 made by the Committee and sanctioned by the Commissioner of the Division.

20. *Leviable under the District Road Cess Act.*—Full rates were imposed and levied during the year under review. The provisions of section 75, in respect to the proclamation and publication of cesses, were duly observed.

21. *Annual accounts.*—The annual accounts were carefully scrutinised by a Sub-Committee consisting of the following members, held on the 13th of October 1879:—

Mr. B. L. Gupta, C.S., Vice Chairman.
Dr. D. Picachy.
Baboo Gobind Chunder Banerjee.
„ Bishen Chand.

22. *Work done in 1878-79 and to be done in 1879-80.*—I beg to send herewith a copy of the District Engineer's report on the subject. I have not yet seen the work done in 1878-79, and consequently I am unable to make any remarks myself at present. This information will be duly supplied to you in my diaries of the cold weather tour.

23. *Village roads.*—Particular attention has been shown to this department of work, and more satisfactory results attained. The year under review shows 70 roads as repaired,

including bridge repairs, one new road and several bridges constructed. Trees were planted on a village road. The work on them has been done by the well-to-do ryots, the indigo planters and villagers The work has been done satisfactorily. The following table shows the budget allotments and the expenditure on village roads in three sub-divisions :—

Sub-Division.	Budget allotment.	Expenditure.			Remarks
		Original works.	Repairs.	Total expenditure.	
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
Sudder	5,230 0 0	228 15 6	3,431 3 0	3,660 2 6	* The Branch Committees worked on the first allotments. To adjust their expenditure on original works, transfers were effected from original works, so as not to affect the items of expenditure shown in paragraph 7 of Government Resolution No. 311A, dated 13th March 1879, received with Commissioner's No. 824PW, dated 27th idem.
Kishengunge	3,015 0 0*	15 0 0	2,959 5 1	2,974 5 1	
Arrareah	4,392 0 0*	1,390 14 8	2,495 5 1	3,886 3 9	

The reason for falling short of expenditure on village roads by Rs. 1,569-13-6 in the head-quarters sub-division was that Messrs. R. C. Walker, T. P. Lynch, and Baboo Bishen Chand refunded advances to that extent made to them for repairs of village roads. These gentlemen were unable to complete the works undertaken by them owing to the excessive rainfall in September.

The Branch Committee of Kishengunge worked off nearly to the amount of the budget allotment, only a very small balance remained. The Branch Committee of Arrareah worked off the full amount of the first budget allotment, Rs. 3,000. The excess expenditure, Rs. 886-3-9, over and above the first allotment, Rs. 3,000, was the outstanding advance of the cess year 1877-78 adjusted in the accounts of the year under review. For this amount I beg to refer you to the memorandum showing in detail the amount of outstanding advances on the 30th September 1878, published at page 575, Part II of the *Calcutta Gazette* dated 7th May 1879. From the above statement it will appear how far the Committees of this district interested themselves in the repairs of village roads.

24. *Way of doing work.*—The work on the district roads was executed by regular contract on a security deposit of ten per cent. Surface repairs and small works executed by indigo planters are generally performed by daily labour. Villagers execute village roads by daily labour also. The general outturn of work is, however, tested by measurement.

25. *Inspection of district works by the Superintending Engineer or Executive Engineer.*—The road No. 5, Purneah City to Bassantpore, was inspected twice or thrice by the Executive Engineer of the Ganges and Darjeeling Road Division. The reason of his inspecting this road was that it leads to his work at Belwa bund. He also inspected the Kusba Amour embankment.

26. *Arboriculture.*—The annual returns show that Rs. 161-11 was expended in planting trees on village road and for district roads. The Committee have selected the following district roads for the purpose :—

Road No. 8. Patherdewah to Bhoplah Tazpore.
" " 4. Joolsea to Bhuddessi Ghât.
" " 5. Purneah City to Bassantpore.
" " 13. Manoosmara to Hajatpore.

27. *Expenditure on establishments.*—The income of the year amounted to Rs. 73,955-13-7. The Committee was therefore entitled to an expenditure of Rs. 18,489 on all establishments under them. The actual expenditure amounted to Rs. 17,703-10-8; hence it will appear the Committee have not exceeded the limit of expenditure prescribed by law.

28. *Inspection of accounts by Deputy Examiner of Public Works Accounts, Bengal.*—The office was inspected by Mr. Deputy Examiner Moore on the 16th of June 1879. The result of inspection was very satisfactory.

29. *Working of different establishments.*—Baboo Addy Churn Roy is the Committee's head clerk and accountant. He has been confirmed in his post with qualifications of an accountant of the Department of Public Works. He is an able, conscientious officer.

Baboo Peary Mohun Ghose is the head clerk on the collection of revenue, and is a reliable officer, though slow.

30. *Engineering Establishment.*—There had been two changes in the post of the District Engineer. Mr. Longland succeeded Mr. Fernie, and who was again succeeded by the present District Engineer, Mr. R. G. S. Roberts. Mr. Roberts has shown great activity and energy in his work, which I have not had an opportunity of seeing.

Overseers and Sub-Overseers.—Mr. J. G. Midford, Overseer, Baboo Omesh Chunder Bannerjee, Overseer, and Rajendra Narain Mozoomdar, Sub-Overseer, have not done their

work to my satisfaction, though I believe they know how to do it; want of activity and determination are the faults most conspicuous.

Baboo Mohendra Nath Chatterjee is the District Engineer's accountant, and has discharged his duties fairly, though I consider he is greatly overpaid for the work required of him.

Baboo Dwarka Nath Mitter is the District Engineer's draftsman, and I have found him a good and useful officer.

Statement showing the additions to, and alterations in, the Budget allotments of the cess year 1878-79.

PURNEAH, *the 5th November* 1879. J. A. HOPKINS, *Chairman, D. R. C. Committee.*

Report showing the work done during the year 1878-79, *and proposed to be done during* 1879-80.

Road No. 1, *Section I, Bunbhag to Keotgama, 22 miles.*—The first ten miles have been repaired and put in order, and two and a half miles of new fairweather road have been made beyond Sirsee; the rest was not touched, having been considered unimportant. Five existing timber bridges, with bamboo platform, aggregating 240, r. ft. were in a state of decay. They have been remodelled and strengthened by putting in additional piles and sâl planking. It is meditated to maintain the road and the bridges by petty repairs, as may be found necessary.

Road No. 1, *Section II, Manoosmara to Tajpore, 43 miles.*—Thirty-three miles of this section have been repaired and put in order by filling up the breaches and holes, smoothening the cart ruts and sloping down the edges of unbridged gaps and flood openings for easy traffic. Three existing timber bridges, aggregating 280 r. ft., have been remodelled and strengthened by putting additional piles and sâl planking. The Kuenla dhar in the 14th mile has been bridged with 10 spans of 10 feet each, and the 70 feet bridge in the 35th mile has been repaired with a new bamboo platform. It is intended to keep the road in a passable

condition by petty surface repairs. The recent breaches and gaps should be sloped down, and the approaches of the bridges filled up.

Road No. 2, *Nathpore to Atwaree*, 91 *miles.*—About 81 miles were nearly completed, and with the present year's allotment it is proposed to go forward with the work, connecting existing pieces of bank by light banks and side drains.

Road No. 3, *Section I, Patherdewah to Bassantpore*, 27 *miles.*—The road is high and bridged throughout. Surface repairs were only done on it, and an inspection bungalow constructed at Dholebaja, 12th mile; 100 trees have also been planted with fences.

Road No. 3, *Section II, Bassantpore to Dingra*, 31 *miles.*—Eleven miles of this section, from Dingra to Amour Kusba, have been repaired and put in a passable order; and on the 6th mile a diversion bund and spur constructed at the big breach, and two miles repaired near Dalmalpore. It is contemplated to maintain this bund by petty surface repairs as may be found necessary.

Road No. 3, *Section III, Dingraghat to Bhoplah Tajpore*, 18 *miles.*—The road has been repaired and put in order, and the scours and breaches under bridges and on road have been all filled up. Five timber bridges with bamboo platform, aggregating 360 feet, have been remodelled and strengthened by putting in additional piles and sill planking. Three timber and masonry bridges, aggregating 76 r. ft, have been constructed with timber platform (abutments and piers excepted), and a new timber bridge 170 r.ft. has been partially constructed. One inspection bungalow in the 11th mile has been built at Gopalpore. It is meditated to maintain the road by petty surface repairs, and the existing bridges to be repaired and remodelled as far as the funds would permit.

Road No. 4, *Section I, Kishengunge to Toolsea*, 23 *miles.*—About three miles of this road have been repaired. Surface repairs to be done this season.

Road No. 4, *Section II, Kishengunge to Bhadeswari*, 15 *miles.*—The first twelve miles of the road have been repaired. The bridge of 170 r.ft. over the Soordhanoo has been constructed, and approaches to five bridges have been made up. Inspection bungalow in the 15th mile has been repaired; 100 trees planted. Surface repairs to be done and a bridge re-constructed.

Road No. 5, *Purneah City to Bassantpore*, 24 *miles.*—The road has been repaired and put in a passable condition, and the culvert in 24th mile repaired. It is contemplated to maintain the road and the bridges by petty repairs, and the unbridged gaps to be bridged, and to construct an inspection bungalow in the 17th mile.

Road No. 6, *Chownagra to Barsoe*, 18 *miles.*—The road has been repaired and put in order, the breaches filled up, and the approaches made up. The road to be maintained by petty surface repairs.

Road No. 7, *Bassantpore to Ranigunge*, 15 *miles.*—The road has been raised almost all along above flood-level. Two old timber bridges repaired, and an inspection bungalow constructed in the 11th mile, and 270 r.ft. timber bridges and two masonry paved causeways have also been constructed. The first seven miles are bridged and complete, the next eight miles requiring future attention. Surface repairs are to be done this season.

Roads Nos. 8 *and* 9.—Nothing done to them; surface repairs to be done during 1879-80.

Road No. 10, *Purneah to Nathpore*, 50 *miles.*—This long road, which was unbridged throughout, had 200 r. ft. timber bridge constructed, and earthwork completed up to 21st mile. The work will be taken in hand from that point, and the recent breaches and gaps repaired.

Road No. 11, *Bunbhag to Dhamdaha*, 16 *miles.*—Twelve miles of the road have been repaired as far as Khaga Factory, and a new fairweather road (4 miles) has been opened as far as Dhamdaha. A culvert 2×5 feet has been constructed. A timber bridge 60 r.ft. has been partially done. The road is to be maintained by petty surface repairs as may be found necessary.

Road No. 12, *Hurdah to Muddon Chuck vid Bhowinpore*, 27 *miles.*—It has been repaired down to Modhura, and put in a passable order. One culvert 4 feet span has been partially built. The road to be kept up in a passable order by petty surface repairs.

Road No. 13, *Manoosmara to Hyatpore vid Monihari*, 54 *miles.*—Thirty-two miles have been repaired and put in good order. One inspection bungalow at Saifgunge in the 21st mile has been constructed. Thirty-one mango trees have been planted and fenced. The road and the existing bridges and culverts on it, and the inspection bungalow, are to be repaired, and a new line of road is to be opened out to the Munshai Factory. The partially constructed timber bridge over Mirchie dhar is to be finished.

Road No. 14, *Choonapore to Sowraguddie*, 27 *miles.*—It has been repaired down to Nissudra and put in order. It is meditated to keep up the road and the bridges on it by petty repairs

Road No. 15, *Moosapore to Masuria*, 20 *miles.*—The whole road has been repaired and put in order. A timber bridge, 100 feet in length, has been partially constructed. It is intended to maintain the road by petty repairs and to finish the partially constructed bridge.

Road No 16, *Korah to Sowraguddie*, 15 *miles.*—Mr. Cave repaired this road and put it in good order. The existing bridge at Poctheah dhar has been replaced by another 120 feet in length, and put up at a place about 200 feet north of the old site, and a culvert 5 feet span has been built. It is intended to maintain it by petty repairs.

Road No. 17, *Korah to Saifgunge*, 11 *miles.*—It has been repaired by Mr. Cave and put in good order. It is contemplated to construct a timber bridge over the Tinpaniah khel in the 5th mile.

Road No. 18, *Quoaree to Sohona*, 25 *miles.*—It has been repaired by Mr. Cave and put in a passable order. The existing timber bridge 2×15 with masonry floor, has been replaced by another timber bridge of 10 spans of 10 feet each, and put up at a place about 150 feet north of the old site, and a diversion road has been constructed, connecting the bridge with the road on both sides. The road and bridges on it to be maintained by petty repairs.

Road No. 19, *Bokruha to Ramgunge Thana*, 21 *miles.*—Nineteen miles have been repaired and put in passable order. It is intended to keep the road in repairs and to open out two miles of side drains up to Ramgunge.

Road No. 20, *Buraree to Pooteeah*, 8 *miles.*—Surface repairs done. Surface repairs to be done during 1879-80.

Road No. 21, *Saifgunge to Lawa*, 15 *miles.*—Four miles of this road have been repaired and improved with a low bank, and the existing bridges repaired, and the partially constructed timber bridges, aggregating 150 r.ft. have been constructed. It is intended to maintain the road in decent repairs.

Road No. 22, *Luchmipore to Kodarcutta*, 10 *miles.*—Surface repairs done. Surface repairs to be done during 1879-80.

Road No. 23, *Hurdah to Dewangunge*, 5 *miles.*—Nothing done. Surface repairs to be done during 1879-80.

Road No. 24, *Saifgunge to Mujhaila Ghât*, 13 *miles.*—The first 11 miles have been repaired and put in passable order, and the breaches in the 9th mile filled up. It is intended to keep it up by petty surface repairs.

Road No. 25, *Chakla to Quoaree*, 12 *miles.*—It has been repaired as far as Sahara Factory and put in order, and the scours and breaches all filled up. It is to be merely maintained by petty surface repairs.

Road No. 26, *Kishengunge to Titalyah*, 39 *miles.*—Miles 1, 2, 17, 18, 19 and 20 have been repaired. Petty surface repairs to be done during this season.

Road No. 27, *Ellooabaree to Kaliagunge*, 9 *miles.*—The whole of the road has been repaired and the grass cut The approaches to the first two bridges have been finished. The first bridge of 30 r.ft. has been increased by 20 feet, and the second bridge over the Booreechala of 80 r.ft. has been remodelled. Surface repairs to be done this season.

Roads Nos. 28 *and* 29, *length* 13 *and* 8 *miles respectively.*—Nothing done. Surface repairs to be done during 1879-80.

Road No. 30, *Ponathalee to Kootie*, 20 *miles.*—Six miles of this road have been repaired. Surface repairs to be done this season.

Road No. 32.—Ramgunge thana to Puranee, 14 miles.

Road No. 33, *Mungra Ghât to Okooah*, 4 *miles.*—These are mere cart tracks and nothing has been done to either of them. Surface repairs to be done during 1879-80 on them.

Road No. 34, *Jellehgurh to Arrareah*, 16 *miles.*—This is also an important traffic road connecting No. 36 with No. 5. It had surface repairs only. The allotment for bridge repairs was not availed of, as the bridges are too rotten to be benefited by any petty repairs.

Road No. 35.—Arrareah to Kursakutta, 19 miles.

Road No. 36, *Arrareah to Siktee*, 20 *miles.*—These are the most important roads for Nepal traffic, but were mere tortuous cart tracks. They have been gradually completed up to the 11th and 10th mile-posts respectively. They are still wholly unbridged. Earthwork is intended to be carried on as heretofore on good re-alignment, the completed portions being first attended to as regards surface repairs only.

Road No. 37, *Arrareah to Moltiary*, 20 *miles.*—It is unbridged throughout, but the earthwork is complete. Portions of the first five miles, lower than the flood-level, were raised last year, but in the late extraordinary flood they were again under water. Surface repairs to be done during 1879-80.

Road No. 38, *Rowtaria to Hosseingunge*, 4 *miles.*—The whole length has been repaired and put in good condition. It is intended to keep it in decent repairs both to the road and to the existing bridges. The recent breaches to be filled up.

Road Cess building.—The work has been commenced very lately and 4,388 c. ft. masonry done.

R. G. S. ROBERTS, *District Engineer.*

No. 48PW, dated Kishengunge, the 15th October 1879.

From—H. RATTRAY, ESQ., Chairman, Branch Road Cess Committee, Kishengunge,
To—The Chairman of the District Road Cess Committee, Purneah.

I BEG to submit the annual report and returns of work undertaken during the year 1878-79.

The allotment of Rs. 3,000 has all, except a very small fraction, been expended. I enclose a sketch map showing the road repairs undertaken. The important road from Rupadah to Gundheledenga on the frontier absorbed over Rs. 700, and an equal sum was expended on the Sontha and Khodagunge roads, the latter being a feeder road to the one from Gundheledenga. The allotment is so small, compared to the wants of the sub-division, that very little can be done. Small sums expended on long lengths of road necessitate frequent repairs, as such superficial and kutcha work is generally washed away during the following rainy season, and there are so many eager applicants that it is scarce possible to devote any decent sum to any one particular pressing work. These road repairs and bridges are undertaken by members of the Committee and by contractors. Work is paid for on completion, or

progress reports submitted by the overseer. The condition of the district roads in the sub-division are unfavorably spoken of by people in general, especially those which converge on Bahadoorgunge. I hope to inspect them shortly and report on them if necessary.

The Committee members, their own interests being concerned, take a very lively interest in allotment of the funds. Their attendance is tolerably regular. Five meetings have been held, and at each there were at least four members present, the number necessary to form a quorum.

The detailed accounts have already been submitted.

KISHENGUNGE, *the 5th October* 1879. H. RATTRAY, *Chairman, D. R. C. C.*

No. 50PW, dated Kishengunge, the 5th November 1879.

Memo. from—H. RATTRAY, ESQ., Chairman, Branch Road Cess Committee, Kishengunge,

To—The Chairman, District Road Cess Committee, Purneah.

WITH reference to No. 335PW of the 3rd instant, begs to state that the following works will be taken up this year :—

			Rs.
1.	Two small bridges on the road from Ghurmaghat to Sukhami ...		50
2.	Two bridges between Dewangunge and Gangi Hât ...		200
3.	A bridge over the Tasulia river on the road to Gangi connecting it with the Bahadoorgunge road		500
		Rs.	
4.	Seven bridges on the road between Tarabari Ranigunge to Illoakhoon on the Nagur river	300	
	Earthwork, 10 miles	200	
			500
5.	One bridge between Sontha and Puwas		400
6.	Repairs of two bridges on the Chamgunge road		50
7.	Earthwork and one bridge on the road from Ghurdhapa to Alumgunge Hât, 3 miles		100
8.	Two bridges between Gangi and Dhokarput		200
9.	Repairs of Kirdaha bridge		100
	Total ...		2,100

2. The balance still unallotted will be allotted, after the cold weather camping, after further enquiries have been made.

No. 352PW, dated Purneah, the 7th December 1879.

Memo. by B. L. GUPTA, ESQ., C.S., Vice-Chairman, District Road Cess Committee.

COPY forwarded to the Commissioner of the Bhagulpore Division, in continuation of this office No. 348 PW, dated 5th November 1879.

No. 2PW, dated Arrareah Bassantpore, the 1st November 1879.

From—BABOO WOOMA CHARAN BOSE, Deputy Magistrate and Chairman, Branch Road Cess Committee, Arrareah Sub-division,

To—The Chairman, District Road Cess Committee, Purneah.

I HAVE the honor herewith to submit the local improvement report of this sub-division for the cess year 1878-79.

2. The following gentlemen were members of the Branch Road Cess Committee during the year under review:—

Ex-officio Members.

1. Sub-Divisional Officer.
2. Executive Engineer.

Non-official Members.

1. Mr. A. J. Forbes, Zemindar, Sultanpore.
2. Mr. Bowers, Indigo planter, Bhargawan.
3. Baboo Tofa Lal Chowdhry, Zemindar, Baloca.
4. Sheik Mardan Ali, Jeth ryot, Chilhama.
5. Baboo Kashi Ram, Putnidar, Mirzapore.
6. Sheik Azizar Rahman, Putnidar, Chondordai.
7. Maij Ali, Putnidar, Gyari.
8. Mir Qasim Ali, Malikdar, Bassantpore.
9. Baboo Gunga Pershad Sahu, Putnidar, Siktee.
10. Zahuri, Dewan, Ranigunge.
11. Baboo Kulanand Thakur, Zemindar, Bahoee.

3. The following changes occurred in the Committee. Mir Wajid Ali, member, having died, and Moulvi Najeomuddeen Ahmed, Sub-Deputy Collector, having been transferred to the Sonthal Pergunnahs, Mr. Bowers and Zahuri Dewan were appointed in their stead, and Baboo Kulanand Thakur was added as a new member.

4. The annexed Statement A, in the form prescribed in Appendix II of Government Resolution No. 1286 of 13th March 1876, shows all the particulars required about the attendance of the members. Messrs. Forbes and Bowers, Baboo Tofa Lal Chowdhry and Baboo Kulanand Thakur did not attend any meeting. Both Messrs. Forbes and Bowers, however, take much interest in road works. Baboo Tofa Lal suffered much from ill health, and Baboo Kulanand Thakur was frequently absent at Calcutta on business, hence there inability to attend.

5. Statements B and C, regarding the constitution and attendance of the Committee, prescribed in your letter No. 265PW of the 24th January 1878, are also submitted.

6. Four meetings were held during the year. The sub-divisional officer presided at all of them. All the members were ten days previously informed of the business to be transacted at each meeting.

7. The following subjects engaged the attention of the Branch Committee:—

(*a*) To consider which of the village roads required repairs.
(*b*) To distribute village road allotments.
(*c*) To pass the accounts.

8. During the previous year 1877-78, Rs. 886-3-9 were shown as unadjusted, though the works were completed within that year; the amount has been adjusted in the District Committee's Office since.

9. There was an allotment of Rs. 3,000 sanctioned for village roads of this sub-division. The entire amount has been expended and adjusted within the year.

10. The work consisted principally in repairing roads and completing of works which were taken in hand during the previous year. Three new wooden bridges and a bamboo bridge were constructed during the year; the works appear to have been fairly well done.

11. During the year the work was done under the supervision of a few members of the Branch Committee and by village Jeth ryots and well-to-do residents. No contract was given. Mr. Forbes, Sheik Azizar Rahman, Baboo Gunga Pershad and Baboo Kasi Ram, members, took up the roads in their neighbourhood and take much interest.

12. The working of the Road Cess Act not being entrusted to this sub-division, I am unable to offer any remarks on its working. The house cess collections having been stopped has been felt as a boon by the people.

13. The people are always clamorous for roads, and during the past year too many applications were made to me, but owing to our limited funds, we have not been able to accommodate them all. There is a great necessity for good roads throughout the sub-division, but little can be done owing to the peculiar features of the country, which is generally low and for several months of the year under water.

14. The working of the Committee is entirely under its hands. As soon as the allotment is distributed, arrangements are made for carrying out the work, and these are done through members that are willing to take up the work, and through village Jeth ryots and headmen; but much difficulty is experienced in measuring the works and checking them, as there is no establishment for doing so. The services of the road cess overseer are scarcely available for the purpose, and the brunt of the work falls on the sub-divisional officer, who is already overworked in the various departments under him. It would be much better if a sub-overseer, on a salary of Rs. 20, be allowed to look after the village road works.

15. The Executive Engineer, Public Works Department, attended two meetings of the Committee.

16. The Committee's meetings are held regularly once every quarter.

17. During the current year it is proposed to undertake the following works:—

		Rs.	A.	P.
1.	Completion of unfinished portions of roads taken in hand last year, viz. Khosalighat to Arrareah ...	200	0	0
	Modanpore to Polasi outpost	500	0	0
2.	Payments of work done last year in excess of allotment ...	203	13	3
3.	Construction of village roads in Mottiary thana with three new wooden bridges	919	5	3
4.	Repairs to village roads in Arrareah and Ranigunge thanas	1,176	13	6
	Total ...	3,000	0	0

18. Further details of the work will be settled at the next meeting of the Committee.

Total ...	.....	27,104 7 11

EXPLANATORY NOTES TO ACCOMPANY THE ANNUAL RETURN.

RECEIPTS.—*Cess on lands.*—Actual collection Rs. 71,154-14-11; amount as per budget estimate Rs. 70,500. The excess realization of Rs. 654-14-11 is due to advance collections.

Cess on houses.—The collection of this cess has been suspended by Government. Rs. 55-4 was realized on account of arrears.

One per cent road cess.—The balance, Rs. 75-13-1, will be realized by the end of December 1879.

Fees and forfeitures.—Rs. 1,000, shown in column 2, is arrived at thus—

	Rs.
Fines under the Road Cess Act	200
Process-fees	800
Total ...	1,000

Of the estimated income (Rs. 800) from process fees, Rs. 341-0-6 has been realized. The actual receipts under this head exceeded the estimated amount by the forfeiture of security deposit money of a contractor on road No. 4.

Miscellaneous.—The actual receipts exceeded the estimated amount by the donation for the Ramjan bridge and Government contribution on account of road cess establishment employed on the collection of public works cesses.

EXPENDITURE.

Establishment on General Management.—Rs. 4,197-12-9 less than the amount estimated for has been expended. This is due to the commencement of the re-valuation operations at the end of the year.

Miscellaneous.—The excess expenditure of Rs. 1-2 is due to the payment of Mr. Mackenzie's pension for July and August 1878 in the cess year 1878-79.

Original works.—Rs. 15,151-13-4 less than the amount estimated for has been expended. This is due to the failure of a contractor on road No. 4, non-completion of the road cess office building owing to the lateness of the receipts of the sanctioned estimate, and to the non-construction of five inspection bungalows at a cost of Rs. 500 each.

Repairs.—Rs. 17,088-1 less than the estimated amount has been expended. This is due to the failure of a contractor on the Northern Emigration Road and to the savings on several roads after actual requirements.

Working establishment.—There has been a saving of Rs. 744-8-7 under this head. This is mainly due to the non-appointment of a District Engineer for six days, and to the savings under the head "Travelling allowances."

Tools and Plant.—There has been a saving of Rs. 26-9-9, which does not require any explanation.

RECEIPT SIDE.

SUSPENSE ACCOUNTS.

Advances.—Rs. 16,020-13-3 as arrived at is shown below :—

	Rs.	A.	P.
The advances of the cess year 1878-79 ...	15,136	7	6
Add advances of 1877-78 adjusted in the cess year 1878-79	887	3	9
Total ...	16,023	11	3
Deduct—Amount of advances made in 1878-79 still unadjusted	2	14	0
Total ...	16,020	13	3

J. PRATT, *Vice-Chairman.*

No. 68, dated Maldah, the 4th December 1879.

From—R. POREH, ESQ., Chairman, District Road Cess Committee, Maldah,

To—The Commissioner of the Bhagulpore Division.

WITH reference to your No. 646PW, dated 25th ultimo, I have the honor to submit the following report on the administration of the Road Cess Fund during the cess year 1878-79, together with a copy of the annual accounts as passed by the Committee in accordance with section 88 of the Road Cess Act.

2. *District Committee.*—The gentlemen named in the margin were the members of the District Road Committee during the year 1878-79. The Committee suffered a loss in the death of Mr. L. Guy of Bholahat Concern, who invariably attended their sittings, and used to take due interest in all matters connected with district road improvements. A vacancy was caused by the sudden and unexpected death of the late Baboo Domun Chunder Chowdry. Baboo Nobin Kristo Sircar, the senior Deputy Collector, was an *ex-officio* member of the Committee, but he has since been transferred to another district. Seven meetings were held during the year for transacting business, and all were presided over by the Chairman. The usual notice was given in every case, and a quorum was always formed. The proceedings of the Road Cess Committee were duly recorded in the minute book, and orders passed have duly been carried out. Appendix A gives details of attendance of members of the Committee.

Magistrate and Collector, Chairman.
Baboo Mohendro Nath Hazra, Vice-Chairman.
Members.
Senior Covenanted Assistant or Deputy Collector.
Executive Engineer.
Mr. L. Guy.
Baboo Dhurma Narain Das.
Mr. G. Rice.
Gossain Mohendro Gir.
Mr H. R. Reily.
Baboo Kristo Mohon Satiar.
" Poddo Lochun Shaw.
" Rajoni Kanto Das.
Johander Khan.
Baboo Lokenath Roy.
Mr. R. Davies.
" J. Hennessy.
Baboo Kristo Lal Chowdry.
Mr. K. Saupin.
Baboo Domun Chunder Chowdry.

3. *Branch Committee.*—There is no Branch Committee in this district.

4. *Budget estimate and rate.*—The year opened with a balance of Rs. 35,180. The demands for the year under review were as follow :—

	Rs.
From lands	25,300
Miscellaneous	450
Total ...	25,750
Add balance available ...	35,180
Grand Total ...	60,930
Total estimated expenditure for the year as per budget estimate	60,930

On the presentation of the above estimate to the Committee held on 29th July 1878, the rate of road cess was determined at the maximum rate.

5. *Collection.*—The actual revenue of the year was as follows :—

	Rs.	A.	P.
Cess on lands	27,445	6	8
Miscellaneous	2,025	1	9
Total ...	29,470	8	5

The collection from cess on lands was better by Rs. 2,145. This increase was due to realization of arrears of the previous year.

The revenue under head Miscellaneous was better, because the amounts received from Government on account of collection of public works cess, and the amounts exhibited in the accounts as surplus materials were not anticipated.

6. *Working of the Act.*—The Act worked very fairly during the year. A few zemindars left their cess unpaid, and the payments of cess were not punctual and not often made along with the land revenue. Joint estates, however, frequently fell into arrears. In such estates the balances were recovered by the service of processes. The employment of a tehsildar after the attachment of an estate has been found very successful. Moveable properties have frequently been distrained, but in few instances brought to sale. The issue of an *istahar* was always followed by payments.

7. *Accounts.*—The monthly accounts of the Road Fund Office, as well as those of the office of District Engineer, were examined by a standing Sub-Committee consisting of the Vice-Chairman and the members named below :—

Baboo Poddo Lochun Shaw.
„ Kristo Lal Chowdry.
„ Gossain Mohendro Gir.

8. The Deputy Examiner of Public Works Accounts inspected this and the District Engineer's Office on the 21st June 1879. I beg to quote his remarks as to the general system in which the accounts were kept in both the offices :—

"All the accounts and books are up to date correct, complete, and in good order."

9. *Working establishment.*—Agreeably to the budget appropriation for the year 1878-79, the working establishment consisted of—

1 District Engineer.
3 Sub-Overseers.
1 Accountant.
1 Clerk and Store-keeper.

For effective management and proper supervision of works the whole district was divided into three charges :—

North Maldah sub-division,
South ditto ditto,
Chanchal ditto,

with one sub-overseer in charge of each.

In conformity with previous arrangements, the work in the Chanchal sub-division, which consisted of repairs, was carried on by the Manager of the Court of Wards' Estate of Chanchal, with the necessary advance of funds for requirements made to the manager by the Chairman of the District Road Cess Committee, which advance has been duly accounted for and adjusted.

10. *Mileage and supervision.*—There are 42 roads of different classes in the district, their total length being 342 miles nearly. Of the above 42 roads, 13 roads, 102 miles in length, are looked after by the Manager of Chanchal Estate as noted above. The District Engineer has therefore to directly supervise work on 240 miles of road with two sub-overseers to assist him. He has also many village roads to look after, and to attend office duties and the preparation of projects for original works which require engineering skill, and which have to be submitted to Government for approval and sanction.

11. The establishment at present entertained by the Committee considerably exceeds the authorised limit of 25 per cent on the income, which is very small. The establishment has numerous duties to discharge, and no reduction seems to be practicable consistent with efficiency.

12. There has been no change in the establishment during the year under report requiring notice.

13. Conduct of subordinates has been satisfactory.

14. There is always a great scarcity of local labor. The Maldah people are very averse to work on roads, but willingly take work in mulberry plantations and mangoe orchards. The road work of the district is done by means of imported labor.

15. The instructions in the memorandum for the guidance of District Engineer, as regards account, dated the 26th August 1875, issued by the Examiner of Public Works Accounts, Bengal, to carry out work by the piece-work and contract system, have been acted upon; but the system did not work so successfully as was expected, owing to the absence of fair competition. Full trial was given and numerous tenders were called for; only four men undertook to do work by piece-work. No general contractors came forward. The reluctance on the part of outsiders (not to mention the inhabitants of the district, who have no inclination for road work) to come and work in this district as contractors seems to be in a great measure attributable to the general unhealthiness of the district, and particularly to the scarcity and dearness of local labor and difficulty in procuring the labor of outsiders.

16. The flood which occurred in August last caused great damage to roads and bridges. The estimates had to be prepared again; in consequence measurements of the highest flood-level were taken and careful observations made on all the roads as regards waterway and drainage requirements. There has not been so high a flood, it is said, since 1838. The damage done by it to the roads of this district is very serious. Much work that had been done for the improvement of the road from Manick Chuk Ghât to English Bazar of the Baroghoria road has been destroyed. Several breaches have been made and roads swept away in many parts, and many existing culverts and bridges, if not totally washed away, have been partly broken down or dangerously strained and cracked. The loss incurred is, however, comparatively slight, as the prospected works had only just been begun, and now the Committee and their officers have acquired experience as to the actual requirements of the roads, as to waterway, and as to what is likely to be durable and practicable in the way of

road work in view of such sweeping inundations. The immediate result has been that the Committee have decided on considerably curtailing their plans for metalling the English Bazar and Amirti road, and also the Baroghoria road. Raising roads and constructing tâl tree and other bridges is now found necessary.

17. The Committee, at their last sitting, have deferred the metalling of the English Bazar and Amirti road, and of the Baroghoria road (the entire projects of which have lately received the sanction of Government), until such time as their formation level, which is at present below flood, can be raised above flood-level, and more waterway provided for. The estimates for the above further requirements have already been taken up and will be shortly submitted.

18. *Planting fruit-bearing trees.*—As enjoined in the Financial Circular No. 10, dated Calcutta, the 28th October 1878, from the Secretary to the Government of Bengal in the Department of Public Works to all Commissioners, extensive progress in the plantation of fruit-bearing trees on the side of district roads would have been made, but for the occurrence of the flood in August, the water from which long remained out over the roads. The principal roads on which the Committee proposed to plant out trees were under water till very late in the year. Trees have been planted out on two miles of the Baroghoria road.

19. The progress made and expenditure incurred on the various works which were carried on during the cess year 1878-79 are as follow :—

ORIGINAL WORKS.

1. *Constructing drain on the Rajmehal and Dinagepore road at Old Maldah.*—Commenced and completed during the year. See progress statement, clause 1, item I.

2. *Constructing inspection bungalow on the English Bazar and Amirti road.*—The work could not be begun in time for completion during the year, as the estimates received sanction very late. It is expected that the work will be taken in hand and completed during the present cold season.

3. *Collecting and consolidating metal on the English Bazar to Amirti road.*—Soling bricks laid and brick khoah spread over half a mile of road, and materials sufficient for metalling two miles more were collected. In this state of affairs the flood already referred to came and caused great injury, and necessitated a diversion from the original scheme referred to in paragraph 17 of this letter. See progress statement, clause I, item II.

4. *Collecting and consolidating metal on the Baroghoria road.*—Soling bricks laid and brick khoah spread and consolidated on a mile of road, and brick khoah sufficient for metalling two miles more were collected at the roadside, when the flood came. The metalled portion was greatly damaged, and several breaches made in the same. This circumstance has led the Committee to stop the metalling as provided for in the sanctioned project, and to carry it only to the end of mile 3rd, after adopting precautionary measures in the way of bridges and waterway to guard against such injury in case of such a flood again occurring, viz. so far as these three miles of the Baroghoria road are concerned. See progress statement, clause I, item III.

5. *Constructing inspection bungalow on the Baroghoria road.*—See remark made in item 2.

6. *Constructing inspection bungalow on the Godagaree and Dinagepore road.*—See remark as above.

7. *Collecting metal on the English Bazar and Neemaserai road.*—Soling bricks and khoah metal sufficient for completing half a mile of this road were collected when the occurrence of the flood caused a change in the Committee's plans. The Committee have, however, decided upon metalling the portion of the road between Ruthbaree and the Monoskamonah road. This work it is expected will be finished during the current cess year. See progress statement, clause I, item IV.

8. *Constructing Serai at English Bazar.*—Fair progress has been made on this work; with the exception of tiles for roofing (which have been arranged for) all other materials have been collected. The houses have been built to the height of the arches. The plinth had to be raised on account of the site being below the flood-level as observed in the occurrence of the high flood in August last. It is expected that the buildings will be made over for use in February next. See progress statement, clause I.

REPAIRS.

1. *Dinagepore to Rajmehal.*—Heavy earthwork was executed between Amirti and the Bhutye nalah. Three temporary bridges of tâl wood were constructed and opened to traffic. Miles 57th, 56th and 55th were cleared of dense jungle at the sides. The blocked up culvert in mile 58th at Old Maldah was opened, and the water from the Mohanundah let in, thus serving the purpose of sanitation as well as of protection of the embanked road, which otherwise would probably have been swept away. The temporary bridges mentioned above have stood very well. The new embankment, saving partial washing away here and there, has also stood well. See progress statement, clause II, item I.

2. *English Bazar to Amirti road.*—The entire length of road underwent thorough repairs, and mile 2nd, which passes over the high land, was cleared of thick jungle and of the branches of trees overhanging at the roadsides, thus securing openness and ventilation and a fine clear roadway. See progress statement, clause II, item II.

3. *Baroghoria road.*—Partial repairs done. See progress statement, clause II, item III.

4. *Rohonpore to English Bazar road.*—The roadway well repaired up to mile 7th. See progress statement, clause II, item IV.

5 *Godagaree and Dinagepore road.*—No work was done on this road, which was in fair order. See progress statement, clause II, item V.

6. *Nowabgunge to Kassimpore road.*—No work was required here.

7. *Kansat to Gomastapore road.*—No work was required here.

8. *Kaliachuk to Sustanitola road.*—Slight repairs done. See progress statement, clause II, item VIII.

9. *Sadullapore to Simultola road.*—The road underwent thorough repairs, and the dense jungle which had encroached on it was cleared away. See progress statement, clause II, item IX.

10. *Araidanga to Debipore road.*—No work was required here.

11. *Noorpore to Mothurapore road.*—Surface repairs done. See progress statement, clause II, item XI.

12. *Manick Chuck to Mothurapore road.*—Surface repairs done and drains cut along the sides of road. See progress statement, clause II, item XII.

13, 15, 18, 20, 22. These roads were in fair order, no work was required to be done.

14, 16, 17, 19, 21. Petty earthwork and surface repairs done.

23. *Gazole to Alal road.*—A fairweather road only was in working order, hence very slight work done. See progress statement, clause II, item XXIII.

24. *Gazole to Bamungola.*—Very slight work done, as it is a fairweather road only. See progress statement, clause II, item XXIV.

25. *Boolbooichundi to Bamungola road.*—No work was done here, as none seemed to be wanted.

26. *Nowabgunge to Jheehin road.*—Tâl trees collected for temporary bridge. See progress statement, clause II, item XXVI.

27. *Gomastapore to Rohunpore road.*—In fair order; no work was required here. Payment made for the work done during 1877-78. See progress statement, clause II, item XXVII.

28. *Chanchal to Paharpore road.*—No work was required to be done.

29. *Makrumpore to Parbutipore road.*—No work done, as it was in tolerably fair order. Payments made for the work done during 1877-78. See progress statement, clause II, item XXIX.

30. *English Bazar to Neemaserai road.*—The road underwent surface repairs, and the jungle cleared away. See progress statement, clause II, item XXX.

31 to 33. Petty earthwork done and surface repairs done.

34. *Muckdoompore street to Bagbari.*—The road underwent surface repairs and received a partial coating of metal. See progress statement, clause II, item XXXIV.

35. *Monoskamonah road to Muckdoompore Street.*—A cross drain was constructed and partial repairs done. See progress statement, clause II, item XXXV.

36. *Right embankment of the river Mohanunda near the Sudder Ferry ghât to same embankment near Hulkuli.*—Surface repairs done. See progress statement, clause II, item XXXVI.

37. *Rajmehal road to Gour road.*—Surface repairs done. See progress statement, clause II, item XXXVII.

38. *Muckdoompore street to outermost north rampart of Gour.*—Metalling repaired partially. See progress statement, clause II, item XXXVIII.

39. *Rajmehal road to Monoskamonah road.*—Surface repairs done. See progress statement, clause II, item XXXIX.

40. *Muckdoompore street to Monoskamonah road.*—Surface repairs done. See progress statement, clause II, item XL.

41. *Neemaserai road to English Bazar street.*—Surface repairs done. See progress statement, clause II, item XLI.

42. *Muckdoompore street to Gour road.*—Surface repairs done. See progress statement, clause II, item XLII.

20. A statement is appended showing the progress made and the expenditure incurred on the various works.

21. The District Engineer, Baboo Mohendra Nath Banerjea, has gained much local experience. He appears to me to show much ability in his work, in which he seems to take a sound active interest. I have been favorably impressed with his work, and have to report well of him, as also of the clerk-accountant Baboo Doorga Dass Mookerjea, who attends indefatigably to his duties and appears to discharge them well.

APPENDIX A.

Abstract of particulars regarding Meeting of District Road Committee for the Cess year 1878-79.

Commissionership.	District.	Number of Members forming the Committee.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings. MALDAH, *the 30th November* 1879. R. PORCH, *Chairman.*

Dated Nya Doomka, the 12th November 1879.

From—The Officiating Deputy Commissioner, Sonthal Pergunnahs,
To—The Commissioner of Bhagulpore and Sonthal Pergunnahs.

I HAVE the honor to submit my annual report on the operation of the district road works of the Sonthal Pergunnahs for the year ending 30th September 1879.

2. The Road Cess Act is not in force in the district. There is no Committee. The Deputy Commissioner is Chairman and Committee, and controls all road work throughout the district.

3. During the year under report the establishment consisted of the district overseer and four sub-overseers. One of the sub-overseers resigned his appointment in February 1879, one in December 1878, and another in August last, and we have now one sub-overseer only. The work in the sub-divisions of Deoghur, Godda, and Rajmehal was carried out as usual under the direct supervision of the sub-divisional officers. The system is to allow them each about 4 per cent of the total fund for petty works. The management of all other works is centralized.

4. There are in all 25 roads in the district, of which ten have been placed in the first class, nine in the second, five in the third, and one in the fourth. The aggregate length of all these roads amounts to nearly 450 miles. The usual grant-in-aid received from Government is Rs. 25,000 per annum; the sum at disposal for original works is therefore rarely over Rs. 5,000. The whole grant could be profitably spent in maintenance only.

5. The work is described by sub-divisions, taking first the head-quarters sub-division, which is more than half of the district.

Road No. 1, *Bhagulpore and Soory road*—Is the most important road in the district and has the heaviest traffic. The total length of the road in the Sonthal Pergunnahs is 53 miles and 10 chains, and it is metalled throughout. Besides the river Mor, which the road crosses at the 94th mile, there are altogether thirteen unbridged streams in the entire

length; of these the Bhoorbhoree and the Dawna, which the road crosses at the 65th and 80th mile respectively, are the most difficult and quite unfordable during freshets. It would require a considerable outlay to have them bridged. There is again the Pusharoo nuddy on the 69th mile, close by Dumka, which in size and difficulty ranks second to those mentioned before. The brick masonry works—viz. the peers and abutments—were constructed across it some years ago, and only the timber works now remain to complete the bridge, but with our present fund all hopes of bridging these three mountain streams must be indefinitely postponed. During the year under report the only important original work done on the road was the completion of the bridge over the Baboopore nalah on the 68th mile. It is a bridge of three spans of 30 feet each, with brick masonry abutments and piers, and timber superstructure with trapezoidal trusses and wooden platforms. The cost of labour for completing the bridge was Rs. 670-1-9; the materials used in it, viz. the timber and the iron-works, having been all issued from the stock received in transfer from the Public Works Department. During the year repairs were done to the road in the shape of renewing metal, excavating catch-water drains and sets-off, repairs to earthwork, clearing side drains, repairs to culverts and timber bridges, improving the approaches to all the unbridged streams, painting mile-posts, and clearing jungle. Metal was renewed on about six miles of the road, and the whole of the 82nd mile was renewed with six inches of metal. Trees were planted along the sides of some five miles of the road, principally mangoes, jacks, and jamuns. Nursery gardens have been established in the compounds of the inspection bungalows on the road, and the chowkidars attached to them are in charge. The inspection bungalows on the road were repaired during the year. The one at Beniara on the 43rd mile was almost reconstructed. The total cost of repairs to the road was Rs. 4,141-2-7, and of those to the bungalows Rs. 228-7-3.

6. *Road No. 2, Dumka to Rampore Hât.*—Is intended to be the main communication of the district with the outer world. At present the traffic on it is unequal. This can only be accounted for by the wretched state of about eight miles of the road beyond the limits of this district. During the current year this part of the road, now in the Beerbhoom district, has been made over by the Beerbhoom Committee to us, and we will shortly have this zig-zag bit shortened by three miles, and the road widened to 24 feet. This reduction by three miles in the last bit will make the whole road from Dumka to Rampore Hât 36 miles long, and it will be the shortest route from Dumka to a railway station. The road has the further advantage that it crosses only eight streams along the whole line, and they are small and shallow, and do not obstruct traffic during the rains. During the year under report, the only important original work done to the road was the construction of a bridge over the Noonhochu nalah on the 17th mile, and it is made of rubble masonry abutments with timber superstructure. Out of the savings effected from the allotment to this bridge were constructed two culverts, one of eight feet span, and the other of 12 feet on the 18th and 21st miles respectively. These culverts were made of rubble stone masonry and wooden platforms. The cost of constructing the Noonhochu timber bridge and the two culverts was Rs. 1,663-11-6. Two other original works were executed during the year, viz. the construction of the inspection bungalows on the road, one at Shikaripara on the 16th mile, and the other at Haripore on the 27th. The total cost for these two bungalows has been Rs. 486-1-6. Doors have still to be supplied. Besides these original works, the road underwent thorough repairs during the year. Catch-water drains were executed all along the hilly parts of the road, sets-off were made to prevent scouring along the side drains, all the causeways were repaired, approaches to all the unbridged streams improved, side drains were cleared along the entire length, and earthwork was executed where it was necessary to raise the road. A further improvement was the abandoning of a bit from the 7th to the 12th mile, which was a bad selection, as it runs through low lands and crosses three nalahs, and the making of a diversion which is carried along the water-shed of the country, and avoids crossing any watercourse. It, however, adds by about one mile to the length of the road; but the short cut can be maintained at a trifling expense as a fairweather road. Trees were planted along the sides of some six miles of the road, chiefly mangoes and jamuns. The cost of repairs to the road was Rs. 2,994-15-2. The formal arrangements with the Beerbhoom Committee are not complete. The Chairman has promised us a subsidy for the portion of the road which we construct and maintain. Its amount has not yet been fixed on.

7. *Road No. 3, Dumka to Deoghur.*—This is another important road, and has considerable traffic. It branches off from the 67th mile of the Bhagulpore and Soory road. The road is 37 miles long, and is made towards the Dumka side as far as the 15th mile, close by Jarmondeo, and three miles towards the Deoghur end. The rest is an unfinished famine road. During the year under report no work was executed on the road, except the annual repairs. These consisted of surface repair, clearing side drains, metalling the approaches to the Mor which the road crosses at the 2nd mile, and to those of another nalah on the 14th mile, excavating catch-water drains, and clearing jungle. Rs. 267-14-6 was the outlay incurred for the repairs to the road.

8. *Road No. 4, Dumka to Muraroi.*—Is made up of the old Katikoond road, the Sonthal roads from Katicoond *vid* Gopukander to Kuskhira and Amraparah, and the old road from Muraroi to Amraparah. It runs through the Government estate, is exceedingly devious, and is 50 miles long. The most important work done during the year under notice was the completion of the timber bridge over the Amra nalah on the 3rd mile, and the construction of a masonry bridge with arches over the Koreha nalah, which the road

crosses at the 4th mile. Both the bridges are now open for traffic. The cost of the Amra timber bridge was Rs. 397-9-9 (part of the timber and iron-work used in it having been issued from the stock), and that of the Koreha bridge was Rs. 1,527-3-10. Besides these original works, the road was repaired by excavating catch-water drains and sets-off, executing earthwork to raise the road, and clearing jungle and side drains. Trees have been planted along the sides of some two and a half miles of the road, mostly mangoes. The total cost of repairs to the road was Rs. 652-10-6. A large portion of the land of this road has been given by the Maharajah of Moheshpore. The deed of gift has been executed this year. The Maharajah also made an offer to His Honor the Lieutenant-Governor to metal the Muraroi end of the road, I have been in communication with him on the subject, but his own difficulties have kept the project in abeyance for this year.

9. *Road No.* 5, *Dumka Station roads.*—These consist of six bye-roads close by Dumka and the bazar roads, and the total length of them has been put down at 9 miles. During the year under report a good deal has been done to improve the station roads. Every one of them has undergone thorough repairs. During the year fruit-trees have been planted along the sides of some twenty chains of the roads. The total cost of repairs to these roads was Rs. 2,638-10-5. This heavy expenditure requires explanation. The roads hitherto called nine miles in length are really twelve miles, because the streets and lanes of Dumka town have been left out of account. Over three-fourths of the expenditure has been on these; and the chief cost was in metalling. It is high time that the town should bear this cost. There is still much to be done, and next year I will ask for a subscription, as only Rs. 800 have been provided. If the subscription is not raised, I will ask for the extension of Act V (B.C.) of 1876.

10. *Road No.* 6, *Hirampore to Pakour, and road No.* 10, *Jamtara Station road.*—During the year nothing was expended on these roads. The latter did not require it. For the former we can only afford fairweather repairs, and they were not wanted. Some day we must make this a proper road. As it is now, it is impassable, except by elephant, in the rains.

11. *Road No.* 19, *Kamirabad road, and road No.* 21, *Kindwa road.*—The former branches off from the 76th mile of the Bhagulpore and Soory road, and is two miles long, and is maintained in excellent order by the zemindar, Baboo Ramprosad Dass, the Monghyr banker, to whom I propose to leave its care. The latter is an off-shoot from the Dumka to Muraroi road at the 6th mile, and is six miles in length. There was no provision made in the budget estimate for 1878-79 for its repairs. Nothing was expended during the year under notice. It is in fairweather order.

12. *Road No.* 20, *Dumka to Jamtara.*—The whole length of the road is 44 miles, and it is only made up to the 7th mile from Dumka. The rest is an unfinished famine road. During the year under report Rs. 142-10-6 was expended for the repairs to the road. The east approach to the Mor, which the road crosses at the 2nd mile, and was too narrow and steep to admit of a cart passing with safety, has been greatly improved during the year. At present the road is a mere feeder to road No. 1.

13. *Road No.* 22, *Benagoriah village road.*—This is the only village road so called in the head-quarters sub-division. The existing road, which joins Benagoriah to Rampore Hât road at Kalipathur on the 29th mile, was scarcely used by the people in transit from Benagoriah to Dumka. The route invariably followed was a cart track leading from Benagoriah to Haripore on the very beginning of the 27th mile of the Dumka to Rampore Hât road, this being the shortest road to Dumka. During the year under report, this cart track, which is about a mile and a quarter long, has been made into a regular road, and trees have been planted along the sides of its entire length. Rs. 250 was the expenditure incurred for the improvement to this cart track. The entire work was carried out by the Revd. L. O. Skrefsrud of the Benagoriah Sonthal Mission.

14. The following are the roads in the Deoghur sub-division in charge of the sub-divisional officer, viz. road No. 7, Deoghur to railway station; road No. 12, Deoghur to Saruth; road No. 13, Deoghur village roads, and road No. 14, Mudhupore to Pathrol. Of these, the most important is the road from Deoghur to Saruth. It is the old pilgrim road from Deoghur to Soory, viz the police stations of Sarawan and Saruth. At the beginning of the year under report, the sub-divisional officer had, by an arrangement which has now ceased, an unexpended balance of the previous year. From this he spent Rs. 1,019-5 for repairs to earth-work and culverts on the Deoghur to Saruth road, and it is now completed two miles beyond Sarawan. The Deoghur to railway station is another important road in the sub-division. It is much frequented by passengers, and has a heavy cart traffic; and if a bridge over the river Dhurwa is constructed, which of course would be a work of considerable expense, communication between Deoghur and Baijnath will be complete. The Deoghur village roads, the road from Deoghur to railway station, and the Mudhupore to Pathrol road were repaired during the year. The repairs consisted of earthwork, turfing, and renewing metal, and the amount spent on them was Rs. 416-2. Besides, Mr. Wilmot completed a bridge on the Saruth road in a characteristic fashion. I had curtailed the amount he wished to spend as being above my power of sanction. Mr. Wilmot at once raised the difference by subscription, and has made a good bridge for the money.

15. The following roads in the Rajmehal sub-division are in charge of the sub-divisional officer, viz. road No. 8, Rajmehal to Haduf; road No. 9, Rajmehal station roads; road No. 11, Bahawa to Burhait; road No. 17, Rajmehal to Protabpore; road No. 18, Sahibgunge to Burhait; road No. 24, Bahawa to Radhanuggur; and road No. 25, Bahawa to Udoy nalah. Of these, the road from Rajmehal to Protabpore is important. It is

made up of the Rajmehal to Tinpahar road, Tinpahar to Borio road, and Borio to Protabpore road. The whole length of it is 37 miles. Road No. 25, Bahawa to Udoy nalah is merely a fair-weather road, the part of the country through which it runs being liable to Gangetic inundation. During the year under report the following roads in the sub-division have undergone repairs, viz. the Rajmehal to Protabpore road, the Rajmehal station roads, and the Rajmehal to Haduf road. The repairs consisted of renewing metal, earthwork, and repairs to culverts. The total sum spent in the sub-division was Rs. 1,580-14-6

16. There are only two roads in the Godda sub-division, viz. the road No. 15, Godda to Panjwara, which includes Godda station roads; and the road No. 16, Godda to Peerpointee. Both these roads have undergone repairs during the yeaar under report. The principal items of the repairs were to wooden bridges, earthwork, turfing, clearing side drains, and surface repair. Trees have been planted along the sides of the station roads, mangoes, jacks, and muhwas. The total cost of repair to these roads during the year was Rs. 1,129-12--3.

17. The establishment cost during the year less than one-fourth of the income, as will be seen from the annual accounts submitted.

18. The office establishment, which I thought inefficient and excessive, was entirely changed on the expiration of the year. The resignations of the accountant, a deserving officer in his way, and of Sub-Overseer, Moonshi Abdul Zubber, were invited and accepted. The District Overseer, Baboo Apurva Krishna Mitter, and Sub-Overseer, Baboo Jogendra Nath Mookerjee, who now form an entire work establishment, have given me on the whole satisfaction. We want another sub-overseer.

19. The Executive Engineer, Bhagulpore Division, during the beginning of the year under report, inspected the Godda to Peerpointee Road, the Bhagulpore and Soory road, the Dumka station roads, part of the Dumka to Muraroi road, and the road from Dumka to Rampore Hât.

20. The financial control is entirely in my own hands. The imprest system, the introduction of which was promised in the last annual report, has been set agoing since May last, and works very well.

21. Unadjusted accounts have been cleared, except two items aggregating Rs. 100-3-9, one of which belongs to the relief operation of 1874. We have still to get the office records into order. Meanwhile we have now no difficulties either with the Accountant-General or Examiner Public Works Department.

No. 6.—PART I.

W. M. SMITH, *for Dy. Commissioner, S. P.*

No. 894PW, dated Bhagulpore, the 12th February 1880.

From—G. N. BARLOW, ESQ., C.S.I., Commissioner of the Bhagulpore Division,
To—The Secretary to the Government of Bengal, P. W. Department.

I HAVE the honor to submit herewith the annual account of income and expenditure of the Road Fund in the districts of Bhagulpore, Purneah, Maldah, and Sonthal Pergunnahs for the cess year 1878-79, together with copies of the administration reports received from all the districts in this division.

Monghyr No. 140R, dated 19th January 1880, with enclosures.
Bhagulpore No. 159, dated 8th January 1880, with enclosures.
Purneah No. 343PW, dated 5th November 1879.
Maldah No. 68, dated 4th December 1879, with enclosures.
Sonthal Pergunnahs report dated 12th November 1879.

2. The accounts from the Monghyr district have not yet been received, notwithstanding the issue of repeated reminders calling for the same. In Part I of the receipt side of the Maldah account the Chairman has shown the cash balance of the previous year after deduction of the balance at credit of deposits. This, I think, is wrong, as in the new classification of headings adopted in the revised form of the quarterly returns, the heading showing the deduction of the balance at credit

of deposits has not been provided for. Again, in the Bhagulpore accounts two memoranda have been added—one showing the details of outstanding advances, and the other showing the balance at credit of deposits These are also not provided for in the new forms for quarterly returns, and are, I think, superfluous.

3. The order contained in the Government circular No. 82A of the 8th December last having come to hand after the expiration of the year, and the receipt of some of the accounts from the district officers has not been carried out this year.

4. *Working of the Road Cess Act.*—The following memorandum compares the percentage of the road fund collections of the several districts of this division for the past cess year with that of the previous year 1877-78 :—

	1877-78.	1878-79.
Monghyr	90	92
Bhagulpore	96	97
Purneah	96	98
Maldah	87	94

The percentage of collections in Monghyr and Maldah was below the standard (viz. 95 per cent of the demand) fixed by the Government of India ; but, as compared with the figures of the previous year, it shows an improvement.

The cause of the collection falling short of 95 per cent in Monghyr is explained to be owing to disputes among the shareholders in joint estates, as also to there being numerous small estates. Mr. Samuells, late Chairman of the Monghyr District Committee, states as follows :—

"During the whole of last year I held charge of the Collection Department in my capacity as Deputy Collector, and my particular attention was devoted for the speedy realization of the arrears. The matter was not lost sight of at any time, and every effort made after each kist day to bring in the arrears. The conclusion I arrived at was that the so-called coercive" measures were so cumbrous as to be practically of little use. The large number of joint-estates, the proprietors of which never dreamed of paying till the peon was at the door, rendered the task of collection very great, and the delay of two months created by the law for no purpose apparently except to render the process of recovering a lawful due as pleasant to the defaulter as possible, made it almost impossible to keep down the arrear at all : and when the arrears of subsequent quarters accumulated on these, the matter called for more powers of organization and method than a small department was capable of. The new law should put an end to this, and the payment along with land revenue of both cesses should be strictly enforced."

Bhagulpore.—The Chairman of this district states that the people and zemindars have accepted the road cess as an inevitable tax, and have now quietly acquiesced in it.

The Chairman of the District Road Committee of Purneah reports as follows : —

"Direct taxation finds no favour with any class of people in India. The road cess has a further disadvantage, owing to the discussions which arose as to whether it was an infringement of the permanent settlement. Most zemindars, whether they believe it is an infringement or not, affect to do so, and can quote the opinion of many eminent men to support their opinion, even though the confusion of ideas which pervaded the discussion as to the distinction between rent and tax or revenue is clearly pointed out to them. The best way to deal with obstructors, who will not understand reason, is to ignore them. The road cess being direct tax, spent almost within sight for the convenience of the people, is not absolutely unpopular, though the same cannot be said of the public works cess. The incidence of the cess being uneven creates some grumbling. Thus a Kaibast or Koeree holds, we will say, 30 beeghas of land at Rs. 45 per annum ; a Brahmin or Rajput holds the same area at Rs. 5. The cess is fixed on the rent. The Koeree or Koibast pays for his rack-rented land exactly nine times what the Brahmin and Rajput pays. This can of course be got over by a cess acreage, but even then the difficulty of valuing lands of various degrees of fertility and convenience of situation meets us. As a rule, old tenure-holders pay a quit-rent and a nominal tax ; lakhirajdars pay nothing, for they defy the penal provisions of the registration law, and zemindars do not care to sue for items under one rupee."

The Chairman of the Maldah district reports that the "Act worked very fairly during the year. A few zemindars left their cess unpaid, and the payments of cess were not punctual and not often made along with the land revenue. Joint estates, however, frequently fell into arrears. In such estates the balances were recovered by the service of processes." In my opinion the majority of the people now understand that the cess is levied for their good, but the villagers living at a distance from the towns cannot experience the same satisfaction until more attention is paid by the Committees to the construction of roads joining their villages to important places, such as hâts, bazars, thanas and cutcheries, and the existing roads are properly maintained. The matter is constantly pressed upon Committees, but of course the business of getting the main roads into order must be dealt with in a general way first, and at present this absorbs nearly all the funds.

5. *Working of the District and Branch Committees.*—The following memorandum shows the number of meetings held by the Committees and the average attendance of members at meetings:—

			Number of meetings held	Average attendance of members at meetings.
District Committees ...	Monghyr	... ...	5	3
	Bhagulpore	... ...	8	9
	Purneah	... ...	10	8
	Maldah	... ...	7	6
Branch Committees ...	Monghyr	Begooserai ...	5	4
		Jamui ...	6	5
	Bhagulpore	Supole ...	6	3
		Muddehpoorah ...	4	5
		Banka ...	3	4
	Purneah ...	Kishengunge ...	5	4
		Arrareah ...	4	5

Some improvement on the working of the District and Branch Committees generally is observable during the year under review. In the beginning of the year I impressed upon each Chairman the necessity of the meetings of the Sudder and Branch Committees being held at least once in each quarter, and this direction has, it appears, been generally observed.

The average attendance of the members at meetings in Monghyr is bad. Some of the non-official members failed to attend a single meeting during the year, and the reason for their non-attendance has not been given.

The list of the members of this district has been revised this year, and it is hoped better results will be shown in the next report.

The Chairman reports that among the members Mr. Connan, the Executive Engineer of Bhagulpore, is very regular in attendance, and of the non-official members, Mr. Thomas and Baboo Gunga Pershad. Mr. Connan invariably shows the greatest interest in the works of the Committee, and his professional experience has been of the greatest service. Mr. Thomas and Baboo Gunga Pershad seldom fail to attend and render every assistance in their power.

In Bhagulpore the attendance of members was fair on all occasions. The Chairman reports that the members of the District Committee evinced a very lively interest in discussing all matters under their consideration.

Special mention is made of the non-official members, Baboo Soorjunarain Singh and Mr. Grant, as deserving of special commendation for regularity of attendance and zeal in furthering the interest of the fund.

In Purneah the average attendance of members was also fair. Of the native members Baboo Gobind Chunder Banerjee and Baboo Bishen Chand are said to have taken great interest in the discussion of road cess matters. Mention is also made of the gentlemen noted in the margin, who have no connection with the Road Cess Committee, but have undertaken the supervision of road works in their neighbourhood. In this district the assistance of planters is generally availed of in making roads.

Mr. W. Cumming.
" C. J. Shillingford.
" H. C Gross.
" G. W. Shillingford.
" T. P. Lynch.
" F. A. Shillingford.
Baboo Heera Lall Kundi.

In Maldah the members of the Committee are on the whole said to have attended to their duties satisfactorily, but members residing in the interior have been very irregular in attendance, and there are some who have never attended any meeting. The gentlemen named below have been reported to have rendered good services to the Committee by supervising the repair works of many district roads:—Mr. H. R. Reily of Chanchal, Mr. J. Hennessy of Mathoorapore, and Mr. E. Saupin of Turetepore.

In the Sonthal Pergunnahs there is no Committee; the work is done by the Deputy Commissioner, assisted by the sub-divisional officers.

The attendance of the members of the Branch Committees is not good. In (Monghyr) Jamui three members did not attend any meeting at all I have requested the Chairman to appoint other members in their places. Two of the members—Rajah Ramnarain Singh and Moulvie Tasaduq Hossein Khan—are said to have taken interest in the supervision of some works under the Branch Committee.

In the Begooserai sub-division the indigo-planters are said to have taken a good deal of interest in making and repairing roads entrusted to them.

At Banka the number of meetings held during the year by the Branch Committee fell short of the minimum number prescribed by law. The sub-divisional officer of Banka explains that, owing to his being out on tour, and to the absence of the Vice Chairman and two other members from the sub-division, no meeting was held during the quarter ending March 1879

In Muddehpoorah out of thirteen members, it is reported that one is dead, one is away from the station, and one (Kishen Pershad Singh) has never attended the meetings during the last two years.

The only member who showed any sufficient degree of interest was Mr. Stevens of Singeesur Factory. Some of the members are said to be rather indifferent to the whole business.

The sub-divisional officer has promised to submit a revised list of members shortly. For the better attendance of the members at Supole, the list of the Committee has been lately revised. Of all the members Mr. P. Duff only has been reported to take a lively interest in the road cess operations.

Purneah.—The sub-divisional officer of Arrareah reports that four members never attend any meeting at all. Two of these, Messrs. Forbes and Bowers, however, took much interest in road matters.

The sub-divisional officer of Kishengunge reports—

"The Committee members, their own interests being concerned, take a very lively interest in the allotment of the funds." An abstract of the particulars regarding the attendance at the meetings of the District and the Branch Committees is annexed.

The following table shows the total receipts in each district during the year under report as compared with the previous year:—

RECEIPTS.

Name of District	Total receipts, including balance of previous year.		Increase.	Decrease.
	1877-78.	1878-79.		
	Rupees.	Rupees.	Rupees.	Rupees.
Monghyr	1,82,735	Accounts not received.		
Bhagulpore	1,54,804	1,95,112	40,308	.....
Purneah	1,58,162	1,55,006	.....	3,156
Maldah	62,292	75,887	13,595	... ..
Sonthal Pergunnahs	1,48,784	34,705	.....	1,14,079

In Bhagulpore the increase of Rs. 40,308 is attributed to the fact that in the year under report the balance brought forward was Rs. 64,315 against Rs. 16,582 in the previous year; otherwise their would have been a decrease of Rs. 2,246 owing to the stoppage of house cess collections, and the withdrawal by Government of the grants hitherto made from the ferry reserve in the district.

In Purneah the decrease is due to the withdrawal by Government of the receipts from ferries, and the stoppage of the house cess collections.

In Maldah the increase is chiefly due to the large sum of Rs. 11,286 shown under the head of suspense accounts, and partly to a larger collection having been made under the head of cess on lands during the year under report, and partly to the larger opening balance of the year as compared with that of the previous year.

In the Sonthal Pergunnahs the decrease is due to the grant in aid of the district for 1878-79 having been credited in the accounts of 1877-78, and to a large opening balance of the previous year.

7. The following table shows the total expenditure incurred in each district during the year, and the financial condition of the fund at the close of the year:—

District.	Total income, including the balance of the last year.	Total expenditure.	Balance in hand at the close of the last year
	Rupees.	Rupees.	Rupees.
Monghyr		Accounts not received.	
Bhagulpore	1,95,112	1,00,386	94,726
Purneah	1,55,006	1,27,902	27,104
Maldan	75,887	48,228	27,659
Sonthal Pergunnahs	34,705	31,644	3,062

8. I shall now proceed to notice the several districts separately, and such of the works as deserve mention.

9. *Monghyr.*—Not having been furnished with the annual accounts of the district, I am not in a position to report on the financial results of the year under report. As reported by the district officer, the total income of the year under review, including the unexpended balance of the previous year, was Rs. 1,89,183. The total disbursement amounted to Rs. 1,14,441 in round numbers, of which Rs. 49,084 were expended on repairs, and Rs. 41,289 on original works.

It is satisfactory to observe that no work was undertaken by the Committee in this district without previous sanction having been obtained to the estimate.

Out of the seven roads entered in the schedule of original works of the budget estimate for 1878-79, the Chairman reports the completion of the three sanctioned projects mentioned below:—

Secundra to Nowadah road No. 19.
Bridging Luckheserai to Secundra road No. 18.
Construction of the diversion road between Shiekpurah and Luckheserai.

Of the remaining four, the estimates of the two roads noted in the margin * were returned by the Superintending Engineer on the 13th August last for revision. The estimates† for the other two roads forwarded to the Superintending Engineer on the 1st March and 5th September 1878 have not yet been returned by him.

* Construction of road from Sheikpurah to Burbigha. Estimate Rs. 46,074.
Sheikpurah to Sheikopoorah. Estimate or Rs. 62,042.

† Viz. raising the road from Kharakpore to Gangta and bridging the road from Sheikpurah to Secundra.

Tirhoot road.—An estimate for the construction of this road was forwarded to the Superintending Engineer on the 19th February 1878. It was for a long time pending with him, when the breach of the existing embankment by the late floods of 1879 caused great devastation in the Begooserai sub-division, and led Government to depute an officer of the Public Works Department to examine and report on the condition of the embankments there. The result of his enquiry is not yet known. The matter is now before the Government. The former bund having been destroyed, and the breaches lying open, the country is exposed to serious damages next rains. The district officer of Monghyr has proposed the construction of a bund under the Embankment Act VI of 1878 (B. C.) along the river frontage of the Begooserai sub-division.

10. *Bhagulpore.*—The total receipts of this district, including Rs. 64,314 the unexpended balance of the previous year, were Rs. 1,95,112 against Rs. 1,54,804 in the year preceding, showing an increase of Rs. 40,308, which has been explained above. The total disbursements, exclusive of the amount of Rs. 8,311 shown under the head of suspense account, amounted to Rs. 92,075 as per details given below :—

	Rs.
Establishment on collection of revenue and Committee's control, including contingencies	4,983
Original works	9,114
Repairs	59,388
Executive establishment, including contingencies ...	18,374
Tools and plant	216
Total ...	92,075

The charges for all sorts of establishment, including contingencies, did not exceed 25 per cent of the Committee's entire income of the year, inclusive of the balance of the previous year, and exclusive of Rs. 14,681 entered in the receipt side of Part 1 of the account under the head of suspense accounts.

Original works.—The undermentioned projects were forwarded to the Superintending Engineer for examination and approval, but have not yet been received back.

	Nature of Project.	Date of transmission to the Superintending Engineer.
1.	Metalling portion of road from Bhagulpore over bridge to Sonthal Pergunnahs	5th July 1879.
13.	Bridging Peerpointee and Barahat road ...	16th October 1878.
23.	Supole to Protabgunge *viâ* Peepra	26th May 1879.
24.	Bridging road from Protabgunge to Bulwa Bazar ...	25th April 1879.
44.	Construction of Banka to Dhaka road ...	24th March 1879.

The Committee expended certain sums of money on roads Nos. 13, 23 and 24 without authority or sanction to the estimate. The practice is irregular, and I have issued strict orders prohibiting the same. At the same time our failure to get our estimate dealt with in proper time throws the work back, and everything into confusion. As regards road No. 44, on which about Rs. 46 only were expended on account of contingencies, I authorized the Committee to complete the earthwork in anticipation of the Superintending Engineer's sanction to the estimate, provided it did not interfere with the drainage of the country; but nothing appears to have been done towards the same during the year.

1. Construction of road No. 30, from Milki to Sonbursa.
2. Bridging Kuthra nuddy in Jugdespure road No. 10.

The expenditure incurred on the marginally noted roads exceed the estimate cost as well as the Committee's power of sanction.

Expenditure was incurred on the following roads, although no provision was made for them in the budget estimate :—

	Rs.	A.	P.
Bridging Kunkunia dhar on road No. 7, Bhaugulpore to Amarpore	100	0	0
Bridging Kuthra nuddy on road No. 10, Jugdespore to Sonodih	440	12	3
Bridging road from Singessur to Peepra	12	12	0
Banka and Umerpore road No. 15	1,457	15	9

Repairs.—Out of the sum of Rs. 59,388 expended on account of repairs, Rs. 57,915 were expended in the maintenance of existing roads, and Rs. 1,473 for miscellaneous purposes.

Out of the sum of Rs. 57,915, the larger amounts were expended on the following roads :—

		Rs.	A.	P.
(1)	Road from Bhagulpore overbridge to Sonthal Pergunnahs	10,867	3	7
(2)	Sooltangunge to Arjusgunge	4,127	14	6
(6)	Bhagulpore *viâ* Ghogha and Colgong to Peerpointee	2,688	13	9
(7)	Bhagulpore to Umerpore road	3,336	8	3
(15)	Banka to Umerpore	2,126	0	11
(20)	Sukpore and Kundoli *viâ* Bhupta and Dugmara ...	2,789	15	3
(22)	Tiljooga river to Protabgunge *viâ* Bhupta ...	2,197	2	9

Village roads.—The following memorandum compares the budget grants and expenditure on account of village roads during the year with those of the previous year :—

Particulars.	Amount of budget grant for 1877-78.	Budget grant for 1878-79	Expenditure.	
			1877-78.	1878-79.
	Rs.	Rs.	Rs.	Rs.
Head-quarters	4,000	4,000	5	271
Supole	2,500	2,500	Not known	2,561
Muddehpoorah	3,500	3,500	3,877	1,526
Banka	3,000	3,000	1,880	379

Thus it will be seen that, except in Supole, very little appears to have been done during the year in the district towards the improvement of village roads. This is incomprehensible to me. Whenever an officer makes mention of a road or work in his diary as wanting construction, I always say—"Do it." The Muddehpoorah officer told me a short time ago that his Branch Committee required more funds than they were able to obtain. I shall again write to the Chairman about the matter. The Branch Committee of Supole expended more than the amount allotted, which they should not have done.

11. *Purneah.*—The receipts of this district, including the balance of the previous year, were Rs. 1,55,006 against Rs. 1,58,162 of the year preceding, showing a decrease of Rs. 3,156 already explained.

The total disbursements amounted to Rs. 1,27,902 as per details given below :—

	Rs.	A.	P.
General management	3,706	3	3
Miscellaneous	7	14	0
Original works	57,702	2	8
Repairs	34,920	15	0
Establishment	13,997	7	5
Tools and plant	673	6	3
Suspense accounts	16,893	0	0

The amount expended on account of all sorts of establishment is Rs. 17,703, which does not exceed 25 per cent of the entire income of the Committee.

Expenditure was incurred by the Committee on the following roads without sanctioned estimate :—

(1) Bassantpore to Ranigunge thana, No. 7.
(2) Purneah to Nathpore, No. 10.
(3) Banbaugh to Dhumdaha, No. 11.
(4) Hardaha to Mudan Chuck, No. 12.
(5) Moosapore to Mahsouri, No. 15.
(6) Kora to Souragadi, No. 16.
(7) Kora to Sahoria, No. 18.
(8) Saifgunge to Lawa, No. 21.
(9) Rowtara to Hosseingunge, No. 38.

The estimates for roads Nos. 7, 11, 15, 16, 18, and 21 were forwarded to the Superintending Engineer on the 15th November 1878, but were returned disapproved by that officer on the 30th July, and 6th and 8th August last.

The estimate for road No. 10 is with the Superintending Engineer, and the further prosecution of work on all the above roads, except the construction of bridges on roads Nos. 11, 12, and 15, has been stopped by the Committee. With respect to the remarks made in the 13 paragraph of the report of the Chairman of this district, as to the effect of the standing rule prohibiting piecemeal works in obstructing the satisfactory progress of road cess business, there is no doubt a good deal to be said for Mr. Hopkins' view of the case. If we could only get our Divisional Superintendent of Works here, I think, however, practical difficulty would be reduced to a minimum. We should get our ordinary estimates through quickly; and in such a case as that put, of a long road comprising one easy in one difficult section, notwithstanding the rule, I fancy that it might be agreed to treat the projects apart, and to construct the easy portion of the road and bring it into operation as quickly as time and opportunity allowed.

The following memorandum shows the amounts expended in the construction of village roads in the several sub-divisions of this district:—

	Rs.	A.	P.
Sudder sub-division	228	15	6
Kishengunge sub-division	15	0	0
Arrareah sub-division	1,308	15	8

Repair of roads.—Of the amount, Rs. 34,920-15, expended on repairs, the largest amounts were laid out on the following roads:—

		Rs.	A.	P.
(1)	Keotgama to Tarapore	1,382	9	3
(2)	Nathpore „ Atwaree	2,674	0	6
(3)	Patherdewah „ Bhopla Tajpore	3,268	8	9
(7)	Bassantpore „ Ranigunge thana	1,589	4	3
(10)	Purneah „ Nathpore	1,605	1	0
(13)	Manoosmara „ Hyatpore	1,496	15	0

The following memorandum compares the budget grants for, and the amounts expended by, the Branch Committee on the repair of the village roads in the several sub-divisions of this district:—

PARTICULARS.	Budget grants.		Expenditure.	
	1877-78.	1878-79.	1877-78.	1878-79.
Sudder sub-division	4,000	5,000	1,623	3,431
Kishongunge sub-division	1,500	3,000	1,189	2,959
Arrareah sub-division	1,500	3,000	342	2,495

It is to be observed that in none of the sub-divisions has the entire sum allotted for village roads been expended, although the sub-divisional officer of Arrareah complains of the paucity of funds in his sub-division.

Emigration Roads.—In the year 1877-78, the Government granted Rs. 20,000 for the improvement of the Southern Emigration Road. Out of this sum the Committee allotted Rs. 6,383 for the construction of bridges on the second section of road No. 4, Kishengunge to Bhudeseri Ghât. The work on this road, it is believed, has since been completed, viz. Rs. 13,617 was expended for the re-construction of five timber bridges on the first section of the South Emigration Road at a cost of Rs. 5,800, and for the construction of five masonry culverts and eight timber bridges on the third section of the same at a cost of Rs. 7,817.

Road No. 2.—This is the North Emigration Road of the district, for the repair and improvement of which Government granted Rs. 9,070 in June 1878. It appears from the District Engineer's report that about 18 miles of this road have nearly been completed.

12. *Maldah.*—The total receipts of this district, including the unexpended balance of the previous year, but exclusive of the amount of Rs. 2,627 shown under the head of deposits, were Rs. 75,887 against Rs. 62,292 in the year preceding, showing an increase of Rs. 13,595. The cause of this increase has already been explained. The total disbursements, exclusive of the sum of Rs. 8,087 entered under the head of suspense accounts, were Rs. 40,141 in round numbers, as per details given below:—

	Rs.	A.	P.
Establishment on collections of revenue and Committee's control	2,645	13	7
Original works	16,437	12	0
Repairs	14,358	9	3
Executive establishment	6,533	6	3
Tools and plant	165	6	3
Total ...	40,140	15	4

The amount expended on account of establishment does not exceed 25 per cent of the Committee's entire income for the year under review.

The amount entered under the head of original works was all expended on account of sanctioned projects.

A revised estimate for the construction of the serais on the English Bazar and Neemoserai road, for which there has been a little extra expenditure over the estimate last sanctioned, has been forwarded to the Superintending Engineer for approval.

Repairs.—Of the sum of Rs. 14,358 laid out on repairs, the largest sum expended was Rs. 7,290-10-6 for the repair of the 1st, 2nd, and 3rd sections of the Dinagepore and Rajmehal road, for which three estimates were sanctioned for the total sum of Rs. 6,378. The extra expenditure over the estimate was very probably on account of extensive repairs made to a

bridge on the embanked portion of the road. It appears from the Chairman's report that three temporary tâl tree bridges were constructed on this road, and I believe that the charges for these must have been debited to repairs.

Village roads.—The following memorandum compares the allotment and expenditure of the past cess year with those of the previous year :—

Year.	Allotment.	Expenditure.
	Rs.	Rs. A. P.
1877-78	2,000	438 15 6
1878-79	4,000	1,139 4 6

The District Road Committee do not appear to have taken much interest in the matter of improvement of the village roads.

13. *Sonthal Pergunnahs.*—The receipts of this district, inclusive of the balance of the previous year, were Rs. 34,705 against Rs 1,48,784 of the preceding year, showing a decrease of Rs. 1,14,079, which has been explained above.

The disbursements were Rs. 31,676 as per details given below :—

	Rs. A. P.
General management	1,270 15 5
Staging bungalow	125 14 0
Miscellaneous	48 4 3
Original works	7,220 0 0
Repairs	18,185 4 4
Executive establishment	3,134 8 0
Tools and plant	75 14 6
Suspense account	1,581 12 0

The amount expended on account of establishment does not exceed 25 per cent of the entire income of the district.

ORIGINAL WORKS.

Baboopore Bridge, Bhagulpore and Soori Road.—On the Deputy Commissioner's submitting an estimate for the construction of this bridge, I enquired as to the total number of bridges required on the Sonthal portion of this road as a complete project. In reply, he stated that, with the exception of the river Mor, the road was crossed by 15 unbridged rivers, some of which were too big to be bridged, others were small, and the trouble they give was scarcely worth the construction of bridges over them. He simply wanted to complete the construction of the bridge over the Baboopore nalah, for bridging which piers had already been built some years past. As a special case I allowed this work, and instructed the Deputy Commissioner to submit a complete scheme for the construction of bridges over all such rivers and nalahs crossing the road as may appear desirable and proper according to the general view of the circumstances of the road at the present time, leaving the larger rivers, which are not likely to be bridged for years to come, to be dealt with under the ferry system.

Inspection Bungalow.—The rules for the construction of inspection bungalows have been overlooked in this district, and I shall see that in future the orders of Government on the subject are strictly adhered to.

Dumka to Mororoi road No. 4.—There are altogether some ten nalahs crossed by this road which require bridging, besides the Koreha and the Amra nalahs.

The Executive Engineer having advised the Deputy Commissioner to commence the bridge on the Koreha nalah in anticipation of my sanction, I authorized the work, but pointed out to the Deputy Commissioner that it was a piecemeal work.

Repairs—Out of the sum of Rs. 18,185 expended on repairs, the largest sums were laid out on the following roads :—

	Rs.
Bhagulpure to Soori road No 1	4,140
Dumka to Rampore Hât road	2,997

Dumka to Mororoi road.—Regarding this road the Deputy Commissioner, after inspection, states as follows :—

"From Dumka to Damin west boundary (ten miles) the road is good. The portion through the Damin (twenty miles) has been repaired gratuitously by the Government tenants under Mr. Coserat's superintendence and is good. The remaining twenty miles, from Amrapurah on the Damin east boundary to Mororoi, is, except for the streams which we cannot hope to bridge, in very fair order, always excepting the three miles which lie in the Beerbhoom district, and which are barely passable. * * * * * Its most difficult portions, as well as that which carries the heaviest traffic, is the first mile lying in the Beerbhoom district. There is a bungalow built by the Public Works Department at Mororoi, which will fall to pieces if it is not repaired before the next rains. The land on which it stands is being gradually encroached upon by the bazar-people."

The Deputy Commissioner further states "the portion of the road in Beerbhoom is of no special benefit to us. We do not use it as much as the Beerbhoom people; they have a Committee and funds, and a Magistrate close by at Rampore Hât, and jurisdiction. Our slender

grant is insufficient to enable us to keep this part of the road and bungalow as they should be kept; if we wish to resist encroachment we have no jurisdiction, and as Dumka is over 50 miles away, it would be a great relief to us if the road up to the 3rd mile-post and the bungalow were transferred to their jurisdiction. A separate report will be submitted to Government on this subject.

The statement of the Deputy Commissioner, about the repair of the road from Mudhupore to Pathrole, contained in paragraph 14 of his report, seems to be incorrect, as in a subsequent letter he has explained that no expenditure was incurred on this road.

14. *Working of the establishment.*—During the year under review the services of Mr. A. V. Roberts, at Monghyr, were dispensed with, for the Committee were dissatisfied with the manner in which he worked. Mr. Longland, District Engineer of Purneah, resigned, and Baboo Ramruttun Mozoomdar of Bhagulpore was compelled to resign, for he failed to give satisfaction to the Committee. Baboo Mohendro Nath Banerjee of Maldah is reported to have taken much interest in his work. Baboo Apurva Krishna Mitra is reported to have given satisfaction to the Deputy Commissioner of the Sonthal Pergunnahs.

15. Before concluding this report, I must urge the Government to expedite the appointment of a Superintendent of Works in this division, for which funds have been provided in the several districts in this year's budget. There is no doubt that progress was much impeded during the year under report, owing to delay in the approval of the estimates.

No. 940PW, dated Bhagulpore, the 8th March 1880.

From—G. N. BARLOW, ESQ., C.S.I., Commissioner of the Bhagulpore Division and Sonthal Pergunnahs,

To—The Secretary to the Government of Bengal, Public Works Department.

IN continuation of this office letter No. 894PW of the 12th ultimo, I have the honor to forward herewith a copy of the annual account of the Monghyr District Road Committee for the cess year 1878-79.

Statement of particulars regarding Meetings of District Road Committees in the Bhagulpore Division for the year 1878-79.

PUBLIC WORKS DEPARTMENT, BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 150.

The 24th August 1880.

UNDER section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the district road committees of Dacca, Furreedpore, Backergunge, Mymensingh, and Tipperah, of works done and in progress during the past cess year 1878-79, together with the remarks thereon of the Commissioner of the Dacca Division, are published for general information.

T. H. WICKES,

Asst. Secy. to the Govt. of Bengal,

P. W. Dept.

No. 814, dated Dacca, the 14th January 1880.

From—T. E. COXHEAD, Esq., Chairman, Road Cess Committee, Dacca,

To—The Commissioner of the Dacca Division.

I HAVE the honor to forward herewith in duplicate a detailed account* of income and expenditure of the District Road Fund for the past cess year ending on 30th September 1879, and also to submit the following report on the works of local improvement that were undertaken during the year under review and those proposed to be carried out during the current year 1879-80, in conformity with the instructions contained in Government circular No. 50 of the 23rd July 1873.

* Already sent with this office No. 778, dated 7th January 1880.

2. The year opened with the large balance of Rs. 91,080-1-9 owing to the Committee having deferred the construction of the road from Dacca to Manickgunge beyond Mirpur until the proposed line of rail is fixed, to the failure of the contractors of the part of the road sanctioned from Baboopoora to Mirpur in carrying out their contracts, and also to the road from Singpara to Sreenugger not having been undertaken in consequence of the District Engineer not having succeeded in preparing in time the necessary estimates and plans. The receipts of the year come to Rs. 92,040-8-3, including the suspense accounts, advances, and deposits, making a total of Rs. 1,83,120-10 as the available funds of this district for the year. The total outlay on works, establishment, tool and plant, and the suspense accounts, advances, and deposit, amounted to Rs. 1,33,516-8-11, leaving a balance of Rs. 49,604-1-1 at the close of the year.

3. Works done during 1878-79.

ORIGINAL WORKS.

(1) Goalundo road extension from Mirpur to Dacca. The contract of the 1st section of this road, viz. from the river Mirpur to the 39th mile westward of the village of Monipur, was given to Mr. B. R. Landale, and that of the 2nd section, viz. from the 39th mile to the Dacca terminus at Baboopoora, to Baboo Kunjo Behary Mukerjea. The work on the 1st section was (not, I suppose,) completed owing to the failure of the contractor. The quantity of earthwork executed is 25 lacs of cubic feet, dressing 23 lacs of cubic feet, and jungle-clearing and grubbing roots 131,600 square feet; while the work which remains to be done comprises earthwork 335,971 cubic feet, benching slopes 96,000 cubic feet, re-dressing and forming the surface of road 270,000 square feet, and returfing 352,099 square feet.

The whole of the works on the 2nd section have been completed, and the quantity of earthwork done is 1,115,822 cubic feet, the contract rate for which included dressing, turfing, jungle-clearing, and grubbing roots. The contractor did his work satisfactorily, and left this road in good order, but a part of it is now shamefully cut up by the khedda elephants.

The total expenditure incurred on sections 1 and 2 up to the end of the year under report amounts to Rs. 22,289-2-2, against an estimate of Rs. 25,276.

(2) The Tonghee iron bridge, which was very nearly completed last year, has been finished this year at a total cost of Rs. 23,035-4-9, including the outlay of the previous years, but exclusive of the original gift of Rs. 20,000 by the late Rajah Kally Narain Roy Chowdry, which was defrayed in paying for the bridge.

(3) A road has been partially constructed from Nursingdee on the Megna to Dangah on the Lukhya, but it has not been completed owing to the contractor having failed to carry out his contract. The embankments have not been raised to the levels required, and the earthwork on the last quarter of a mile, through the village of Nursingdee, has not even been commenced. The quantity of earthwork, dressing, and turfing done is 30 lacs of cubic feet,

bamboo revetments 900 lineal feet, and bamboo shakoes, 460 lineal feet. The works remaining to be done for completion of this road comprise earthwork 2,98,840 cubic feet, re-dressing and re-forming the surface of the road 7,67,243 superficial feet, turfing 87,653 square feet, bamboo shakoes 600 lineal feet, and 19 bamboo revetments. The total expenditure incurred on this road is Rs. 15,262-8-6.

(4) Approach roads to Tonghee bridge. The contract for these roads was given to the same man who took the contracts of the 1st section of the road from Mirpur to Dacca and the road from Dangah to Nursingdee. The contractor also failed to carry out this contract, as he had done in regard to his other two contracts. On the 21st June 1879 he reported the earthwork to be complete, but on inspection by the District Engineer it was found that the embankments had not been raised to the height shown in the sections, and that the road had been left unfinished.

The quantity of earthwork done is 3,34,986 cubic feet, and dressing and turfing slopes 34,968 square feet, besides which the jungle on the site of roads and slopes has been cleared and the roots of trees and shrubs grubbed up. The work remaining to be done is earthwork, including ramming, 63,442 cubic feet, dressing and forming surface of roads 44,240 square feet, benching slopes 7,239 cubic feet, and dressing and turfing such parts of slopes as will be benched out, 11,060 superficial feet.

The expenditure incurred on this road is Rs. 1,759-1.

(5) In order to prevent the encroachment of the river Lukhya, a masonry revetment wall has been constructed at a cost of Rs. 258-15-9 at Goalpara Ghât in Naraingunge, where the river runs close alongside the road, and eroded the banks and cut away a portion of the road during the high floods of 1878 The works done comprise earthwork 940 cubic feet, concrete 144 cubic feet, and pucka masonry 696 cubic feet.

(6) Surveys. During the year the detailed plans, elevations, sections, and estimates of bridges and culverts on the Goalundo road extension from Mirpur to Dacca were prepared in conformity with the instructions of the Superintending Engineer and submitted to you with this office letter No. 833, dated 15th March 1879, and the project sanctioned in Government order No. 539C, dated 5th July 1879.

(7) The Panya Khall, the road from Singpara to Sreenugger, and the Demra road, were fully surveyed, and complete plans and estimates prepared and submitted to you for approval. The first-named two schemes have since been sanctioned in Government orders Nos. 855C and 823C, dated respectively 18th November 1879 and 7th November 1879, and the last by your No. 520R, dated 24th September 1879.

(8) On the application of the inhabitants of Hatiardibazar, Sheebpoor, &c., a further grant of Rs. 1,050 was made this year from the sudder sub-divisional allotment for village roads for the road from Hatiardibazar to Sheebpoor, which was partly done during 1877 78. The money was given to the villagers and the work done by private enterprise, under the supervision of the Sub-Inspector of police-station Roipoora, but the road has not been completed owing to the rains having set in earlier.

(9) In consequence of the unusually heavy floods during 1877-78, which caused great damage to some of the roads in the Manickgunge and Moonshegunge sub-divisions, additional grants were made in 1878-79 to the branch committees of both these sub-divisions, and the works executed by them have been detailed in Part II of the annual account and do not require any special comment. It is gratifying to have to report that in the Moonshegunge sub-division the villagers in two instances supplemented the grants for village works with private subscriptions of money, viz. Rs. 200.

REPAIRS.

(10) The road from Dacca to Toke, commonly called the Mymensing road (52 miles) has been cleared of jungle, and the usual surface repairs done to it. Repairs have also been effected to 25 wooden bridges and 41 masonry bridges situated on the line, and the flooring and the east drop wall of Gurroran bridge which remained to be done last year have been executed this year. 4,55,912 cubic feet of earthwork executed in raising the part of the road from the race course, Dacca, to the 6th mile, and in various other places subject to inundation during the rains; 52 milestones have been put along this road. Palmyra drain-pipes have been laid down in certain places, and the cylinders of Toonghee bridge have been from time to time cleared of aquatic plants that constantly accumulated around them in a thick mass. During the construction of the new Toonghee iron bridge a ferry boat was entertained on the river Toonghee to keep the traffic open. The road was at the end of the year under review in fair order, with the exception of the first three miles beyond Dacca, which were constantly being damaged by the khedda elephants. Of the damage since done I shall not write here. The total expenditure incurred on this road (including the sum of Rs. 1,270-2-9 disbursed this year on account of work done last year) is Rs. 6,294-4-9.

(11) The metalling on the 5th and 6th mile of the Naraingunge road, which is the only metalled road in the district, has been wholly renewed, and in the remaining miles it has been more or less repaired, representing in quantity 39,793 cubic feet. The part of the road from the suspension bridge to the cantonment, 1,100 feet in length, has been solid and metalled six inches thick, with the exception of the east approach to the bridge, 400 feet in length, which up to the close of this year was done only half way across the road. This approach to the suspension bridge has been improved and the road raised to an uniform gradient. The bamboo revetment for protecting that portion of the road in the 5th mile, which during flood time is often cut by the water of the river Boorigoga, has been wholly

renewed, the bank where eroded has been restored, the slope turfed, and the space between the revetment and slope filled in with brushwood. The wooden bridge No. 4 on the 4th mile has been thoroughly repaired and petty repairs done to other bridges. The road is now in good order. The total outlay incurred is Rs. 8,571-11-9.

(12) The Bydebazar road was repaired at a total outlay of Rs. 1,839-6-6 against an estimate of Rs. 1,896. 3,02,146 cubic feet of earthwork executed in raising the road and filling up an useless dilapidated culvert at Hajeegunge, making good the embankment east of the river Lukhya, raising portions of the road over which the floods of the last year had passed, and filling in several large gaps. The south-east wing wall of Allapdee bridge, which had tumbled down during the floods of the past year has been rebuilt with pucca masonry, and that of the Kabelgunge bridge, built by the contractor last year and condemned after inspection by the District Engineer, has been dismantled and rebuilt with pucca masonry. Other repairs have also been done to these bridges. The bridge over the Oodhubgunge khall, which was in a very dilapidated state, has also been dismantled and a temporary bamboo shakoe put over the khall for foot-passengers. Petty repairs to other bridges have also been executed during the year under review.

(13) A sum of Rs. 3,216-8-9 was expended in putting the Moonshegunge-Sreenugger road as far as Singpara, including the Jonsha, branch into order. 3,64,756 cubic feet of earthwork were executed in raising the surface of the road in several places, in improving the slopes and raising the approach roads to new wooden bridges. 18,092 cubic feet earthwork in benching the slopes and 56,952 superficial feet of turfing were done. Five new wooden bridges have been built on the line, 11 bamboo bridges renewed, and other wooden bridges repaired. 1,066 lineal feet of new bamboo revetments executed to certain bridges, and 624 lineal feet of old bamboo revetments repaired. Three palmyra drain pipes were laid: one at Noorpur and two at Rikabi Bazar. 7,197 superficial feet forming roadway and consolidating road metal at Moonshegunge, and 393 cubic feet picking up surface of old metalled road and spreading and consolidating new khoa were executed. Ordinary surface repairs, inclusive of filling in ruts and holes to 8¼ miles of the road, and clearing jungle from the slopes of 15 miles of the roadway, were also done. The full quantity of earthwork and turfing provided for in the estimate could not be executed owing to the land required not having been acquired. The road is in fair order, and passable throughout the year up to Singpara.

(14) The section of the Goalundo road between Sheolo and Manickgunge has been fully repaired at a cost of Rs. 1,044-14-6. The amount was expended in surface repairs, including filling in ruts and holes, uprooting plants, and clearing jungle, raising the road in various places, filling in gaps, making good the turfing to slopes where required, and petty repairs to bridges that were out of order. At Shealo the bunds have been made good, the bamboo piling renewed, and the bund slopes turfed. The inspection bungalow at Mohadebpore on this road has also been repaired.

The Ooshalia bridge over the side cutting, which is now used as a canal, has been to a considerable extent destroyed by the boatmen during the high floods, to enable them to pass their boats over the sloping ends of the roadway platform and approaches, the flood level being within one foot of the roadway at the centre of the bridge. The extraordinary high floods of this year rose above the level of the west to bund across the nullah at Shealo, and washed it away together with a portion of the bamboo-piling.

(15) Ordinary annual repairs were done to the Kolatya road. The repairs consisted in filling in ruts and holes and clearing jungle. 150,556 cubic feet of earthwork, and 14,437 square feet of turfing were executed in raising the road at several places as well as in dressing and forming the surface of road where required. Seven hundred lineal feet of bamboo revetments to protect the sides of all the bridge openings, and four palmyra-tree drains were renewed, and petty repairs done to wooden bridges. The whole work has been done within the estimate, *i e.*, at a cost of Rs. 822-13.

(16) The Moniat road has been repaired and cleared of jungle. 330,822 cubic feet of earhwork were executed in raising an embankment from Nowabgunge to Sadapore, 6-feet wide at formation level, and an average height of 3 feet, raising the road in various other places, and filling in gaps. The quantity of turfing done to new embankment between Nowabgunge and Sadapore and in other places is 50,229 square feet.

The total expenditure incurred is Rs. 1,273-3-3, which is within the sanctioned estimate, and the road is in a fair order.

(17) Mugbazar road. This road has been raised, dressed, and thoroughly consolidated by ramming, and the surface properly formed, the earthwork done being 50,323 cubic feet. A 4-feet culvert broken down was dismantled and reconstructed, and jungle-clearing and petty repairs to a culvert near the race-course have been effected. The total expenditure is Rs. 730-5, and the road is now in good order.

(18) Under instructions from the Superintending Engineer the anchorages of the iron suspension bridge on the Naraingunge road were opened out and examined. The whole of the iron work was scraped and dammered, and woodwork coal-tarred. The brick-work upon the anchorages and in cross wall that were found broken has been renewed. Three beams, one wall plate, and 73 cubic feet of planking being found in a decayed state have been changed, and other necessary repairs to the bridge have been done.

In consequence of the close of the bridge while under repairs, a temporary diversion of road and a temporary bridge of boats were constructed to keep the traffic open between Dacca and Naraingunge. The total expenditure incurred is Rs. 5,395-0-9, which is within the

sanctioned estimate. This was not provided for in the budget estimate, but the expenditure was met from general savings, under the sanction conveyed in your No. 228R, dated 20th June 1879.

(19) Petty village works have also been carried out by the central committee and the branch committees of Moonshegunge and Manickgunge out of the allotment for village roads, the details of which have been given in the annual account.

4. The steam dredger is still lying perfectly useless. At the instance of Government the committee agreed to lend their vessel for trial in the Calcutta canals on the understanding that if Government find her of use the committee is to be paid a fair price for her, or one fit for work here is to be made over in exchange. The Executive Engineer of the Circular and Eastern Canals Division was accordingly directed by Government to take over the dredger, but no arrangements have yet been made for towing her down to the place near Burrisaul, where she is wanted. We have no means of towing her from this place, and the Executive Engineer, Circular and Eastern Canals, has not yet been able to do so, though reminders have been sent to him on the subject.

5. During the whole year all the measures of the committee have been carried out by the District Engineer with a staff of two overseers, one sub-overseer, and temporary surveyors acting under his immediate orders.

6. During the year under review 1,000 mangoe, 1,000 jaban, and 300 jack trees were reared up in the nursery. They have since been transplanted along each side of the Naraingunge road. Measures were also taken for protecting and nursing the trees already planted on the Goalundo road during previous years, though some of them died from the extraordinary high floods of last as well as of this year.

7. The statement required in paragraph 10 of the Government Resolution No. 1286, dated 13th March 1876, in connection with the meetings of the central and the branch committees is appended.

8. There were six meetings of the central committee held during the year, in all of which the quorum prescribed by law was present. The average attendance was not satisfactory in consequence of two non-official members* not having attended a single meeting. The members present at the meeting took lively interest in their work, and rendered assistance to the Chairman.

* Baboo Rup Lall Das.
Kumar Rajendro Narain Rai Chowdry.

9. Both of the branch committees have also taken interest in and done their work well.

10. The Act has been worked without difficulty.

11. The executive staff consists of one District Engineer, two overseers, and one sub-overseer. The office staff of the District Engineer comprises one draftsman, one head-clerk and accountant, and one assistant clerk. The District Engineer gave his best attention to his work. The whole of the executive and office staff of the District Engineer (with the exception of one Baboo Prya Nath Mitter, overseer, regarding whose competency a special report will be submitted by the District Engineer at the expiration of his probationary term of service) are reported to have done their work well.

The collection establishment and the accountant have also worked well.

12. Works proposed to be undertaken during the current year 1879-80 are as follow:—

(1) Naraingunge road. The metalling in almost all miles of this road to be renewed, petty repairs to be done to bridges situated on the line, and the bamboo piling at Pagla on the 5th mile to be repaired. Amount sanctioned in the budget estimate is Rs. 6,819, while the amount of the detailed estimate sent in by the District Engineer and sanctioned in your No. 102R, dated 19th November 1879, is Rs. 6,752.

(2) Bydebazar road. This road will be repaired and cleared of jungle, petty repairs will be effected to the bridges, and the bamboo shakoe at Oodhubgunge will also be renewed, for which Rs. 402 was set apart in the budget estimate, while the amount of the detailed estimate prepared by the District Engineer and sanctioned by me is Rs. 526, being Rs. 124 over and above the budget grant. This excess is attributable to the damage which the road sustained during the late high floods, rendering more repairs necessary during the current year.

(3) Mymensingh road or road from Dacca to Toke. Usual surface repairs to be executed, jungle to be cleared off, and petty repairs to bridges to be done. Earthwork will be executed in places to raise and form the road, and one culvert will be renewed. The approach roads to the Kurwan bridge are being metalled. Amount passed as per budget estimate is Rs. 4,993, while the amount of the detailed estimate submitted by the District Engineer and sanctioned in your No. 114R, dated 26th November 1879, is Rs. 4,871.

(4) Moonshegunge-Sreenugger road. Surface repairs including jungle-clearing to be done to this road as far as Singpara, including the Jainsha branch, and repairs to be done to bridges. Four new wooden bridges will be constructed and seven bamboo bridges renewed. Earthwork will be executed in places for raising and forming the road. Outlay sanctioned in the budget is Rs. 4,496, while the amount of the detailed estimate sanctioned by your No. 188R, dated 9th December 1879, is Rs. 4,470.

(5) Section of the Goalundo road between Sheolo and Manickgunge. Surface repairs to be done, including filling in ruts and holes and clearing jungle. Petty repairs to be done to bridges, and the bund at the end of the road on the bank of the river Pudma, and the inspection bungalow at Mohadebpore, to be also repaired. Expenditure sanctioned as per

budget estimate is Rs. 887, including pay of inspection bungalow chowkidar and that of the chowkidar employed for nursing trees. The amount of the detailed estimate submitted by the District Engineer and approved by me is Rs. 775.

(6) Ordinary annual repairs will be effected to the Kolatya and Moniat roads, for which Rs. 629 and 703 were respectively passed as per budget estimate.

(7) Goalundo road extension from Dacca to Mirpur. A portion of this road from the 39th mile to Baboopoora terminus will be repaired at an estimated cost of Rs. 1,166, and the remainder of the road from the 39th mile up to Mirpur, left incomplete by Mr. B. R. Landale, contractor, at the end of the year 1878-79, will be finished during the current year at an estimated outlay of Rs. 4,235, to be met from general savings under the sanction conveyed in your No. 139R, dated 1st December 1879.

ORIGINAL WORKS.

(8) An unmetalled embanked road from Singpara to Sreenugger will be constructed this year, and the project has been sanctioned by Government orders No. 823C, dated 7th November 1879. The amount of the detailed estimate submitted was Rs. 12,006, while the sum sanctioned by Government is Rs. 11,670 after deducting Rs. 336, inclusive of contingencies provided thereon on account of cost of the land required for the construction of the road.

(9) The embankment of the road from Dangah to Nursingdee, sanctioned in Government orders No. 986C, dated 13th November 1878, and left incomplete by Mr. B. R. Landale, contractor, at the close of last year, is to be finished this year at an estimated cost of Rs. 3,112.

In the budget Rs. 2,777 were set apart for this road under the heading of "Repairs" on the understanding that the road will be completed before 30th September 1879, but owing to Mr. B. R. Landale contractor's failure to complete his works, there will be no expenditure on this road under the head of "Repairs" during the current year.

(10) A part of the Dumra road from Boser Bazar to the Dolye khall will be undertaken during the current year. This project was approved by the Superintending Engineer, North-Eastern Circle, No. 3706, dated 20th September 1879, copy of which was forwarded to this office by your endorsement No. 520R, dated 24th idem. Outlay sanctioned Rs. 4,783.

(11) Seven pucka culverts and one masonry bridge are being constructed departmentally on the Goalundo road extension from Dacca to Mirpore, for which Rs. 11,545 have been sanctioned. This is a part of the scheme sanctioned in Government order No. 539C, dated 5th July 1879.

(12) The Panya khall, which has partially silted, is to be deepened, for which Rs 12,008 have been sanctioned, exclusive of the cost of land required to be taken up for spoil banks. This project has been sanctioned in Government orders No. 855C, dated 18th November 1879, copy of which was forwarded by your memorandum No. 125R, dated 28th November 1879.

(13) Petty village works will be undertaken by the central committee and the branch committees of Manickgunge and Moonshigunge out of the allotment of Rs. 8,400 sanctioned.

(14) Sufficient provision has been made in the budget for planting trees during the current year along the sides of different district roads.

13. All the works proposed and sanctioned will be done from the proceeds of the District Road Fund of the present year and the balance of previous years, which are expected to amount to Rs. 1,04,966.

Abstract of Particulars regarding the Meetings of Dacca District Road Committee and of the Sub-Divisional Branch Committees for the Cess year 1878-79.

REMARKS.

The average attendance was not satisfactory in consequence of two non-official members not having attended a single meeting but the members present at the meetings took a lively interest in their work and transacted their business satisfactorily.

The Chairman of the Moonshiegunge branch committee reports that all the members except three attended regularly and took a lively interest in their work. Those three members did not attend a single meeting.

The Chairman of the Manickgunge branch committee states that the attendance of the members has not been so satisfactory as could be expected, and that native members as a rule are more prone to look to their personal convenience than that of the public.

T. E. COXHEAD, *Chairman.*

Imprest cash with the District Engineer		.....	500 0 0
	Total ...	.....	49,604 1 1

JUGGOBUNDHO KHAN,
Vice-Chairman.

Explanations of the difference between the amounts of Budget Estimate shown in column 2 of the Annual account, and that entered in the Bengal Government Resolution No. 626A, dated 30th May 1879.

1. The difference between the amount Rs. 1,280 shown in column 2 of the annual account as estimated receipts from one per cent. road cess, and Rs. 1,768 entered under the heading "Other cesses" in the Bengal Government Resolution No. 626A, dated 30th May 1879, is owing to Rs. 488 on account of estimated contribution to roads and communications from the Estates' Improvement Fund, being included in the Government Resolution under "Other cesses" instead of under "Miscellaneous receipts."

2. The amount entered in column 2 of the annual account against the heading "Miscellaneous receipts" does not correspond with that shown in the Bengal Government Resolution in consequence of the above reason, and also to Rs. 330 on account of fines being taken in the annual account under "Miscellaneous receipts" agreeably to the new classification of headings as per revised quarterly abstract.

3. The difference between the amount estimated as expenditure on original works as entered in column 2 of the annual account, and that shown in the Bengal Government Resolution, is owing to Rs. 5,281 on account of repairs of part of the Moonshigunge-Sreenuggur road from Moonshigunge to Singpara, including the Jonshar branch being erroneously included in the Bengal Government Resolution under "Original Works" instead of under "Repairs," as pointed out in this office No. 189, dated 19th June 1879, to the address of the Commissioner.

4. The difference between the amount entered in column 2 of the annual account against the heading "Repairs," and that shown in the Bengal Government Resolution, is owing to the above reason.

JUGGOBUNDHO KHAN,
Vice-Chairman.

No. 160C, dated Furreedpore, the 10th February 1880.

From—J. E. B. JEFFERY, Esq., Chairman, District Road Cess Committee, Furreedpore,

To—The Commissioner of the Dacca Division.

I HAVE the honor to submit herewith the Annual accounts and Report on the administration of the District Road Cess Fund for the cess year 1878-79.

2. Though every possible endeavour was made by me to submit the accounts and report with punctuality, their submission has been unusually delayed for reasons already stated, and I beg to add here that, owing to the inability of the members appointed to audit the accounts, I have been obliged to change them more than once. The audit has since been carried out by the members mentioned on the margin, and I beg to annex herewith a copy of their report which will show as to how the accounts have been kept and audited.

Baboo Harabilash Mukherjee, Vice-Chairman.
" Tarak Nath Sen, Deputy Inspector of Schools.
" Gongadhur Mozumdar.
" Sarat Chandra Das.

3. The actual receipts of the year under the several heads were Rs. 42,863-1-3, and the balance of previous year was Rs. 69,157-8-8. This gave a total of Rs. 1,12,020-9-11 for expenditure. Out of this amount Rs. 89,972-9 has been expended, leaving a net balance of Rs. 22,048-0-11; much more could have been done had not the post of the District Engineer remained vacant for more than half the year. However, the work of the year under report, when compared with that of the previous years, is by no means unsatisfactory, and I am inclined to think that the working establishment has done as much as it was in their power to do.

4. The difficulties against which the working staff had to contend with, were—*firstly*, that our works were scattered throughout the district, and consequently great difficulty was felt in exercising a strict supervision over the works given in contract; *secondly*, local contractors were not available, and the scarcity of labour and material in the district made

it much more difficult to carry out the works departmentally; *thirdly*, the rains set in unusually early and the floods were much higher than usual; *fourthly*, the rates allowed, which were generally in the Public Works Department's scale, were not sufficient to allure good contractors having capital and labour at command. I am inclined to think that it will be necessary in future to raise the rates allowed, a thing which can hardly be considered objectionable if we get better work.

5. Of the original works the Rajbari road was the most important. The plan and estimate for the earthwork of this long-desired-for work received Government sanction in September 1878, but the work was not commenced till February following, owing to lands not having been acquired under the land acquisition rules and delay having occurred in obtaining Government sanction to the occupation of the lands before the award of compensation.

6. It was during the progress of this work found necessary to shift the line from Joydebpore, a village nearly 4½ miles off from the head-quarters, owing to the encroachment of the river Pudma, and this portion has been left unconstructed. It is intended to have this portion constructed this year, and the plan and estimate are ready and will be submitted shortly. The other works under this head were of minor nature and need no special comment beyond what has been stated by the District Engineer, a copy of whose report is herewith forwarded. The total expenditure on original works amounted to Rs. 42,245-9-6.

7. Of the repairs the Pangsha and Jessore roads were somewhat important, and Rs. 5,329-5-6 and Rs. 4,261-7-9 were respectively spent on them.

8. Of the Pangsha road only the earthwork has been done. The repairs to the bridges will be carried out this year. A portion of the Jessore road within the town of Furreedpore, which was formerly under the charge of the Municipal Committee, has been made over to the Road Cess Committee with the mutual consent of both the Committees. The repair of the metalling of the portion so made over to the Road Committee was undertaken by them departmentally and partly finished. It afforded much relief to about 150 men for nearly 2½ months. The work has not been completed as yet; no completion report has as yet been submitted. It will be finished in the current year.

9. Several other roads have been repaired and restored to good condition, with the exception of the Old Talma road, a portion of which is subject to the wash of the lake Dhole Samudra. A good deal was spent on the construction and maintenance of this road in previous years, and it was felt very desirable that a little more should be spent to preserve it from being washed away. Accordingly, a sum of Rs. 406-5 was spent last year, which was deemed sufficient by the then District Engineer to cover the cost of erecting protective works. But notwithstanding all our endeavours, a considerable portion of the road was washed away. Owing to its being situate in the vicinity of the town, it is very desirable that the road should stand, but I fear that Committee will have to spend upon it annually a large sum unless a diversion can be made. The total expenditure under this head amounted to Rs. 33,113-14-1.

10. Arboriculture has been attended to with great care on the marginally noted roads, and a sum of Rs. 839-3-9 spent for the purpose. In most part fruit trees have been planted, but to prevent the plants from being destroyed by cattle is very difficult. In many cases the cattle were sent to the pound, and in one or two cases, where opposition was met with, criminal cases were instituted and the offenders punished. I have recently sanctioned a special peon to look after the plants. The plan suggested in the letter received with your endorsement No. 46, dated 16th April 1879, *i.e.*, to make over the rearing of these plants to private individuals has not been as yet tried in this district. I will, however, try the experiment on the Rajbari road as soon as the work is completed.

Jessore, Pangsha, New Talma, Chur Komlapore, and the existing portion of Rajbari roads.

11. The expenditure on village roads has amounted to Rs. 13,695-14-6. Of this, Rs. 3,746-8-6 has been expended in sudder, Rs. 3,970 in Goalundo, and Rs. 5,979-6 in Madaripore. An especial grant of Rs. 1,000 was made for relief works in Madaripore, and the amount appears to have been judiciously spent. The construction of roads in this sub-division is very costly, and the country being very low village roads as well as district roads cannot be pushed on with success.

12. In the sudder the work has been well carried out, and except in two or three instances the money appears to have been well spent.

13. As to Goalundo the money appears to have been granted rather indiscriminately. This has been owing to the constant changes of the sub-divisional officer there and the members of the Branch Committee not having taken any trouble. I have requested the present sub-divisional officer of Goalundo to inspect the roads, as far as possible, during his cold weather tour, and to call on the villagers to make good the money in cases where he thinks that the full amount granted for the road has not been really spent.

14. Of the works provided for in the current year's budget the following are important.

Original works.—1. The construction of the bridges on the line of Rajbari road and of the remaining portion of it.

2. The construction of the bridges on the line of Rajbari road and of the Bhojeshur road.

3. The construction of the bridges on the line of Rajbari road and of the Boalmari road.

Repairs.—To finish the repairs on the Pangsha and Jessore roads and a part of Sinchar road.

15. The plan and estimate for the Bhojeshur road and bridges on the line of the Rajbari road have been already submitted, and those of Rajbari road, remaining portion, and Boalmari road, will shortly follow.

16. The Committee, at the beginning of the year, consisted of 18 members, but difficulty having been experienced in forming a quorum the number was increased to 19. The increase left us no better off than before, as, whilst the number of members was increased, the quorum correspondingly increased. I was at last obliged to recommend for the removal of the marginally noted gentlemen for non-attendance. The Committee at present consists of 14 members, 4 of whom are official. All the members who do attend take a genuine interest in the subjects under discussion, but unfortunately these are all residents of the town or its neighbourhood and know little of the interior of the district. Travelling is so difficult that the Committee will have to nearly complete its labours before mofussil members can be expected to attend.

Baboo Devendra Lall Roy.
" Rajendra Guha.
" Tara Nath Chakravarti.
Moonshi Golam Ahed Chowdhry.

17. Baboo Harabilash Mukherjee, a Pleader of the Judge's Court here and a cess-payer, was elected member in June last, *vice* Moonshi Drassotullah, and has been the Vice-Chairman of the Committee since the transfer of Mr. Charles the late District Superintendent of Police. He and Baboo Taruk Nath Sen deserve especial notice for the amount of interest taken by them.

18. There are two Branch Committees at the two sub-divisions. Their sphere of action was confined to village roads only. The Committee at Madaripore had five meetings. The Chairman of the Committee reports that fair interest was taken by the members there. The Committee at Goalundo met only twice; the members there, as reported by the sub-divisional officer, took no interest whatever. The Chairman of the Branch Committee at Madaripore has, throughout the year, taken a lively interest, and in my opinion tried his best for the judicious expenditure of the amount allotted for his sub-division, and I believe has recieved valuable assistance from his Vice-Chairman the Sub Inspector of Schools.

19. The total amount expended on the several establishment amounted to Rs. 13,483-9-11 which is 14·98 or nearly 15 per cent. on the total expenditure.

20. The post of the District Engineer fell vacant with the opening of the year, and the charge remained in the hand of the senior overseer Baboo Mon Mohan Ghosh. Mr Meik was then nominated to the post and allowed to take charge, but he proved so neglectful of his duties that the Committee were obliged to advertise for another man, the charge of the office remaining with the overseer. The overseer, in consequence, was in charge of the office for about six months, during which period he had hard work to do and did it well.

21. The other overseer was a new man and I know little about him.

22. The sub-overseer Baboo Gopal Chundra Bhattachaj has, I believe, done his duty and there has been no complaint against him by his superior.

23. The Committee then selected Mr. J. R. K. Williams for the District Engineer and allowed him to take overcharge of the office under special circumstances reported in this office No. 158C., dated the 6th current, and he has succeeded in satisfying everybody, up to date.

24. The clerks and mohurirs employed in the collection of the cess have worked well but the peons employed for the collection of arrears, who were placed under the Collectorate nazir, have not done their work satisfactorily. It is evident that the Collectorate nazir cannot exercise a proper supervision over them. In my opinion the peons would have worked well had they been placed under the immediate supervision of the road cess officials. A separate report on the subject has been already submitted by me in my capacity of Collector, and I merely state here that, under the existing state of affairs as regards the arrears, it is advisable to appoint a separate nazir on a salary of Rs. 25 a month to be paid from the road cess fund and to depute him generally in the interior to conduct sale of properties attached.

25. One of the peons entrusted with the collection of the arrears misappropriated a sum of Rs.7 . A criminal case has been instituted against him and a warrant issued for his arrest, but he has absconded ; the defalcations remained undetected by the Collectorate nazir and was only found out by the road cess head clerk. If we have a separate nazir we shall be better able to realize our arrears which, of course, the peons generally on receipt of a bribe neglect to realize, and on the other hand people in the mofussil will be subject to much less oppessions and extortions.

26 Baboo Ram Chandra Chakerbertti has been the Committee's accountant. During his incumbency the office has been twice inspected by Deputy Examiners of the Public Works Accounts who have favourably reported of him. Every one else has a good opinion of him.

27. The road cess system has worked well. The great difficulty is to get our estimates sanctioned, but this I believe will be removed by the appointment of a divisional Superintending Engineer for road cess work only.

28. The road cess is not generally unpopular, but complaints are now and then heard of the public works cess. The people thoroughly understand the objects of the road cess, and whenever I have been in the district, I have received applications to make roads. The difficulty is that they do not seem to understand that everything cannot be done at once. They say they pay their road cess and they cannot see why their cess should be expended in another part of the district instead of in their own villages, and it is impossible to explain to the people of the Madaripore sub-division the benefit they derive from the expenditure of

more than a whole year's income on the Rajbari road. In many instances the people want the road fund to be expended in excavating tanks.

29. Both the Collection and the Committee's offices are at present held in a verandah of the Magistrate's office building. The room is very unhealthy and quite insufficient for the accommodation of the offices. I think the District Committee will have to erect a building of their own as soon as the funds at their command will allow them to do so. In fact, when the records increase the Committee will be obliged to erect a building unless Government makes additions to the present building.

30. The collection of the cesses during the year under report has been rather unsatisfactory. This was attributable to two causes; *first*, the high price of food-grains that prevailed throughout the district for the greater portion of the year. In some part of the district there was real famine, and I was, with the consent of the Committee, obliged to advance a sum of Rs. 4,000 to two zemindars for distribution among their distressed ryots, on an understanding that it should be repaid in road work in the dry weather; *secondly*, that the peons for the collection of arrears did not perform their duty and no regular supervision was exercised over them.

31. The Officiating Superintending Engineer Mr. Roberts visited the district in April last, and inspected the Jessore road and the bazar and Goalchamat bridges in it. He also examined the senior overseer and the sub-overseer and pronounced them practically qualified.

32. My observation regarding the general characteristic of the district was reported during the last year, and I beg only to add that there are several *badshai* roads in the district of which nobody has yet taken any care of exploring. During the year under report the attention of the Committee was drawn on the subject, but nothing has been actually done owing to our establishment being poor.

33. The difficulty of communications with Madaripore being so great, and a road, at any rate for very many years, being impracticable, a khal also being nearly as impracticable and very much more uncertain, it was proposed some years ago by the then Collector Mr. Wells, at the time the Madaripore sub-division was transferred from Backergunge to Furreedpore, to run a line of steamers between Burrisal and Goalundo. A separate report on this subject is under preparation, but it will be necessary to confer with the Backergunge Committee, and it is doubtful whether the scheme will pay, though I have the most sanguine assurances that it will, and some figures to support the assertions. At the same time I think that in the mean time, as the revision of the law is under contemplation, that power should be given to Road Committees with the consent of the Lieutenant-Governor to facilitate communictions according to the circumstances of the district in this as in other ways. It is not absolutely necessary that the steamers should pay. It would be sufficient if the loss was not greater than the expenditure which the Committee would be justified in incurring in making roads and canals. Each scheme could be considered separately and need not be adopted without Government sanction.

34. There are two khal projects which have been under consideration for many years, viz., the Furreedpore khal connecting the town of Furreedpore with the Ganges and thence with the Dhole Samudra, and the Bukhandea khal connecting the Dhole Samudra with the Sitatakha river through which there is water communications with Madaripore all the year round. The Ganges has cut away so much near Gobindpore, about 3 miles north-west of the station, that it is now within about 10 yards of a khal connecting it with the town. The District Engineer reports that the opening of this khal is feasible at a small expense, but as it is probable that the Ganges will wash into the khal next year, and improbable that it may work out a new channel without any effort on our part, it is useless to attempt anything at present, either the river will come through the khal, or, if it does not, it will throw up a chur and block the opening.

The Furreedpore khal proper is blocked in the same way and would under any circumstances require a large annual expenditure, but in the present year, owing to a change in the velocity and directions of the current, it has silted up to a large extent and is likely to silt still more next year, unless one of the above two channels be opened. The Bukhandea project is hopeless, for by opening it from the Dhole Samudra we should only be letting water out without letting any in.

Dated Furreedpore, the 9th February 1880.

From—BABOO HARA BILASH MOOKERJEE, Vice-Chairman, and others,

To—The Chairman, District Road Cess Committee, Furreedpore.

WE have the honor to state that, by the resolution of the Committee, dated the 29th December 1879, we were selected to form a sub-committee to examine the annual accounts for the cess year 1878-79, but, owing to the unavoidable absence of one of us on public duty, the audit of the accounts was delayed for some time, but finally completed by us on this day. We have thoroughly examined the accounts and found them neatly and correctly kept. It appears that from June last they have been kept in accordance with the rules prescribed in Government No. 607A of the 23rd May 1879. The cash-book has been properly and correctly kept under the new rules for keeping accounts. The cash abstract book, registers of deposits and advances, and registers of monthly receipts and expenditure have also been correctly kept.

APPENDIX A.

Abstract of particulars regarding meetings of the Furreedpore District Road Cess Committee for the Cess year 1878-79.

Commissionership.	District.	Number of members forming Committee, Official.	Number of members forming Committee, Non-official.	Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting.	Number of members who attended only—One meeting, Official.	One meeting, Non-official.	Two meetings, Official.	Two meetings, Non-official.	Three meetings, Official.	Three meetings, Non-official.	Percentage of average attendance to whole meeting.	Remarks.

No. 86, dated Furreedpore, the 5th December 1879.

From—J. R. K. WILLIAMS, ESQ., C.E., District Engineer of Furreedpore,
To—The Chairman, District Road Cess Committee.

WITH reference to your No. 42 of 20th ultimo, I have the honor to submit herewith the Annual account and Report for the year 1878-79.

2. In going through the register of works undertaken and carried out during the cess year under report, it would appear that a very fair year's work has been got through, though, perhaps, not so much as might have been done had the season been a more propitious one, but sufficient, I assume, to give satisfaction to the Committee.

3. There can be no doubt much more could have been done had their projects met with earlier sanction, and probably this is partly due to the dilatory manner in which their projects have been undertaken and placed in proper form before them.

4. This, however, is mere conjecture on my part, as I have not been here long enough to give any decided opinion of this subject.

5. Almost all the works that were budgetted for have been executed except the marginally-noted works which were not undertaken for the reason that we could obtain no contractors for these roads and they were sanctioned too late. The annual floods also appear to have come on earlier this year than usual, and on this account some of our works have suffered more or less.

1. Shibchar road.
2. Zendar Khan's road.
3. Gopalgunge road.

6. The following is an abstract of the works taken in hand and executed during the year under report.

SUDDER SUB-DIVISION.

Original Works.

7. *Charkimlapore culvert.*—Only the plastering and a small portion of masonry of this culvert, which was commenced year before last, remained to be done, and the works above referred to have been done at a cost of Rs. 130-5-4.

8. *Rajbari road.*—This is one of the principal works and appears to have been a project of long-standing. The estimate was sanctioned and returned to us in August 1878, and, in consequence of some delay in the acquisition of land, the work was not actually commenced until last February, since when we have constructed a further nine miles of this road, namely, from Alladipore, where the road contructed from ferry funds terminated, to Chandipore. The remaining portion, it is anticipated, will be done during the present cess year. The velocities of the several water courses that cross the road have been ascertained, and the estimate for the bridges has been framed and submitted.

9. *Maniknugur bridge.*—This was to have been a rustic bridge with the palm tree posts and soondry planking proposed to be constructed over the Maniknugur *khal*, during the last year where it crosses the new Talma road. The work was commenced and the posts were fixed, but owing to the sinkage of two or three boats near the bridge, a deep hole was formed by the eddy which washed away the posts when it was about half finished and consequently deferred its completion. It has been proposed to put up the bridge in another site with the materials collected.

10. *Kutia bridge.*—This is a bridge of the above design proposed to be constructed over the Kutia khal where it crosses the new Talma road. This work has been satisfactorily completed.

11. *Komlapore culvert.*—This is a three feet culvert proposed to be constructed over a *nulla* that crosses the new Talma road. All the works of the culvert, except plastering, have been satisfactorily completed this year.

12. *Ainpore road.*—The project was nearly ready, but on account of the insufficiency of funds the work has been postponed for the present.

13. *Boalmari road.*—Nothing was done towards the preparation of this project owing to the Vice-Chairman's deciding the question of the necessity of the road at a very late period of the year when it was impossible to do any field work.

14. *Marapadda excavation* —This was proposed to be re-excavated, and a sum of Rs. 200 was allotted for its preliminary surveys. But on account of the encroachment of the river Padya as well as the probability that, if this project had been carried out, the navigation of the Koomar would suffer by the drainage of its water, the idea was abandoned and consequently nothing further done.

MADARIPORE SUB-DIVISION.

15. *Shibchar road bridges.*—Two rustic bridges of soondry wood and planks have been constructed in this road over the Nalgora and Khajoontolla khals at a cost of Rs. 794-4.

16. *Kotatipara road bridges.*—Two bridges of the above design have also been put over two gaps in the Kotalipara road at a cost of Rs. 266-0-8.

17. *Naria road bridge.*—This work was made over to Baboo Abhoy Chandra Dass, I have already given my opinion about this work in my diary, after inspection, and need make no further comments.

18. *Bhogepar road.*—For the preliminary surveys and the preparation of projects, some amount was allotted and the project is ready. This estimate has now been framed and submitted for approval and sanction.

19. *Kedarbaria road bridge* —An estimate was framed for constructing this bridge, but, as the villagers had taken away the materials of the old bridge, the work was abandoned by the order of the Chairman.

GOALUNDO SUB-DIVISION.

20. *Baniabaha road* —This road, it seems, has been under contemplation for some time, but owing to certain difficulties, it was not undertaken until this year, during which period it was commenced and completed.

21. *Karakdi road.*—This road was commenced and a good portion of the earthwork of the embankment and turfing executed, but in consequence of the early and sudden rise of the water in the bheels, &c., the contractor failed to complete his work within the cess year.

22. *Kazibadha road and bridges.*—This work and the bridge were executed and completed satisfactorily.

23. *Hundunpore road, north extension.*—With the exception of some measurements of land for acquisition purposes nothing further has been undertaken on this account, and expenditure of Rs. 2 has been incurred only on it.

24. *Tafudia khals.*—The only expenditure under this head has been Rs. 11-3-6. which was incurred in surveying and running a series of levels over the proposed lines.

25. The following works were taken in hand and have been satisfactorily completed :—
Two wooden bridges over the existing portion of Rajbari road.
Two wooden bridges over the Godarbazar road.
One wooden bridge over the Matipara road.
One wooden bridge over the Furreedpore road
A pipe culvert over the Telegraph office road.

26. *Khangunge road bridge.*—An estimate was framed for a bridge over the *nulla* crossing this road, but through some hitch regarding the area of water-way having been found insufficient the work was deferred and nothing done this year.

REPAIRS AND MAINTENANCE.

27. *Pangsha road.*—In consequence of the difficulty of collecting materials, it appears to have been anticipated that the work would take two years or seasons to complete; with this view the earthwork and the turfing were only undertaken and executed during the last year. The materials, as far as possible, have been collected and the bridges will be repaired during the current cess year. This is the longest road in the district and very important for inland traffic from mart to mart, and much inconvenience is of course felt owing to a portion of it being still unbridged.

28. *Jessore road.*—This is another important road of this district and is in a very fair condition ; petty repairs to the road were necessary and have been executed during the last year. Nothing has yet been done towards constructing the two bridges at Moishala and Moozoordia for want of funds.

29. *New Talma road.*—This road is also a very important one for communication with the southern parts of the district and is in a very fair condition. Petty repairs to it have been executed this year. There were six khals across this road, out of these two have been bridged with rustic bridges. When the other four bridges will be completed, the road will be open for cart traffic all the year round. Bamboo skeleton bridges, which are generally put over the khals during the rains, answer very well at present for the conveniences of the foot passengers.

30. *Old Talma road.*—This is another important road for communication with the southern parts of the district, and in consideration of this the work was taken up, but the wash of the Dhole Samudra along its west embankment, where a part of the road runs, has seriously damaged it. Protective works were undertaken to preserve it, but they appear

to have been ineffectual, and this portion of the road has been most seriously eroded and washed away. Therefore, the repairs of this have at present been abandoned, but if the road is considered very important it might, perhaps, be suggested that it would be better to adopt a deviation as more economical for this portion if practicable.

31. *Kristopore road.*—This road is a part of the Old Paltoni road or (Belgatchi road), and runs from the ferry ghât of Furreedpore to Kristopore. The road is a very useful one and repairs to this road have been executed, and it has been restored to a very fair condition.

32. *Sodepore road.*—This road runs from the end of the Jessore road to Sodepore bazar. This road has only lately been taken up from union at Sodepore and has been repaired.

33. *Avenue road.*—This road runs within the town and was formerly in the hands of the municipality. It being a part of the Jessore road, it was taken over from them, and as it was in a very bad state, the repairs were undertaken by us. A portion of the road has been restored to good condition, but for want of materials the remainder was not done. This work was taken up departmentally and afforded relief on an average to some 150 men for about 2½ months. The work has been satisfactorily done and a sum of Rs. 500 has been saved out of the estimated sum. The remaining portion will be repaired during the current year.

34. *Charkomlapore Road.*—This road runs close by the civil station. It has also suffered serious damage from the effects of the Dhole Samudra. Repairs to this road were undertaken and executed.

MADARIPORE SUB-DIVISION.

35. Most of the roads that are at present under the Committee in this sub-division are old roads constructed by zemindars or nababs, and were in a very ruinous condition owing to their having been left out of repairs and allowed to be over-grown with scrub and jungle for more than 20 or 25 years. The few that come under notice have been brought on our books as our roads. I am given to understand that a detailed history of these roads can be obtained from the Vice-Chairman, Branch Road Cess Committee, who has gathered much useful information on this subject during his tours while in charge of that sub-division.

36. The first that comes on our list is the *Punchur road.* This is one of the old roads above referred to. The repairs were undertaken last year and the road has been restored to a very fair condition.

36. *Banderkhola road.*—This road was repaired for the first time the year before last, and having been much damaged was thoroughly repaired last year.

37. *Bahadoorpore road.*—This is also one of the old roads; the repairs were undertaken last year and a portion has been completed, but owing to some dispute among the share-holders of the zemindars to whom the ground belongs, a portion of the road has not been given up but left incomplete, it was therefore deemed necessary to take it up formally and necessary steps have been taken.

38. *Shibchur road.*—This is one of the old roads and was repaired for the first time last year; an estimate was made out for its repairs, but in consequence of it being sanctioned too late, and no one came forward as a contractor, the work was not undertaken at all.

39. *Poragacha road.*—This again is one of the old roads and the repairs were under-taken last year; it has been restored to thorough good order.

40. *Hatooria road.*—This is stated to be a very important road and is the longest road in the sub-division. The damages done by the rains of the year before last have been thoroughly repaired. The alignment of this road in the second mile is almost a semi-circle, and it has been suggested to make a deviation for this portion in order to make it shorter in length. Nothing, however, has as yet been done in the matter.

41. *Kelarbaria road.*—This road is also one of the old roads and was taken up for repairs by us for the first time during the last year. The road has been restored to a good condition.

42. *Zendarkhan's road.*—This is an old road stated to have been constructed by one Zendarkhan whose name it bears. An estimate was framed for its repairs, but owing to some difficulty in getting contractors as well as the lateness of the season, when the estimate was sanctioned the work was not done at all.

43. *Lomsing and Naria roads.*—These roads it would appear have been left for construction in the hands of one Baboo Abhoy Chandra Dass, a resident and landholder in that part of the district, and they have been constructed pretty much at his own discretion, with an eye to the improvement of his own holdings thereabouts.

I have already given my opinion about these roads in my diary, after inspection, and need make no further comments.

44. *Kolatipara road.*—This old road was formerly called the *Chabibur's jungle;* this was repaired for the first time in the year before last. The damages done to the road have been thoroughly repaired during the last year. Two bridges were constructed over this road last year, and the line is open for traffic all round the year.

GOALUNDO SUB-DIVISION.

45. *Fooltallah road.*—This road is represented to have been a low tract with a very narrow top width, and has this last year been raised above the high flood-level with a top width of some 12 feet, thus forming a good cart-road from Fooltalla bazar to the Rajbari railway station. This was thoroughly repaired.

46. *Rajbari road, existing portion.*—This portion of the road was thoroughly repaired and trees planted on each side.

Petty repairs to the following roads were executed in last year :—

1. Sirjankanda road.
2. Radhagunge Beel road.
3. Matipara road.
4. Godarbazar road.
5. Khangunge road.
6. Furreedpore road.
7. Hamdampore road.
8. New Goalundo road.
9. Telegraph office road.
10. Panchashazari road.

47. *Arboriculture.*—On almost all the roads in the sudder sub-division fruit trees have been planted. Some trees were also planted on the first 3½ miles of the Rajbari road; they are on the whole in a very fair condition.

48. *Inspection bungalows* —Three inspection bungalows were proposed and the estimates for these were sanctioned by Government, but owing to the difficulty of getting sites, only one of these bungalows has been constructed. There remain only petty works which could not be done on account of the flood.

49. *Office bungalow.*—This bungalow was thoroughly repaired, and separate rooms, together within wooden doors, were constructed for keeping instruments, &c., for peons.

50. *Residence bungalow.*—Mr. Fraser's bungalow was purchased and repaired for the residency of the District Engineers, but as then there was no European District Engineer, it was thought unnecessary to keep it, and was sold at the cost price to Mr. Green the then civil medical officer here who was in very much need of it.

51. While on the subject of inspection bungalows it may perhaps not be considered out of place to remark that inspection bungalows, or, as I should term them, "rest-houses" here and there in the sub-divisions and along the long roads, such as the Rajbari, Jessore, New Talma, and Pangsha, would be a great boon to the officers travelling on duty over these works.

52. They need not be at all expensive structures, simply a thatched shed, say some 20 feet square, furnished with a rough table and a charpoy, and wooden stool.

53. Goalundo and Madaripore might have more pretensions of construction, but for the roads over ten miles in length, I should suggest what I have above stated.

54. In conclusion, I beg to state that, as far as I have seen, I must acknowledge that the overseer, Baboo Mon Mohan Ghosh, has made himself very efficient in all that has been entrusted to him, and has materially aided in getting the season's work well pushed through.

55. The overseer of the Madaripore sub-division has looked after his work, and all that he has supervised has been satisfactorily done.

56. The sub-overseer of Goalundo sub division has also given satisfaction, and I am in hopes that with another year or two's experience he will make a good serviceable officer of the Committee.

No. 17RC, dated Goalundo, the 17th December 1879.

From—H. PETERSON, ESQ., Chairman, Branch Road Cess Committee, Goalundo,
To—The Chairman, District Road Cess Committee, Furreedpore.

I HAVE the honor to submit the following report on the operation of the District Road Fund during the cess year ending 30th September 1879.

2 The following changes were made of the Committee during the cess year :—Mr. Collier was Chairman of the Committee for the first three months; Mr. Carstairs acted as Chairman to the end of March, until he was relieved by Mr. Harris. I have been in charge only for the last two months of the year when, of course, no work could be undertaken.

3. The lists of members have been revised in January last, and the following gentlemen are the non-official members of the present Committee under Government notification, dated 6th January 1879 :—

Baboo Shama Sankar Mozoomdar, Zemindar.
„ Madhu Sudan Chowdhry, ditto.
Mir Abdusummed, Talukdar.
Mahomed Nizamun Alum, ditto.
Munshi Rahim Bacsho Chowdhry, ditto.
Baboo Syama Sankar Burdhan, Jotedar.
„ Gobinda Chundra Dutta, Mooktear.

4. Only meetings of the Committee have been held during the year, in one there was no quorum and in the other only four members attended. As to the interest taken or work done by the respective members, I am not in a position to speak.

5. No district road work was entrusted to the Branch Road Committee during the year under review.

6. *Village roads.*—Under this head Rs. 4,000 allotted for this sub-division, the whole of which has been spent for repair of existing roads and for constructing new roads as will be seen from the accompanying list. I am not in a position to speak with any great confidence either on the success or failure of the village road operations, as those that have come under my notice as having been constructed and repaired within the year have been more or less exposed to the heavy floods and have suffered in consequence, so that the apparent results cannot be adequately judged in reference to the amount expended. In several cases I have,

however, discovered that the money allotted has not been spent, either from the negligence of the villagers to whom the amount was entrusted, or owing to the fact that operations were not commenced until almost the rains had set in Further, it appears that, in reference to village roads there has been no system or method adopted. Grants have been given to isolated villages, and no endeavour made to connect village with village or to repair and construct roads subsidiary to the main thoroughfares of communication in the sub-division. The allotment of money to a single village without reference to the exact object for which it should be applied has led naturally to the employment of the money by the villager entrusted, to operations and works for the convenience of himself or for neighbours. The convenience of the majority of the village has been quite overlooked, and as the money is usually held by the most influential inhabitants—persons who could afford to repair roads at their own expense—the result has been that they alone benefited to the exclusion of their more numerous and needy neighbours.

7. *Flood.*—The whole country was flooded by the overflow of the Ganges and Gorad, and several roads were under water for some time. The new junction station road and south Panchashazari road have been much damaged. More than 400 feet of these roads have been cut away by the Ganges The other portion of the latter was under water, in part, near Goalundo bazar, which was repaired last year by the District Committee; as this was the only road it caused much inconvenience to the people of the town.

8. The office work is done by the sub-divisional head clerk who keeps the correspondence, accounts, and attends the Committee. He does the work outside his regular office hours.

9. There was a road sircar on Rs. 20 and a peon on Rs. 6 per month from January last; his duty was to make estimates and inspect the roads.

No. 5C., dated Madaripore, the 10th November 1879.

From—BABOO NABIN CHANDRA SEN, Chairman, Branch Road Cess Committee, Madaripore,

To—The Chairman, District Road Cess Committee, Furreedpore.

I HAVE the honor to submit the Annual Report on the working of the Branch Road Cess Committee of Madaripore for the cess year 1878-79.

2. The following statement shows the Committee's receipts during the year:—

	Rs.	A.	P.
Allotment by District Committee on account of village roads	5,000	0	0
Refund made by Hara Mohan Ghose of Mittrasenpati on account of less work	300	0	0
Ditto by Kaminikant Rai of Olepore on account of less work	150	0	0
	5,450	0	0
Allotment made by District Committee on account of relief work	1,000	0	0
Total ...	6,450	0	0
Expenditure ...	6,429	6	0
	20	10	0 not drawn.

In previous years, there being no establishment to inspect and certify the works, a large sum of money, it was believed, was misappropriated by the people to whom the works were entrusted. I succeeded in recovering Rs. 450, and a further sum of Rs. 200 has been left conditionally in the hand of Purna Chundro Chukrabartti of Taparia in consideration of his properly constructing the road which he had taken charge of. It was to check this abuse of funds the Committee entertained a sircar on Rs. 20 per mensem. Before sanctioning any work, he was sent to inspect it and to certify its utility, submitting an estimate. Then half the amount would be advanced to the party applying for the road, and the other half was paid to him on the Committee's sircar certifying the completion of the work. Out of the above allotment Rs. 3,756-8 was spent in original works, Rs. 1,057-8 in repair, and Rs. 177-13 in establishment. The details will be found in the Appendix B, which will show that the fund was distributed all over the sub-division.

3. The following statement I trust will be found interesting:—

Number of roads (new construction).	Total length.	Total cost.	Average cost per mile.	Average height and width.	
				Height.	Width.
	Ft. mile.	Rs.	Rs.	Ft.	Ft.
11	17,420 = 3¼	2,494	800	4	12

It will show how trivial these village roads are and yet how costly. It strengthens the protest placed by me last year in the Annual Report against the frittering of the Committee's funds on such works, the cost of which is out of all proportion compared with its utility. You have yourself seen this year that, even the more important roads of the District Committee were all immerged during the rains; of course, the flood rose unusually high this year, but even in its ordinary height it will be sufficient to drown all our village roads, raised only 4 feet on an average from the level of the land. Even if they were not immerged, yet, during the three rainy months, when the whole country lies under several feet of water, nobody would think of travelling by a road in preference to punting his boat, in which even the women here are such adepts. Then, from October till the rains there is hardly any necessity for roads, as one could go in any direction he liked on foot. It is only from the cessation of the rains to the setting in of the cold weather, viz., during the month of September only, that the village roads are of any use. In my humble opinion nothing could be of greater waste than the construction of these petty works of temporary utility, laying out Rs. 800 per mile, particularly when we are in such crying need of some important thorough roads and canals. A complete scheme for such works is submitted in Appendix C. Thanas Kotalipara and Gopalgunge remain cut off from the head-quarters of the sub-division for nearly nine months in the year. The same may be said of the villages lying in the centre of the Madaripore thana. If therefore these village roads were starved for a few years, and the three marginally noted canals were undertaken, they would be thrice blessed. Besides affording facility for communication they would supply good drinkable water, where there is a regular scarcity for it, and also would offer great facilities for administration.

From Mandaripur to Gopalpur.
From Mandaripur to Kotaliparah.
From Kotaliparah to Gopalgunge.

4. My proposition for opening steam communication between Goalundo, Furreedpore, and Madaripore by slightly modifying the Road Cess Act, which was broached in my last Administration Report, will, under Government orders, form subject of a separate report.

5. The Committee held five sittings during the year, and the members took fair interest in matters laid before them.

Appendix B.

Statement showing the Expenditure on Village Roads during the Cess year 1878-79.

Thana or outpost.	Rs.	A.	P.	Name of work.	Amount paid. Rs.	A.	P.
Madaripore ...	2,077	8	0	Puali road	365	0	0
				Shendia khal	475	0	0
				Kendua road	331	0	0
				Ditto No. II	80	0	0
				Madaripore village roads	499	0	0
				Bintiluk road	250	0	0
				Ghatmazi road	77	8	0

H. B MOOKERJEE,
Vice-Chairman.

No. 149, dated Burrisal, the 15th January 1880.

From—J. C. VEASEY, Esq., Chairman, Road Cess Committee, Backergunge,
To—The Commissioner of the Dacca Division.

I HAVE the honor to submit herewith the detailed annual road fund accounts of receipts and expenditure for the cess-year 1878-79, drawn up in the prescribed form and in accordance with the directions of Government, together with the following report on the operations of the district road fund during that period.

2. *District Committee.*—The district committee is composed of five officials and 19 non-officials, mostly landholders and their agents. At the beginning of the year there were altogether 29 members in the list, but of these the four gentlemen named in the margin were removed by Government, owing to their non-attendance at the committee's meetings, and one official left the district. With the existing members there is always a good attendance, and the business in hand is sure of being intelligently discussed.

Baboo Baroda Kunta Roy.
" Brojo Kunta Roy.
" Boroda Prosano Chakravarti.
" Rajendra Chundra Roy.

3. Of the official members, the Executive Engineer of the Dacca Division attended no meetings during the year, owing in great part no doubt to a failure, since rectified, to give him sufficient notice. He can, however, seldom be expected to be able to time his visit so as to coincide with the committee's meetings which are held at irregular intervals.

4. Ten meetings were called during the year, a failure to obtain a quorum occurring on one occasion only.

5. An abstract of particulars regarding these meetings, as well as those of the branch committees, is submitted herewith in the prescribed form. The provisions of section 57 of the Road Cess Act have been duly observed, and the papers connected with the business in hand are circulated beforehand, so that members attend know not only what the questions are, but what are the details of the questions.

6. *Branch Committees.*—There are branch committees at the head-quarters of each of the three sub-divisions, Perozepore, Patuakhali, and Bhola, constituted under section 76 of the Act and consequently they are subordinate to the district committee. Annexed are remarks by the sub-divisional officers on the interest evinced and the assistanee rendered by the members of the branch committees of which they are respectively Chairmen.

7. The Perozpore Deputy Magistrate writes thus:—

"I subjoin an abstract of particulars regarding the meetings of the branch road cess committee during the year, and from this you will perceive that the members took timely interest in attending the meetings and generally for carrying out the purposes of this Act."

8. The Patuakhali branch committee's Chairman reports—

"The members of the branch road cess committee were 15, four of whom were official. Of the 11 non-official members, two only possessed the requisite qualifications required by law, the others were pleaders and mooktears practising at the Patuakhali courts.

"It is difficult to find intelligent and influential people in the different parts of the sub-division willing to become members of the committee, and until we get such people to become members and to take an interest in the work of the committee, the management of the village works will virtually be in the hand of the sub-divisional officer."

9. The Chairman of the Bhola branch road cess committee writes thus—

"Five meetings of the branch road cess committee were held in this year. Timely notices were given to the members, some of whom seem to take great interest in all matters connected with the management of the fund entrusted to the committee."

10. The constitution of the Patuakhali committee, possessing as it does only two non-official members with the requisite qualification, had already attracted attention, and revised lists of members for all three committees have already been submitted for transmission to Government. The other remarks quoted do not appear to call for any special notice.

11. *Chairman.*—Mr. J. Kelleher, C.S., was Chairman from the beginning of the year to 20th August, when I relieved him upon his proceeding on furlough.

12. *Vice-Chairman.*—The Vice-Chairmanship was held by Baboo Okhoy Kumar Sen, the then road cess deputy collector, from the beginning of the year till 23rd December 1878, when he left the district. On the 2nd January 1879, he was succeeded by Mr. A. Mackie, C.S., who held the office throughout the remainder of the year. Mr. Mackie has in the first instance dealt with the numerous applications for village roads; he also selected the persons to whom the execution of the works determined on was entrusted, and made payments on the reports of the gentlemen who supervised them. He has in this way rendered much valuable assistance, and has shown himself to possess energy and business-like habits.

13. *Accounts.*—In accordance with the decision of the committee, road cess was levied during the year at one pice in the rupee, or only half the maximum rate: as shown below the amount so due is much below the wants of the district, and our operations would have been considerably curtailed but for the heavy unexpended balance we had to fall back upon. The actual income of the year amounted to Rs. 1,12,975-13 which added to the balance referred to above Rs. 1,23,444-15-2, gives a total of Rs. 2,36,420-12-2. Annexed are

details of the receipts and expenditure from which it will be seen that the year's income was exceeded by Rs. 34,179-14-1.

Income.—

	Rs.	A.	P.
Cess on land	1,05,726	9	9
One per cent. road-cess	1,894	11	2
Fees and forfeiture	143	6	0
Miscellaneous	5,211	2	1
Total ...	1,12,975	13	0

Expenditure.—There was a total expenditure of Rs. 1,47,155-11-1 under the following heads :—

General management—

	Rs.	A.	P.
Clerks	5,198	13	3
Servants	1,382	12	9
Contingencies	2,311	8	8
Total ...	8,893	2	8

Public works—

Original works	78,732	9	7
Repairs	35,052	5	9
Establishment	21,458	0	7
Tools and plant	3,019	8	6
Total ...	1,38,262	8	5
Grand Total ...	1,47,155	11	1

14. The details of expenditure have been given in the accounts which are submitted herewith.

15. At first sight the expenditure under heading "general management" appears to have exceeded the budget allotment. This is owing to the fact that the contingent expenditure of the establishment on works has been charged to "general management," and the pay of the committee's establishment to "establishment on works" in accordance with the instructions of the Examiner of Accounts. Bearing this in mind, and making the necessary adjustments, it will be seen that the excess is only nominal.

16. A balance of Rs. 89,567-8-7, part of the surplus from former years, remained unexpended on the 1st October last.

17. *Examination of accounts.*—The accounts for the year were examined and audited by a sub-committee consisting of the marginally noted members appointed under section 88 of the Act. They reported them to be correct, and the accounts have since been laid before and passed by a meeting of the district committee held on the 7th instant. In the course of the year they were further inspected by the Deputy Examiner who made a favourable report.

Mr. A. Mackie, Vice-Chairman.
" W. L. Owen.
Baboo Behari Lall Roy.
" Govinda Prosad Das.

18. *Original works.*—The expenditure on these has been more than four times that of the preceding year Rs. 78,782-9-7 against Rs. 18,469-9-1. I proceed to notice the most important, merely premising that no new works have been commenced.

No. 6, Gaurnaddi road; length, 22 miles.—The earthwork has been completed with the exception of about half a mile where widening was being done when the floods broke in. Of the 20 bridges five have been completed and bricks have been prepared for the remaining 15.

No. 7, Backergunge road; length, 8¼ miles.—The earthwork has been practically completed, and the bricks provided for the three bridges.

No. 8, Basanda road; length 1½ mile.—The earthwork has been completed, and one of the two bridges estimated for built.

No. 4, Dahdahia road; length, 2¼ miles.—The earthwork consisted chiefly in widening, and has been completed with the exception of about 50,000 cubic feet, and one of the three bridges has been built.

No. 20, Mudhabpasa road; length, 8½ miles.—The work consisted in substituting 11 pucca culverts and bridges for the existing wooden structures. One of these culverts has been built, and bricks prepared for the remaining 10 culverts and bridges.

No. 1, Sutalari bridge on Jhalokati road.—This bridge, with iron girders and masonry abutments, was designed to replace an old broken-down bridge with masonry abutments and wooden roadway. The masonry work has been completed, and now awaits the arrival of the iron girders from Calcutta.

No 21, extension of Bhola road to Isla river; length, 14 miles.—This work has been completed.

No. 30, *Bhola to Ghaziporè road, with extension to Kuchiamara; length,* 16 *miles.*—This work has been completed. The saving shown in the detailed accounts is the result of the sub-divisional Chairman having done a portion of the work in 1877-78 out of "petty repairs."

No. 39, *Dowlat Khan to Mirzakalee road; length,* 11 *miles.*—This road was commenced as a relief work in 1877-78 when Rs. 1,086-5-6 was expended. Sanction to the estimate was received late in the season, and only a recommencement under proper sanction has been made.

No. 40, *Tarnirhat to Barhanuddin; length,* 7½ *miles.*—Rs. 1,819 were expended on this road as a relief work in 1877-78: other remarks as for No. 39.

No. 43, *Barhanuddin or Kaligunge to Nazirpore; length,* 18¾ *miles.*—A commencement under proper sanction was made late in the season and the portion between Kaligunge and Joyar Dore completed at an expense of Rs. 1,358-12-7. The work has now been stopped for want of funds.

No. 45, *Golachipa road; length,* 6½ *miles.*—The circumstances of this work are similar to those of numbers 39 and 40. In all Rs. 1,940-3-9 have been spent up to the end of the year. Further expenditure has been stopped for want of funds.

No. 77, *Jainkali road; length,* 8½ *miles.*—Sanction for only a portion of this work has been received. Estimates for the remaining portion have been submitted, but no provision has been made in the budget of 1879-80 for want of funds.

No. 34, *Royerkati road; length,* 4½ *miles.*—Sanction for the work was received in good time, but owing to the want of contractors, work was not commenced till late in the season: more than half the work has been completed.

No. 47, *Ponabalia khal; length,* 7 *miles.*—This has been the only important khal-work taken up during the season. It consisted in re-excavating the silted-up end of a Bharani khal (khal connecting two rivers). The original proposal provided for bunding the other end of the khal, but this was abandoned for the time being, information concerning the probable effect not being in sufficient detail. In according his sanction, the Superintending Engineer called particular attention to the probability of the khal silting up again in the absence of the bund above referred to, but this was provided against by throwing a temporary bund across about a third of the way down the khal. The khal has, if any thing, deepened since water was let in. This temporary bund cannot be allowed to remain, as it would counteract the good done by the excavation.

19. Sanction to the projects of some of the budgeted original works was received after the close of the working season and no commencement could therefore be made.

20. *Repairs.*—In all Rs. 35,052-5-9 were spent on repairs during the year under review, against Rs. 19,352-1-3 in the previous year. Details of the more important repairs are given below.

No. 1, *Jhalokati road.*—The original allotment for this work was Rs. 720 out of which Rs. 603-3-6 were spent. Towards the end of the second quarter, however, extra repairs to the amount of Rs. 300 were found necessary to one of the bridges, thus bringing the entire expenditure up to Rs. 903-3-6.

No. 3. *Amanalgunge road.*—Rs. 299 were allotted in the first instance, but in going into the details of the estimate it was found desirable to increase this allotment to Rs. 1,475, out of which Rs. 1,197-6-3 have been spent. The supplementary allotment was intended to bring the road, which was something like a bund with a deep ditch on either side, to its original dimensions. Practically this has been effected.

No. 6. *Gournaddi road.*—Rs. 1,020 were alloted, being at the rate of Rs. 60 per mile for crest-dressing, &c., out of which Rs. 876-8 were expended.

No. 8. *Basanda road.*—There was no expenditure under "repairs" on this road, owing to that under "original works" being heavy.

Nos. 62, 63 *and* 64.—*Sibpur Kunkhihat and Bikna roads.*—Repairs were undertaken on these roads, the first time for many years, and consequently were heavy, about Rs. 270 per mile. The total allotments have not been spent in consequence of the labour difficulty.

Nos. 21, 23, 29 *and* 30. *Bhola Sandiahat Dhonia Monia and Gazipur roads.*—All in the sub-division of Dukhin Shabazpur, show heavy expenditure, the results of incomplete repairs done heretofore. I may here add that the expenditure on these roads will be heavy for two or three years until they have undergone complete repairs. Together with keeping the entire roads in order, certain sections of each road are taken in hand and put in thorough repair each year. The expenditure is very much short of the allotment for the Sandiahat road, the result of deficient labour.

21. The year under report may be called the second working year since the introduction of the Road Cess Act in this district. 45 original works and 24 repairs were budgeted, against 37 original works and 16 repairs in the year 1877-78. The engineering staff have done their best in obtaining sanction of the higher authorities to the plans and estimates of almost all the original works which were budgeted, and lots of money have been spent on some of them and the outturn of work is decidedly satisfactory.

22. The committee have, after some little demur, assented to the appointment of a Divisional Superintendent of road cess works in lieu of the present arrangement under which little real supervision can be exercised, and delay and loss of time are of frequent occurrence.

23. I quote below the remarks of the District Engineer on the condition of the existing roads of the district as regards repairs.

"Repairs to roads have been heavy, heavier than will be necessary after the roads have once been put in good order. All of these roads have been more or less neglected previous to their being taken up by the committee. Anything done consisted in cutting away the tail of the slope, or making a trench alongside and heaping the earth thus obtained in the crest, thus converting them into something more like a fence than a road. Until the damage thus done be made good, expenditure on road repair will be heavy."

24. Repairs to khals mostly consisted in clearing jungle and removing snags. With a small expenditure, the navigation was thus much improved, and the tendency to silt up at the same time lessened.

25. *Village communications.*—The committee have given most particular attention to this subject. A liberal grant of Rs. 45,099 was made, out of which Rs. 26,362-2-3 was spent as detailed in the accompanying accounts In not one case has any assistance been given by either villagers or landholders; the reply invariably given by petitioners being that they are too respectable to be able to work themselves, and too poor to be able to pay labourers to work for them. The people of Backergunge, indeed, have a great idea of their rights, and it would never enter into their heads to consider a grant as being anything to be obliged for, or anything else in fact than a concession of what is due to them. Though perfectly ready to ask that money shall be spent, they show a marked, very possibly a judicious, disinclination to connect themselves personally with its expenditure, the result being that in the majority of cases the work has been executed by contractors under the superintendence of the sub-divisional officers, or such members of the committee as were acquainted with the locality. Baboos Ambika Churn Guha and Behari Lal Roy specially have in this way rendered considerable assistance.

26. There is still much to be done in the way of improving village communications; but coupled with this is the necessity for instructing applicants as to what the term "village works" means, and what is the limit the committee is prepared to go to in any one instance. At present, any—the wildest—schemes have been proposed for consideration, and instances have even occurred where the villagers have refused to give the small strips of land required. I propose introducing printed forms, in which the specification to be filled in will at least cause people to be a little more moderate, as regards expense, and a little more definite, as regards the extent of the work applied for.

27. During the year under review the responsibility of branch committees was much lessened by removing from them the charge of all district works, whether as regards maintenance or construction, the reason assigned being that it led to a double system of accounts. I am not at all sure that the change is a judicious one, and I have had to modify it already in one instance which has come under my notice. It is not at all advisable that the local overseer should be led to consider himself independent of the sub-divisional officer, or that the latter should, unless he reports to me, be debarred from giving orders, though he see things being neglected or mis-managed and there is no doubt of the possibility of this being the case under the present system.

28. A great obstacle experienced in the year 1877-78, I mean the paucity of contractors, has been successfully combated during the year just over, and may be now said to have ceased to exist. When formerly all was chaos and confusion, and contractors had to be coaxed as it were, by a pernicious system of advances, we now have, thanks to the importation of a few contractors and a proper system of advertising for tenders, a brisk competition and as many as seven tenders, all backed by earnest-money for some of the works in hand. These results have been attained by proper organization, the credit for which is due to the District Engineer Mr. Glover, and in the face of a considerable reduction in the rates for earthwork. The work now is not only more economically done, but the engineering staff have more time to devote to the quality of the work, since the men tendering have had experience and do not require to be taught their trade.

29. *Superintendence.*—The committee have, as in 1877-78, had the advantage of the services of Mr. Glover who possess the qualifications of an Executive Engineer. A thoroughly hard-working and zealous employé with considerable local experience, Mr. Glover has been somewhat hardly treated by the members, a majority of whom, in a fit of economy, voted in the face of all argument and opposition a considerable reduction in his pay. Of the four overseers, one only is well-spoken of, and, what I have seen of the work of two of the remaining three, has afforded me no inducement to become their advocate.

30. Neither the Superintending or the Executive Engineer have reported the results of any inspection they may have made of the works in progress.

31. *Tree-planting.*—But little has been done or can be done in this. The berms are usually under water for some months of the year, and, except on a few of the station roads, trees would constitute rather an expensive nuisance than a necessity or an ornament.

32. *Working of the Act.*—The cess-payers are, as I before remarked, quite ready to demand some return for their money. Unfortunately their readiness does not extend to payments, as of the amount collected last year, something like two-thirds had to be got in by coercive measures. I have already addressed you at some length upon this subject, and need not therefore discuss the matter further here.

33. *Work in* 1879-80.—The committee have again determined to collect at half-rates: a decision against which perhaps there is not much to be said at present considering the large unexpended balance—the legacy of a period of inaction—we have still in hand. The question of continuing to collect at anything under full rates will, however, have to be seriously considered this year, since the estimated closing balance is a nominal one only, or a little

over Rs. 9,000. The only alternative to starve the district works, is one in favour of which it will be difficult to find a single argument.

Expected Income.

The total amount of cess on land leviable under the Act, and the income from other sources are estimated as follows:—

	Rs.	A.	P.
Demand of land-cess for the year 1879-80 at half-rate	97,099	0	0
One per cent. road-cess	1,906	0	0
Miscellaneous	7,155	8	0
Total ...	1,06,160	8	0
Estimated balance on the 1st October 1879 ...	1,00,000	0	0
Grand total ...	2,06,160	8	0

Proposed Expenditure for 1879-80.

Collection establishment	8,755	13	0
Committee's office establishment	1,899	0	0
Total ...	10,654	13	0
Original work	1,06,304	7	6
Repairs	62,754	9	0
Establishment on works	16,284	0	0
Tools and plant	900	0	0
Total ...	1,96,897	13	6
Probable balance on the 1st October 1880 ...	9,262	10	6

34. The construction and repairs of 48 roads, and the improvement and maintenance of nine khals in various parts of the district have been budgeted for, for the year 1879-80, and Rs. 31,500 have been allotted for the construction and maintenance of the village communications.

35. The committee, as concentrating their expenditure according to the instructions contained in Government circular No. 50., dated 23rd January 1879, have commenced but a small number of new original works. The determination is a sound one, since, without unduly increasing the staff, it becomes difficult to supervise more than a limited amount of work, and it is far better that those now in hand should be carefully attended to and completed.

Abstract of particulars regarding meetings of District Road Cess Committees and Branch Committees for 1878-79.

Commissionership.	District and sub-divisions.	Number of members forming committee.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting.	Number of members who attended only						Percentage of average attendance to whole committee.

Less amount of cheques charged in accounts, but not yet paid	3,925	0	10			
				89,567	8	7
Imprest in hands of District Engineer and others	.....			.....		
Net balance as per Road Cess cash-book ...	.....			89,567	8	7

Explanatory Memorandum.

(*a*).—The difference between this and the aggregate of the quarterly returns is owing to Rs. 143-6-0 on account of receipt of searching and copying fees, shown in the quarterly returns under heading "Miscellaneous receipts" being transferred to heading "Fees and forfeiture" in the annual accounts according to the newly prescribed classification of headings.

(*b*).—The expenditure of Rs. 264 (salary of clerks Rs. 250 and that of servants Rs. 14) incurred on account of cost of establishment of the Committee's office, shown in the quarterly returns under heading "Public Works establishment," has been transferred to the heading "General management" in the annual accounts under instructions contained in No. 61D, dated 6th February 1879, of the Examiner of Public Works Accounts; and the sum of Rs. 50-8-0 incurred on account of office furniture, shown in the quarterly returns under heading "Tools and plant" has been transferred to the heading "Contingency" under "General management" in the annual accounts; also Rs. 659-11-6 on account of contingent charges of the "Public Works establishment," shown in the quarterly returns under heading "Contingencies" "General management." have been transferred to "Public Works establishment" in the annual accounts. This accounts for the difference between this and the aggregate of the four quarterly returns.

(*c*).—Rs. 46-2-0 actually spent on repairs were erroneously shown in the quarterly returns under heading "Original works." This amount has now been shown under its proper heading in the annual accounts.

(*d*).—*See* explanation (*c*).
(*e*).—*See* explanation (*b*).
(*f*).— Ditto.

A. MACKIE,
Vice-Chairman.

No. 157, dated Mymensingh, the 24th December 1879.

From—N. S. ALEXANDER, ESQ., Chairman, Road Cess Committee, Mymensingh,
To—The Commissioner of the Dacca Division.

WITH reference to Bengal Government's circular order No. 4259, dated the 24th September 1872, and, under section 89 of Act X of 1871, I have the honor to submit herewith the annual accounts of receipts and expenditure of the Mymensingh District Road Fund for the cess year 1878-79, drawn up in the prescribed form and according to the instructions issued in Bengal Government's No. 173A, dated the 11th February 1878, and also circular order No. 54A of the 5th August 1879.

2. In this district the Road Cess Act, X of 1871, came into actual operation on the 1st October 1875: this report is therefore for the fourth year the Act has been in force.

3. The District Road Cess Committee consisted of 20 members, of whom five are official and 15 non-official. The following gentlemen were members during the year 1878-79, with the number of meetings attended by each of them:—

	Number of meetings attended.
1. The Magistrate and Collector of the district, Chairman, *ex-officio*	6
2. The Senior Covenanted Assistant to the Magistrate and Collector, Vice-Chairman, *ex officio*	5
3. The Executive Engineer of Dacca Division, *ex-officio* ...	3
4. The District Superintendent of Police, *ex-officio* ...	2
5. Babu Bepin Behary Mukerji, Deputy Collector ...	2
6. Maharajah of Shushong, Durgapore...	1
Carried over ...	19

		Number of meetings attended.
	Brought forward ...	19
7.	Babu Ganga Dass Guha	2
8.	,, Kashi Kishore Roy Chowdhury	2
9.	,, Keshab Chandra Acharji Chowdhury	4
10.	,, Mohim Chandra Roy Chowdhury	2
11.	,, Surja Kanth Acharji Chowdhury, Rai Bahadur ...	4
12.	,, Amrita Narrain Acharji Chowdhury	4
13.	,, Durga Dass Acharji Chowdhury	3
14.	,, Jogendro Kishore Roy Chowdhury	2
15.	Mr. T. DeDombal	6
16.	Dr. James Moorhead, Civil Surgeon	3
17.	Mr. H. L. Weathrall	1
18.	Babu Krishna Chandra Sanyal	2
19.	,, Jogendro Narrain Acharji Chowdhury	3
20.	,, Dharoni Kanth Lahiri Chowdhury	2
	Total ...	59

4. There were six meetings of the District Road Cess Committee held during the cess year under report on the following dates:—

						No. of members attended.
1st	meeting, held on the	2nd	December	1878	... ...	7
2nd	ditto, ditto	15th	March	1879	... ...	9
3rd	ditto, ditto	27th	May	,,	... ...	10
4th	ditto, ditto	26th	July	,,	... ...	7
5th	ditto, ditto	1st	September	,,	... ...	15
6th	ditto, ditto	27th	,,	,,	... ...	11
				Total	...	59

Six meetings in the year are all that can be got to be held. Most of the members live at a distance from the sudder station, Nassirabad, and if more meetings are arranged to be held, a quorum cannot be obtained. Members have been fairly punctual in attendance. Mr. T. DeDombal, Babu Surja Kanth Acharji Chowdhury, Rai Bahadur, Babu Keshab Chandra Acharji Chowdhury, Babu Durga Dass Acharji Chowdhury, Babu Amrita Narrain Acharji Chowdhury, and Babu Jogendro Narrain Acharji Chowdhury are the non-official members who have shown interest in the work and attended oftenest at the meetings. Three meetings were attended by Babu Gopal Chandra Mukerji on the part of the Executive Engineer of Dacca, but not a single meeting was attended by the Executive Engineer himself during the year. An abstract of particulars regarding the meeting of this District Road Cess Committee, as well as of the three branch committees, is herewith submitted in the prescribed form (Appendix A).

5. The following changes took place in the committee during the year. The office of the Chairman was held by Mr. R. H. Pawsey, C.S., from 1st October 1878 to 23rd January 1879, when I took over charge and held charge till the end of the year; the office of Vice-Chairman was held by Mr. G. Stevenson, C.S., the Senior Assistant Magistrate and Collector, from 1st October 1878 to 1st August 1879, when he vacated the office. There was then a short interregnum. Mr. E. B Harris, C.S., Assistant Magistrate and Collector, was elected Vice-Chairman on 1st September 1879, and took over charge on the 5th idem, and held charge till the end of the year. Under section 50 of Act X of 1871, three members, Babu Debi Dass Neogy, Babu Har Chandra Chowdhury, and Munshi Sadatali Khan, were removed from the list of members of the District Road Cess Committee, owing to their not having attended a single meeting during the year 1877-78; one member, Mr. J. D. Anderson, Assistant Magistrate, ceased to be a member owing to his transfer to another district; and four gentlemen, Dr. James Moorhead, Civil Surgeon, Mr. H. L. Weathrall, Babu Jogendra Narrain Acharji Chowdhury, and Babu Dharoni Kanth Lahiri were elected members during the year under report. For some time after the transfer of Babu Bepin Behary Mukerji, Deputy Collector, in the month of April last, the total number of members of the committee was 19 only, but two gentlemen, Babu Kali Nath Bose, Deputy Collector, in charge Road Cess, and Babu Mahendra Chandra Chowdhury, were subsequently appointed, and thus the number is now 21. The members from 5 to 14, as shown in paragraph 3, were, under section 49 of Act X of 1871, re-appointed after the expiration of their term of two years.

6. In this district there are three Branch Road Cess Committees at the sub-divisions of Atia, Kishoreganj, and Jamalpore for the construction and maintenance of village roads, bridges, &c. There is a separate set of members elected for each of the three Branch Committees, the first of which held four, the second six, and the third two, meetings. Most of the non-official members are said to have taken little or no interest in the work. Copies of the reports received from the Chairmen of the Branch Committees are herewith appended. Of these Branch Committees the first two have worked satisfactorily. The whole

three Branch Committees have had executed the works entrusted to them in a satisfactory manner, but the number of meetings held by the Jamalpore Committee can hardly be regarded as sufficient.

7. The accounts of the cess year 1878-79, from 1st October 1878 to 30th September 1879, opened with an actual cash balance of Rs. 7,318-3-5 in the treasury. Besides there were Rs. 1,720-7-6 on account of outstanding advances, which have been omitted here as per revised form lately prescribed for quarterly and annual returns (*vide* Bengal Government's resolution No. 607A, dated the 23rd May 1879; circular order No. 54A, dated 5th August 1879; and Examiner of Public Works Accounts, Bengal, No. 647D, dated 19th November 1879).

					1,40,167	2	4
The actual cash balance at the close of the year, *i.e.* on the 30th September 1879, in the Mymensingh treasury as per Road Fund accounts was					36,408	3	0

8. The estimated income or demand of the District Road Fund as per the budget estimates for the cess year under report, after excluding the demand for house cess in accordance with the Bengal Government's letter No. 99A, dated the 20th January 1879, copy of which was forwarded to this office with your No. 835½R, dated the 15th February last, was as follows:—

	Rs.
Cess on lands	1,46,167
One per cent. road cess	294
Miscellaneous	2,225
Total estimated income ...	1,48,686

The sums of Rs. 1,51,367-0-3, Rs. 288-3, and Rs. 5,526-5-10 under the different heads quoted in paragraph 7 include arrears realized during the year under report. The district road cess on lands was estimated and levied during the year at the maximum rates. The current cess year being the fifth year of the actual working of the Act in this district, a fresh valuation may, under sections 91 and 92 of the Act, be made after the expiry of the year 1879-80.

9. The percentage of collections was about 83. The free payment-in of the cess was somewhat checked by the practice hitherto in force here of the Deputy Collector in charge of the Road Cess Department first initialing all challans for road cess before its payment into the treasury. This caused delay: also the law as to the enforcement of payment of the cess was not sufficiently vigorously applied. This has, however, been remedied during the present year, and it is to be expected that the collections next year will be better. In 1877-78 the percentage of the collections was 79 only.

10. The cess on houses was discontinued from the commencement of the second half-year of the cess year 1877-78 (*i.e.* from 1st April 1877) under the authority of the Board of Revenue's No. 266A, dated 23rd April 1878. The tax caused a good deal of heart-burning and dissatisfaction: it is therefore not to be regretted. The sum of Rs. 8,962 under this head entered in the budget estimates for the year under report was under the Bengal Government's order No. 99A, dated 20th January 1879, copy of which was forwarded to this office with your No 835½R of the 15th February last, excluded from the year's estimates. The sum of Rs. 287-15 realized during the year was on account of arrears due for former years.

11. The sum of Rs. 156-14, realized on account of ferry tolls during the year and credited to the District Road Fund, was on account of arrears due for former years, such items being now no longer included in the Road Cess budget, *vide* Government order No. 358A, dated 25th April 1877.

12. The sum of Rs. 5,526-5-10 was realized and credited to the District Road Fund under the head "Miscellaneous," the estimated amount being Rs. 2,225 as entered in the budget for the year; thus a sum of Rs. 3,301-5-10 has been realized in excess of the estimate. This excess was due principally to a sum of Rs 1,800 received as contribution from Government on account of public works cess establishment, *vide* Board's letter No. 214A, dated 26th February 1879, and to Rs 605-9-4 received from the Collector of the district as a contribution from Government from the Estates Improvement Fund, and Rs. 864 realized as process fees in addition to the amount that was expected to be realized.

13. The table given below shows the percentage of both the establishment for collection of the tax and carrying out the various works:—

	Total outlay during the year.	Total cost of establishment, both collection and working.	Percentage.	Total income under District Road Cess Act during the year.	Total cost of establishment for collection of revenue with contingencies.	Percentage.	Total expenditure on works.	Total cost of establishment on works.	Percentage.
	Rs.	Rs.		Rs.	Rs.		Rs.	Rs.	
Actual cost	1,29,495	20,036	15·47	1,57,556	6,086	3 86	1,09,047	13,950	12·79

The expenditure incurred on account of the establishment for the collection of the tax and for carrying out the various works was, inclusive of the cost of printing at private presses and contingent charges, Rs. 20,036. The percentage on the total of Rs. 1,29,495 was 15·47, a good deal less than the percentage shown during the previous year, which was 20·42, and considerably less than the maximum percentage of 25 allowed under section 64 of Act X of 1871. This was owing chiefly to the decrease in the amount of salary paid to the Engineer who acted during the absence of Mr. DeDombal, and after his death, the substantive appointment not being filled up till November 1879, the Committee resolved to give the acting Engineer, Babu Asutosh Lahiri, a trial to see if he was fit for permanent employment as the District Engineer. Babu Asutosh Lahiri officiated as Engineer from 3rd June to 17th November 1879, on two-thirds of the full salary.

Original works.

14. The expenditure under the head of "Original works" amounted to the sum of Rs. 63,786-8 during the year under report. Of the works undertaken, the following were the most important:—

	Rs.	A.	P.
(a)—Constructing the road from Madhupore to Tangail	9,426	10	0
(b)—Constructing the road from Ramgopalpore to Ishwarganj	2,413	12	9
(c)—Widening the road from Mymensingh to Jamalpore	2,734	6	6
(d)—Widening the road from Jamalpore to Suburnacolly	6,192	2	0
(e)—Widening of road from Hussenpore to Kishoreganj	5,606	5	9
(f)—Widening the road from Kishoreganj to Katiadi	4,837	10	6
(g)—Widening the road from Katiadi to Nickli ...	4,281	14	9
(h)—Metalling part of the Durgapore road at Shambhuganj	3,583	6	3
(i)—Metalling three miles of the Suburnacolly road from Ayman to Montolla	5,509	14	6

The estimates for the roads abovementioned have been sanctioned, except those marked *(c)* and *(f)*, of which the estimates have been submitted for sanction, and those

marked (*a*) and (*d*), which are under preparation. The details for other works of a less important character have been given in the accompaning accounts. As regards the works marked (*a*), (*c*), (*d*), (*f*), and (*g*), I regret that work had to be done on them, but they were commenced in former years. and to have stopped the work suddenly in the present year would have entailed great loss, and I had therefore reluctantly to consent to the work being carried on to a certain extent.

15. *Constructing the road No.* 11 *from Madhupore to Tangail.*—This road starts from the 28th mile of road No. 1, that from Nassirabad to Suburnacolly. This road will connect the important sub-division of Atia with the head-quarters at Nassirabad. The length of the road is 29 miles. The work was commenced in the year 1874-75. The aggregate expenditure incurred up to the close of the year has been Rs. 1,09,182-10-9, of which Rs. 9,426-10 only were expended during the year under report. The work carried out during the present year has been the levelling and dressing of 20 miles of the earthwork, the erection of new timber bridges, and the putting of hand rails to bridges already erected, and the maintenance of five ferries at places where the road was breached by the heavy floods of 1878-79.

16. *Constructing the road from Ramgopalpore to Ishwarganj.*—This road is a portion of road No. 12 from Ramgopalpore to Kishoregunge, one of the sub-divisions of this district. The length of this road is about 4¼ miles. The cost of this work, amounting to Rs. 9,632, has been sanctioned. The aggregate expenditure incurred up to date has been Rs. 8,470-7, of which Rs. 2,413-12-9 were expended during the year under report. The work done during the year was fresh earthwork; the erection of timber bridges, hand-rails to bridges, and levelling and dressing three miles of the new earthwork. The road is nearly completed: some wing-walls to several bridges and dressing earthwork are all that are now required.

17. *Widening road No.* 2 *from Mymensingh to Jamalpore.*—This road is 34 miles in length. Jamalpore is one of the sub-divisions of this district. This work was commenced in the year 1876-77: up to date it has cost Rs. 15,373-1-6, of which the expenditure during the year was Rs. 2,734-6-6. The work done during the year under report was principally fresh earthwork, the erection of four timber bridges, and levelling and dressing the earthwork.

18. *Widening the roads Nos.* 3 *and* 9 *from Jamalpore to Bowshibangali and thence to Suburnacolly.*—The length of these two roads is 32 miles. Both these roads are entered under one head as "Jamalpore to Suburnacolly." This work has up to date cost Rs. 28,791-6-6, of which Rs. 6,192-2 were expended during the year under report chiefly on fresh earthwork, erection of three timber bridges, keeping up a ferry, and clearing jungle and levelling and dressing earthwork.

19. *Widening the road No.* 8 *from Hussenpore to Kishoreganj.*—This road is nine miles in length. The cost of this road, amounting to Rs. 17,464, has lately been sanctioned by Government. This work has up to the end of the year cost Rs. 5,992-11-9, the expenditure during the year under report being Rs. 5,606-5-9, the work done being principally fresh earthwork and the erection of seven timber bridges. This work being now finally sanctioned will be vigorously pushed on.

20. *Widening road No.* 29 *from Kishoreganj to Katiadi.*—The length of this road is a little more than 15 miles. The cost of completion will amount to Rs. 25,839. The project has lately been submitted for sanction. The work was commenced in the year 1876-77, and has up to date cost Rs. 14,224-4-9, of which Rs. 4,837-10-6 were expended during the year under report, the work done being principally fresh earthwork, the erection of three timber bridges, jungle-cutting and clearing, levelling, and dressing earthwork.

21. *Widening road No.* 31 *from Katiadi to Nickli.*—This road is about eight miles in length. The cost of this work, amounting to Rs. 13,057, has lately been sanctioned by Government. The work was commenced in the year 1876-77, and has up to date cost Rs. 10,794-11-3, of which Rs. 4,281-14-9 were expended during the year under report, the work done during the year being principally fresh earthwork, the erection of three timber bridges, jungle-clearing, and surface-levelling and dressing.

22. *Metalling part of the Durgapore road near Shambhuganj* —The cost of this work, amounting to Rs. 16,858, has been sanctioned by Government The work was commenced in the year 1876-77, and has up to date cost Rs. 6,265-14-3, the expenditure during the year being Rs. 3,583-6-3 chiefly on bricks for soling and foundation of the metalling.

23. *Metalling three miles of the Suburnacolly road.*—This part of the road extends from Ayman to Moutolla. The estimate for this work has been sanctioned, and it was commenced during the year under report. The amount spent on this work was Rs. 5,509-14-6.

24. The following shows the amount expended on village roads in the four sub-divisions of this district:—

	Amount estimated.	Amount expended.		
	Rs.	Rs.	A.	P.
Sudder sub-divisional village roads as per details in the accounts	8,153	7,782	12	9
Atia ditto ditto	3,000	3,000	0	0
Kishoreganj ditto ditto	3,000	2,999	15	0
Jamalpore ditto ditto	3,000	2,800	0	0
Total ...	17,153	16,582	11	9

I have not had an opportunity yet of judging how far such works are needed in this district, but in the much smaller district of Tipperah we expended about Rs. 80,000 annually, and such works were most popular. In this district there is not such a demand for village roads as in Tipperah: the lands are higher here and there are plenty of footpaths. Carts are very little used, pack ponies and bullocks being most in request for carrying rice and other grain.

25. The original works to be undertaken in the district were not sufficiently pushed on, owing chiefly to the ill-health of the late District Engineer, Mr. M. E. DeDombal. This gentleman was ill during nearly the whole of the first half of the year: he then had to go on leave on medical certificate, getting half pay. During his absence it was extremely difficult to get an acting Engineer for the small salary of Rs. 250 per mensem, all that the Committee could offer. Half of the cess year had nearly elapsed before an acting Engineer could be obtained. This has caused a great deal of delay in the preparation and submission of the many plans and estimates for original works. No bricks either were burnt in December and January as they should have been.

26. The substantive Engineer, Mr. M. E. DeDombal, died on the 19th July 1879. He had taken sick leave from 6th March 1879. Babu Asutosh Lahiri, B.C.E., who was appointed to act for Mr. M. E. DeDombal, joined on the 3rd June 1879, and remained in charge till the end of the year. Mr. M. E. DeDombal's work I saw nothing of, as he was seriously ill when I took over charge of the office of Chairman, and he went on leave shortly afterwards. I cannot say, however, that I think he was more than an ordinary Engineer. His plans and estimates were returned several times by the Superintending Engineer, and he does not appear to have been of sufficiently active habits for an Engineer in such a large district as Mymensingh. Babu Asutosh Lahiri, B.C.E., the acting Engineer, was energetic and hardworking, but lacked experience and was altogether too young and inexperienced for the post of Engineer in a large and important district like this.

27. Under the recommendation of the Commissioner of the Division, the salary of the District Engeneer has been reduced to Rs. 400 per mensem. I am doubtful of the expediency of such a reduction. Indeed, I think, considering the annual income to be expended and the size and importance of the various works to be undertaken, the salary previously given, *viz.* Rs. 500 per mensem, was not a bit too high. Indeed, in but few districts in Bengal, except very small ones, is the salary of the Engineer so small. In most districts of the size of Mymensingh the salary fixed is from Rs. 600 to Rs. 800 per mensem. Economy in the salary of the Engineer generally, I am of opinion, results in inferior work and less real saving in the long run.

28. The Bengal Government have resolved to appoint a Divisional Superintendent of District Road Fund Works for the Dacca Division, who will act under the immediate control of the Commissioner of the Division. New projects for works will not now take so long a time to get sanctioned as has been heretofore the case, as our contribution towards the Superintending Engineer's salary, a sum of Rs. 7,600, has been provided for in the current year's budget estimates. This proposal, I doubt not, will be a great improvement and lead to a stricter and more frequent inspection of the works undertaken by the District Road Cess Committee. Major R. G. Smith, R.E., Superintending Engineer of the North-Eastern Circle, Public Works Department, recently came here to inspect this district (both Public Works buildings and district roads), but no inspection of the district roads could have been made by him. An inspection by such a professional superior should now and then be made.

Repair works.

29. The following will show the detail of repair works:—

		Rs.	A.	P.
(a)—Road from Madhupore to Tangail ...	...	17,861	12	9
(b)—Do. from Mymensingh to Suburnacolly	...	11,078	3	9
(c)—Do. from Shambhuganj to Durgapore	...	4,475	6	0
(d)—Do. from Mymensingh to Ramgopalpore and Gouripore	...	4,293	1	0
(e)—Do. from Mymensingh to Toki ...	...	1,527	14	9
(f)—Do. from Shamganj to Netrokona	...	573	11	0
(g)—Do. from Mymensingh to Daponia	...	350	11	0
(h)—Do. from Jamalpore to Shearpore	...	264	0	0
(i)—Do. from Jail Hospital to Distillery	...	3,650	13	0
(j)—Repairs to metalling part of the Suburnacolly road		1,089	15	0
(k)— Ditto to metalling part of the Toki road	...	95	3	0
Total	...	45,260	11	3

Of these, the most important and on which the heavist sums were spent during the year under report were on the roads *(a)* and *(b)*, Madhupore to Tangail and Mymensingh to Suburnacolly. Many of the district roads were seriously damaged by the floods in the year 1878, and it has been impossible even yet to repair some of the large bridges carried away, specially that at Nobogram on the Nassirabad to Suburnacolly road (*vide* paragraph 13 of last year's report). This will account for the large amount expended on repairs only—more than double that expended last year.

30. The accounts of the year were audited, as required by section 88 of Act X of 1871, by the Vice-Chairman and the following three members of the Committee, *viz.* Mr. T. DeDombal, Dr. James Moorhead, and Babu Ganga Dass Guha, and a copy of their report is appended. The accounts of the District Road Committee and District Engineer's offices were examined by Mr. Alexander Wilson, Deputy Examiner of Public Works Accounts, Bengal, on the 9th August 1879, who noted that "the books of both offices are written up by the accountant Babu Manick Chand Bysack, who, from the excellent order in which the office was found, appears to understand his work well and to perform it satisfactorily." The District Engineer's office has been separated from that of the Committee with effect from 1st October 1879.

31. As regards the working of the road cess system, it may now be said to have become a regular settled institution, and is, I think, fairly popular with all parties. Certainly there are no grumblings against it. The people generally are aware that the proceeds of the cess are properly expended locally and that they get their money's worth. The Act has been in full force in the district for four years now, and I hear none of those complaints about its enforcement that it was prophesied there would be when the law was about first to be brought into operation

32. This report is a supplementary one to that which was submitted in a brief preliminary form with this office No. 277R, dated the 20th June 1879, in which all the works in progress during the first eight months of the past year have been stated in detail, as required in paragraph 3 of the circular order No. 50, dated 23rd July 1873. It will be unnecessary to detail here again all the works approved of by you for execution, as per budget and supplementary estimates for the current cess year 1879-80 by your letters Nos. 396R, 483R, and 39R, dated the 21st August, 13th September, and 17th October 1879 respectively.

33. The chief object the Committee have in view for the year 1879-80 is to get the Nassirabad to Suburnacolly road into thorough order, so as to admit of its being travelled on throughout the year uninterruptedly. To effect this will cost a considerable sum of money, but this line of communication is of the utmost importance, as it will bring the district into more direct communication with the steam traffic on the river Jamuna and so with the outer world. At present Mymensingh has to depend almost entirely on country boats for passage and traffic to Goalundo or Serajganj.

34. In conclusion, I have to state that Babu Khettra Nath Banerji, head overseer, has done well during the year. At a pinch he can act as District Engineer. Babu Manick Chand Bysack, head clerk and accountant, has also done very efficient work.

Dated Mymensingh, the 15th November 1879.

From—E. B. HARRIS, Esq., and others Members of the Road Cess Sub-Committee,
To—The Chairman of the District Road Cess Committee.

AGREEABLY to paragraph 3 of the resolutions of the District Road Cess Committee held on the 4th instant, we, the undersigned members of the Road Cess Sub-committee appointed, as required under section 88 of Act X of 1871, to audit the accounts of the Road Fund for the cess year 1878-79, have the honor to report that a meeting for the purpose was held on the 12th current, and that the accounts were examined and passed by us as they were found all correct.

No. 5, dated Kishoreganj, the 15th November 1879.

From—BABOO KHETRO GOPAUL RAI, Chairman, Branch Road Cess Committee, Kishoreganj,
To—The Chairman of the District Road Cess Committee, Mymensingh.

IN reply to your memorandum No. 51 of the 5th instant, I have the honor to submit herewith a report on the condition, construction, and repair of the roads and culverts, and the workings and sittings of the Branch Road Cess Committee, together with all other particulars concerning the same of this sub-division, during the cess year ending 30th September 1879.

I.—The following sum was available for expenditure during the year under report :—

	Rs.	A.	P.
Balance of the last year	.....		
Allotted during the year	3,000	0	0
Total ...	3,000	0	0
Amount expended during the cess year	2,999	15	0
Balance at the end of the year lapsed to Government ...	0	1	0
Total ...	3,000	0	0

The unexpended sum of one anna, as shown above, is in the hand of the Vice-Chairman.

II.—During the year under report the above sum of Rs. 2,999-15 was expended in the construction and reparation of the undermentioned roads and culverts :—

Repairs.

	Rs.	A.	P.
1.—Repair of the old existing road from Bowlai to Karimganj bazar, the largest market in the sub-division ..	510	0	0
2.—Gochihata to Dhuldia bazar	200	0	0
3.—Achmita village road	97	4	0
4.—Barapara road	200	0	0
5.—Beytal to Achmita road	93	9	0
6.—Lackhia village road	60	0	0

Construction.

7.—Extension of the road from Makertis bazar towards Dhuldia bazar : an important road joining two great marts with Kishoreganj	496	10	0
8.—Banagram to Gochihata	200	0	0
9.—Extension of the road from Kanatengar to Nilganj bazar, joining the last market with Kishoreganj bazar	299	0	0
10.—Village road from Banagram to Kotatoli	49	8	0
11.— Ditto of Kakoirdia to Junglebari	99	0	0
12.—Gangatia to Hussenpore	200	0	0
13.—Six wooden culverts on the road from Makertis bazar to Dhuldia	260	0	0
14.—Four wooden bridges on the road from Kanatengar to Nilganj	235	0	0
Total ...	2,999	15	0

III.—The above works were all executed by contracts given to good practical men. For earthwork a rate at Rs. 3 per 1,000 cubic feet including dressing, was allowed, and a suitable lump sum for each wooden culvert. I can venture to say that all these works were done at the cheapest rates possible and with much economy. The money was always paid to the contractors after obtaining good scrutiny, and the whole sum was paid down after carefully testing the works done. I beg to say that all these works were regularly supervised and examined by the Vice-Chairman, while I myself only supervised and tested the principal ones and those that fell in my way in the course of my winter tours. Thus you will see that even the pettiest works have been thoroughly and carefully supervised, the whole sum allotted has been utilized to the best advantage, and the works were all done very satisfactorily.

The new roads were chosen after consultation with the members of the Branch Committee and other gentlemen including landholders and traders, and I am happy to say that, by this annual extension and increase of roads, communication is gradually becoming easier much to the pleasure and comfort of the agricultural and trading community.

Many a villager in some cases gladly co-operated with the contractors for executing the roads with much more haste and in a better style. A few private gentlemen also here and there supplied funds from their own pockets over and above the allotment for the further extension of those roads Instances have also occurred when some people voluntarily offerred their services gratis on the event of there being no funds available to join a new road with an existing one. All talukdars and landholders most gladly gave up lands for the construction of the roads without the least murmuring. From all these it is apparent that the people of this sub-division consider the road cess for their benefit only, and the present system is fully and very much appreciated by them. The only thing the people grumble at is the scantiness of the allotment to this sub-division. Though the annual grant is being increased from year to year, it is very difficult to satisfy all their wishes for new roads and bridges in a single year. Every year people flock in great numbers with petitions for new roads and canals, and this is another proof that this principle is fully appreciated by them. In fact it seems to me that this sub-division is very backward in this respect. A great many roads are really wanted for the facility of internal traffic as the use of boats, owing to the want of a good number of navigable canals and rivers in the interior of this sub-division, is thoroughly impossible and impracticable. This want can only be supplemented by a good many roads joining the principal markets with each other wherever feasible, and this has been one principal aim. I trust that the District Committee shall on future occasions keep this fact in view and be pleased to allot a sufficient amount to this Committee to enable it to remove the complaints as much as practicable. In my humble opinion, if a sum of Rs. 6,000 be allotted to this Committee over and over, at least four years to come, a great improvement might be effected. It is a great pity that in this district sub divisional officers are not appointed *ex-officio* members of the District Committee. If I were a member of the District Committee, as a matter of course I could have urged the interests of the people of this sub-division, and could have laid the whole matter before the District Committee much more fully and would have secured a larger grant if necessary. I know that in the Presidency Division all sub divisional

officers are *ex-officio* members of the District Committee. I would therefore request you to take this suggestion into your favourable consideration.

IV.—There were six meetings in this cess year against three of the previous year, and am I happy to say that in all but one occasion a quorum was formed.

The average attendance and the number of meetings are more satisfactory than the previous year. The members residing close to the sub-division and the official members only take lively interest in the welfare and well-being of this matter. Among the non-official members, only Babu Radha Churn Rai attended regularly, took a great interest in the work, and rendered valuable assistance to the Committee. Of the rest, Moulvi Ismail and Shaik Kholilullah did not attend a single meeting since their nomination, and Shaik Mahomed Isahag died just at the beginning of the year, consequently the Committee was compelled to strike off their names from the list of members. Their places have, however, since been filled up by more active and proper persons, who are expected to take a great interest in the matter. Babu Krishna Mongol Mozumdar could not attend any meeting owing to ill-health, but as he is a good cultivator and an honest man and gave much assistance to the Committee in former years, his name has been kept. Meetings were regularly called on by timely and public notice. The average number of members present in each meeting was five, and more than this can scarcely be expected.

V.—The following statement will exhibit the number of meetings held during the year under report:—

Commissionership.	District.	Number of members forming Committee.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting.	Number of members who attended only—						Percentage of average attendance to the whole Committee.

No. 31, dated Tangail, the 26th November 1879.

From—BABU BRAJA KANTA ROY, Chairman, Branch Road Cess Committe, Atia,

To—The Chairman, Road Cess Committee, Mymensingh.

WITH reference to your No. 49, dated the 5th instant, I have the honor to submit a brief report on the village road works executed during the cess year 1878-79.

2. The subjoined table shows the names of the members of the Branch Road Cess Committee, the number of sittings during the year, and their attendance :—

Number.	Names of members.		Number of meetings attended.	Number at which attended.
1.	Sub-divisional Officer, *Chairman*		4	...
2.	Ishan Chandra Bhattacharya, *Vice-Chairman*		3	1
3.	Guru Dayal Das Gupta	*Members.*	4	...
4.	Chandra Mohan Roy		1	3
5.	Gopi Mohan Guha		2	2
6.	Abdul Jabbar Chaudhri		1	3
7.	Bhagwan Chandra Roy		2	2
8.	Sharada Gobinda Mozumdar		...	4
9.	Ramani Mohun Niogi		...	4

3. The object of the first meeting was to settle what roads were to be repaired in 1878-79 and what amounts to be allotted to each road. A second meeting was held as per Chairman's No. 13R, dated 29th October 1878, to charge the allotment. A third meeting was held to settle what roads and bridges were to be constructed and repaired and what amount to be allotted to each work for 1879-80, the amount sanctioned for the year being Rs. 5,000; but it having been directed by the Chairman's letter No. 364R, dated 30th July 1879, to submit a revised statement of works at a reduced scale of Rs 4,000 instead of Rs. 5,000, a fourth meeting was held and statements submitted accordingly.

4. Babus Sharada Gobinda Mozumdar and Ramani Mohun Niogi did not attend any meeting, they being absent from home. The other members did their duty satisfactorily, specially Babu Guru Dayal Das Gupta, who attended all the meetings, and Babu Ishan Chandra Bhattacharya, Vice-Chairman, who attended three meetings.

5. The following statement shows the expenditure on roads and culverts :—

		Miles.	Rs.
1.	Roads from Jamorki to Sharatail	2	200
2.	Ditto Santosh to Porabari	...	625
3.	Ditto Tangail to Putiajani	2½	670
4.	Ditto Ashakpur to Karatia	1½	430
5.	Ditto Kaijuri to Pathrail	½	100
6.	Ditto Golabari to Bhattabari	¼	50
7.	Ditto Ellinga to Baniabari	¼	50
8.	Ditto Bethoir to main road	1	125
9.	Ditto Garail branch road	1	200
10.	Road from the Tangail main road to Gharinda ...	2	425
	Repair of Bathuli road	...	75
	Ditto Ellinga to Moshajan	...	50
	Total ...	...	3,000

6. The works done were carefully considered in the Committee and lines laid out and supervised by myself, Sub-Deputy Collector, and circle officer (late Sub-Deputy Collector) and the head clerk, and the works of the contractor tested by the Sub-Deputy Magistrate, head clerk, and nazir. The contractor was paid Rs. 3 per 1,000 cubic feet, all sorts of expenses being borne by him. The contractor, Gopal Gobinda Biswas, has done the works to my satisfaction.

7. The lines of communication have been greatly improved this year. A number of useful village roads have been undertaken with success. The road from Tangail to Porabari is a very desirable and useful one, because Porabari is the landing ghât of this part of the district. The earthwork of this road is completed, but it requires to be bridged over in two or three places, and it will require an expenditure of about Rs. 1,500, which amount can scarcely be met with from the short amount that is being sanctioned annually from the Road Cess Fund for the construction of village roads in this sub-division. A special grant for the purpose is urgently required. As soon as this road will be finished for cart traffic, Porabari will begin to rise, and it may turn out an important mart, and the sub-division may thereby derive great advantage. The rivers surrounding the sub-division are only navigable during the rains. I am led to believe that people who are deriving the advantage of communications consider it a great boon.

No. 257, dated Jamalpore, the 7th December 1879.

From—T. A. DONOUGH, ESQ., Chairman of the Jamalpore Branch Road Cess Committee,

To—The Chairman of the District Road Cess Committee, Mymensingh.

I BEG to report, with reference to your memorandum No. 91, dated 24th ultimo, that the work of the village roads last year was all done by contract, but, from want of proper supervision, it was not done to my satisfaction. The measure of appointing a road overseer to look after the work during the ensuing season was proposed to, and adopted by, the Jamalpore Branch Road Cess Committee at its last sitting, and a copy of the proceedings in which the proposal was embodied was sent to you and sanctioned in full by the Commissioner of the Division. I intend therefore appointing an overseer and expect that the village road work will be done properly this season.

2. The construction of village roads is much appreciated by the people.

Appendix A.

MYMENSINGH DISTRICT ROAD FUND.

Abstract of Particulars regarding Meetings of District Road Committees for the cess year 1879-79.

Commissionership	District	Number of members forming Committee		Number required to form a Quorum.	Number of meetings held	Meetings at which there was no quorum. E. W. HARRIS,

Vice-Chairman, Road Cess Committee. *Chairman, Road Cess Committee.*

No. 235R.C., dated Commillah, the 16th January 1880.

From—F. JONES, Esq., Chairman of the District Road Cess Committee, Tipperah,

To—The Commissioner of the Dacca Division.

I HAVE the honor to submit the following report on the road cess administration of this district during the cess-year ending 30th September 1879, together with a copy of the annual accounts for 1878-79 as prepared and passed in accordance with section 88 of Act X (B.C.) of 1871. The annual accounts have been prepared in the revised forms prescribed by the Bengal Government circular No. 54A, of the 5th August last. Duplicate copies of the accounts have been submitted to the Examiner of Public Works Accounts, Bengal, with this office No. 111R, of 29th November 1879.

2. *Committees.*—The following gentlemen were members of the district committee for the cess-year under review:—

1.	The Magistrate and Collector of Tipperah ...	*Chairman*, ex-officio.
2.	The Joint-Magistrate and Deputy Collector ...	*Members* (*Vice-Chairman*).
3.	The Executive Engineer of Dacca ...	
4.	The Road Cess Deputy Collector ...	
5.	The District Superintendent of Police ...	
6.	Mr. E. DeLanney	
7.	„ H. M. Weathrall	
8.	„ J. C. S. Larminie	
9.	„ G. R. Clarke	
10.	Baboo Bhayrub Chunder Chatterjee ...	
11.	„ Shib Chundra Aich	
12.	„ Ramdolal Roy	
13.	„ Nobeen Chundra Mookerjee ...	
14.	„ Kali Krishna Chowdry	
15.	„ Sharada Charan Mookerjee ...	
16.	„ Taruk Chundra Singh	
17.	„ Uma Lochan Mozoomdar	
18.	Chowdhry Mahomed Gazi	
19.	„ Yusaf Ali	
20.	Munshi Ali Karim	
21.	Moulvi Ashruffuddin	

The changes in the committee during the year were—

Mr. H. M. Weathrall, Baboos Nobeen Chundra Mookerjee, Sharada Charan Mookerjee, and Bhayrub Chunder Chatterjee were respectively appointed in the place of Mr. H. C. Weathrall, Baboos Harish Chundra Bose, Nobin Chundra Sen, Khettra Nath Bhattacharjee, and Ananda Gopal Sen.

The period for which the following members were appointed having expired in January last, they were re-appointed :—

Mr. E. DeLanney.
Baboo Shib Chundra Aich.
„ Ramdolal Roy.
Chowdhry Yusaf Ali.
„ Mahomed Gazi.
Baboo Uma Lochan Mozoomdar.
„ Taruk Chundra Singh.
Munshi Ali Karim.

Owing to the establishment of a sub-division at Chandpore, the branch committee of Nursingpore was abolished, and in its place a branch committee was appointed at Chandpore by Bengal Government's order No. 4558A., dated 18th October 1878, and the Deputy Magistrate and Deputy Collector was made the Chairman of the branch committee.

3. *Committee meetings.*—There were seven general meetings held during the year, of which one was adjourned for want of a quorum. The following are the names of the members who exhibited the greatest interest in the work of the committee :—

Mr. G. R. Clarke.
„ H. M. Weathrall.
Baboo Bhayrub Chunder Chatterjee.

4. The annexed table gives an abstract of the attendance of members at the meetings of the district and sub-divisional branch committees for the year under review.

The following members did not attend any meetings of the committee :—

The Executive Engineer of Dacca.
Chowdhry Yusaf Ali.
„ Mahomed Gazi.
Baboo Kali Krishna Chowdhry.

As the three last-named are gentlemen possessing extensive zemindaries in a part of the district at a considerable distance from Commillah, it is hardly to be expected that they should attend every meeting. They have, however, been informed that, unless they attend several of the meetings during the current year, they will have to be removed from their appointments.

The following table will show the result of percentage of average attendance of members at the district road cess committee as well as the branch committees during the last three years :—

Names of committees.	Percentage of average attendance to whole committee.		
	1876-77.	1877-78.	1878-79.
The District road cess committee	36·5	38 09	33·33
The Brahmunberia branch committee	43 7	47·36	42·1
The Chandpore ditto	57·1	40 74	39 13
The Muradnagore ditto	47·6	36 36	36 36
The Chowdogram ditto	68·1	50	55·55

The above mentioned statement will show that the attendance of members at the district committee during the last cess-year was not quite so good as in the previous years. The same remark applies to the Brahmunberia, Chandpore, and Muradnagore branch committees; but the attendance of members was fair at the meetings of the Chowdogram branch committee.

The Chairman of the branch committee of Brahmunberia states that the members generally took little interest in the operations. The Chairman of the Chandpore branch committee reports that the members of the branch committee, with three exceptions, namely, Baboos Deno Nath Banerjea, Nobin Chundra Chuckerbutty, and Sadhu Dewan evinced a fair amount of interest in their work.

5. *Sub-committee's report on the examination of the annual accounts.*—The sub-committee appointed for the purpose of examining and auditing the accounts for the year, under section 88 of the Act, consisted, with the Vice-Chairman, of four members. The following is a copy of their report :—

"At a meeting of the sub-committee held on the 27th instant, in accordance with paragraph 7 of the proceedings of the meeting of the district road cess committee held on the 5th September last, the following members were present :—

G. R. Clarke, Esq. ... ... } *Members*
E. DeLanney, Esq. ... ... }
H. M. Weathrall, Esq. ... ... }
Baboo Bhayrub Chunder Chatterjee. *Vice-Chairman* . }

(1) In consequence of the illness of Baboo Camdolal Roy, Mr. E. DeLanney was selected to examine the accounts along with the other members present.

(2) The cash-book, pass-book for the months of August and September last were examined with reference to the cheques and vouchers issued during the months above alluded to. They were found correct. The cash balances remaining at the end of these months were also found correct.

(3) The sub-committee does not think it necessary to re-examine the monthly accounts from October 1878 to July 1879, as they have been examined by eight sub-committees previously appointed by the district committee from time to time. It is creditable to Baboo Mohendra Lal Mookerjee, head clerk and accountant, that the accounts are uniformly kept in a very systematic and correct manner.

(4) The annual accounts for the cess-year 1878-79 were examined and found correct. It was resolved to lay the accounts with the proceedings of the sub-committee before the meeting of the district road cess committee notified to be held on the 29th instant.

G. CLARKE.
B. C. CHATTERJEE, *Vice-Chairman.*
H. M. WEATHRALL.
E. DELANNEY.
} *Members.*

COMMILLAH,
The 27th September 1879.

Mr. Alexander Wilson, Deputy Examiner of Public Works Accounts, Bengal, in the month of August last, inspected the offices of district road cess committee, and that of the District Engineer, and found that all the points noted at last inspection had received due attention, and that the prescribed registers had been properly and correctly kept.

ORIGINAL WORK.

6. On the portion of the Brahmunberia road from Chandpore to Nayanpore the remaining portion of the earthwork was completed, and three bridges were completely constructed, whilst four others were partly constructed as detailed below :—

Bridge No. 15 *at Kakdi on the* 8*th mile.*—Masonry finished; plastering remaining.

Bridge No. 19 *at Singjury on the* 11*th mile.*—The work on this bridge was stopped owing to the Superintending Engineer requiring greater waterway to be provided. Another estimate, embracing this and other improvements to this road ordered by him, is in course of preparation by the District Engineer. This estimate will be shortly submitted; meantime traffic is kept open by a temporary roadway alongside the bridge.

Bridge No. 24 *at Harimangal on the* 13*th mile.*—This bridge is unfinished owing to an accident during its construction, the late overseer, Baboo Taruck Chundra Gupta, having acted carelessly in lowering the centre of one arch before the other arch was constructed. This matter was laid before the district committee who appointed a sub-committee consisting of the Vice-Chairman and Messrs. G. R. Clarke and H. M. Weathrall to enquire into the case. The sub-committee found fault principally with the overseer and the petty contractor, and the matter has already been reported to you in this office No. 76R, of 20th November 1879. The work of reconstruction of the injured parts of the bridge has been taken up, and in the meantime traffic is provided for by a temporary side road.

Bridge No. 28 *at Shosidal on the* 15*th mile*—was completed with the exception of the arch. This would have been finished, had it not been for the weak centering put up for it by the late overseer which had to be removed. The work is going on and will be shortly finished.

(*b*) Completion of the *Kalirbazar road* with masonry culverts. This work is finished and the road opened for its whole length.

(*c*) Construction of the *Agortolla road* from Kusba towards Agortolla—9¾ miles long. The sanction to the estimate was received late in the working season, and as much earthwork has not been done as would have been the case if it had come earlier; but considerable progress has been made in the collection of materials, iron, wood and lime for the bridging. The earthwork could only be done in such places as were highest, and therefore longest free from flood water; the total amount so constructed being equivalent to about two miles of road. All the materials for bridging, with the exception of bricks, have been collected during the past year, and a good supply of firewood for burning bricks also. The total expenditure on this work during the year was Rs. 7,751-8-3.

(*d*) Improvement of the *Modafergunge to Nurrsingpore road* (Chandpore sub-divisional Road). The estimate sanctioned for the work was for Rs. 3,079. This work was let out under a general contract in the month of March last. The contractor failed in the execution of his work and has had to forfeit a part of his security. The total value of the work done by him under his contract was only Rs. 398 on account of earthwork and temporary bridges; but work to the extent of a further sum of Rs. 545 was carried out by small piece-workers at the end of the season. As a regular project has been since submitted for raising, widening, and bridging the road, no further work will be done under the original estimate for Rs. 3,079.

(*e*) *Construction of masonry boundary pillars*—for the road from Commillah to Arybary. It was found that cultivators were in the habit of ploughing up the slopes of the road, and these pillars were put up to mark out clearly the land belonging to the road cess committee. The pillars were all built during the year under report, but some little work remained to be done to them which will be carried out in the current cess-year 1879-80.

(*f*) Rupees 185-5 were spent in payment of compensation to the Maharajah of Hill Tipperah for lands taken up for the district road cess office bungalow and compound attached to it.

(*g*) A sum of Rs 21,998-4-11 was expended in the construction and improvement of 124 village roads and 43 khals under the five committees mentioned below :—

		Rs.	A.	P.
The District road cess committee ...	32 village roads 2 do. khals	8,229	14	11
The Brahmunberia branch road cess committee	33 do roads 17 do. khals	3,763	1	0
The Chandpore branch road cess committee	42 do. roads 16 do. khals	3,898	0	0
The Muradnagar branch road cess committee	9 do. roads 7 do. khals	3,656	6	0
The Chowdogram branch road cess committee	8 do. roads 1 do. khal	2,450	15	0
Total ...	124 village roads 42 do. khals	21,998	4	11

The total length of village roads either entirely new or improvements of existing tracks under the central committee is nearly 60 miles.

The estimate for expenditure on village road works for the present cess-year 1879-80, as compared with that of the year under report, is somewhat lower. This reduction in the sum allotted to these works has been made with the view of concentrating the expenditure on large original works on which early outlay is most urgently required in accordance with the Bengal Government's circular order No. 5C, of the 23rd January 1879.

The District Engineer spent Rs. 8,229-14-11 out of Rs. 8,542 allotted for village roads under the sudder committee. There was a local contribution of Rs. 157. The Brahmanberia branch committee expended Rs. 3,763-1 out of Rs. 4,000 budgeted for the works. The allotment was supplemented with local contributions of Rs. 1,647-4-9. The Chandpore branch committee spent Rs. 3,898 out of Rs. 4,000 sanctioned for the works; the villagers contributed Rs. 366-8.

The Muradnagar branch committee spent Rs. 3,656-6 out of an allotment of Rs. 3,988 which was supplemented with local contributions of Rs. 449-15-6.

The Chowdogram branch committee expended Rs. 2,450-15 in the village road works out of Rs. 2,500 allotted for 1878-79. There was no local subscription paid by the villagers.

7. *Repairs.*—The following are the most important roads that are included under the head of maintenance.

Brahmanberia road.—The work on this road consisted chiefly of surface repairs and repairs to slopes and bamboo bridges. The length of the road is 40 miles from Commillah ferry ghât to Brahmanberia, and in that length a total of 1,293 running feet of bamboo bridges had to be made and kept up at a cost of Rs. 836. This is a very heavy yearly expenditure (for these bridges do not last longer than one year), and a project has been submitted for bridging the road with permanent bridges which will save the road cess department in future years the greater part of this sum. The road was kept in good order for its whole length.

Modaffergunge to Hajigunge road.—The chief item in the repair of this road was 1,055½ running feet of temporary betelnut bridges. They last longer than the bamboo bridges, but do not last so much as two years. The cost under this head was Rs. 203. I may mention that they are not used on the Brahmanberia road, as the trees are little cultivated in the north of the district, and to convey them there would be very costly. Permanent bridges have also been estimated for this road.

The other repairs on this road are surface repairs, earthwork repairs, and jungle-cutting. The road could not be used for wheeled traffic owing to the narrow width of some of the miles, but it is proposed to widen these places and to raise the surface all along, and an estimate for the work has been sent up.

Road from Hajigunge to Nursingpore (*Chandpore sub-division*).—This is a continuation of the Hajigunge road mentioned above. The remarks on the former road apply equally here. The total length of betelnut bridges being 947½ running feet, and the cost of their maintenance being Rs. 207-13-9. They had to be constructed of entirely new materials in many cases, and they were generally in much worse order than those on the road from Modaffergunge to Hajigunge. The estimate for the bridging and raising of this road will be prepared in 1879-80. This road is in much better order than the road from Modaffergunge to Hajigunge as regards earthwork, but it is below flood-level in many places.

*Commillah to Laksham road—*1¾ *miles long.*—No particular remarks are necessary on the repairs to this road. The road is well-raised and the bridges are all sound. The Superintending Engineer, North-Eastern Circle, inspected this road on the 19th July 1879, regarding which he has made an inspection report. He wishes the waterway of bridge No. 9 to be increased, and an estimate has been prepared by the District Engineer, and the estimate has been submitted to you with this office No. 168R, of 20th December 1879.

Companygunge road.—The length of this road is 15 miles. All the bridges are permanent, and the repairs were confined to keeping the surface and slopes in order, and the bridges repaired where necessary.

Chandpore khal —Is three miles long from Dakatia river to the Megna near the subdivision of Chandpore; the work done consisted in keeping the banks clear of jungle and the khal free from snags.

The other roads mentioned in the annual accounts are chiefly roads in the neighbourhood of Commillah with permanent bridges. They were all kept in good order throughout the year.

The total length of district roads kept in repairs is 178 miles, at an average cost of Rs. 110 per mile, including the temporary bridges where necessary.

8. *Floods.*—The District Engineer reports that the floods in the northern part of the district have been unusually high during the year under review. The drainage in this part of the district is affected by back-water from the Megna, and the floods in that river seem to have been higher than usual. In the southern part of the district near Chandpore, the floods were also higher than usual, and these high floods were affected by the Megna river up as far as Hajigunge on the Dakatiar river. In the country between Commillah and Hajigunge the floods were lower than usual. In the Goomti river, also, the floods this year were low.

9. *Planting trees.*—A considerable number of fruit-trees have been planted along the road-sides this year as will be seen from the list given below, which gives the actual number of trees existing on each road at the end of the cess-year. The fruit-trees were, with few exceptions, all planted during the year under report. The total number of trees planted during the year was 1,661. They consisted chiefly of the following kinds :—

Mango	999
Jack	513
Jam	24
Bael	86
Almond	37
Gab	2
Total ...	1,661

Names of Road.	Planted in 1878-79.	Planted up to 1877-78.		Total.
	Fruit-trees.	Fruit-trees.	Other trees.	
Laksham road	118	40	431	589
Companygunge „	116	36	438	590
Arybary „	548	.....	10	558

Total ...	1,661	216	2,350	4,227
Remaining in the nursery garden	1,003	186	64	1,253

The system adopted by the District Engineer was as follows :—A number of tattees, five feet high by three feet wide were prepared and put at intervals of 60 feet apart along both sides of the road to be planted out. Three tatees are used to each tree, so as to enclose a triangular space with a side of three feet. The ground having been previously prepared, young plants were put out at the proper time of the year, or, in some cases, the seed itself was sown. The best time for sowing the seed was found to be from the end of April to the middle of June, and for planting out young plants from July onwards.

Planting is still going on some of the roads. To carry on this work an establishment of 14 mallees was entertained, who also assisted in the nursery garden in sowing and rearing young plants. These men are not regular mallees, with the exception of two who were necessary to show the others what to do. At the end of the rains a number of young plants were put into large earthen pots so as to give greater facility in transplanting them. There are now 1,003 such plants ready to be taken out to the roads in the nursery garden.

It will probably be better to sow the seed in the pot in which it is to remain until transplanted to its place at the road-side in future, as there will be a saving of labour in this way, besides the top root escaping with less risk of injury. Another advantage of the pot system is that plants can be put out at almost any time of the year. It was not found to succeed well to sow the seeds out, except for about 15 or 20 days towards the end of May, as the seedlings required so much care in weeding, watering, and shading while young; if sown at other times, the mallees could only look after a limited number.

The expenditure on trees has been met from the annual repair estimates and it amounts to Rs. 3,078.

10. *Superintendence of works.*—The works of the other branch committees, were inspected and their works and measurement books checked when possible by the District Engineer, but they were all frequently inspected and measurements checked and reported on monthly by the overseers The Chairmen of the Brahmanberia and Chandpore branch committees inspected several of the works during their winter tour. The Chairman of Muradnagar branch committee reports that their Vice-Chairman has inspected the works under the branch committee.

The Superintending Engineer in the month of July last, inspected some of the district roads. The construction of some of the bridges on the road from Chandpore to Nayanpore was found by him to have been done in an unworkmanlike manner; and the late overseers, Baboos Tarack Chandra Gupta, and Girish Chandra Bhar, who were in charge of the works, were discharged before they were confirmed in their appointments by order of the Government of Bengal, No. 1867E, of the 11th August 1879.

11. *Projects.*—The following projects were prepared by the District Engineer during the year for the works mentioned below :—

1. Agartollah road.
2. Bridging the road from Nayanpore to Arybary.
3. Ditto ditto Arybary to Brahmanberia.
4. Improving the khal from Burkamta to Elliotgunge.
5. Deepening the khal from Elliotgunge to Gouripura.
6. Raising, widening, and bridging the road from Modafergunge to Hajigunge.

The total amount of all these estimates was Rs. 4,24,123. They comprise, besides other work, 64 bridges of the following sizes :—

10 running feet waterway and under	...	27	bridges.
10 to 20 running feet ditto	...	16	,,
Large bridges ditto	...	21	,,
Total	...	64	,,

The khal from Burkamta to Gouripura will join the canal from Commillah to Burkamta, and the two works together will open direct and speedy communication between Commillah and the Megna, besides opening out a number of khals from the south of the district. In the central part of the tract through which the khal passes (thana Chandina, &c.), the water communication for four or five months of the year is very imperfect; and as those are the months in which the main rice crop comes to market (December, January, February, March, and April), the price of rice is generally 5 or 6 annas a maund lower there than in places with good water communication, such as Commillah, Muradnagar, Gouripura, Panchpukhuriah, and other places on the Goomti river.

The District Engineer reports that much greater progress on projects would have been made had it not been for the very limited assistance at his command, only one of the overseers having been able to level or survey.

12. *Establishments.*—The District Engineer reports that the head mohurir of the sudder village roads relieved sub-overseer Anuada Charan Bromho, who resigned in May, and continued to discharge his duties till the end of the year, when the newly appointed sub-overseer took his place. Baboo Shama Charan Roy, head mohurir, has worked very hard and done very creditably, considering his attainments.

13. *System of carrying out works.*—The works have been nearly all executed by piece-work during the year under report, and no advance was made to any contractor. Only four regular contracts were made during the year.

14. The total receipts of the past year, inclusive of the actual cash balance of the previous year, amounted to Rs. 1,36,242-8-6. Deducting therefrom Rs. 80,356-2-1, expended during the year, there remained an unexpended balance of Rs. 55,886-6-5 on the 30th September 1879. But in the budget for 1879-80 Rs. 40,000 were estimated as the balance likely to remain at the end of the cess-year. At a meeting of the district road cess committee held on the 29th November last, it was agreed that the additional balance, (Rs. 15,886-6-5) should be allotted to the repairs to the Laksham, Arybary, Pilgrims, and Kalirbazar roads with reference to four supplemental estimats prepared by the District Engineer in accordance with the Superintending Engineer's inspection report, and a sum of Rs. 4,600 was also set apart for paying for the establishment of a divisional superintendent of works for 1879-80.

Rs.
5,417
5,254
10,671

The first two of these estimates * have been sanctioned by your No. 383R, of the 9th January 1880.

15. Mr. H. W. Hughes, C.E., District Engineer, took charge of his office from the late District-Engineer Baboo Khetter Nath Bhuttacharjee on the 25th October 1878. He is an officer of undoubted ability, and I believe that, under his management, the road cess operations will make good progress during the present year. The estimates sent up by him, though in the first instance they were returned to him for revision, have subsequently nearly all received the sanction of the Government. I think he is perhaps scarcely as firm with his subordinates as he should be, but he has been cautioned on this point.

Mr. R. C. Dutt, C.S., was Vice-Chairman up to the 25th November 1878, and he was succeeded by Mr. W. F. Meres, C.S., who made over charge to myself on the 23rd April 1879. Baboo Bhoyrub Chandra Chatterjea, Special Sub-Registrar, was subsequently elected Vice-Chairman on the 5th September 1879.

The Chairmen of the branch committees' deserve the district committee's acknowledgment for the interest shown by them in road cess work.

Baboo Mohendra Lal Mookerjea, head clerk and accountant, deserves favourable mention in this report. He is very hard-working and takes the greatest interest in his work, and his services as a skilled accountant and as head clerk are most valuable to the committee.

16. *Feelings of the people with regard to the cess and working of the system.*—The people throughout the district now quite understand the objects of the district road cess and, as stated in previous reports, they have, in many instances, contributed considerable sums towards village roads and khals. As regards the payment of the tax, the discontent which it roused at first, has long since died away.

17. The following is an account of the proposed road cess operations of the cess-year 1879-80.

Expected Income.

	Rs.	A.	P.
Cess on lands	86,699	0	0
One per cent. and three per cent. road cess	2,745	5	11
Fees and forfeitures	650	0	0
Miscellaneous	1,250	0	0
Total expected income	91,344	5	11
Estimated balance on the 30th September 1879	40,000	0	0
Total	1,31,344	5	11

Proposed Expenditure.

Establishment and contingencies	6,535	6	0

Original Work.

		170 0 0
Net balance as per road cess cash-book ...	.....	55,886 6 5

MEMORANDUM.

As the District Engineer could not prepare the estimates for the Barula road for want of collection of data during the previous cess-year for sanction of Government, the district committee had, at a meeting held on the 31st instant, resolved to transfer the amount allotted for the work to the following works considered to be done in the cess-year, and the Commissioner of Dacca has accorded his approval in his letter No. 702R., dated 11th January 1880, to the proceedings of the committee :—

	Rs.
Completion of earthwork on the Brahmanberi road	890
Ditto culverts, &c., on the Kalirbazar road	902
Improving the Modafergunge to Nursingpore road	3,079

The expenditure on the earthwork on the Brahmanberia road has been exceeded by Rs. 14-11, owing to the inclusion in expenditure of the miscellaneous advances agreed upon by the district committee to be given up. Out of Rs. 187-10 shown in the last annual account, Rs. 140-9 have been realized during the year leaving Rs. 47-1 for further adjustment.

2. Owing to the estimates for the Mokrom khal being returned unsanctioned by the Superintending Engineer, North-Eastern Circle, the district committee had proposed to transfer Rs. 18,000 from the allotment for the khal, and also from that of the Barula road.

Construction of bridges on the Brahmanberia road Rs. 18,000.—Estimates for these works were prepared and submitted to the Superintending Engineer in the months of May and June last through the Commissioner, but they were sent back unsanctioned.

A sum of Rs. 202-8 has been transferred from miscellaneous repairs to the embankment road for payment of the sum due for constructing spurs to the petty contractor Mokram Alí, whose case has been amicably settled by the district committee. This has been sanctioned by the Commissioner's letter No. 5R., dated 2nd April 1879.

3. A further allotment of Rs. 518 was made by the district committee with reference to a supplemental estimate of village roads and canals submitted by the Muradnagur branch committee by transfer of the amount from the sum budgeted for the Barula road as sanctioned by the Commissioner in his No. 200R., dated 11th June 1879.

4. A sum of Rs. 1,149 was allotted for the construction of masonry pillars on the Commillah to Arybary road by transfer of the amount from miscellaneous repairs exhibited in the budget. The transfer has been approved by the Commissioner in his No. 323R., dated 25th July 1879, with reference to the estimate sanctioned for the work.

5. The sum of Rs. 10-9-6 spent in printing forms had been previously included in the amount of Rs. 119-8-3 shown against contingencies under the month of July last in the quarterly return. The amount has been shown separately in the annual account against the head of printing at private presses.

As sanctioned by the Commissioner's letter No. 249R., of 26th June 1879, a sum of Rs. 444-14-8 was transferred from the Barula road for payment of compensation for lands taken up for the Brahmanberia road as amicably settled by the Collector of the district.

B. C. CHATTERJEE,

Vice-Chairman, Dist. Road Cess Comtee., Tipperah.

No. 525R., dated Dacca, the 23rd March 1880.

From—F. H. PELLEW, Esq., Officiating Commissioner of the Dacca Division,

To—The Secretary to the Government of Bengal, Public Works Department.

IN conformity with the instructions contained in your office circular No. 51 of the 8th August 1874, I have the honor to submit herewith the annual accounts of, and reports on, the administration of the road cess funds of the several districts of this Division for the cess-year 1878-79 ending with 30th September last.

2. There has been some delay in the submission of these accounts and reports which is due to the delay in the receipt in this office of the district reports and accounts. Those of the Furreedpore district were especially late, having been received only on the 14th ultimo, a fortnight after the date on which they were due to Government. I have, however, drawn the Chairman's special attention to the subject, and requested him to see that the accounts and the report are submitted punctually in future

3. Before proceeding to notice in detail the reports and accounts of each district separately, I shall here make a few general observations.

Accounts.—(*a*)—In Dacca the amounts received as road cess, process fees, and searching fees should have been shown in the accounts under the head "fees and forfeitures" instead of under "miscellaneous."

(*b*)—The budget allotment for each work should have been shown separately against it, instead of showing the allotments for all the works of the district in a lump.

(*c*)—The committee's establishment and contingencies should have been shown under the head "general management" instead of under head "establishment on works."

4. Similarly, in Furreedpore, the amounts of fines imposed on contractors, &c., should have been shown under the head "fees and forfeitures," instead of under head "miscellaneous."

5. A similar mistake has been committed in Backergunge.

The amounts of Talabana and fines should have been shown under the head "fees and forfeitures" instead of under "miscellaneous."

6. This error occurs in the Mymensingh accounts also. The amounts of Talabana or road cess process fees, searching fees, and penalties should have been shown under head "fees and forfeitures," instead of under "miscellaneous," and the committee's establishments and contingencies under heading "general management," instead of under head "establishment on works."

7. In the Tipperah accounts (*a*) the amount received as three per cent. road fund should have been shown under head "miscellaneous," instead of under head "one per cent. road cess."

(*b.*)—The amounts realized as Talabana, cost of service of processes, and fees for searching records should have been shown under the head "fees and forfeitures" instead of under "miscellaneous."

(*c.*)—The details given of the amount spent for printing at private presses should have been separately shown below "contingencies" and not in the middle of the accounts.

(*d.*)—The amount disbursed in planting trees should have been separately shown as original works under each road on the sides of which the trees were planted.

8. I have pointed out the above to the Chairmen of the respective districts, and requested them to see that the accounts are prepared in future correctly, and strictly in accordance with the form prescribed by Government. Besides these, there are certain

omissions and clerical mistakes in the accounts which have also been pointed out to the Chairmen concerned.

9. *Collection.*—Cess on lands only is levied in the several districts of this Division. The house cess which was levied in the districts of Dacca, Furreedpore, Mymensingh, and Tipperah has, since the introduction of the License tax, been abandoned, under the orders of the Board of Revenue communicated with their No. 266A, dated 23rd April 1878.

10. In all the districts of the Division the road cess on lands was levied during the year under review, at the maximum rate, except in Backergunge, where it was levied at half-rates, viz. 3 pies per rupee.

11. The collection of the cess in Tipperah has been satisfactory. In Dacca and Mymensingh it is on the whole fair, although the collection of arrears in the latter district is still not satisfactory. The collection in Furreedpore and Backergunge is much below the average. In the former district the shortness of the collection is said to have been principally due to the distress caused by the high price of food-grains owing to which, it is stated, the zemindars were not able to realize their dues, whether rent or cess, from the ryots. The distress having subsided, I hope there will be no difficulty in realizing the arrears.

12. There is some improvement in the collection of the cess in Backergunge during the year under review; but it is still unsatisfactory. The alleged difficulties experienced by the zemindars in realizing their dues from the ryots, and their consequent inability to pay the cess punctually, has formed the subject of a separate report No. 1036, dated 14th ultimo.

13. The financial condition of each district committee during the past cess-year is shown in the statement subjoined :—

Districts.	Balance at the close of 1877-78.	Receipts in 1878-79 including suspense accounts.	Total.	Expenditure in 1878-79 including suspense accounts	Balance on the 30th September 1879
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Dacca	91,080 1 9	92,040 8 3	1,83,120 10 0	1,33,516 8 11	49,604 1 1
Furreedpore	72,412 0 4	53,807 0 7	1,26,219 0 11	1,03,199 5 2	23,019 11 9
Backergunge	1,23,444 15 2	1,29,950 13 6	2,53,395 11 8	1,63,929 8 1	89,567 8 7
Mymensingh	7,316 3 5	1,69,257 1 11	1,76,575 5 4	1,40,167 2 4	36,408 3 0
Tipperah	40,307 6 5	95,936 2 1	1,36,243 8 6	80,856 2 1	55,386 6 5

14 Excepting in Mymensingh and Tipperah, the cash balances have everywhere been considerably reduced by a large expenditure on works.

15. The mode in which the road cess money has been spent, and the advantages derived therefrom by the people are noticed below.

16. *Dacca.*—The total amount available for expenditure in this district was Rs. 1,83,120-10, including the suspense accounts as shown below :—

	Rs.	A.	P.
Cash balance in hand on the 1st October 1878 ...	91,080	1	9
Collection under the Road Cess Act	55,673	9	0
One per cent. road cess	1,086	2	10
Fees and forfeitures	412	12	0
Miscellaneous	2,980	7	3
Suspense accounts	31,887	9	2
Total ...	1,83,120	10	0

17. Of this amount Rs. 1,33,516-8-11 has been expended during the year as shown in the subjoined memorandum :—

	Rs.	A.	P.
Collection establishment	3,773	8	1
Original works	46,690	14	2
Repairs	30,326	6	7
Establishment on works	17,533	13	1
Tools and plant	2,168	6	5
Suspense accounts	33,023	8	7
Total ...	1,33,516	8	11

leaving a balance of Rs. 49,604-1-1 at the end of the year. The large unspent balance is principally due to the estimates of the three principal works, viz., the opening of the Hilshamari river, the Panua khal excavation, and the Moonshigunge to Singpara road not having been sanctioned during the year. The projects for the two latter have since been sanctioned by Government. The project for the excavation of the Hilshamari river has been given up for the present, and no estimate has therefore been submitted for the same.

18. *Original works.*—A sum of Rs. 46,690-14-2 is shown in the accounts as having been spent on original works. A greater portion* of it has been spent on the construction of the road from "Dacca to Mirpore" and that from "Danga to Narsingdi" two of the most important roads in the district. The remainder has been spent on the construction of village roads and bridges in the Sudder, Moonshigunge, and Manickgunge sub-divisions, and the execution of other works of minor importance as well as in surveying certain proposed roads. Although more might have been done with the very heavy establishment entertained for works in this district, it is a matter of satisfaction that an amount of Rs. 46,690-14-2 has been spent under the head original work, against Rs. 17,856-14-1 in the previous year.

	Rs.	A.	P.
* On the Dacca to Mirpore road	19,618	6	4
On the Dunga to Narsingdi road	15,262	8	6
Total ...	34,880	14	10

19. A portion of the roads from "Dacca to Mirpore" and "Dacca to Toke" is stated to have been damaged by the khedda elephants, and, in order to remedy this evil, I have already addressed Government (Judicial Department)—*vide* my letter No. 33, dated 20th January 1880.

20. *Repairs.*—Rs 30,326-6-7 has been spent during the year for the maintenance and repairs of the existing roads and bridges in the district, against Rs. 11,222-14-8 spent in the previous year. The expenditure of so large an amount under this head was rendered necessary by the damage done to the existing roads by the unusual and high flood of the previous year. The iron suspension bridge on the Narayangunge road has been thoroughly repaired under the instructions of the Superintending Engineer at a cost of Rs 5,395-0-9.

21. *Village communications.*—The sum of Rs. 11,464-11-7 has been spent under the head village communications, of which Rs. 5,351-9 3 has been disbursed for the construction of new roads, and Rs. 6,113-2-4 in putting the existing roads in good order; Rs. 200 were contributed by the village people.

22. The following roads which have cost more than Rs. 1,000 each, ought apparently to be removed from the list of village roads, and placed in that of the district roads, and I have requested the Chairman, if necessary, to do this, and have the list in this office and in the Secretariat revised accordingly:—

1. Hatiardibazar to Shibpore.
2. Jhitka road.

23. *Dredger.*—The sum of Rs. 1,087-3-2 was spent during the year on the establishment maintained for the steam dredger which was lying useless. It has since been removed by Government for trial in connection with works in the Calcutta canals.

24. *Committees.*—There are, as reported in previous years, one district committee and two branch committees in the district (one at Moonshigunge and the other at Manickgunge). The district committee met six times during the year, and the branch committees five and six times, respectively. The members present are reported to have taken lively interest in the management of the road cess business. It is, however, a matter for regret that two members of the district committee, three of the branch road cess committee, Moonshigunge, and five of the branch road cess committee, Manickgunge, failed to attend any meetings during the year. Of the two members of the district committee mentioned above, Baboo Rup Lal Das resides at Dacca, and if he does not attend, he should be superseded. The other members, Kumar Rajendra Narayan Ray, of Bhowal, lives some distance off. Moreover, he is one of the principal zemindars in Dacca, and I do not think it would be wise to remove his name from the committee. But the Chairman has been requested to use his influence to induce him to take an interest in matters connected with road cess. As regards the defaulting members of the branch committees, I have requested the Chairman to enquire and report if they are likely to attend more punctually in future, and if not to take steps to replace them.

25. *Planting of trees.*—In compliance with the orders, of Government contained in its circular No. 10, dated 28th October 1878, measures were taken for the planting of fruit-bearing trees on the sides of the roads. To this end, some 2,300 seedlings were reared in the municipal garden, and have since been planted out along the sides of the Narayangunge road. Steps were also taken for protecting the trees planted in previous years on the sides of the Goalundo line of road.

26. *Establishment.*—During the year under report, the District Engineer is reported to have given his best attention to the works, and the other establishments to have worked generally well, excepting overseer Baboo Pria Nath Mitter, regarding whom a separate report will be submitted when it is received from the Chairman. The reduction of the cost of establishment urgently awaits the attention of the committee.

27. *Proposed works.*—The following are the principal works that are proposed to be undertaken during the current year:—

(*a*) Road from Singpara to Srinagar.
(*b*) Remaining portion of the road from Danga to Narsingdi.
(*c*) Bridges on the Goalundo line of road.
(*d*) A part of the Demra road from Boser bazar to the Dolye khal.
(*e*) Pania khal.

28. As the estimates for all these works have been sanctioned by proper authority, there will apparently be no difficulty in executing the works budgeted for.

29. *Furreedpore.*—In Furreedpore, the year opened with a cash balance of Rs. 72,412-0-4, which, with the receipts of the year (Rs. 53,807-0-7) amounted to Rs. 1,26,219-0-11, being the total amount available for expenditure during the year including the suspense accounts as shewn below :—

	Rs.	A.	P.
Cash balance in hand on the 1st October 1878 ...	72,412	0	4
Collection under the Road Cess Act	40,351	2	6
One per cent. road cess	16	12	6
Tolls	39	0	0
Fees and forfeitures	516	15	9
Miscellaneous	1,939	2	6
Suspense accounts	10,943	15	4
Total ...	1,26,219	0	11

Of this amount Rs. 1,03,199-5-2 have been expended during the year under review as detailed below :—

	Rs.	A.	P.
Collection establishment	3,097	9	3
Miscellaneous	—13	6	3
Original works	42,245	9	6
Repairs	33,113	14	1
Establishment on works	9,186	0	8
Tools and plant	1,142	13	9
Contribution to provincial services	1,200	0	0
Suspense accounts	13,226	12	2
Total	1,03,199	5	2

leaving a balance of Rs. 23,019-11-9, at the end of the year.

30. *Original works*—The principal original works (on which Rs. 42,245-9-6 was spent during the year) are the road from Rajbari to Furreedpore and the Baniabaha road, on which Rs. 20,943-8-9 and Rs. 2,792-7-6, respectively, were disbursed during the year. The remaining amount was spent on the construction of other works of minor importance, and in surveying proposed lines of roads, &c.

31. *Repairs.*—Rs. 33,113-14-1 was spent on the repair of the existing roads and bridges, the largest expenditure being on the repair of the Pangsa road, the Jessore road, and the Old Talma road.

32. It will thus be seen that a total sum of Rs. 75,359-7-7 was expended during the year on works, against Rs. 46,019-7-4 spent under that head in the previous year. But the district was without an Engineer for the first half of the year, and it is doubtful if the expenditure of such a large sum of money without the advice and supervision of a professional man was wise.

33. *Village communications.*—Rs. 13,695-14-6 was spent on village roads and canals, of which Rs. 9,569-1 was disbursed in the construction of new roads and Rs. 4,126-13-6 in repairing those already in existence. It is reported that the allotments for the Sudder and Madaripore sub-divisions were spent judiciously. The expenditure of the allotment for the Goalundo sub-division was not, however, equally judicious, and the Chairman reports that money was granted rather indiscriminately.

34. *Committees.*—There are, besides the district committee, two branch committees in the district, one at Goalundo and the other at Madaripore. The district committee held 16 meetings during the year, while the branch committee at Goalundo held two, and that at Madaripore five meetings. The district committee and branch committee at Madaripore are reported to have taken interest in the management of the road cess work. The members of the branch committee at Goalundo are stated to have evinced but little interest in the business connected with the department. As, however, only two meetings were called, the committee may have thought that much importance was not attached to their opinions, and this again may have chilled their interest. I have given instructions which will, I hope, secure a more efficient supervision of village road expenditure in this important sub-division.

35. I have also taken occasion to correct some misapprehensions on the part of the sub-divisional officer of Madaripore on the subject of village road embankments and the utility of village roads generally.

36. *Planting of trees.*—Rs. 839-3-9 have been spent during the year in planting trees on the sides of some of the important roads in the district, but it is reported that in many cases the plants have been destroyed by cattle. To prevent this evil I have directed that the trees should be properly fenced.

37. *Road Cess Office building.*—I have approved of the proposal made to construct a separate building for the road cess office, and have recommended the committee to put by annually a sum for this purpose.

38. *Steam communications.*—I have pointed out to the Chairman that projects such as that mooted in paragraph 33 of his report cannot be mooted or discussed in the annual report.

39. *Establishments.*—The District Engineer, Mr. Williams, took charge of his office a few months ago, and is reported of favourably, though sufficient time has not elapsed to allow of a judgment being formed. The other establishments are said to have generally worked well.

40. *Proposed works.*—The following are the principal works proposed to be undertaken during the current year :—

(*a*) Completion of the Rajbari road.
(*b*) Bhojeswar road.
(*c*) Bridging of the constructed portion of the Rajbari road.

Of these, the estimate for bridging the constructed portion of the Rajbari road has since been sanctioned by me ; the other estimates have also been prepared, and as soon as they are approved of by Government, works on them will commence.

41. *Backergunge.*—The total amount available for expenditure in Backergunge during the year, including the balance of the previous year and the suspense accounts, was Rs. 2,53,395-11-8 as detailed below :—

	Rs.	A.	P.
Cash balance in hand on the 1st October 1878 ...	1,23,444	15	2
Collection under the Road Cess Act	1,05,726	9	9
One per cent road cess	1,894	11	2
Fees and forfeitures	3,318	11	1
Miscellaneous	2,035	13	0
Suspense accounts...	16,974	15	6
Total ...	2,53,395	11	8

Of this, a total amount of Rs 1,63,828-3-1 has been spent in the year, as shown below :—

	Rs.	A.	P.
Collection establishment	8,893	2	8
Original works	78,732	9	7
Repairs	35,052	5	9
Establishment on works	21,458	0	7
Tools and plant	3,019	8	6
Suspense accounts	16,672	8	0
Total ...	1,63,828	3	1

leaving a balance of Rs. 89,567-8-7 which is much less than that at the close of the previous year.

42. *Original works.*—As stated before, Rs. 78,732-9-7 was expended during the year on the construction of original works, a large portion of which (Rs. 20,431-8-3) was spent on the Gournadi road, which is one of the most important roads in the district, the remainder being spent on other works most of which have been commenced but not completed. I have impressed upon the Chairman the necessity of completing these works before taking up others, and I hope this will be done. I have also requested him to see that provision for those sanctioned works which have not been provided for in the current year's budget, are made with the Commissioner's sanction from the general savings of the year if possible.

43. *Repairs.*—Rs. 35,052-5-9 was spent during the year under review in repairing roads, &c., against Rs. 19,352-1-3 in the previous year, which, the District Engineer says, is due to the neglected state of the roads before they were taken by the road cess committee.

44. It is satisfactory that Rs 1,13,784-15-4 has been expended on works during the year, against Rs. 37,821-10-4 in the previous year. As a large number of estimates has been already sanctioned, still better results are expected during the current year. It is also a matter of satisfaction that the committee have turned their attention to the excavation and improvement of khals and water channels which are the principal means of communication in Backergunge, and that more than Rs. 21,000 has been expended during the year under that head.

45. *Village communications.*—It is gratifying that Rs. 26,362-2-3 were spent on the construction and repairs of village roads and khals, and that particular interest has been taken by the committee of Backergunge in this matter. I approve of the Chairman's proposal to introduce printed forms of applications for village roads, &c., and have requested him to submit a specimen for my inspection so that it may be introduced in other districts if necessary.

46. The following roads which have cost more than Rs. 1,000 should, apparently, be transferred from the list of village roads to that of the district works, and I have accordingly requested the Chairman, if necessary, to submit necessary proposals for revision of the lists.

(*a*) Sharupkati to Kumarkhali road.
(*b*) Rayerkati to Hularhat road.

47. *Planting of trees.*—The Chairman remarks that it is peculiarly difficult in Backergunge to plant trees on the sides of roads in consequence of the berms remaining under water for many months of the year. He also points out other specially local objections in which there is, no doubt, a good deal of truth. In many places, however, trees can be planted with advantage, and I have requested him, where practicable, to attend carefully to the orders of Government on this subject.

48. *Establishments.*—Mr. Glover, the District Engineer, is an able and competent officer and has done good service during the year. The other establishments have, as far as I can judge of them, worked fairly well, except the two overseers of the Perozepore and Patuakhally sub-divisions, regarding whom a separate report has been called for, which will be submitted to Government when received.

49. *Proposed works.*—The completion of the construction or repair of a number of roads and khals already commenced upon has been provided for in the current year's budget. A small number of new works is also proposed to be undertaken.

50. *Mymensingh.*—In Mymensingh, the total amount available for expenditure during the year, including the balance of the previous year and the suspense accounts, was Rs. 1,76,575-5-4 as detailed in the subjoined memorandum :—

	Rs.	A.	P.
Cash balance in hand on the 1st October 1878 ...	7,318	3	5
Collection under the Road Cess Act	1,51,584	15	3
One per cent. road cess	288	9	0
Ferry tolls	156	14	0
Fees and forfeitures	3,030	8	0
Miscellaneous	2,495	13	10
Suspense accounts	11,700	11	10
Total ...	1,76,575	5	4

of which Rs 1,40,167-2-4 was expended as shown under :—

	Rs.	A.	P.
Collection establishment	6,014	12	3
Printing at private presses	71	14	0
Original works	63,786	8	0
Repairs	45,260	11	3
Establishment	13,950	3	6
Tools and plant	411	12	0
Suspense accounts	10,671	5	4
Total ...	1,40,167	2	4

leaving a balance of Rs. 36,408-3-0.

51. *Original works.*—Rupees 63,786-8-0 was spent during the year on the construction of original works, the principal of which are—

(*a.*) Road from Madhupore to Tangail.
(*b.*) Road from Ramgopalpore to Iswargunge.
(*c.*) Road from Mymensingh to Jamalpore.
(*d.*) Road from Jamalpore to Suburncolly.
(*e.*) Road from Hossenpore to Kishoregunge.
(*f.*) Road from Kishoregunge to Kotiadi.
(*g.*) Road from Kotiadi to Nickli.
(*h.*) Metalling Durgapore road at Shambhugunge.
(*i.*) Metalling 3 miles of the Suburncolly road.

52. Work on some of these roads was commenced without obtaining previous sanction to the estimates; for this the present Chairman is not responsible; it will not occur again. The projects of some of these works have since been sanctioned by Government and the rest are said to be under preparation.

53. *Repairs.*—Rs. 45,260-11-3 have been disbursed in maintaining the existing roads in good and passable order. Of this amount the large sums of Rs. 17,861-12-9 and Rs. 11,078-3-9 were spent respectively on the two roads from "Madhupore to Tangail" and "Mymensingh to Suburncolly," the remainder being spent in repairing the other roads in the district. The large expenditure under this head is due to the serious damage done to the roads by the flood of the previous year.

54. From the above it will be seen that a total amount of Rs. 1,09,047-3-3 was spent on work during the year. More would have been spent, but for the illness and death of the District Engineer.

55. *Village communications.*—Rs. 16,582-11-9 have been spent on village works. But it is reported that the works in the sub-division of Jamalpore have not been done properly. The sub-divisional officer should have taken care to supervise the work of the contractors, instead of allowing them to spend road cess money indiscriminately, as appears to have been done from his report. That the system of constructing village roads in the several sub-divisions is very much appreciated by the people in general, is no doubt satisfactory; and in cases where the allotments fall short of the public demand, I have directed that that they may, if thought fit, be increased by transfer from the general savings of the budget.

56. With reference to the remarks made by the Chairman in paragraph 24 of his report, that there is not such a large demand for village roads in Mymensingh as in Tipperah, carts being little used and there being plenty of foot-paths, I observe that carts are used still less in Tipperah, and the abundance of paths in the district shews the demand for such works; and a liberal grant for two or three years will develop an urgent desire for village communications.

57. *Committees.*—There are, besides the district committee, three branch committees in this district in the sub-divisions of Kishoregunge, Atia, and Jamalpore. The district committee met six times in the year, and the branch committees at Kishoregunge, Atia and Jamalpore six, four and twice respectively. It is unsatisfactory that the branch committee at Jamalpore held only two meetings which is less than the legal number. At least four meetings should be called in every year, as provided in sections 54 and 76 of the Road Cess Act, and I have drawn the Chairman's attention to this. It is instructive to note that in Goalundo and Jamalpore bad supervision of village roads exists with paucity of meetings of the branch committee. As regards non-attending members, the Chairman has been directed to take steps, should it continue, to change them. It is satisfactory that the Chairmen, branch road cess committees, at Kishoregunge and Atia have taken particular care and interest in the management of the funds placed at their disposal, and that the money was spent advantageously.

58. *Planting of trees.*—No measures were taken during the year for planting trees on the sides of the roads. But provision has been made in the current year's budget to that end and estimate sanctioned for the purpose.

59. *Establishment.*—The District Engineer, Mr. DeDombal, suffered from illness from the beginning of the year. He had to take leave and Assistant Engineer, Baboo Ashutosh Lahiri acted for him during his absence; but on his death the committee nominated Mr. Walnutt, whose nomination has been submitted to Government for sanction. On my recommendation the salary of the post has been reduced by the Committee to Rs. 400 in view of the prospect of the appointment of a divisional superintendent of road cess works. The other officers are reported to have worked well.

60. *Proposed works.*—The details of the works proposed to be undertaken in the current year have been given in the budget estimate, and it is unnecessary to re-write them here.

61. *Tipperah.*—In Tipperah, the total receipts of the year under review amounted to Rs. 1,86,242-8-6, inclusive of the cash balance of the previous year and the suspense accounts as shown below—

	Rs.	A.	P.
Cash balance in hand on the 1st October 1878	40,307	6	5
Collection under the Road Cess Act	88,465	3	3
One per cent. road cess	2,032	1	2
Fees and forfeitures	1,284	6	0
Miscellaneous	1,781	14	11
Suspense accounts	2,371	8	9
Total ..	1,86,242	8	6

Of this amount Rs. 80,356-2-1 has been spent during the year on the following items:—

	Rs	A.	P.
Collection establishment	5,806	7	9
Printing at private presses	10	9	6
Original works	39,315	13	9
Repairs	19,949	14	10
Establishment on works	12,413	13	3
Tools and plant	1,217	8	9
Suspense accounts	1,641	14	3
Total ...	80,356	2	1

leaving a balance of Rs. 55,886-6-5.

62. *Original works.*— Rs. 39,315-13-9 was expended on original works consisting of the construction and bridging of the Brahmanberia road; completion of the Kalibazar road; construction of the Agartala road; improvements of the road from Modafergunge to Nursingpore, and constructing other works of minor importance. Comparatively a small sum only was spent on district works. This is said to be due to the estimate of the Agartala road having been sanctioned late in the work season, and in some instances to the contractors failing to carry out the terms of their contract.

63. *Repairs.*—Rs. 19,949-14-10 has been spent on the maintenance and repairs of the existing roads in the district which are reported to have been kept in good order. But as the unusual flood of the past year has done great injury to several of the roads, they should be thoroughly repaired and raised above the highest flood-level, so as to prevent future floods doing similar harm. I have accordingly requested the Chairman to see that provision is made, if possible, from the general savings of the year, for the repairs of those roads which have been so injured and for the repairs of which no provision has been made in the current year's budget.

64. *Village communications* —It is satisfactory that a large sum of Rs. 21,998-4-11 has been spent during the year on the construction and repairs of village roads, and that the villagers have contributed more than Rs. 2,000 for the purpose.

65. *Committees.*—Besides the district committee there are four branch committees in the district at Brahmanberia, Chandpore, Chowdogram, and Muradnagar. The district committee held seven meetings during the year, and the branch committees at Brahmanberia,

Chandpore, Chowdogram, and Muradnagar four, seven, five, and five, respectively, and the attendance was generally fair. I have requested the Chairman to enquire and report whether the members who failed to attend any meetings during the year are expected to attend meetings punctually in future, as otherwise they should be substituted by others who are likely to take an interest in the management of the fund.

66. *Planting of trees.*—It is satisfactory that measures have been adopted for the planting of trees on the sides of the roads as desired by Government, and that a considerable number of them has already been planted.

67. *Establishment.*—The District Engineer, Mr. Hughes, is, I believe, an officer of talent and energy, and has behaved with great regularity during the year, and although the outturn of the work during the year under review has not been satisfactory in comparison with the results of the previous year, I hope he will, with increased experience of the district, be able to show better results during the current year. The other establishments have generally worked well, save two overseers who have been since removed from service under the committee owing to inefficiency, their places being filled up by others.

68. *Proposed works.*—The following are some of the principal works proposed to be undertaken during the current year:—

(1) Construction of bridges on the Brahmanberia road from Nayampore to Arybari.
(2) Construction of bridges on the Brahmanberia road from Arybari to Brahmanberia.
(3) Kashba to Agartala road.
(4) Improving the road from Modafergunge to Hajigunge.
(5) Deepening the khal from Elliotgunge to Gouripore.
(6) Ditto from Barkanta to Elliotgunge.

Of these, the first three projects have been sanctioned by Government. The estimate for the fourth has been already submitted for sanction. The fifth and sixth have been disapproved by the Superintending Engineer, Eastern Circle, chiefly on the ground of expense. These khals would be very useful, however, if they could be carried out, and are much desired by the natives who, I am told, will subscribe for them. I have requested the Chairman to resubmit them in a revised form and on a good financial basis.

69. *General.*—The Road Cess Act has worked more or less successfully in all the districts in this Division, and the benefits of improved means of communication are becoming more and more appreciated. Notwithstanding the large sums expended, however, hardly a commencement has yet been made.

70. *Divisional Superintendent of Road Cess works.*—Some of the district committees were at first averse to the appointment of a divisional superintendent of road cess works, which was intended to avoid unnecessary delay in obtaining timely sanction to the estimates in consequence of which the works are delayed. But I am glad they have at last been convinced of the advisability of making the appointment as proposed by my predecessor. All the committees have now consented to contribute their share of the cost of the entertainment of a divisional superintendent, and I beg that early orders may be passed on my letter No. 339R., dated 10th January last, written to Government on the subject.

71. *Executive Engineer.*—In this Division the Executive Engineer has scarcely attended any meetings during the year. This is partly attributed to his not getting timely notice of meetings; but I fear that the difficulty of getting about the districts will always be in the way of such attendance, unless the committees' time their meetings so as to coincide with his visits. This I have directed them to do, and I have also requested the Executive Engineer to give notice of his visits to the Chairman, road cess committees.

72. The most noticeable fact about the events of the year has been the increase of activity by which the swollen balances of previous years have been largely reduced. In fact it may be said that the committees have only, by the beginning of this year, succeeded in organizing an efficient working establishment. I think, indeed, they have almost overdone the matter, and that it will now be necessary to reduce these establishments, and the expenditure of the year under report is never likely to be equalled.

73. Village road expenditure still requires a great deal of attention. In Tipperah there is a very admirable system at work which I shall endeavour to introduce elsewhere, but it presupposes efficient branch committees, and these have not yet been everywhere obtained. There has been a tendency at Jamalpore and Goalundo to undervalue the branch committees, which has been attended with bad results, and which I have endeavored to repress. In Backergunge the district committee is a most independent body, but is perhaps of less assistance to the Chairman than that at Dacca, which, whilst equally independent, is more intelligent and public spirited.

74. The branch committees in Backergunge work well. The people there are most anxious for village works, but they expect them to be carried out without any co-operation on their own part.

75. In Tipperah, the project of making a straight cut from Comillah along the bed of an old khal to the Megna, instead of the tortuous Goomtee, has excited great attention, and its disapproval much disappointment.

76. In Mymensingh, roads are springing up everywhere, and will form useful feeders if the railway is constructed. I have requested the Chairman to bear in mind the line which the railway will take, and see that the roads are constructed accordingly.

77. Furreedpore, with a railway of its own, ought to show more tangible results of road cess expenditure than any other district. I think the Eastern Bengal Railway should be invited to suggest lines of road for this district.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situate in the district of Bhagulpore will be put up to sale at the Bhagulpore Collectorate on Tuesday, the 7th September 1880, corresponding with the 18th Bhaudon 1287, Fusle.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1*st.*—The estates to be sold to the highest bidder above the upset price. The purchaser of these estates will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estates will be transferred to him subject to the revenue fixed in perpetuity.

2*nd.*—The sale to be subject to existing leases and the rights conferred by the settlement proceedings and the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd.*—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

The 19th August 1880.

F. W. BADCOCK, for Offg. Collector.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situated in the district of Furreedpore will be put up to sale at the Furreedpore Collectorate on the 28th December 1880, corresponding with 14th Pous 1287, B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchasers, after issue of advertisement as in the case of original sale.

Number in statement of Government estates.	Number on the district roll.	Names of Estates and Pergunnahs.	Approximate area in acres.	Government revenue assessed.	Upset price.	REMARKS.

R. A. STEENDALE,
Assistant Commissioner of Paper Currency.
PAPER CURRENCY DEPARTMENT, the 30th August 1880.

Bhopal State Railway.

SEALED tenders are invited on a schedule of rates for the construction of the above railway to join the city of Bhopal with the G. I. P. Railway at Itarsi station. The conditions of contract, specification, and drawings can be seen at the Office of the Engineer-in-Chief at Pachmarhi Central Provinces, where forms of tender and all other necessary information can be obtained.

The work will be divided into four sections as under:—

I.—Itarsi to river Nerbudda.
II.—Nerbudda bridge.
III.—The ghat incline.
IV.—From head of ghat incline to Bhopal.

The Government of India (with whom the acceptance of tenders rests) do not bind themselves to accept the lowest or any tender, nor to give to any contractor more than one section of the work.

The tenders are required by the 15th September next.

The following sums must accompany tenders as earnest money to be returned on rejection of tenders, and to be forfeited in case of non-fulfilment of accepted tenders, viz.—

		Rs.
For section	I	300
„ „	II	600
„ „	III	1,000
„ „	IV	700

H. T. GROGHEGAN, Engineer-in-Chief,
Bhopal State Railway.
Pachmarhi, dated 17th August 1880.

Port Commissioner's Office.

DEBENTURE LOAN.

The Calcutta Port Improvement Act 1870, *Act V (B.C.) of* 1870, *and the Calcutta Port Improvement Act Amendment Act*, 1880, *Act IV (B.C.) of* 1880. *Issue of Rs.* 5,00,000, 4½ *per cent. debentures, having a currency of thirty years.*

TENDERS are invited for five lakhs of rupees in 4½ per cent. debentures to be issued under the provisions of sections 9, 10, and 12 of Act IV of 1880 to provide for the cost of works sanctioned by His Honor the Lieutenant-Governor of Bengal, which loan, and the interest thereon, will be a charge on the property of the Commissioners.

The debentures will be for sums of Rs. 100 each, or multiples of Rs. 100, as may be desired, made payable to order, and carrying interest at the rate of 4½ per cent. per annum, payable half-yearly, on the 1st day of January and 1st day of July, at the office of the Port Commissioners upon presentation of the debentures. Two per cent. of the amount tendered for to be paid on application, and the balance on the 1st day of October 1880, from which date interest will run.

The deposit of two per cent. will be returned if an allotment is not made, and it will be forfeited if an allotment, after being made, is not fully taken up

In case a less number of debentures is allotted than is applied for, the excess of the deposit will be applied in, or towards payment of, the balance due upon such number as may be allotted.

Tenders in the annexed form should be filled up and sent to the Secretary to the Port Commissioners before 3 o'clock P.M. of Friday the seventeenth day of September, accompanied by a receipt from the Bank of Bengal for a deposit of 2 per cent. upon the amount of each debenture applied for The tenders will be opened in the presence of the Port Commissioners.

The minimum rate at which tenders will be accepted will be recorded under the signature of the Chairman, and before the tenders are opened, but will not be made public unless some tender is rejected, only because it is below the recorded minimum.

Forms of tenders can be obtained on application to the Secretary to the Port Commissioners, and the form of debentures can be seen at the office of the Secretary.

G. H. SIMMONS,
Secretary to the Port Commissioners.

The 27th August 1880.

FORM OF TENDER.

PORT TRUST 4½ PER CENT. LOAN OF 1880.

To—The Secretary, Port Commissioners.

I BEG to apply for debentures of Rs. each of the above issue in the terms of the advertisement issued by you, dated August 27th, 1880, and I send herewith a receipt from the Bank of Bengal for Rs. being 2 per cent. deposit per debenture, and I undertake to accept the same or any less number the Commissioners may allot to me, and to make the full payment in respect thereof to the Bank of Bengal on or before the 1st day of October 1880.

Yours, &c.,

(306—3)

F. CLARKE, Offg. Administrator-General.

High Court, Calcutta, the 27th August 1880. (295—1)

In the High Court of Judicature at Fort William in Bengal.

ORDINARY ORIGINAL CIVIL JURISDICTION.

In the matter of the Indian Companies Act, 1866, and of the Calcutta Jute Mills Company, Limited.

THE High Court of Judicature at Fort William in Bengal has, by an order dated the 20th day of July 1880, appointed Alexander Rankin McIntosh of Calcutta, a member of the firm of Messrs. A. R. McIntosh & Co., Merchants and Agents, to be the Official Liquidator of the above-named Company.

Dated this 18th day of August 1880.

R. BELCHAMBERS, Registrar.

Josceline F. Watkins, Attorney. (277—2)

High Court of Judicature at Fort William in Bengal.

ORDINARY ORIGINAL CIVIL JURISDICTION.

The 8th day of July 1880 A.D.

In the matter of the Indian Companies Act, 1866, and of the Calcutta Jute Mills Company, Limited.

THE creditors of the abovenamed Company are required, on or before the seventh day of January next, to send their names and addresses, and the particulars of their debts or claims, and the names and addresses of their Attorneys, if any, to A. R. MacIntosh, of Messieurs A. R. Mackintosh and Company of Calcutta, Merchants and Agents, the Official Liquidators of the said Company, and if so required, by notice in writing from the said Official Liquidator, are by their Attorneys or Pleaders to come in and prove their said debts or claims at the High Court of Calcutta at such time as shall be specified in such notice, or, in default thereof, they will be excluded from the benefit of any distribution made before such debts are proved.

The twelfth day of February one thousand eight hundred and eighty-one, at eleven o'clock in the forenoon, at the Court House, is appointed for hearing and adjudicating upon the debts and claims.

R. BELCHAMBERS, Registrar.

Josceline F. Watkins, Attorney. (241—6)
